Vol. XXVIII, No. 76. PRINCE RUPERT, B.C., FRIDAY, MARCH 31, 1939. PRICE: 5 CENTS

### ANNUAL C.N.R. REPORT IS TABLED IN HOUSE; GREATER LOSS SHOWN

Continuation of Recession From 1937 was Adverse Factor—Coming Year Said to Look More Hopeful

OTTAWA, March 31.—A decrease in operating expenses of \$4,613,546 in 1938, despite a heavy increase in wage and material costs, was effected by the management of the Canadian National Railways, S. J. Hungerford, chairman and president, stated in the annual report of the railway system submitted on behalf of the Board of Directors and tabled in the House of Commons yesterday by Hon. C. D. Howe, Minister of Transport. The result of operations shows that this reduction in expenses was not sufficient, however, to offset the decline in gross operating revenues due to the continuation throughout the greater part of 1938 of the recession of general business activity which began in the latter part of the previous year.

Gross operating revenues totaled \$182,241,723 during 1938, a decrease of \$16,154,886 as compared with 1937. This reduction in railway revenues, the report points out, marks the first setback from a slow but steady annual increase since 1933. While the decline in business in 1938 was a continuance of the general recession which started in the latter part of 1937, the prospects for 1939 are considered more favorable.

The situation in 1938 was not peculiar to Canada, the report continues "in the United States the railroads suffered one of the worst years in the history of transportation. In Great Britain the slump in railway revenues gave much concern to railway management in that country and was the subject of appeal to the British Minister of Transport with particular reference to the necessity for equality in competition in the transportation field.

Operating expenses during 1938 were \$176,175,312 against \$180,788,858 during the preceding year, a reduction of \$4,613,546. Restoration of wage deductions increased the 1938 expenses as compared with 1937 by \$6,082,000 and another factor affecting expenses was an increase in the price of materials amounting to \$900,000 allowing for these features there was a reduction in operating expenses of \$11,600,000 as compared with the previous year. This was effected by a policy of holding operating expenses to a minimum consistent with efficiency of operation and the provision of needed services. While maintenance expenses were kept to a minimum, the report states that property and equipment are in good condition having regard to the volume of business to be handled.

**Heavy Tax Payments**  
Taxes paid by the railway in 1938 amounted to \$6,946,873 exclusive of sales tax of approximately \$3,150,000. The cost of exchange increased \$493,000 over 1937.

The total requirements for interest on funded debt held by the public in 1938 were \$49,839,023 as compared with \$48,888,546 for 1937, an increase of \$950,477. Interest payments to the government on temporary loans for capital purposes amounted to \$926,125 as compared with \$1,744,551 for 1937, a decrease of \$818,426.

The net operating revenue for the year was \$6,066,411, a decrease of \$11,541,339. After payment of all other charges, except charges to proprietor's equity, there was a deficit of \$54,314,196 as compared with \$42,345,868 in 1937. Freight revenues decreased by \$14,026,556, or 9.1 percent. System grain tonnage increased by 1,446,850 tons, or 40.5 percent. There were no major freight

(Continued on Page Five)

### REPORT OF AIR LINES

Year Was One Of Development And Organization—Ready For Regular Operation

MONTREAL, March 31.—The organization and development of TransCanada Air Lines progressed systematically throughout the year 1938 it is stated in the annual report of the company submitted by S. J. Hungerford, president, on behalf of the board of directors. The development was carried forward as expeditiously as the provision of flying and ground equipment and the facilities available for training permitted.

"The year," says the report, "saw the progressive development of the company's operations from training flights in Western Canada, with an occasional trip across the mountains, to a regularly operated daily schedule between Montreal and Vancouver with a connecting schedule from Lethbridge to Edmonton."

During the year a repair base and overhaul shop was established at Winnipeg and stations with complete radio facilities were opened at Montreal, Ottawa, Toronto, North Bay, Kapuskasing, Wabaming, Winnipeg, Regina, Lethbridge, Edmonton and Vancouver.

An overnight mail schedule was established on March 1, 1939, the report notes. This provided first morning delivery in Winnipeg and Regina and afternoon delivery in Lethbridge, Calgary, Edmonton, Vancouver and Victoria of air mail picked up the previous evening in Montreal, Ottawa and Toronto; also afternoon delivery in Toronto, Ottawa and Montreal of air mail picked up the previous evening in Western Canada.

The extension of the Eastern terminus of the Transcontinental service to Moncton will be undertaken as soon as airway facilities and navigation aids are available. The company will construct a hangar, install ground radio equipment and provide refueling and station facilities at Moncton.

Negotiations have been initiated to obtain authorization for services between Toronto and Buffalo and Toronto and Windsor. Airport facilities are available at Buffalo but provision of range courses will be necessary. The extension to Windsor necessitates the construction of an adequate terminal field at that point. A properly equipped intermediate field in the vicinity of London, range stations at both fields and meteorological service at Windsor. It is anticipated that an additional direct service between Montreal, Ottawa and Toronto will be warranted by the traffic offering, particularly when the service to Windsor is in operation.

Mail carried in the various services from the commencement of regular air mail service totalled 102,417 pounds. In addition, 265,317 pounds of regular first class mail were carried in scheduled training flights between Winnipeg and Vancouver.

