## Wreckage Off Calvert Island Found

### May Be Clue To Fate Of Fishermen Missing Since Early December

Fisheries Patrol Steamer Givenchy Makes Discovery West of Cape Grief Bay—Closer Examination is to Be Made

VICTORIA, January 11: (CP)—Wreckage sighted off Calvert Island, just north of Queen Charlotte Sound, by the fisheries patrol steamer Givenchy, may solve the disappearance of Hugh Grexton and his son, Jimmy, Alert Bay fishermen, who have been missing since December 19 when they left Alert Bay for Cape Caution to engage in fishing. Wireless advices said that the wreckage had not been immediately identified but a closer examination was being made. The wreckage was floating west of Cape Grief Bay. The Givenchy and other vessels have been searching for the Grextons.

### Bulletins

**NEW FIGHTING SHIP**  
SOUTHAMPTON, Eng. — The Admiralty is studying a new mosquito boat equipped with two 21-inch or four 18-inch torpedo tubes and mounting three light-calibre turret guns, one of which would be capable of piercing a destroyer or submarine hull. Assuredly, the new vessel can speed from ten to forty knots in eight seconds with a 1000-mile cruising range.

**LOAN IS SUBSCRIBED**  
OTTAWA—The new \$50,000,000 Dominion guaranteed Canadian National Railways bond issue was subscribed today five minutes after the books opened, the Bank of Canada announced. The new issue bears interest at 2½ and three percent in seven and twenty year series.

**DROWNED IN DITCH**  
CLOVERDALE—Two Vancouver men were drowned today and five other persons escaped when a car overturned in a water-filled ditch one mile south of here on the Pacific Highway. William Reed and Frank Bullivant were trapped in the front seat. The others were able to escape through a door which had been opened by the jar.

**ARMSTRONG WINS**  
LOS ANGELES—Henry Armstrong, 134½ pounds, pounded out a gruelling ten round decision against Baby Arizmendi, 136, of Mexico, in a bout recognized by the California Boxing Commission as being for the world's welterweight title which the hammering negro holds along with the world's lightweight and featherweight crowns.

### Diphtheria Serum Going To Juneau

Supply of Antioxin Will Be Here Tomorrow on Way to Alaska Capital

Aboard the steamer Princess North, calling here tomorrow morning northbound, will be a supply of diphtheria antioxin from Seattle for Juneau where an epidemic of this malady has broken out, there having already been one death. The serum would have been flown north from Seattle to Juneau but weather conditions made this impossible. If it is more favorable here tomorrow, a plane will come here to meet the Princess North and take the antioxin from here. The serum is consigned to the Alaska Territorial Board of Health with instructions to transport it by the speediest means possible.

### GUNMAN IS SHOT DOWN

Montreal Police Officer Gets His Man After Hold-Up Although Seriously Wounded Himself

MONTREAL, Jan. 11: (CP)—Although shot in the chest himself, a Montreal police constable last night outshot and killed a fleeing gunman who had held up an aged storekeeper. Investigation disclosed that the bandit was an ex-convict. He was shot twice by the constable who, although his condition is serious, is given a chance to live.

### BAR GOLD

LONDON, Jan. 11: (CP)—Bar gold was up 4c on the London market yesterday, closing at \$35.10 per fine ounce.

### SETTLEMENT IS DISTANT

Situation Between Hungary and Czechoslovakia Still Appears Tense—Budapest Demands Satisfaction

BUDAPEST, Hungary, Jan. 11: (CP)—The dispute between Czechoslovakia and Hungary appears to be still far from settlement. Hungary gave warning last night that she would invade Czechoslovakia if there were any further attempts to interfere with territory which had been ceded by the Czech to Hungary by border violation. Hungarian newspaper reports of new "Czech provocations" along the troubled post-Munich frontier kept the country in a state of nerves today. Nor will negotiations be resumed by Hungary with Czechoslovakia unless there is full satisfaction following attacks of last week in the Munkacs area.

