## Talk Is Now Increasing Of Settling By Peaceful Means Of Troublous Danzig Issue

ROME, August 15: (CP)—Italians outside the government said yesterday that Germany and Italy were agreeable to holding a conference with France and Great Britain for settlement of the German claim to Danzig.

A new plan is reported to embrace three points with settlement of Europe's other economic and colonial expansion problems as the ultimate aim, including Italian claims on France.

An extremely reliable Nazi source in Berlin said yesterday that Professor Carl V. Burckhardt, League of Nations commissioner for Danzig, who has been mentioned as a possible mediator between Germany and Poland, had a plan for a peaceful settlement of the Danzig question. The plan is said to call for a reunion of Danzig with the Reich and for a "direct and guaranteed connection between East Prussia, including Danzig, and Germany proper." Burckhardt has already met Chancellor Adolf Hitler and may go to London to confer with British Foreign Secretary Lord Halifax.

Prof. Burckhardt, in a statement today, said he had a "short conversation about internal Danzig questions" in Germany but he attached no particular significance to them as other sources had.

League of Nations sources at Geneva said today that the League was ready to abandon protection over Danzig if Poland approved such action as a step toward the solution of Poland's quarrel with Germany.

In Warsaw the Polish press and official circles indicated open distrust today for various rumored plans to save peace by a new form of compromise.

The two-motored flying boat, investigation reveals, broke in two parts and sank in flames after striking a submerged dredger in the bay while landing in semi-darkness. After striking the dredger, the machine ricocheted against the naval dry dock crane and one of the motors exploded, quickly swathing the plane in flames. Half of the ship fell ashore and the other half into the water.

The tragedy occurred in full view of Sunday strollers on the Rio de Janeiro Boulevard around the bay. Rescue boats rushed to the scene.

The ship had just completed a 3700-mile flight from Miami enroute to Buenos Aires.

## COOKING

Bruce Hutchison recently published an article on cooking in which he bewailed the fact that Canada had no distinctive Canadian dish. There was no originality in Canadian food, he said. He contrasted this with England where, according to his version, they ate soggy potatoes and Brussels sprouts and threw in spite of their cooking. To make up for this England had developed Shakespeare and Keats whereas Canada had no national genius to offset the mediocre cooking.

We feel that we must come to the defence of the English cooking. It is true that they eat suet puddings which are probably very indigestible but not more so than many of the concoctions served at midnight in this country. However, we deny the tough beef and the soggy potatoes. The pride of the English housewife is the wonderful fluffy potatoes that come steaming to the table with the tender round of beef, Yorkshire pudding and brown gravy. Oh, forget it! We never expect to taste the like again unless we save enough shekels to pay our way once more to visit the Land of Hope and Glory. Let Scotland have her Haggis, Boston her baked beans, Virginia her fried chicken, Canada her dainty sandwiches. It is the roast beef and potatoes and Brussels sprouts that make the man.

## DASTARDLY WORK

"Dastardly" is the best word that can be applied to the sabotaging of a train in the United States killing a number of innocent passengers. It seems to have been a carefully planned mass murder.

In these days of speed it seems only too easy for a crazy man to cause a terrible tragedy. But, unfortunately, this job in Nevada does not look like the work of a crazy man. It was so carefully planned and prepared that it seems as if there must have been something more behind it than a maniacal impulse.

## ROOSEVELT'S POSITION

President Roosevelt has decided not to be a candidate at the presidential election next year and most of those who admire him will agree that it is better he should retire and let someone else carry on the work. He still has more than a year and a half to finish his term although the election will take place in November of next year.

It seems that the president is throwing his weight with Vice-President Garner for the next presidential candidate but it is doubtful if he will get the nomination. Even if he does get it he is very doubtful of election.

CONSTIPATION MAKES PEOPLE HATE YOU

Nobody loves a grouch. But if your bowels aren't "regular" you're bound to feel mean. Common constipation is often caused by a diet that lacks "bulk". Many common foods don't leave enough residue for the bowels to keep them working rhythmically. Crisp, crunchy Kellogg's ALL-BRAN helps to form a soft bulky mass that encourages the bowel movements. And ALL-BRAN is a rich source of Nature's intestinal tonic, Vitamin B<sub>1</sub>. Adopt this sensible routine: Eat ALL-BRAN every day; drink plenty of water. With "regular" habits you'll be a new person.