At the close of the year the company had nine 14H Lockheed aircraft and five 10A Lockheed aircraft. The former are used in the Trans-continental service and the latter in the Vancouver-Seattle and Lethbridge-Edmonton services. Hangars of the most modern type were completed at Stevenson Airport, Winnipeg, at the Municipal Airport at Lethbridge, and the construction of a third was commenced in the fall at Malton Airport, Toronto. This was completed in February, 1939.

The permanent staff at the close of the year totalled 332. The amount of \$2,779,314 has been invested in aircraft engines.

## Interference With Poland's Independence Means War Premier Chamberlain Warns

### Both Mackenzie King And Manion On Record Against Conscription In Dominion

OTTAWA, March 31: (CP)—Both Prime Minister William Lyon Mackenzie King and Leader of the Opposition R. J. Manion went on record in Parliament yesterday as being opposed to conscription in Canada in the event of war.

"There will be no conscription while this government is in office," was the assurance given by Premier King. However, there would be full support of those who rallied to the aid of the Empire and the Dominion. His government was opposed to any aggression by force, said the Premier.

Mr. Manion, while opposed to conscription, said it would be necessary for Canada to decide definitely whether it was to stand by Great Britain or be completely independent. He decried any playing of politics in connection with international affairs. J. S. Woodsworth, C.C.F. leader, felt that Canada had a perfect right to remain neutral.

### MOMENTOUS STATEMENT IN REGARD TO FOREIGN SITUATION MADE TODAY IN PARLIAMENT BY PRIME MINISTER—IS UNPRECEDENTED COMMITMENT

### First Time Such Guarantee Is Ever Given East Of Rhine

WARSAW HAILS PROMISE AS LIKELY TO MAKE GERMANY ABANDON ANY IDEA IT MAY HAVE TO OBTAIN TERRITORY BY FORCE

LONDON, March 31: (CP)—Prime Minister Neville Chamberlain made the pledge to the House of Commons today that Great Britain would fight if Poland's independence was threatened. Mr. Chamberlain said he was authorized to state that France also would fight in similar circumstances.

In the momentous statement, lasting only five minutes, Chamberlain said: "The British government has constantly advocated adjustment by way of free negotiation between the parties concerned of any differences that may arise between them. Certain consultations are now proceeding with other governments."

"In order to make perfectly clear the position of the British government in the meantime before those consultations are concluded, I have to inform the House that, during that period, in the event of any action being taken which clearly threatened Polish independence and which the Polish government accordingly considered it vital to resist with their national forces, His Majesty's government would feel itself bound at once to lend the Polish government all the support in its power. The British government has given the Polish government assurance to this effect."

The Prime Minister said that the Dominions "are being fully informed."

This is the first time, outside the League of Nations, that Great Britain has ever given a bi-lateral guarantee to any country east of the Rhine.

### WILL STOP HITLER

WARSAW, March 31: (CP)—Polish government sources hailed the promise of Prime Minister Neville Chamberlain as likely to make Germany abandon any idea it may have had to obtain Polish territory by threat of force. The promise of aid from Great Britain and France came in the midst of intensive Foreign Office consultations in preparation for the forthcoming visit of Foreign Minister Beck of Poland to London next week. A Foreign Office spokesman implied that Poland would accept military alliance with Great Britain and France if Chancellor Adolf Hitler refused to accede to Poland's appeal for a pledge of respect for Polish rights and frontiers.

It is reliably reported here that consultations between British, French and Polish general staffs for co-operation of armies and air forces in the event of attack upon Poland are already under way.

### AID GILL NET MEN REVENUE IS HUGE

Are Being Hampered By Competition of Seiners, Hanson Tells Parliament

OTTAWA, March 31: (CP)—The difficulty of gillnet fishermen making a living in competition with seine net fishermen was stressed by Olof Hanson M. P. for Skeena when speaking in Parliament. Mr. Hanson was speaking on a bill designed to restrict seine fishing.

"I have had information from fishermen in this area concerning these conditions and I think an explanation which has not been given in support of the bill warrants me in supporting it."

"There were no seines in the Fraser River prior to 1933. Gillnet fishermen developed the area by gillnet fishing. Gillnet men established themselves in and about the mouth of the Fraser River. In 1933 by order-in-council purse seine fishing was allowed in that area. At that time there were approximately 3000 gillnet fishermen operating at the mouth of the Fraser River. The number of seines increased and last year there were 105 boats operating in that area, employing perhaps seven hundred men. There were also between two and three thousand gillnet fishermen and it is difficult for them to make a living in competition with seine fishing."

### Calgary May Increase Its City Salaries

CALGARY, March 31: (CP)—The city council is considering restoring to civic employees pay cuts which were made in 1929.

### Bulletins

#### TELEGRAPH OFFICE CLOSES

After having done business here since 1906 when the first office was opened by the late H. B. Rochester, the Government Telegraphs ends its service in Prince Rupert at 6 o'clock this evening when it closes to traffic. D. C. Schubert will be in the office, however, for a while yet to clean up outstanding business. All services which have been maintained by Government Telegraphs out of here are taken over by Canadian National Telegraphs as from tomorrow.

#### PLAY-OFFS EXTENDED

NEW YORK—National Hockey League Stanley Cup play-offs were further extended last night when New York Rangers defeated Boston Bruins two to one and Detroit Red Wings won over Toronto Maple Leafs three to one. Final berths are involved in both these play-offs.