### U.F.A. AND POLITICS

Will Decide This Week Whether or Not it is to Continue Active Participation

CALGARY, Jan. 11: (CP)—United Farmers of Alberta will be in annual convention here this week, one of the most important questions coming up being whether or not the organization shall withdraw from active participation in the political field. A resolution is already prepared advocating withdrawal. Last year the United Farmers decided to affiliate with the Co-operative Commonwealth Federation in the federal field but to remain in a separate entity in provincial politics.

### SENSATION IS CAUSED

Jap Newspaper Talks of Retaliation Against Britain and U. S.—Interview Reputed

TOKYO, Jan. 11: (CP)—The Tokyo newspaper Nichi Nichi caused a sensation today by publication of a purported interview with the Foreign Minister declaring that Japan was ready to take strong measures against United States and Great Britain if these nations attempted to put economic pressure on Japan. The possibility of retaliation by attack on territorial possessions was suggested. Later the interview was repudiated at the Foreign Office where it was said to be "only guesswork."

### Truck Drivers' Strike Ended

Agreement Reached by Which Five Thousand Men in New England Return To Work

BOSTON, Jan. 11: (CP)—An agreement has been reached between employers and men ending a strike involving five thousand New England truck drivers which had seriously affected the movement and shipping of New England products. Announcement of the settlement was made last night.

### WINNIPEG WHEAT PRICE

Winnipeg, Jan. 11: (CP)—Wheat prices were unchanged to ¼c lower yesterday, May closing at 62c.

### Extra Holiday For Canadians Set This Year

OTTAWA, Jan. 11: (CP)—Saturday, May 20 has been proclaimed as a statutory holiday this year for the celebration of the birthday of King George VI. The date, coinciding with the visit of Their Majesties to Canada, has been approved by the King whose actual birthday is December 14. This will make eight statutory holidays for all of Canada this year, one more than usual. The other statutory holidays in the Dominion are New Year's Day, Good Friday, Victoria Day, Dominion Day, Labor Day, Thanksgiving Day and Christmas Day.

### WORLD WAR BY SPRING

This Is Gloomy Picture Painted By United States Ambassadors To Great Britain and France

WASHINGTON, D. C., Jan. 11: (CP)—A gloomy picture of the immediate future of Europe was painted by Joseph P. Kennedy, Ambassador to Great Britain, and William C. Bullitt, Ambassador to France, before a joint military committee of Congress yesterday. Kennedy predicted that a world war might start in the spring and Bullitt agreed with the possibility. Both ambassadors were very pessimistic as to the international outlook. The joint committee meeting was called by President Franklin D. Roosevelt in connection with his new defence extension program.

### PREMIER IN ROME

Chamberlain Set on Finding Latest Aims of Rome-Berlin-Tokyo Triangle

ROME, January 11: (CP)—With the object of discovering at first hand the aims of the Rome-Berlin-Tokyo triangle, Prime Minister Neville Chamberlain of Great Britain arrived in Rome today. He is accompanied by Viscount Halifax, foreign secretary. On the way here they stopped off at Paris for a conference with Premier Edouard Daladier and his ministry. While Chamberlain is here to talk European agreement with Mussolini, Il Duce is intent on discussing Italy's colonial claims on France. Reports persist that Premier Chamberlain, during his brief visit in Paris last night to confer with Premier Edouard Daladier, pledged Great Britain to support France in the dispute with Italy over territory. A conference of all nations bounding on the Mediterranean Sea is the latest proposal. Great Britain and France, it is said, would be ready to participate in such a conference.

### LOOKS LIKE GRAIN GLUT

This Is Indication From Estimates Presented at International Meet in London

LONDON, Jan. 11: (CP)—The International Wheat Advisory Committee, in session here, will decide today whether or not another world conference should be called to consider an international agreement on production and marketing of wheat. Estimates presented yesterday indicated that consumption on July 1, 1939, would be seventy-five percent of world production and that the carryover at the end of this year would be sufficient to meet all next year's requirements.

