DAILY EDITION.

THURSDAY, FEB. 29

#### THE ELECTION OF GEORGE P. GRAHAM.

Mr. George P. Graham, who was returned to parliament last Servian Labor Benefit Society week as member for South Renfrew, was a visitor to Prince Rupert with Sir Wilfrid Laurier, and is therefore personally known to most of our leading citizens. But Liberals here, there and everywhere were pleased to read of his election and his G. VUKOVICH. defeat of the whole combined forces of the Conservative party. Like all good things, however, the news has a slightly acrid flavor, for it is said to mean the early retirement of Sir Wilfrid from parliament. Mr. Graham was a leading member of Sir Wilfrid's cabinet and now will be his chief lieutenant in the House of Commons. His ability and his experience in public | affairs naturally assure to him that position. It may be that the constant rumors as to the retirement of Canada's Grand Old Man come from Conservative sources, but should it occur the party and the country will be abundantly satisfied that the mantle of leadership should fall upon such able shoulders as those of George Graham.

#### DEWDNEY DICK M'BRIDE'S RAILWAY POLICY.

None of the leading coast papers seem to have much to /say in support of the railway policy of the provincial government, and those of the opposite side in politics are riddling it with sarcastic shot. The Vancouver World predicted that when the Assembly passed the six railway bills no reason would remain CIGARS :: TOBACCOS :: FRUITS for its existence, or the existence of any government nominally G.T.P. WHARF representing the people. It goes on to say that the affairs of the province might as well be placed in the hands of a board nominated by the railway companies and contractors, just as 1836 Egypt is administered for the benefit of the bondholders.

With money grants and guarantees of principal and interest the revenues for a generation to come are pledged in advance. The little fifty-mile line called the Shuswap & Okanogan has cost the province twenty thousand a year for twenty years already in interest and debentures. What are we likely to have to pay for the many hundred miles of roads guaranteed during the next forty years, even if succeeding legislatures do not add to the huge, accumulating debt? The World goes on to say:

It may be said that the lines are sure to pay, but are they? The maps of the projected railways show paralleling in a dozen directions. The very Shuswap & Okanagan, running down a narrow valley, which does not pay its expenses yet, is to have another road alongside it, and on Vancouver Island the roads either run within a few miles of each other or the newly-subsidized one strikes off into mountain regions which will not provide a carload of produce to a township in half a century. We have asked for one coast-to-Kootenay road. Now, it appears, we are to have two-at our own expense.

As to the one other absolutely necessary line, that to the Peace River, we are given, not a complete and properly formulated scheme, but a road which goes only half the distance and, instead of the province building it and then leasing it to the Grand Trunk Pacific, a firm of middlemen are to step in, make one profit out of the province and another out of the company. Finally, the people are to have no voice in the matter at all.

The Toronto Star calls attention to the fact that the friends of the same C. P. R. which makes excuses for its inability to handle the traffic of the west eight years ago were opposing the Laurier administration for encouraging the G. T. P. and loudly asserted that the C. P. R. and C. N. R. could handle all western traffic for generations to come.

A couple of years ago Mr. Borden was alarmed about a war that threatened the mother land and insisted that the emergency should be met by a dreadnought or so. But now when the war clouds do lower and threaten, Mr. Borden has no thought of danger and doesn't even care to talk about a naval policy.

# THE PROVINCIAL WEALTH

Next Year Hazelton's Mineral Product Will Be Added.

W. Fleet Robinson, provincial mineralogist, in his preliminary estimate for last year, concludes:

"The aggregate value of the mineral production of British Coumbia for all years to the end of 1911 is approximately \$397,-000,000. The greater progress of recent years may be the better recognized if some comparisons be made. The aggregate value of production for fifty years, 1852-1901, was \$172,242,000; for ten years, 1902-1911, it was about \$224,800,000. These figures show hat nearly 57 per cent. of the aggregate production of sixty years was made during the ten RUPERT'S PALACE OF COMFORT years last past, leaving but a ittle more than 43 per cent. for the fifty years that went before.

"It is, therefore, plainly evident that in the last decade there has been progress of a marked character. Bringing comparison nearer to the present time, it may be shown, further, that the proportion of the last five years, 1907,1911, was \$123,000,000, as against \$101,000,000 for the fiveyear period 1902-1906.

