Railway Defeated in Supreme Court

Information was received here today by wire that the decision of the Railway Commission with reference to the opening of Cameron Cove, and which was appealed by the railway to the Supreme Court of Canada, was today adjudged, the Supreme Court upholding the decision of the Railway Commission in every particular. The work of opening the bay for boats will therefore have to begin at once, Judge Maybee's order having been imperative.

The Victoria Times does not believe that in opposing and G. There is not the least doubt in our minds, nor in the mind of any person | who considers the facts impartially and discriminately that the course of the plungers who are at present in power will in the not distant future involve serious consequences.

Take the conduct of the government in the manner of pro- Valves & Pipes Oxford Stoves claiming dissolution and bringing on the election as an example of unbridled, unrestrained and unjustifiable abuse of power. Nominations are to be held on the 12th of March, in less than | SECOND - AVENUE two weeks. There is not a candidate nominated in any constituency of the province. In some of the outlying constituencies news of the impending election will not be received for some time.

Elections are usually supposed to be held for the purpose of obtaining an expression of public opinion. Elections brought on by the McBride government are for the purpose of circumventing public opinion. Usually, there is supposed to be a high public purpose behind governments and legislatures.

The McBride ideal has been tersely expressed by the Premier himself: "The thing is to get in, and after you are in to stay in." In pursuance of this lofty purpose we see what the legislature of Briish Columbia has been reduced to.

HOW FACTS GET TWISTED IN POLITICS.

One section of the Tory party in Canada decries the Liberal govrnment for its bargain with the National Transcontinental Railway and the Finance Minister of the Borden government treats the terms as though they were a scandal. The ex-Finance Capital and Reserve Over \$7,300,000 Minister of British Columbia defends the deal of his government with the Canadian Northern Pacific and the Pacific Great Eastern by pointing to the Laurier bargain as a precedent. While Tory papers denounce the bargain made by Laurier, Hon. Mr. Bowser denounces Mr. Brewster for criticizing a far worse deal made by the McBride government. Good logic from a Tory point of view, but pitiable when analyzed by the public.

Prof. Bland Warns Against Evils of Prosperity and Rapid Growth of West.

Prof. C. E. Bland of Alberta College, Strathcona, has addressed to young man a warning against the danger to the higher life threatened by the rapid growth and material prosperity of the west. The rapidity with which wealth came to many constituted a real danger. Fortunes made from real estate in a few years were likely only too quickly to sap the moral vigor of those who acquired riches without effort. Where money was gained so readily the love of money exercised a fatal influence to draw men's interests from the highest and the best.