### Weather Forecast

General Synopsis—Pressure is low north of the Queen Charlotte Islands and rain has occurred on the coast where it is mild. Scattered showers have occurred over the interior. Prince Rupert and Queen Charlotte Islands—Strong south, shifting to southwest winds, mostly cloudy and mild with rain. West Coast of Vancouver Island—Fresh to strong south to southwest winds, part cloudy and mild with showers.

### Possibility Of Getting Federal Money For Community Centre Is Put Forward By Junior Chamber

The idea of financing the civic centre project in Prince Rupert as a self-liquidating project with federal aid was raised at the regular monthly meeting of the Junior Section of the Prince Rupert Chamber of Commerce last evening by A. S. Nickerson on whose motion it was decided to appoint a committee to go into the question with the Gyro Club and other local bodies that might be interested. In bringing the matter up, Mr. Nickerson stated that he had been given to understand that the city of Prince George had made application to the Dominion government for a loan for a skating rink. The money, he understood, was made available for self-liquidating projects at a rate of two percent, a sinking fund to be provided for to retire the principal over a period of forty years. Assuming that a loan of 20,000 was wanted, the annual cost, including sinking fund, would not exceed \$1000. It would be necessary to obtain the loan through the city after it had been passed upon by the provincial government. Mr. Nickerson's motion in connection with the matter was seconded by Robert Parker and President A. W. Newman named the committee to consist of Mr. Nickerson, chairman, George Rorie and Thomas Fraser.

### LOCAL LOAN APPROVED BY GOVT

Replacement Financing Guaranteed by Province—Pulp Mill Still Alive

City Commissioner W. J. Alder returned to the city on the Prince George today from Victoria where he spent the Christmas and New Year holiday season. Mr. Alder announced, following his return, that the provincial government had approved of a loan of \$40,000 at two per cent interest under the federal self-liquidating loan scheme, the funds to be used for water main replacements here. The approval involves guarantee by the provincial government. The Commissioner had nothing to say in regard to local industrial prospects except the general remark that "the pulp mill project is very much alive." Mrs. Alder returned with her husband.

### ANTI-JEW ACTIVITY

Employees of Foreign Government Have Been Busy, According to Church Official—Forecasts Deportations

REGINA, Jan. 11: (CP)—Rev. C. E. Wilcox, secretary of the Social Service Council of Canada, said here yesterday that investigation of anti-Semitic activities in Canada had reached a point where many deportations might soon be expected. Employees of a foreign government, Mr. Wilcox said, had been active and much money had been spent on propaganda. Activities had centred in Toronto, Montreal, New Ontario and Saskatchewan.

### Winter Road From Alberta To Mine Areas

OTTAWA, Jan. 11: (CP)—Following an interview yesterday with members of the federal ministry, Hon. W. A. Fallow, minister of public works for Alberta, said that tentative arrangements had been made for a 350-mile winter road from the Peace River district into the Northwest Territory mining areas. The federal government had agreed to put up \$35,000 with the government of Alberta providing half of that amount.

### KIPLING LETTERS LOST

LONDON, Jan. 11: (CP)—Gilbert Frankau, the novelist, was surprised to get back one of a batch of Kipling letters thrown away by mistake. "The letters form a personal correspondence when I was able to give Kipling details of how his son, John, was killed in the Great War," he said.

### CHAMBER OF COMMERCE

Almost every year, following the annual meeting, this paper discusses the position of the Prince Rupert Chamber of Commerce as the representative of the business and professional interests of the city. It does not represent labor or the churches or the youth of the city. It represents business. Its duty is to advance the business of the city. It is independent of politics although most of its members take a great interest in politics.

The service clubs are made up largely of business or professional people but their members are banded together to try to advance the interests of the whole city and particularly to do things which may aid the underprivileged. It is unselfish work. The work of the Chamber of Commerce is more selfish and yet none the less important.