"It is a striking fact that of the value of the mineral production for the whole period of sixty years for which figures are on official record, just about 31 per cent., or nearly one-third, is the · production of the last five years. This, surely, is convincing evidence of the substantial and accelerating progress of the mining industry of British Colum-

#### BIG SNOW PLOUGH

Biggest Piece of Railway Machinery Ever Constructed.

A monster snow plough, the largest ever built, will pass through Vancouver shortly on its way to Alaska. The machine, which is a combination of the 1911 straight plow and rotary types, was built in Milwaukee for the Copper River & Northwestern road, where it is intended to keep that short line open during the greater part of the winter for ore transportation.

This snow plough is a regular higher than the ordinary snow per River line. It weighs approximately 180,000 pounds, car- nundred and four (104) acres, more or ries all the latest improvements and is designed for the heaviest duty possible. The machine has attracted much attention, not only from railroad men, but from terested in the development of big railroad machinery.

# lhe ıme For Action

# Is the Time When The Daily News Appears each day

If you have a legitimate, clean-cut offering of any kind to make to the intelligent public, the consistent, judicious use of the advertising columns of THE DAILY NEWS will bring you money returns much greater than your expenditure.

## The Reasons

THE DAILY NEWS is read largely in the evening when the minds of people are free from business cares and therefore responsive to good selling arguments.

THE DAILY NEWS appears early enough in the afternoon of the business and shopping day to notify everyone of what you have new to offer.

THE DAILY NEWS is for this reason the best possible medium for all real estate dealers, as it immediately attracts those on the lookout for "snaps" or permanent investments.

THE DAILY NEWS is concise and to the point. It is read by practically every intelligent and prosperous person in Prince Rupert and the northern part of this province. These men and women have money to spend and buy regularly where they receive satisfaction. Their patronage is the merchant's best asset.

THE DAILY NEWS is being used by more and more merchants and other business men as an advertising medium. They find that their advertisements in this newspaper pay them handsomely. Many instances can be cited. Results follow advertising in THE DAILY NEWS.

## WIERD DREAM OF MISS TROY

Laird of Skibo to Be Made Duke for Promise That British Flag Shall Fly Over United States From Sea to Sea.

Not to know Lillian Scott Troy may be to argue ourselves unknown, but nevertheless we do not know the lady. Never heard of her before, declares the Vancouver World.

Her card, which lies before us, gives her habitat as the "Waldorf Hotel, London, England," and she further runs to a cable address.

Accompanying the card is a four column article in which Miss Troy warms up the "Benedict Arnold Peace Society" on one side and then turns it over and warms it up on the other.

The purport of the whole is to show that the said peace society is not formed for the purpose of doing away with war among nations by means of arbitration, but with the one and sole object of securing a dukedom for Andrew Carnegie.

Proof? Any amount of it. The J. G. McNab ate King Edward visited Carnegie at Skibo castle and Miss Troy knows just what passed between them. Which of them told PAPERHANGING her, however, she does not state. Carnegie promised King Edward

that the British flag should fly over the United States from the Atlantic to the Pacific. King Edward promised Carnegie

a dukedom-which was little enough considering.

So the peace society was got up by Carnegie to bring about arbitration and an entente cordiale between the United States and P.O. Box 120 Britain, and expected war with Germany, of which Miss Troy represents the latter as being very much afraid, was thus to be headed off.

Exactly how the assimilation of the United States by the British Empire would be accomplished we are not informed, but a hint is given us-when the British flag flies from the Rio Grande to the North Pole the Japanese flag will fly over the Philippines.

The great event is dated for 1915, so that it will synchronize nicely with the opening of the Panama Canal, and enable us to celebrate both at once.

Of course it does not take al of Miss Troy's four columns to say just this. The rest consists of caustic criticism of English society and court circles and displays a knowledge of the subject which proves conclusively that the author must have been at the Waldorf Hotel, London, England, for at least six weeks.

Henry J. Byron, when he lay dying, was interviewed by his old oachman. "I think, sir," said the faithful servant, "as I had better give the brown mare "All right, John," replied the dying humorist, "but don't ask too many."

