

Three Power Military Alliance Expected To Be Announced Soon

Negotiations for Strong Non-Aggression Bloc About **Completed—Meantime Germany and Italy Pledge** Unreserved Assistance to Each Other

LONDON, May 22: (CP)-Great Britain has been warned by Japan, it was reported in diplomatic circles today, that a military alliance with Russia will be taken as an unfriendly act. The government is not expected to pay much attention to the warning because every indication points to the conclusion that some form of military al-

Great Britain france and Russia will be finally ched this week after two months i negotiation. The government, has reached the decision that a miltary arrangement with Russia mperative if plans for a strong inti-aggression bloc are to succeed. It was stated in informed quarters held up the general store at he night that Great Britain was ibut to sign up a three-power getaway with \$800, was sentencefensive military alliance with Jussia and France, pledging supat New Westminster Penitentiary ort for European nations asking rotection from aggression. FINE NEW Informality Prevails As King And Queen Mix With Freedom Among Veterans

OTTAWA, May 22: (CP)-Thousands of veterans from all parts of Canada with other citizens were present on Sunday morning for the unveiling \$ by King George of Canada's new National War Memorial.

After the unveiling, the veterans cried "We Want the King! We Want the Queen!" Thereupon, Their Majesties, as the crowd gasped in surprise, walked into the midst of the group, smiling and shaking hands will all who milled around. They talked personally with dozens of veterans and it was one of those informal and unexpected incidents which are proving of much interest and are serving to endear Their Majesties even more to their people.

The informality was fully expressed when one veteran came dashing up to the Queen with! "Put it there, Your Majesty!"

The Queen, always equal to such an occasion with ready response, replied: "Right You Are!" as she extended her hand, smiling graciously.

The King and Queen for a time became completely detached from all guards.

er to go straight ahead than to hesitate and turn back. The great thing is to look both ways before attempting to cross a street and to cross only at street crossings. To be safe is always better than being sorry.

TRADE AGREEMENT

in the second

It was a happy idea to have the King assent in person to the trade agreement between Canada and the United States. This agreement, which came into force early in the year, marked the beginning of a new era. It is particularly advantageous to western Canada and for that reason alone is bound to be opposed. It marked a definite change of policy between the two nations, a policy that is advantageous to both. Any deal is immoral which does not benefit both parties to it. We look for long and continuous mutual advantages from its operation. It is an attempt at co-operation.

ANTIMONY PRODUCTIONS

On Saturday we published an article telling of the production of antimony ore in the interior near Fort St. ANY school children wishing to James which is liable to prove of great benefit to the district. The development of the claims was made possible through the operation of the local sampling plant and the. shipment of the ore through Prince Rupert will be a distinct asset! It is rather interesting to note that the shipment of antimony went to the Texas Mining and Smelting Co. at a time when the Gulf Sulphur, a Texas firm, is saidto be interested in the Ecstall River mine.

THE LIBERAL VIEWPOINT

A good many people have been interested in the letters of Tom Reid M.P. giving a resume of the doings at Ottawa from the Liberal viewpoint. Mr. Reid is a keen observer of things as they happen from day to day and his letters are interesting, even if some people do not wholly agree with his assumptions in some cases. At any rate he is entitled to his views.

PRINCE EDWARD ISLAND

We are not surprised at the hesult of the election in Prince Edward Island. There has been no legitimate complaint at the manner in which the affairs of the province have been carried on and under those circumstances there is not good reason why there should be a change of administration. There is evidently no revolt against Liberalism in the east. They like it, judging from the result of this election.