#### DYNAMITERS BEAT CATS

CALGARY—Kimberley Dynamiters defeated Port Arthur Bear Cats 6 to 5 last night in the opening game of the Western Canada finals for the Allan Cup, emblematic of world's amateur hockey championship. The game went overtime.

### Indian Woman Snatched Cash

Rifling of George Hill's Cash Register on Wednesday Cleared up

The robbery of some \$50 from the cash register of George Hill's shoe store was cleared up yesterday with the admission of Priscilla Smith, Indian woman and police court habitue that she was the guilty party. Priscilla, the money gone appeared before Magistrate McClymont this morning and was given seven days' imprisonment.

### Spirit Of North Urged By Bishop

Rt. Rev. A. H. Sovereign Heard In Calgary Service Club Address

CALGARY, March 31: (CP)—Speaking at a service club meeting here, Rt. Rev. A. H. Sovereign, Bishop of Athabasca, expressed the hope that city youth would catch the vision of the great north and interest themselves in assisting its development.

## HIS CAREER WAS HECTIC

MIAMI, March 31: (CP)—Swift transition from the presidency of Cuba to flight and exile, first in Canada, then in the United States, next in the Dominican Republic and finally in Europe, with indictments for murder hanging over his head, was the lot of Gerardo Machado, former dictator of Cuba, who died here.

He was the victim in August, 1933, of a revolt in the army which had been the chief prop of his stormy administration. He fled by plane on August 12. A series of coup d'etats followed with four men occupying the presidency within five months. All dug inexorably into the acts of the Machado administration.

They accused him of lulling the Cuban people into somnolence by an extravagant program of public works while he and his intimates enriched themselves. They held him personally responsible for terrorist acts culminated by a series of summary executions, indicted him on charges of murder and sought to extradite him.

In the face of these developments Machado fled from Nassau, his first haven, to Montreal, then to Poughkeepsie, N. Y., to New York, to Philadelphia and finally, in July, 1934, to Santo Domingo. He remained in closely guarded seclusion there until November 21, 1934, when he embarked at Puerto Plata for Hamburg. Arriving in Germany December 11, he announced that he was a "sick man" and intended to take a "cure" at a German spa.

But there was no rest for him in Germany. Berlin authorities said he could stay as long as he wished but rumors arose that Cuba would ask for his extradition and on December 14 he left Hamburg only few minutes before secret police visited his hotel. Five days later former Havana associates in New York learned he was in Switzerland.

**Manipulates Constitution**  
Machado, an accomplished vote-getter, went into the Cuban presidency in 1925 for a four-year term under pledge not to stand

for re-election. But in 1928, the Cuban Congress, of which he had won control by astute party maneuvering, amended the constitution making the presidential term six years.

This would have held him in office until 1931, but after the amendment was adopted, a fresh election was called. Machado ran for the full new term and was elected, thus extending his regime ostensibly until 1935.

Meanwhile the world economic depression had descended upon Cuba. The sugar market collapsed, distress was added to political unrest. There were revolts, riots and attempts to assassinate Machado. Congress granted him power to suspend constitutional guarantees and he struck back at his enemies by means of censorship, suppression of anti-administration newspapers, courts martial and wholesale arrests.

### Cited For Bravery In Action

Cabanas fortress was filled with opponents of his administration and many of his enemies were shot while, it was alleged, they were attempting to escape from arrested officers. Machado's foes said that in most of these cases the prisoners, forced to run, were ridden in the back at short range. Eventually Machado himself fled. Machado was born at Villa Clara September 29, 1873, to Col. Gerardo Machado and Senora Morales de Machado. His parents were from Santa Clara families which for years had been identified with movements to free the Island from Spain and it was said that in childhood the future president seldom saw his father because the colonel generally was in the field.

Machado entered the struggle when he was 22, took part in many engagements, was severely wounded and twice cited for valor. When independence finally came he held the rank of brigadier general. Thereafter he occupied himself with a sugar plantation, cattle breeding, commercial ventures and politics. He became inspector general of the young republic's army and was secretary of the interior 1908-10. Leadership of the liberal party came to him in 1920 and paved the way for his election as Cuba's fifth president.

### Canada's Royal Guests—

## FRESHENING UP ON WHAT TO DO AS KING COMES; LOOKING UP ETIQUETTE

One Says "Ma'am" Not "Madam" to Her Majesty and Children with Bouquets Wait a Bit for Their Elders

By MURIEL ADAMS  
Canadian Press Staff Writer

OTTAWA, March 31: (CP)—Etiquette books head reading lists in various circles of Canadian society and particularly in the Dominion capital. People are thumbing the latest textbooks on what's-what to brush up on manners and rules of conduct in the presence of the King and Queen when they tour the country in May.

Librarians report a brisk business in social behavior manuals from their shelves and queries as to "do's" and "don'ts" when meeting royalty are numerous.

Few of the thousands who will come to see the Queen will have the chance to speak with her but if they should they will address her as "Ma'am." Stickers on good breeding shudder at the thought of the abbreviation lengthened to "Madam."

In passing, Their Majesties will be greeted individually as "Your Majesty," and should conversation follow with the King he will be addressed as "Sir," a form modernized from the old-school "Sire."