We have before this urged every business and professional man in the city to become a member of the Chamber of Commerce, pay the annual fee and attend the meetings. A live chamber is a great asset to the city.

### KEEPING YOUNG MEN FIT

One of the great features of the Fascist countries is that they insist that their young men keep fit. They have to serve a term in the army in order to be ready to defend their country. Germany and Italy and a number of other European countries insist on their young men keeping fit all the time. That is one advantage the Fascist states have over the democracies. We have so much liberty in this country that we do not know what to do with it. Many of our young men take little pride in themselves and are not physically fit for work or play. These young men are not much use to their country or to themselves.

One advantage the young men who join the battery have is that they get preference in matters of employment. Another advantage is that they keep physically fit and increase their own self-respect. They are the men to whom we shall look if an enemy ship appears off this coast. They are the men who would then know what to do and to whom we would all look for our defence.

Most of the men in the battery would soon become officers if the country were at war while the slouchers who would have to be trained afterwards would have to serve under them.

It is a great thing for Prince Rupert to have so many young men training in the army or the navy. While none of us like war we all feel that the outlook is that we may be drawn into it at any time. When that time comes, if it comes, we shall take great pride in the young men who have fitted themselves in advance for the defence of their country and who are splendid physically.

It's interesting to know when reading the Daily News that the people of the whole district are doing the same of Vancouver and west of Edmonton holding membership in these organizations.

## ANNETTE'S TAKE LEAD

### Ladies' Wear Team Is Going Strong In Bowling League With Two Clean Sweeps

Annette's continued their winning ways in the Ladies' Bowling League last night, scoring a second straight clean sweep victory, this time at the expense of Rex. ## SPORT CHAT

All classes of Finlanders have become infected with a craze for acquiring a knowledge of English and German in preparation for the 1940 Olympic Games. In Helsinki and other towns' railway employees, shop assistants, taxi drivers, waitresses, cinema attendants, policemen, tram and bus conductors are regularly attending classes in English and German, especially arranged for their benefit. The Finnish language is generally conceded to be one of the most difficult to learn, a fact which is doubtless responsible for the Finns themselves being among the best linguists in the world.

Twelve-year old Patty Aspinall of Indianapolis, just at the age when most girls still are playing with dolls or beginning to have "cruches" on boys, is Uncle Sam's youngest swimming record-holder. And while most of her friends are out playing or are slipping down to a neighborhood movie, Patty can be found practising at the Indianapolis Athletic Club swimming pool. For most twelve-year olds—particularly girls—the Olympic Games are just something they hear older people talking about. But not for Patty. A trip to Finland in 1940 as a member of the United States Olympic swimming team will be "okay" in the words of the youthful Hoosier swimmer. It was November 26 that Patty swam the 200-yard breast stroke event in the Purdue University pool in 2:55, clipping six-tenths of a second off the previous American record that had stood since 1932. Her new mark was recognized by the Amateur Athletic Union.

## FINE NEW SHIP FOR B.C. RUN

### Tanker Imperial On Way to Coast And Will Be in Rupert Soon

Most modern ship so far built at the Collingwood shipyards, Georgian Bay, Ontario, the new \$500,000 Imperial is now on her way to the British Columbia coast and will visit Prince Rupert before long. She is a fine, sturdy vessel welded throughout her length of 240 feet. Her beam is thirty-nine feet and her draft 18 feet six inches.

The black of her hull and the red of her upperworks what with the white sandwiched blue stripe of her company's colors on the black funnel make her an attractive as well as a substantial appearing vessel.

In the engine room are two seven-cylindered 700 h.p. Fairbanks Morse diesel engines which turn over four hundred revolutions per minute, transferring their thrust through reduction gear and electromagnetic slip couplings to the single propeller shaft. At 125 revolutions per minute, the screw pushes the Imperial through the water at twelve knots per hour.

### Up to Date Equipment

The vessel has electric steering equipment with head-high wheels. All navigating equipment is of the most up-to-date available.

