World's Fair Attendance Disappoints

POINT LOST BY JAPAN

Abrogation of Treaty Strengthens British Cause—Economic Action May Follow

LONDON, July 31.—The position of Great Britain in dealing with Japan has been much strengthened by the action of the United States in giving notice of the abrogation of the treaty between that country and Japan.

It is understood here that the news of the action, which was like a bolt from the blue, came as a decided shock to the government and the people of Nippon.

There is nothing to indicate what action may follow the abrogation of the treaty except that it is officially intimated that the government of the United States will be governed by conditions that exist at the time the treaty expires. It is thought probable that economic action will be taken by the United States if Japan continues her objectionable tactics in the Orient.

Anti-British Move

SHANGHAI, July 31.—Anti-British committees are springing up everywhere in this part of China with the object of giving notice to Great Britain that she had better evacuate Chinese territory now considered to be under Japanese control. Japanese are demanding the turning over of money in Chinese banks to Japan and this is one of the subjects up for discussion today in the conference between representatives of Britain and Japan.

SHOULD BE OFFENSIVE

Retiring Chief of U. S. Naval Operations Urges Aggressive Policy

WASHINGTON, D. C., July 31.—Admiral Leahy, retiring Chief of Naval Operations, declared in his last report to the Secretary of the Navy that the naval policy of the United States must be an offensive one. Admiral Leahy, who is to become Governor of Puerto Rico, declared in the report that the fleet should be of such a character as to make impossible an attack in force against the United States by any navy in the world, provided the American fleet takes the offensive.

PLANES ARE EFFECTIVE

Italian Fighting Aircraft Prove Efficiency in Mass Manoeuvres

AGREEMENT COMING UP

Expected To Be Little Delay Now In Pact With Russia—Democracies Ready

LONDON, July 31.—Long drawn out conversations between Great Britain and Russia have so far advanced that it is believed certain that some sort of an alliance between Britain, Russia and France will soon be reached. Many expect that an announcement will be forthcoming within the course of the next few days. Then may follow disarmament conversations and a common peace plan providing the dictator nations are brought to reasonable terms which an alliance between such a powerful combination as Great Britain, France and Russia, it is believed, would compel.

Meantime as the twenty-fifth anniversary of the outbreak of the Great War was reached last night, the picture was much changed as far as the preparedness of the democracies to meet another central European threat was concerned. Great Britain, which wondered twenty-five years ago if she could send six divisions to Europe, today has thirty-two ready to cross the Channel at a moment's notice and her great naval and aerial fleets are ready for instant action. France has a great new navy ready in the western Mediterranean and has preparations under way to ensure her of the position of fourth ranking naval power in the world. United States has a great naval fleet and aerial armada which she declares second to none in the world ready to defend all her shores.

WEAVER IS NOMINATED

Will Be C. C. F. Candidate For Skeena In Forthcoming Federal Election

George W. Weaver of New Westminster, who unsuccessfully contested Prince Rupert riding against Premier T. D. Pattullo in the last provincial election, will again say his political fortunes here in the forthcoming federal election. He was chosen as candidate of the Co-operative Commonwealth Federation for Skeena at a nominating convention here Saturday night. The only other name placed before the convention was that of Joseph E. Penner of Smithers who was candidate for Skeena in the last federal election. Mr. Weaver is a member of the provincial executive of the party.

G. W. Rutherford acted as chairman of the convention and there were delegates from Prince Rupert, Terrace and Smithers with proxies from other points. Mr. Weaver will oppose Olof Hanson M. P. who will undoubtedly be renominated as Liberal candidate. It is also expected there will be a Conservative candidate in the field.

Opportunity was taken by the delegates, while assembled, to outline and prepare a policy for carrying on the election campaign throughout the riding. It being felt that the size of the riding warranted an early start in election preparations.