Women will not be required to make so deep a curtsy as at a court presentation but must be ready to make a distinct "bob" with the body erect and left knee bent half way down the right calf should the King and Queen pass their way. A forward bow from the waist is the formal salute for the men.

Emphasis is being placed on dinner behavior and it is noted when the Queen rises to leave, women guests shall rise and curtsy at their dinner places to the King before following the Queen to the drawing room.

When the King rises to signify dinner is over, the men shall bow as he passes before following out.

**Matter of Dress**  
Since there will be no court ball

## STEAMSHIPS ARE PAYING

OTTAWA, March 31:—The annual improvement in the business of the Canadian National (West Indies) Steamships, Limited, during the last three years was further extended in 1933. S. J. Hungerford, president, states in the annual report of the company submitted on behalf of the Board of Directors and tabled in the House of Commons yesterday by Hon. C. D. Howe, Minister of Transport. The company had an operating profit of \$742,239, an increase of \$87,702 over 1932.

Gross operating revenues were \$2,915,355 against \$4,676,684 in 1932, an increase of \$238,671. Operating expenses were \$4,169,115 against \$4,918,146, an increase of \$150,989. The increase in operating expenses was 3.76 per cent as compared with an increase of 5.10 per cent in revenue. The increased operating expenses were due to the handling of additional business and the restoration of basic rates of pay.

After payment of bond interest but before depreciation and interest of government advances, there was available \$276,239 which would be paid to the government as interest on advances. The corresponding figure in 1932 was \$199,537.

Freight revenues increased by \$147,578 during the year. Passenger revenues increased \$62,342 and miscellaneous revenues increased \$28,751. "The increased freight revenue was principally from export traffic" the report states. "The increase in passenger revenue reflects the continually increasing popularity of the company's services. Since 1932 passenger revenues have increased

bouquet to the Queen at numerous stops across Canada are being prepared for the biggest event of their lives. According to authorities on rules of procedure for such ceremonies, they shall come forth to perform their duties after the Queen has greeted two or three officials, allowing an opportunity to overcome a last-minute stage fright.

**Presenting Bouquets**  
Children selected to present a

approximately \$100,000 per annum. The increase in miscellaneous revenues reflects the charter of steamer Cornwallis carrying nitrate from Chile to United States ports.

The vessels of the fleet at the end of 1932 numbered eleven with a total gross tonnage of 67,316 tons. During the year they completed 128 voyages, one more than in the preceding year.

Regular services were maintained during the year from Canada to Bermuda, Bahamas, Jamaica, Port-au-Prince, St. Kitts, Antigua, Guadeloupe, Martinique, St. Lucia, Barbados, Grenada, Trinidad, St. Vincent, Dominica, Montserrat, British Guiana and British Honduras.

**MASSETT GIRL DIES**  
Bessie Bell, Massett girl, passed away yesterday afternoon in the Prince Rupert General Hospital.

Union steamer Cardena is due to arrive tomorrow morning at 1:30 from the south and will leave at 4:30 on her return to Vancouver and waypoints.

After having been a patient for a few days in the Prince Rupert General Hospital, J. T. Harvey, local barrister, has been able to leave the institution for home.

Miss M. Fearman, who has been paying a visit here with her uncle and aunt, Mr. and Mrs. L. S. Hope, will sail by the Princess Adelaide tonight on her return to Vancouver.

**PREPARE FOR WAR**

Pastor Says He Believes in Arming But Moral Rearmament Also Necessary Today

While the duty of the citizen to the state in time of danger is important that duty is not so much expressed in time of war as in time of peace. It is easier to die for one's country than to live for it, according to Rev. E. E. Brandt in an address to the Prince Rupert Rotary Club at its weekly luncheon in the Commodore Cafe. He said that moral armament was needed as well as physical, as part of a man's duty to the country.

The speaker said that the world was going through a period of change and there was too much pessimism and defeatism in meeting the situation. Evidently the change was world-wide. Someone had said there was a revolution going on but people were too close to it to see it. At any rate it was a period of crisis.

Mr. Brandt mentioned unemployment as one of the problems with which the world had to deal. This was affected partially by the keen competition among nations and the fact that nations had different standards of living. Then there were labor, individual and national debt, sectarianism. The efforts to solve these questions put a strain on human beings and the pressure was felt by everyone. To meet this there was need of a revival of spiritual values.

The speaker mentioned the difficulties between nations today and said it was a day of great change and challenge. There was an increased threat to democracy. The prophets of doom were busy but the challenge was such as to arouse people from our complacency to shoulder the responsibilities of life. There were unscrupulous men at large with power far beyond their moral deserts. That made life very uncertain. However, there was no reason for the democracies being overwhelmed by defeatism because of the dictator nations. "We are still the stronger physically," he said "but we need greater moral courage. We need vision but this must spring from an adequate spiritual life. We must learn that we are not here to get all we can for ourselves and let the rest of the world go hang."

Speaking further of the need of vision, Mr. Brandt mentioned the youthful enthusiasms and remarked: "Blessed is the man who is able to carry his youthful faith and vision through middle age, mellowed but undimmed." He pleaded for a revival of puritan faith as being one of the needs of a democratic nation. He said he believed in arming for it may yet be that it would be necessary to shoulder guns in war. Finally he made a strong plea for a nobler concept of citizenship than had hitherto been known.