The wheelhouse is roomy and well-lighted. Fine accommodation is provided for officers and crew which consists of master and two mates, chief engineer and two engineers, three officers, six seamen and cook and steward.

The captain's quarters are below the wheelhouse. From his office a small hatch opens into the wireless room but no wireless operator is needed as the vessel is equipped with radio telephone and also radio directional finder, each capable of operation by officers of the ship.

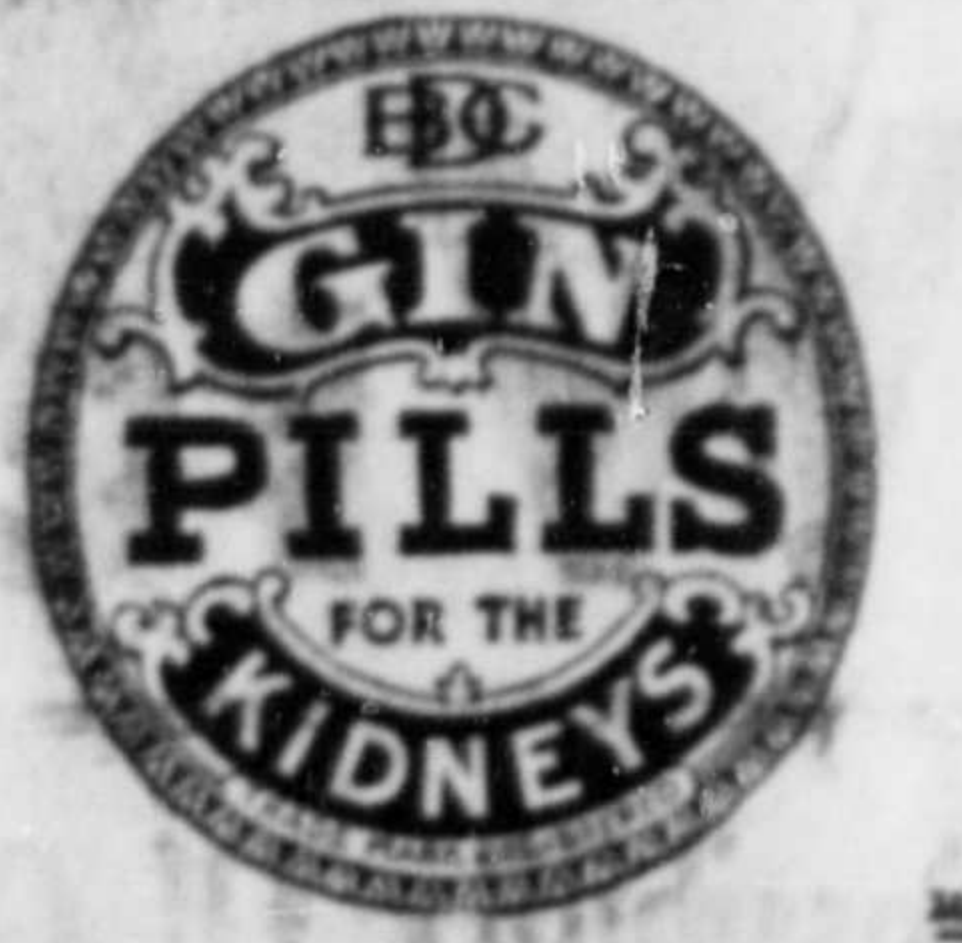

The captain's cabin opens off his office and on the other side of the deckhouse are quarters for the chief officer. Three bunks are the limit in any one room in the crew's quarters and each bunk has its own individual reading lamp. There are five washrooms with hot and cold water showers. Private lockers are provided each man. Heat for the quarters is provided by a vertical oil-fired boiler, the only coal on board being that for the galley stove. Eating quarters of the ship are also attractive with two large mess-rooms. The galley has refrigerator equipment.

Each tanker has a carrying capacity of 450,000 imperial gallons and this cargo can be discharged in less than seven hours through the vessel's own motor driven pumps. All auxiliary machinery, including deck machinery, is also operated under electric power supplied by independent diesel generators in the engine room.