Betty Grable Seeks Decree From Former Juvenile Star

HOLLYWOOD, July 31.—Jackie Coogan, one-time juvenile luminary of Hollywood, today accepted with man-like calmness a suit for divorce filed against him by his screen star wife, Betty Grable. The wistful "kid" of silent films announced simply: "I still love Betty." The blond actress charged Coogan with extreme mental cruelty and said he had neglected her by remaining away from home. "Naturally I'm sorry it had to turn out this way but I won't contest her suit," Coogan said. "Anything she does is all right with me."

Prime Minister Speaks in House of Commons of International Situation, Referring to Many Difficulties Facing World

LONDON, July 31: (CP)—Prime Minister Neville Chamberlain, in a comprehensive statement on the international situation today, said it was "difficult to see" how the world armament race could be solved except "by war itself." But he added he had hope "we might yet find a way to escape from the present nightmare."

Mr. Chamberlain said that Great Britain and France would send military missions to Moscow probably this week to start military staff talks with Russia.

Speaking before the House of Commons the Prime Minister acknowledged today that definition of the term "indirect aggression" was the major snag holding up conclusion of the proposed Anglo-French-Russian mutual assistance pact.

Anti-British agitation in North China might make a successful outcome of the current British-Japanese negotiations on the Tientsin dispute very difficult.

The Danzig situation "requires very careful watching but we do not feel undue concern."

DIES ON STEAMER

City Solicitor E. E. Jones Passes Away While On Way To Vancouver

City Solicitor Edward F. Jones of Prince Rupert, who sailed from here Saturday evening on the Prince Rupert for a business trip to Vancouver, was found dead in his berth aboard the ship near Alert Bay yesterday afternoon. He had expired from a heart attack as the vessel steamed down the coast. The remains were taken on to Vancouver aboard the Prince Rupert.

The late Mr. Jones had been city solicitor here for sixteen years, having come to Prince Rupert in 1923 from Vancouver where he had been city solicitor and corporation counsel for sixteen years.

Mr. Jones was born in Halifax and, as a boy, moved to Saint John, New Brunswick, where for years his father was manager of the main office of the Bank of Montreal. He attended Edinburgh University and read law in Saint John and practised for a while in Montreal before coming west. He was a well read man and an authority on municipal law. For some time he was a law partner in Vancouver of former Justice W. A. Macdonald.

For the past few years Mr. Jones had suffered from diabetes and his health had been gradually failing.

Mr. Jones was to have met in Vancouver a sister who resides in England and Italy.

## ELECTION IN SPRING

More than once lately this paper has suggested the probability of the Dominion election being delayed until spring. The despatch received last week suggesting there may be another session of Parliament before the election takes place leads to the assumption that April is a more likely date than October for an election. A writ has been issued for an election in Calgary to fill the seat formerly represented by Rt. Hon. R. B. Bennett. That writ would not have been issued if an election was to be held this fall.

What we are wondering is whether Mr. King will, in his big celebration speech the week after next, announce his own retirement from active political life and ask the party to name a successor. In the meantime Mr. King would carry on until the international situation improved. He may do that or he may not. At any rate he will make a more or less definite announcement in regard to the general election.

While we agree that Mr. King is entitled to enjoy the rest of his life in peaceful retirement, we believe that he is more closely in touch with the international situation than any other man in Canada and better able to advise Parliament as to what steps should be taken in case of war in Europe.

**MR. KING'S LEADERSHIP**  
We have for some time past

felt that the Liberal party would benefit from the retirement of the present Prime Minister but others have different opinions. The person who writes "Backstage at Ottawa," in McLean's, seems to be generally well informed and he says:

"Oddly enough, the chief asset of the Liberals, going into the fight, is Mr. King. He has become something of a legend. Around Parliament Hill for some thirty years, he seems almost to have been there before the rocks. Constantly assailed by his political enemies, often ridiculed privately by his political foes, without close personal associates, and living outside of office the life of a monastic, he has risen year after year to higher ascendancy over his party. During his twenty years of unbroken reign the Conservative party has had four leaders—Borden, Meighen, Bennett, Manion. In England there have been five Prime Ministers—Lloyd George, Bonar Law, Ramsay MacDonald, Stanley Baldwin, Neville Chamberlain. Harding, Coolidge, Hoover and Roosevelt have been Presidents of the United States. Through these two decades of the rise and fall of leaders through a period of upheaval and revolutionary change, Mr. King alone has ridden the tempest, remaining unchallenged as the head of his party, holding the Prime Ministership through more than twelve of twenty years.