**REPORT OF AIR LINES**

(Continued From Page One)

communication equipment, buildings and ground equipment.

The income account for the year, after providing for all operating costs including depreciation and interest on invested capital, shows a deficit of \$818,025 which is slightly under the amount of \$830,000 appropriated by Parliament. Operating revenue amounted to \$590,808 and operating expenses were \$1,303,780. The operating expenses include, in addition to the operation costs of revenue producing services, all expenses in connection with the development of new services and the training of personnel. Ninety four per cent of the total revenue

The routes initially covered are: Moncton-Vancouver, Lethbridge-Edmonton, Vancouver-Seattle.

Mr. Hungerford, in concluding the report, expresses appreciation of the assistance and friendly cooperation received from the officers of the Department of Transport and the Post Office Department.

### THE SALT LAKES

One of the most important attractions at Prince Rupert is the Salt Lake swimming pool. Twenty years ago residents of the city tramped in to the lake from the adjacent bay, sinking deep in the muskeg or walking a single plank over the worst places, all for the purpose of having a swim. Gradually the lake was popularized until hundreds of people went to the lake regularly, especially on Saturdays and Sundays and Thursday afternoons. One or two boats ran regularly to and fro carrying passengers.

Then came the increasingly difficult regulations designed for the safety of passengers. It was required that passenger boats carry lifeboats sufficient to accommodate all the passengers and that a skipper and engineer be employed with proper navigating papers. The boats formerly carrying passengers could do so no longer and, with the opening of the highway drive to points beyond Kaien Island, more people took an interest in the highway drive than in the trip to the Salt Lake.

Yet today there is a good walk kept up by the Provincial government, leading to the lake and a proper landing dock for the convenience of boats and hundreds of people go there on hot summer days.

Usually the swimming pool is in charge of a swimming club which raises enough money to keep the floats and dressing rooms in good order. May we suggest that this year work on this be commenced early and everything be made ready so that full advantage may be taken of the short season.

Some day the lakes, swimming pool and park, all of which have been set aside as public property for the use of Prince Rupert people forever, will probably become one of the most attractive of our tourist resorts. It has wonderful possibilities and could be developed in such a way as to give visitors an interesting interlude from the hurlyburly of life.

### NEED OF PAINTING UP

This is the time of year when the thoughts of some men turn to gardening and others to painting and spring cleaning. Paint factories report that they are busy which means that people in other places than Prince Rupert are using plentiful quantities of paint and kalsomine and fresh new wallpaper. Sometimes a hint is sufficient to remind people that the work needs doing. This is the hint.

### GRAVING FOR MORE

Evidently Adolf Hitler is one of those people who are never satisfied, never can be depended upon and is always after more. This, combined with an exaggerated ego, makes him a World Enemy Number 1, dangerous to friends as well as enemies. The mentality of the man is shown in the extreme measures he took in shooting down some of his best supporters a few years ago in what is sometimes known as "The Blood Purge." If he carries on as at present he will meet with a bad fall. Luck will not always be on his side.

It's interesting to know when reading the Daily News that the people of the whole district are doing the same

## Prince Rupert Beats Premier In Third Game To Assume Margin In Contest For District Hoop Title

Prince Rupert's Standard Oilers defeated Premier last night by a score of 46 to 34 in the third game of the series for the Northern British Columbia basketball championship. As a result, Prince Rupert is now up one game and seven points in the four game series which started with the playing of two games at Premier last week. The fourth and concluding encounter takes place in the Armory here tonight. Judging from what has gone before, it should be a real thriller.

Last night's game was a hard and fast struggle. It was not without roughness, too, as evidenced by the fact that eleven personals were called against Premier and fifteen against Prince Rupert by Referee Johnny Comadina who was watching them closely. It was a good game to watch as play moved quickly from end to end of the floor with basket matching basket through a goodly portion of the engagement.

Both teams started fast right from the opening whistle and Premier took an early and rather serious looking lead with Jack Lindsay netting two baskets in quick succession and Rod McAuley making it three all on long shots. Prince Rupert was having bad luck with its shooting until Herb Morgan and Sev Dominato were sent in by Coach Dido Gurvich to replace Jack Campbell and Art Murray. Then, after a nice passing bout, Sonny Beynon opened the scoring for Prince Rupert with Dominato snaring another to make the count six to four. McAuley scored again for Premier on another long shot and Lindsay took a free throw successfully. Morgan scored for Prince Rupert and McAuley matched it for the miners. Play became even faster from end to end as Morgan netted two in quick succession to make it 11 to 10 for the end of the first quarter.

Pretty passing play between Beynon and Morgan resulted in the latter scoring soon after the start of the second quarter and Prince Rupert went one point up. Bob Stewart immediately put Premier back into the lead again and Lindsay sank another from mid-floor to make it 15-12. Ernie Santerbane put the visitors further up until Morgan came to life again as Prince Rupert staged another good looking spot of passing with just a little bad luck in shots. Then McAuley scored again for Premier and Jimmy Currie for Prince Rupert. McAuley made good on two free throws. Morgan took up a stand under the basket and, with some fast and effective sharpshooting, brought the locals back into the picture at 21 to 18. MacPhee scored after Houston had missed. Lindsay scored the free throw on Morgan's foul and the half ended 22 to 20 for Premier.