In order to insure proper fire protection a complete chemical fire extinguishing system is installed. Fire-smothering gas can be released in a few seconds from steel cylinders through a system of piping and nozzles to any part of the ship by the use of remote controls located at different stations throughout the vessel.

## AFTER 40

... your kidneys tend to slow up. If these blood filters become inflamed, excess acid stays in the system. Needle pointed acid crystals lodge in joints and muscles setting up irritation and rheumatic pains. Take Gin Pills to stimulate kidneys and get prompt relief.

### The Officers

The officers of the Imperial, who went to Collingwood to bring the vessel around to this coast, are:

Captain, A. S. McGaw  
Chief Officers, C. B. Sykes  
Second Mate, H. Stafford  
Chief Engineer, M. Wallace  
Second Engineer, E. Olive.

Word is still being awaited regarding the letting of the contract for the fittings of the new federal building here. It will probably be a few weeks yet before the fine new building is occupied.

Moose Women And Men Join; Honor Wingham Wedding

Following the first meeting of the year of the Women of the Moose last night with over fifty members in attendance, the ladies were joined by the men and there was a delightful surprise party in honor of the silver wedding anniversary of Mr. and Mrs. Peter Wingham. A suitable toast was proposed by George Copeland and a silver tea service was presented by Mrs. Hugh Smith, Senior Regent. Suitable and appreciative reply was made by the recipients.

The evening was enjoyably spent in dancing with music by Harold Davey and Miss Margaret Smith. George Copeland was a genial master of ceremonies. Refreshments were served and the happy party broke up with the singing of "For They are Jolly Good Fellows" and "Auld Lang Syne."

The committee in charge consisted of Mrs. O. Stegavig, Mrs. Richard Olske and Mrs. Sam Hougan.

In all there were more than 150 persons present.

Hotel Arrivals

Central Mr. and Mrs. H. Prevost, Hazelton; L. H. Brawand, Smithers; S. Butkus, C.N.R.; John Robert Service, San Diego.

Nordkap Meeting Tonight at 8. (8)

Sergeant Chris Jacklin, chief of city police, returned to the city on the Prince George this morning from a trip to Vancouver.

Reid McLennan, who has been in Vancouver over the Christmas and New Year holiday season, returned to the city from the south on the Prince George this morning.

Gordon Temple, Terrace hotel proprietor, arrived in the city from the interior on last night's train for a brief visit to town. He is a guest at the Royal Hotel.

Mr. and Mrs. Harry Dennison will be passing through Prince Rupert tomorrow on their way to Whitehorse. Mrs. Dennison was formerly Miss Nellie Gurvich of this city.

Mr. and Mrs. L. M. Asemissen, who have been on a holiday trip to Portland, Boise and other points in the Northwest States, returned to the city on the Prince George this morning, bringing a new car with them.

Northern British Columbia is featured in a recent issue of "British Columbia Public Works," a departmental publication of the provincial government in Victoria. There are a number of interesting articles, some contributed by local officials, as well as some good pictures including one group consisting of J. C. Brady, district engineer here, and E. J. Fitzpatrick and George Wilson, members of his staff.

CARD OF THANKS

Cambrai Chapter, Imperial Order, Daughters of the Empire, wish to convey sincere thanks and appreciation to all stores, firms and individuals who contributed so generously and assisted in any way toward their Christmas Relief Work.

Canadian Legion B.E.S.L. General Meeting Tonight. (8)

Mrs. B. Walker of the local school teaching staff returned to the city from Vancouver on the Prince George this morning.

Mrs. J. W. Head, formerly of this city and now residing in Vancouver, arrived on the Prince George this morning from the south for a brief visit.

Constable J. W. Dillsbough of Anyox, who has been on a brief trip to Vancouver on escort duty, is a passenger aboard the Prince George today returning north.