## On The Gyro Playgrounds

Change in Supervision Staff—Busy Week Coming Up—Revised Softball Schedule

A change in the staff of the Gyro supervised playgrounds takes place on August 1 from which date Miss Geraldine Cade will be in charge of all activities on McClymont playground with Miss Betty Davey taking over the supervision of Westview. Miss Kitty Cameron's resignation makes this change necessary and the dancing classes at the gymnasium every Monday, Tuesday and Thursday afternoon will now be under the direction of Miss Jean Krause while Miss Cade promises to do her best to carry on the work so well begun on McClymont Park by Miss Cameron.

A busy week is promised for those connected with the supervised playground's staff with the finals of the inter-playground track and field meet being held on Friday. The doll contest will be held in the gymnasium building in the afternoon and only the winners of the contests held last week on each of the playgrounds will be entered. In addition to the actual judging of the entries, there will be a short program given by the children themselves. The track and field meet will be held on the playing field on Acropolis Hill in the afternoon and there is a complete list of events for boys and girls in both senior and junior divisions.

Owing to the withdrawal of the Seal Cove entry in the senior boys division of the Gyro Playground Softball League, it has been necessary to draw up a new schedule of games. Following is the revised schedule: McClymont vs. Westview; McClymont vs. Acropolis; Westview vs. McClymont.

No dates are given as these games are played every Tuesday and Thursday evening weather permitting and any game rained out is played on the first fine Tuesday or Thursday following. Thus the schedule will run until completed. Given a break by the weather man this schedule may be finished within the next two weeks in which case a playoff series between the top two teams will be arranged.

## SPORT CHAT

The Canadian boys' cricket eleven visiting England have had a hard time getting good enough weather to play their series of matches. They finished up by playing a team of English schoolboys at Lords at the weekend but lost by three wickets. The boys made a good cricket record and they also made hundreds of friends and were entertained extensively throughout their tour.

The London Caledonians football club has been disbanded owing to financial difficulties. The passing of this club is much regretted in England.

A series of international rugby matches is being arranged for the coming winter. France will play England at Twickenham in February.

Fred Perry and H. W. "Bunny" Austin led Great Britain to its second successive triumph over the United States in the Davis Cup finals five years ago today. In the singles matches against Francis X. Shields and Sidney B. Wood Jr. Britain defended the trophy successfully until 1937 when the United States broke the winning streak.

## GLACIER AT HAND

Dr. Found Of Ottawa Intrigued By Sights Near Smithers

SMITHERS, July 31:—Dr. W. A. Found, former deputy minister of fisheries at Ottawa, together with Mrs. Found and their daughter are visitors in Smithers.

Mr. Hanson, M. F., has taken the party around the district on sight-seeing tours and they are very enthusiastic over the scenery of the Bulkley Valley. Among other points of interest to be visited by them was the glacier on Hudson Bay Mountain and they think it is a wonderful sight.

Not many visitors to the district realize that they can ride in a motor car from Smithers to the foot of a glacier within fifteen or twenty minutes and walk around on snow within two hundred yards of where they alight from their motor cars yet such is the situation at Smithers just now. Heavy and deep snow slides that came down into the gulch from the tons of the high mountains on either side have made a great depth of tightly packed snow

Will it rain tomorrow or will it not? The answer is "yes."

Lots of people get tired of work but they never tire of talking about the weather, good, bad or indifferent.

People come and go but the weather is with us always.