**Rupert Takes Lead**  
The second half opened as fast as did the first. MacPhee going immediately to work to snare a couple of long ones in quick succession to put the Oilers into the lead which they followed up well and never lost again. MacPhee and Beynon occupied the limelight with fine passing play which the miners were unable to handle. The locals missed as many as they made at this juncture but Premier was not able to snag anything at all so the count was soon 28 to 22 for Prince Rupert until Lindsay got his shooting eye again making two for MacPhee's one. The crowd groaned as MacPhee was banished for personals but, in justice to the referee even if he did seem a little severe, "Legs" had been playing them a little loose and was riding for the bench. Campbell took his place. Beynon made a basket and

then boiled Lindsay who picked up one point on two free throws. Beynon, now going strong, counted again and the third quarter ended 35 to 26 for the locals. Prince Rupert was checked close during the early stages of the fourth quarter and Premier staged a bit of a rally as Stewart scored on a free throw and Lindsay made a foul and, after Premier had missed some golden opportunities, Arney was able to sink one. Beynon tripped Lindsay who scored on the foul, the score becoming closer again at 36 to 32. Prince Rupert was not to be denied, however, and fast passing and long shooting resulted in counters for Morgan and Dominato. McAuley got one in but Morgan, Dominato and Beynon all scored again in quick succession before the final whistle rang down on a 46 to 34 count.

Jack Lindsay and Bob McAuley with fifteen and twelve, led the scoring for Premier but bald-pated Bob Stewart, who has a wonderful endurance, is as steady as a rock and always seems to be where he is needed, was as good as any of the miners. Herbe Morgan, with sixteen points, might be fairly called the shining star for Prince Rupert. He was in top form and, if any of

the locals matched him, it was Sonny Beynon whom the Premieries held down hard at the start but whom they were not able to smother effectively after the first fifteen minutes or so. MacPhee played a strong game and, had he not been banished early in the second half, the margin might have been even wider. Bobby Houston was a strong defender.

Dido Gurvich did some adroit coaching. Individual scoring was as follows, personals in parenthesis:

Premier—Santerbane, 2 (2); Stewart, 3 (2); Gladding (1); Green; Phillips; McAuley, 12 (2); Tippett; Arney, 2 (3); Lindsay, 15 (3); total, 34.  
Prince Rupert—MacPhee, 10 (4); Morgan, 16 (1); Beynon, 12 (3); Campbell (2); Dominato, 6 (3); Houston (2); Murray; Currie, 2; total, 46.

Referee, Johnny Comadina.  
**High School vs. Navy**

Mainly because of greater weight and height, Navy was able to defeat High School 42 to 31 in the Intermediate opener. The students were quite as fast as the sailors but the excess size of their opponents cramped their style breaking up their shooting plays. The game, as a result of the uneven matching, was inclined to be slow, particularly in the first half. Early in the game the Navy was leading by as much as 14 to 5 but the High School succeeded in cutting down the difference to 26 to 13 by half time. The school boys made a better showing in the second half during which they made eighteen points to the Navy's 22. Play was more open in this period and for a good deal of the time it was back and forth with first one side and then the other successfully negotiating the cage. George Brown excelled for the Navy, being equalled in scoring

## BRIMSECK WAS BEST

Goalie of Boston Bruins Rated Outstanding Rookie of Year. MONTREAL, March 31: (CP)—Thirty-four Canadian sports writers, in a Canadian Press poll, have rated Frankie Brimseck of Boston Bruins as the most outstanding rookie of the season, naming him goalkeeper of a national League star team. Roy Conacher, also of the Bruins, ran Brimseck a close second. Brimseck gave the Bruins no less than ten shutout victories.

At Tanforan, Mexico, the famous race horse Seabiscuit, which recently developed a limp which put him out of the Santa Anita and other important races, will be ready for the track again after a six months' rest, it is stated.

**TO VISIT ICELAND**  
REYKJAVIK, Iceland, March 30: (CP)—One of the few countries in the world which has not seen an English football team, Iceland will be host to Islington Corinthians this summer. The Reykjavik sporting club is 40 years old.

**MAKING IT EASY**  
LONDON, March 29: (CP)—Two holes-in-one were scored in a single afternoon at Hendon golf course. The first was scored by the club's captain, Mrs. Boyce, followed half an hour later by R. S. Rayner.

by Eastman Husoy and Bryant gave good support. Holkestad of High School was the high scorer of the intermediate game and dominated his team, Tony Christian was fast and useful. Individual scoring: High School—Holkestad, 15 (3); Knutson; Kihara, 2; Christian 6; McDonald 2; Storrie; Morin; O'Neill, total, 31. Navy—Eastman, 12 (2); Brown, 12 (2); Husoy, 8 (2); Bryant, 4; Christian, 2; Davis, 4; total, 42. Referee, Bill Vance.

The crowd was not quite as large last night as might have been desired but, on the strength of the good play that was turned in and since tonight's game will decide the title, there should be a sell-out this evening.

**DESERVED BETTER FATE**  
ABERDEEN, Scotland, March 31: (CP)—Harry Sullivan climbed from the wreckage of his car at Kinross, dashed to Aberdeen by car, train and taxi, to enter the ring against Johnny Clements. He was knocked out in the first round.

**LUCKY GOLFER**  
CAPE TOWN, March 31: (CP)—When R. Buchanan lost a signet ring at the Mowbray golf course, he kept right on playing. Four days later he found the ring in the rough at the 13th hole.