Wizner Bryant will sail tomorrow night on the Prince George for the south, accompanying his parents, Mr. and Mrs. George Bryant who are to make a motor trip to California and Arizona.

S. W. Taylor, former local barber and now located in Vancouver, arrived in the city from the south on the Prince George this morning from the south and will proceed to Porcher Island to pay a visit to the mining property of the Reward Mining Co. there.

Mr. and Mrs. W. H. Trotter, who have been on a trip to Vancouver arrived in the city from the south on the Prince George this morning and will proceed to their home in Prince George on this evening's train. Mrs. Trotter is a daughter of Mr. and Mrs. N. Mussalem of this city.

Lieut. R. J. Carson of the Royal Canadian Engineers and two engineer warrant officers arrived in the city on the Prince George this morning from Esquimalt. Lieut. Carson will supervise construction of fortifications which are being put in at the entrance of Prince Rupert Harbor by the Department of National Defence.

In the Salvation Army collection Saturday was a dime for the year 1918 marked in a special manner. It is believed that this is the same dime that was put in a collecting basket at Prince George. The dime kept coming back and was found in the collection a number of times. Evidently it is a lucky coin for the Army.

Al Berner, local railwayman, is making gradual recovery following a recent major operation at the Prince Rupert General Hospital where he has been a patient for over a month, and will sail tomorrow night on the Prince George for Vancouver to complete his recuperation. He will be accompanied by his daughter, Miss Beatrice Berner, who has been here for the past few weeks. Mrs. Berner and son are already in Vancouver.

More Than Glory In Dance Career

Concentration and Hard Work Essential, Declares Expert

NEW YORK, Jan. 11: (CP)—For a successful career as a dancer one must be wholly dedicated to it, declares Martha Graham, recognized as one of Uncle Sam's best exponents of the dance.

"Never allow any young girl to think she can find nothing but glamor and glory in such a life. It will take her 10 years of hard work to train her body and mind," said Miss Graham.

"The modern dance is something far more complicated than cavorting about in chiffon robes, expressing joy or despair or springtime. Beneath every art is a craft." Miss Graham added that she would never encourage girls to enter for careers as dancers unless there was literally no other course in which they could be happy.

In retrospect, some of her more trying ordeals seemed quite amusing to Miss Graham although, at the time they happened, she said, it took considerable grit to carry on.

"There was the time in the far south when we encountered a blizzard," she said. "It was literally so cold that we could not dance until we got our feet warm and there was no way to do that but to burn the candles we had for make-up and hold them under our feet."

"Another summer in New Hampshire, during an unseasonably cold spell, Louis Horst, my pianist, had to hold a hot-water bottle on his knees and warm his hands on it at every opportunity. We dancers in chiffon, of course, had no such aid. The audience was cold, too, I presume, but at least they didn't have to try to avoid looking cold."

"The one unforgivable thing is for an artist to permit the audience to sense any discomfort on his part. The old tradition behind the blown whose heart is breaking is very sound."

PROPOSED FROM DOCK

GRAVESEND, Eng., Jan. 11: (CP)—A 22-year old married man was committed for trial on charges of abducting a girl of 15 after he proposed marriage to her from the dock. The girl said "I will." He said he planned a divorce.

STORM DISQUALIFIES

LOGAN, Ont., Jan. 11: (CP)—Walter Honge and Cliff Bartlett won't be in the running in the municipal elections. Snowbound in Ontario's "big Storm," they were unable to reach the municipal clerk's office in time to qualify.

### ESCAPE much of the MISERY OF COLDS

Use specialized medication for nose and upper throat where most colds start

Helps Prevent Colds Developing—Don't wait until a miserable cold develops. At the very first warning sneeze, sniffle, or nasal irritation—put a few drops of Vicks Va-tro-nol up each nostril immediately. Used in time, Va-tro-nol helps to prevent the development of many colds.

Clears Stuffy Head, Too—Even when your head is all clogged up from a neglected cold, Va-tro-nol brings comforting relief. It quickly clears away the clogging mucus, reduces swollen membranes, helps to keep the sinuses from being blocked by the cold—lets you breathe again.