EAT ALL-BRAN and THEY'LL WANT to DATE YOU

# LESSONS IN LOVE

COLUMBIA, Mo., Aug. 15: (CP) —Though Snow White, rescued by Prince Charming, lived happily ever after, the modern young college girl cannot expect such a romantic courtship and marriage, says Dr. Henry Bowman, of Stephens College.

But he tells seniors of the 150-year old junior college for women, a girl can educate herself for a happy marriage—and pretty girls flock to his classes.

Dr. Bowman says he goes on from where "the cinema leaves off"—at the altar—and shows that marriage presents such concrete problems as earning wages, leisure for the wife, children, adjustments of husband and wife to each other and scores of other problems "young ladies frequently overlook."

"I think the pendulum is swinging from careers for women back to marriage," he says. "I find girls from 18 to 20 want to know what kind of a man to marry and I tell them there are three kinds for every woman—the man she wants, the man she needs and the man she is apt to get."

"After this I advise them to take an inventory of themselves before they begin seriously to select a mate. A girl then often revamps her ideas and realizes the man she wants" and is engaged to is not the man she needs."

To learn a man's character quickly and thoroughly, Dr. Bowman advises his students to meet him in numerous situations. Courtship, he says, should be long enough that a "woman knows her man" but the engagement should be comparatively short.

If it comes to breaking an engagement, Dr. Bowman urges immediate action. "To delay only makes the wound deeper for one," he says.

"We give little consideration to divorce except to believe in it as we do in surgery—a remnant of life after surgery is better than disease."

# ESTABLISH DEMOCRACY

Prisco Newspaperman Would End Class Conflict, Hate, Strife, Intolerance and Demagogy

SAN FRANCISCO, Aug. 15.—Paul C. Smith, general manager of the San Francisco Chronicle, proposed that President Roosevelt name a 25-person "All American Council" to re-establish the principles of American democracy and weld conflicting views into a sound American philosophy of action.

In a front page article entitled "The Way Out For America," Smith proposed the plan to end "the class conflict, the hate, the strife, the intolerance, the demagogy which have become a part of American life during the last ten years."

Smith suggested that Chief Justice Charles Evans Hughes be appointed chairman of the group which would include political, business, labor, educational and journalistic leaders of the nation.

Sockeye and pink fishing is gradually falling off in the Skeena and Naas Rivers. Fishing with sockeye nets will be closed at the end of this week. Yesterday the Naas River reported an average of ten sockeye and twenty pinks to the boat while the Skeena had an average of seventeen sockeye and forty pinks. Fairly good seining for pinks in Ogden Channel was reported yesterday. The season is about over at Rivers Inlet.

Halibut landings at the Alaska port of Petersburg this season so far have totalled 1,364,000 pounds as compared with 1,800,000 pounds for the corresponding period last year. # CHURCHILL EXCURSION

Variegated Group Of Tourists With Many Interests At Hudson Bay Port

CHURCHILL, Man., August 15.—Their ranks including doctors, attorneys, professors, farmers, ranchers, scientists and artists and no fewer than twenty-four school teachers, 143 visitors to this rockbound seaport detained yesterday from the seventh annual Churchill excursion. By noon, parties from Des Moines were hunting whales in Churchill Bay and a large group of westerners was exploring the ruins of historic Fort Prince of Wales and visiting the modern grain elevator. Headed by A. Moeck of Milwaukee, entomologists busily netted northern butterflies while two Manitoba scientists, Prof. H. A. R. Buller and Dr. A. M. Davidson, searched for bacteria under frozen tundra.

Unique in the history of northern church services was that conducted Sunday as the seventh annual Churchill excursion rolled northward along the Hudson Bay Railway. More than 100 congregated in a day coach of the special train to hear the sermon of Dr. Preston Bradley, eminent Chicago minister. As he spoke the train sped along turbulent rivers which decades ago marked one of the arduous routes of the missionaries carrying the gospel to Canada's north. Offertory of the congregation will be given to the pastor of old Christ Church in the Pas to further work of the church in northern areas.

Eskimos and Indians were on the late Bill Veeck, then president hand for the arrival here. In a of the Cubs, ordered him to sell bay near the depot was anchored the body of a huge polar bear shot Saturday as it swam at the mouth of the Churchill River. Docked near the elevator preparatory to loading grain Tuesday were the two freighters ss. Wentworth and ss. Troutpool.

Their northbound journey completed over varied terrain which included some of the Dominion's richest agricultural and mining areas as well as fascinating forest lands and barrens, the excursionists will remain here 30 hours. Departure is scheduled for this afternoon and arrival at Winnipeg Thursday.