### THE GRIM REAPER WORKS THROUGH NEGLECTED COLDS

A slight cold does not suggest serious danger, but the suddenness with which a slight cold becomes a serious cold leads to apalling consequences. A slight cold demands immediate treatment.

Mathieu's Syrup of Tar and Cod Liver Oil taken at the outset removes all possible danger. It heals the inflamed parts, strengthens the tissue and builds ( up the whole system to defy further attacks.

The Tar is the healing agent. The Cod Liver Oil the strengthening element; combined properly as in Mathieu's Syrup they are invincible. Large bottle 35 cents. Por sale at all dealers.

When headache and fever are present with a cold take Mathieu's Nervine Powders to reduce the fever and allay the pain. J. L. Mathieu Co., Props., Sherbrooke, Que. (C) Distributors for Western Canada.

# MR. REAL ESTATE MAN CAN YOU TAKE A HINT?

The following is a sample of a kind of letter The Daily News frequently receives. This one is from a man in Alberta

Dear Mr. Editor:

Me and some friends of mine would like to buy a few city lots in Prince Rupert, but we don't know anyone at present in Prince Rupert, so we have written to ask if you would be kind enough to send me on your daily paper, as I am told it advertises the most city lots and property for sale in Prince Rupert, for which I send you on some stamps. Hoping you will oblige us, and apologizing for the trouble.

Yours respectfully,

THE DAILY NEWS has the biggest circulation of any paper in the district. It is all bona fide circulation too. It enters the homes of real estate investors in every leading city in Canada as well as England and the United States.

Do You Catch the Hint?

## LARGE CROWD AT THEATRE

(Continued from Page 1.)

that it was difficult to get out in face of the packed crowd pushing

This was one of those inconveniences to be expected on such an occasion, but that the people were enthusiastic in their admiration and approval of the new opera house there was no room for doubt. From the tesselated pavement in front bearing the WANTED-Position by young man name to the roomy chairs provided on the floor, every little thing was found to be charming. The decorations are good, the scenery is pleasing and the moving pictures can be seen to much greater advantage.

Professor Werner played the curtain raiser, an overture with the ambitious title "Westholme Grand March," which introduced a special feature war film showing the Italians in Tripoli. This was followed by a vaudeville act by Bell and Dale and topical songs by Miss Goldie Barnes. farce, "Who Stole the Three Cents," followed, played by "The Westholme Comed Famous

# WAIVED CLAIM

Jabour Makes an Effort in Council to Have His Building on Third Avenue Raised 20 Inches at City Expense.

Claiming that he signed a petition waiving his claim on the city for any damage accruing through change of grade on Third avenue, J. Jabour last night appealed to the Council by letter and in person to have his building raised 20 or 22 inches to get it on grade. He wanted this work done at city expense. The matter referred to the City Engineer and the Board of Works.

# PRINTING CITY BALANCE SHEET

Tenders Opened in Council Last Night from Four Firms-Referred to Finance Committee.

Tenders for printing 500 copies of the annual balance sheet for the city were opened in council last night, as follows:

# MAY ARBITRATE M'MORDIE CASE HOTEL for SALE

Proposal to Have Old Contract Dispute Arbitrated Instead of Going to Appeal-Situation Unsettled-May Have Meeting.

There is a proposition hanging in the balance by which possibly the settlement of the case of Mc-Mordie vs. City may be settled by arbitration.

This, City Solicitor Peters frankly told the Council last night, would be costly, \$25 per day for each arbitrator and the lawyers' fees, too, which would be much more because a judge can keep lawyers within bounds, One lot, Block 9, Section 5, Sixth Ave. while as a rule a trio of arbiters

enter the city's defense in the appeal pending.

Mr. Peters' recommendation is rather toward an effort at mutual Continental Irust Co. agreement between McMordie and the Council at a special meeting, Real Estate which may be held this week.

### CITY HALL HEATING

Lengthy Discussion of Proposed Plant with Architect.

After a lengthy discussion of the merits and details of the proposed system of heating to be installed in the new city hall at which Architect Potter was present and replied to many questions by Alderman Clayton, the Council opened the tenders for the plant, which were as follows: Western Foundry Co., \$1,973; Smith & Mallett, \$1,950, and William Grant, \$2,255. The lowest will be accepted.