Jake says when he has nothing else to talk about he talks about the garden he hopes to have in the next world. Jake is an optimist. He evidently expects to go where there are gardens after he leaves this earth.

Jack Brown was digging a large hole in the garden. His mate came to see him. "Hello Jack; making an air-raid shelter?" "No. I bought a swing for the youngster, and the ropes are too long."

## 'PYGMALION' IS SHOWING

Great British Picture Being Featured at Capitol Theatre First Half of this Week

"Pygmalion," much-discussed filmization of the famous Bernard Shaw stage play, comes to the screen of the Capitol Theatre for the first half of this week. It is an English production with a cast headed by Leslie Howard and having Wendy Hillier as the leading lady.

The story is that of a phonetics expert who transforms a cockney flower girl into a lady by teaching her correct speech. Howard plays the part of the professor while Miss Hillier is the guttersnipe. Howard is, of course, well known to all picture fans. Miss Hillier is an actress who not so long ago scored sensational success on the London stage.

The film is said to be remarkably true to the story, even Shaw himself admitting this. Noted Covent Garden is, of course, the central locale.

The picture has been as much discussed as the book and many have been looking forward to seeing it. The probably is that it will draw capacity houses on the three nights it is to be shown.

Alaska Transportation Co.'s new steamer Tye, arrived in port yesterday afternoon at 1:30 from Alaska and, after discharging fish from Ketchikan for trans-shipment East over Canadian National Railways, sailed at 2:30 p.m. for Seattle. ## Natives Worship In New Anglican Northern Church

AKLAVIK, N. W. T., July 31. (CP)—Several hundred Indians and Eskimos now worship the God of the white man at regular services here in the most northerly cathedral in the British Empire—possibly in the world.

In this famed trading post, 1,700 air miles north of Edmonton on the west channel of the Mackenzie River delta, the natives have a splendid new Anglican church, consecrated as All Saints' Cathedral by the Most Rev. Derwyn I. Owen of Toronto, primate of all Canada.

The attractive frame building, constructed from top to bottom by native labor supervised by one white carpenter, is packed to capacity for every service.

Three services are held every Sunday morning. The first is in English, the second in the Tutchuk language of the Loucheu Indians, the third in Essimo. Each is heralded by the resounding clangor of a 530-pound bell in the cathedral tower.

The cathedral ranks now as an important new unit in the far-flung diocese presided over by Rt. Rev. A. L. Fleming, Anglican Bishop of the Arctic. Bishop Fleming was with Archbishop Owen at the consecration service and personally blessed the huge piles of rat skins handed to him after being collected by Indian and Eskimo wardens of the parish.

There have been Anglican and Roman Catholic churches, schools and missions for many years at Aklavik and elsewhere throughout the vast northland, but this year the Anglican natives decided to build a new and better temple of prayer than ever before and All Saints' cathedral is the product of their labor and co-operation.

When the tribesmen entered the cathedral for the consecration service—many of them clad in tribal regalia rooted in the antiquity of their race—the head of each family placed on a pile near the door a fresh rat skin as his offering.

When the time came to collect these, they were gathered by the people's and rector's wardens of the Indians and Eskimos, carried humbly to the front of the cathedral and handed to Rev. Canon F. Jones, rector of the parish. Then the Canon handed them to Bishop Fleming for his blessing.

of the tourist passengers from the Prince Robert, maneuvering around the edge of the dock to get a picture, slipped and fell into the water between wharf and ship. The passenger succeeded in getting hold of a pile to which he clung until a ladder was dropped over the ship's side up which he smilingly climbed, apparently having suffered nothing more than the wetting in the plunge.

## LADIES KNOW... MEN ALWAYS WANT WOMEN THEY CAN'T GET!

Uproariously swell is this brilliant Bernard Shaw comedy—of a woman-proof bachelor who ignored girls who threw themselves at him—but was remarkably easy to be had—when he met a beauty who told him to go jump into the lake!