**NEARLY MILLION UP**  
TORONTO, March 31: (CP)—Five losses in Canada for 1939 up to March 11 are reported at \$5,066,750 as compared with \$4,168,330 for the corresponding period of 1938.

## SPORT CHAT

Spring training camps have broken up and the Pacific Coast Baseball League will open on Saturday with Hollywood Stars and Los Angeles Angels, both of which teams have been extensively rejuvenated, playing at Los Angeles. The same day Portland will play at Sacramento, Seattle at San Francisco and Oakland at San Diego. Los Angeles is generally expected to win the Pacific Coast League pennant this year with Seattle being given a good chance for second place.

At Tanforan, Mexico, the famous race horse Seabiscuit, which recently developed a limp which put him out of the Santa Anita and other important races, will be ready for the track again after a six months' rest, it is stated.

**MARCH AUTUMN**  
BULAWAYO, Rhodesia, March 31: (CP)—An Australian swimming team touring South Africa offered to visit Rhodesia. But the Rhodesian Swimming Association pointed out that in March the weather would be turning too cold for swimming.

**DESERVED BETTER FATE**  
ABERDEEN, Scotland, March 31: (CP)—Harry Sullivan climbed from the wreckage of his car at Kinross, dashed to Aberdeen by car, train and taxi, to enter the ring against Johnny Clements. He was knocked out in the first round.

**LUCKY GOLFER**  
CAPE TOWN, March 31: (CP)—When R. Buchanan lost a signet ring at the Mowbray golf course, he kept right on playing. Four days later he found the ring in the rough at the 13th hole.

**NEARLY MILLION UP**  
TORONTO, March 31: (CP)—Five losses in Canada for 1939 up to March 11 are reported at \$5,066,750 as compared with \$4,168,330 for the corresponding period of 1938.

# Know your British Columbia

### DID YOU KNOW THAT...

in British Columbia we had a waterfall ten times higher than 158-foot Niagara?  
Della Falls, 12 miles from the head of Great Central Lake on Vancouver Island, drops 1580 feet, the highest waterfall in Canada, and second only on this continent to famed Yosemite (Ribbon) Falls in California!  
The only other falls in the world with greater drop are in New Zealand and British Guiana. Canada's second highest falls, Takkakawa, with a 1200-foot drop are also in British Columbia, at Yoho Park!

### ANNUAL C. N. R. REPORT

(Continued from Page One)

rate changes during the year in Canada. In the United States the Interstate Commerce Commission authorized a general increase in freight rates of approximately 7 percent, effective March 28, 1938. The Board of Transport Commissioners for Canada authorized the application of these increases in connection with international traffic.

Passenger revenues decreased by \$847,918, or 4.5 percent. In Canada, coach excursion rates were increased by 25 percent during the year and in the United States, coach class mileage rates were increased from 2 cents to 2.5 cents per mile in the eastern territory. This latter change also affecting certain Canadian rates.

The Senneterre-Rouyn branch was completed and formally opened for operation on December 3, 1938. "It is anticipated," the report says, "that the opening of direct railway transportation to this rich mineralized section will be an important factor in further development of the area."

**New Rolling Stock**

Rolling stock purchased or built during the year is reported as: eight locomotives; 2,310 box cars; 25 coal cars; 61 baggage cars; six dining cars; 5 mail and express cars; 1 buffet sleeping car; 26 snow plows; and 11 miscellaneous work units. Rolling stock retired during the year included: 50 locomotives; 5,383 freight cars; 8 passenger cars; and 300 work units. The cost of this equipment was charged to operating expenses.

During 1938, 148 additional air conditioned passenger train cars were placed in service, the total number of such units at the close of the year being 461. The 1938 program provides for an additional 92 units.

The total number of company employees on the pension rolls at the end of the year was 6,913. Employees pensioned during the year numbered 991 and 365 pensioners died. Pension cost to the railway was \$4,159,798 in 1938.

With a view to expediting progress on co-operative measures between the Canadian National and the Canadian Pacific a new committee composed of vice-presidents of the two companies was formed during the year.

"The Canadian National section of the committee," the report states, "has made certain proposals looking to further co-operative measures including, among others, a proposal for the pooling of all competitive passenger traffic throughout the Dominion." An agreement was made for the joint operation of the new Canadian National hotel at Vancouver. The new hotel, which will be known as the "Hotel Vancouver" will be opened on May 25 next.

On February 1, 1938, the company commenced operation of its own freight cartage services at Montreal and St. Hyacinthe, Quebec, and Brantford, Guelph and London, Ontario. These services had previously been operated by outside contractors and the report states that this change has been well received by the shipping public and has resulted in economies.

"During the year," says the report, "a study was made of the Montreal terminal project, work on which had been suspended for

some years. In such study the directors gave consideration to the following factors:

The necessity for rational co-ordination of passenger and freight terminals of the Canadian National in the interests of efficiency and economy.

The adverse effect, financial and otherwise, upon the operations of the company through the continued use and maintenance of antiquated and unco-ordinated terminal facilities inherited from predecessor companies.

The long standing grade crossing problem in Montreal.

The effect upon the development and growth of the city, industrially and otherwise.

The provision of a satisfactory suburban service between south shore communities and the centre of the city.