Used in more homes than any other medication of its kind

### Fine Warm Water North Of Russia

Soviet Experts Convinced Shipping In Arctic is Feasible

MOSCOW, Jan. 11: (CP-Reuters)—Opinion that shipping in the Arctic is impossible is refuted by Soviet scientists who travelled on board the two ice-breakers Joseph Stalin and Yermak in northern latitudes where no ship had previously sailed. The scientists are completing their study of observations made on board.

The ice-breakers were able to establish that ice in the area is not as dangerous for ships as the coast-ice. This means that to the north of Novaya Zemlya, Severnaya Zemlya and the Novosibirsk Islands shipping should be quite possible.

Three deep soundings made during voyages of the two Soviet ice-breakers north of the Kotelny Island brought to light the existence of a powerful stream of warm Atlantic water at a depth of about 600 feet.

### STEAMSHIP MAN DEAD

Col. William Inkerman Gear Passes Away in Montreal

MONTREAL, Jan. 11: (CP)—Col. William Inkerman Gear, aged 81, prominent steamship man and president of the Crown Trust Co., died Monday night at his home in nearby Westmount after a brief illness.

Colonel Gear was an outstanding figure in the shipping life of Eastern Canada over a long period through his connection with the Robert Reford Company, Canadian agents for the Cunard Company. Mr. Gear before his retirement from business in 1929 was a director of the Cunard Company and its affiliated shipping enterprise, the Anchor-Donaldson line. He also was Canadian representative on the board of the North German Lloyd. In Montreal Colonel Gear held many positions in commercial organizations. He was president of the Corn Exchange in 1902 and later president of the Montreal Board of Trade. He represented Montreal transportation interests on the St. Lawrence Commission which had to do with the development of the river as a commercial artery in 1911 and 1912.

During the world war Colonel Gear was appointed a director of the steel shipbuilding on behalf of the Imperial Munitions board which represented the British government in Canada between 1917 and 1920, his department superintending the building of 63 vessels at a time when they were urgently required owing to losses by submarine warfare. Colonel Gear gave his services free and paid all his personal expenses during this time.

In August, 1914, he was gazetted as honorary Colonel of the Canadian Militia for his war service. He was also for a term officer commanding the First Regiment of the Canadian Grenadier Guards.

Colonel Gear's activities were not confined to shipping. With the late Robert Reford and late Sir John Carson, he was instrumental in founding the Crown Trust Company of Montreal, of which he became president. He was also a director of the Bank of Toronto, Keewatin Flour Mills Company, Wabasso Cotton and Cassidy's Limited.

He took a prominent part in a campaign waged in Montreal to keep the St. Lawrence Waterways and the power to be developed through its rapids in Canadian hands.

Born in Toronto in 1858, the son of Mr. and Mrs. H. J. G. Gear, was educated in a private school in Montreal, he joined the firm of the Reford and Dillon in 1874. This concern afterwards became the shipping enterprise of the Robert Reford Company. He married first in 1855 Frances Wilshire Linton of Montreal who died in 1899. Their children were a son, W.W. Gear, and Mrs. John McIntyre and Miss Kathleen Gear. Colonel Gear married Florence Ida Bulmer, Montreal, in 1912.

### Is This the Reason You Are Constipated?

If you're wondering why your bowels don't work right... stop and think about what you eat. Bread, meat, eggs and potatoes. All good nourishing foods... but lacking in "bulk" after the digestive process. And you need "bulk!" Food that gives the bowels something to work on... to help them move.

If it's this lack of "bulk" that's causing your constipation, Kellogg's All-Bran is just what you need. After digestion a soft mass remains which helps your bowels move. In addition, All-Bran gives you Nature's intestinal tonic, vitamin B1. Eat this tasteful ready-to-eat cereal every day, drink plenty of water, and enjoy happier days. All-Bran is made by Kellogg in London, Can. Sold by every grocer.