The amount of money already invested in the property standing idle.

The necessary developments in the light of present day conditions and requirements as well as future necessities including eventually, if decided upon, a union terminal.

The pre-eminent suitability of the location of the central station for a union terminal demonstrated by exhaustive study of the situation by the company's engineers as well as by a special independent study made by Sir Frederick Palmer, who was engaged by the Dominion government for the purpose.

The directors therefore decided that the company should proceed with the completion of the terminal by stages as conditions warrant, taking advantage of any favorable factors which may from time to time prevail for doing work which contributes to eventual completion.

The Dominion government has recognized the importance of this project as a means of relieving unemployment and has contributed to the cost of the work a portion of the funds voted by Parliament in its construction and rehabilitation appropriation. Tenders have been called and contracts placed for the construction of certain items of the work. Further progress is contingent upon the project being assisted as an unemployment relief measure to the extent of the direct labor content of the work performed.

In closing the report Mr. Hunterford makes acknowledgement to "The loyal and efficient service rendered by officers and employees and of the patronage extended to the Canadian National Railways by the public during the year 1938."

**WAR SIGNS REVEALED**

Evangelist Tells How Present State Of Affairs Was Prophesied

"Proclaim ye this among the Gentiles! Prepare war, wake up the mighty men, let all the men of war draw near! Beat your plowshares into swords and your pruning-hooks into spears! Let the weak say I am strong." Thus, said Evangelist Barnes speaking at the Pentecostal Tabernacle last night to a splendid audience, is the prophecy of the terrific onslaught of nations against nations which is significantly being carried out today.

Mr. Barnes stated that, close to Glasgow, Scotland, he observed huge piles of scrap iron and among

the material could be seen plowshares and other farming implements. This was being smelted and turned into war materials. Not only at this point did the evangelist notice this prophetic fulfillment but in many other places both in the Old Country and on the American side.

The preparation and the awakening of the nation's mighty armies was common news but, nevertheless, terribly significant and ominous, declared the evangelist. However much peace lovers might cry "Peace and Safety," according to God's Word, "sudden destruction cometh upon them."

In spite of Britain promising that conscription would not be resorted to, the prophetic utterance of Joel: "Let the weak say, I am strong," proved that not only would this ultimately be the case, but also, disability would not be an excuse for not serving in the army. Some kind of work would be enforced upon all.

**FORMER ROYAL VISIT**

Editor, Daily News:

In the Family Herald and Weekly Star of March 22 there is an account by Jean Ritchie Anderson of Royalty who have visited Canada. However, the writer fails to mention one incident. In 1860 the Prince of Wales visited Canada and at Cornwall or thereabouts he boarded a sidewheel ship and came up through the Thousand Islands. The first stop was at Kingston Ont. Upper Canada in those days. When his ship docked at Kingston it was July 12 and the Orangemen were out in full force. Where the street joins the wharf there was a beautiful evergreen arch. On top of a flag pole was the Union Jack and just below a large "Orange Flag". The Prince was in care of the Duke of Newcastle who was a very devout Roman Catholic and he requested that the Orange Flag be lowered. The Orangemen replied that the Orange Flag would be lowered for only one person and that was Queen Victoria, if she requested it. There was no cable in those days so the ship backed out and reached Cobourg about 10 or so at night. Victoria Hall was just completed, a fine building for those days. The Prince and his party entered a carriage at the wharf and were drawn to the hall by two long ropes manned by men. The Royal party, in their brilliant uniforms and plumed hats, made a fine sight as they stepped on a platform to receive the address of welcome, etc., and then the ball until three or four a.m.

The Prince visited the home of Mr. Clifford who built the two yachts that lost in the American race. Yes it is a long time past. However I remember it vividly. I wonder who is living today that can re-

Will Keep In Close Touch During "Vacation" — Administration Reorganization Bill Finally Passed

WASHINGTON, D. C., March 31:—Congress Wednesday gave final approval to the administration's reorganization bill which confers new powers upon President Franklin D. Roosevelt; until the expiry of his term of office in 1941. The measure was sent to the White House where it was signed yesterday.

President Roosevelt left yesterday for a two weeks' spring vacation at Warm Springs, Georgia. Before he left the President had numerous conferences with administration and congressional leaders and was closeted with Secretary of State Cordell Hull in regard to international affairs. He will keep in close touch with the Capitol during his absence.

Shirley Temple and the Jones Family in Double Bill at Capitol

The Capitol Theatre is presenting an unusually entertaining double bill program continuing tonight. One of the features is Shirley Temple's latest picture "Just Around the Corner." The other is another of the popular Jones Family films "Safety in Numbers."

The story of "Just Around the Corner" concerns hilarious but happy consequences which arise when Shirley confuses a wealthy old banker, whose name happens to be "Uncle Sam" Henshaw, with the whiskered gentleman who is the symbol of American national life. Claude Gillingwater plays the part of Uncle Sam and other prominent members of the cast are Charles Farrell, Joan Davis, Amanda Duff, Bill Robinson, Bert Lahr, Franklin Pangborn and others.

In "Safety in Numbers" Mrs. Jones, who has been voted the world's best mother in a radio contest, goes on the air with a domestic advice program while the rest of

**COLD CURED ICE**  
For the Halibut and Salmon Fleets  
Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.  
Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.  
Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.
