EASTERN PAPERS ENTHUSED OVER OUR WEATHER

POST OFFICE WILL LOCATE ON THIRD AVENUE AND THIRD ST.

NEW BUILDING SUBSTANTIAL ENOUGH TO SERVE UNTIL PERMANENT POST OFFICE IS ERECTED WILL BE PUT UP ON LEASED LOTS BY J. H. HILDITCH.

Announcement has now been definitely made that the new location for the post office until the permanent one is built will be on Third Avenue at the site of A. R. Barrow's house. In six weeks there will be built there by J. H. Hilditch a post office building of character substantial enough to serve the needs of the city until the site for the permanent building on Second Avenue and Third Street is cleared and the building erected. This will probably take considerable time owing to the amount of rock on the site. The Barrow residence will be removed without delay and work will commence speedily upon the new temporary post office. Floor space of 75 feet by 50 feet will be available for the accommodation of the service. The present post office will be allowed to remain until the new building is completed, so as to save the difficulty of a double removal. As the G. T. P. Inn is to take a different course in removal than that originally contemplated, it may be necessary to cut off only a small portion of the present post office building to let the hotel pass, and for a few weeks more the Rupert road post office will not interfere with the railway company's operations on the depot site.

No Dance Tonight.

They are to meet at the fire hall at 3 o'clock and proceed in a body to Acropolis Hill, there to select public recreation grounds which will accommodate the tennis players, baseball fans and all the athletic sports.

MANSON'S CAMPAIGN

Of course it is very impertinent for anyone to enquire about the completion of the McBride wharf, formerly called the People's wharf. Mr. Manson attaches no importance whatever to its completion. This is proven by the fact that he dispatches John R. Beatty, manager of the said wharf, to Porcher Island, then to Inverness, then to Mile 59 on a political mission, the object of which was to secure proxies for Manson's candidature to present to the convention.

J. P. Shaw was unanimously renominated by Conservatives for this riding. No other names were before the convention. Tonight a great meeting will be held in the opera house, the Premier and Mr. Bowser delivering addresses to an audience numbering hundreds strong.

CONSERVATIVES ARE UNITED-NITT

Progressives Held a Most Harmonious Meeting Last Night and Demonstrated That They "Are the Stuff"

EIGHT BASE BETRAYERS ARE GUILLOTINED

Strong Executive Elected With Prudhomme as President—Enthusiastic Predictions as to Progressive Convention—Stated That Delegates to the Non-Progressive Convention Will Not be Able to Arrive Here by Saturday

There is no split in the Conservative party of Prince Rupert so far as the Progressive Conservative Association is concerned, and at last night's meeting of this body, held in the Conservative Club rooms, the large gathering, from the beginning of the proceedings and especially at the end, appeared confident that it is THE Conservative party of this city. The meeting was harmonious and unanimous from the election of officers to the beheading of the eight charged with playing the Judas Iscariot act.

There were three candidates for the high position of president, the first placed in nomination being Mayor Newton. This would no doubt have carried by acclamation but that Mr. Newton pleaded press of public business. Then F. M. Lannic and A. J. Prudhomme were named. Mr. Lannic fittingly expressed his deep gratification for the com-

pliment and said that in ordinary circumstances he would have been only too proud to accept, but there was a campaign on and he felt that a more experienced hand was required at the helm. He believed that hand would be found in Mr. Prudhomme and was pleased to withdraw in that gentleman's favor. Then on the motion of Mr. Lannic, seconded by Mr. Newton, the election of Mr. Prudhomme was made unanimous.

The other officers elected were: J. F. Macdonald, first vice president; F. M. Lannic, second vice president; Neil McKay, secretary; and William Sibbald, treasurer. The executive committee elected consists of S. M. Newton, John O'Brien, George Leek, W. Angle, J. H. Kelly, Douglas Sutherland and three others.

The first business before the new officials was the election of delegates to the convention next Monday. It was pointed out that another Conservative association had called a convention for Sat-

urday, but this fact was made light of. It was stated that the old liners would not be able to reach here by Saturday, so that notify delegates in time for them the Progressives might be assured of being asked to seat many Conservative delegates in addition to those they could rely upon attending. The meeting then elected fourteen delegates, embracing their whole official list. Next came the report of the investigating committee and the guillotine was erected amid great enthusiasm. For words, deeds and acts inimical to the interests of progress and those of the association the investigating committee recommended the expulsion of the following members: Dr. Clayton, Fred Ritchie, H. H. Clarke, Ed. Clarke, W. R. Love, A. Ward, H. H. McKinnon and "I May State" Douglas. The report was adopted unanimously and with applause.

PRINCE RUPERT WEATHER

Newspaper in Sunny Southern Ontario Seizes on Daily News' Description.

On February 2nd The Daily News took especial note of the superb weather conditions that have been prevailing steadily in Prince Rupert all this winter, and in an article contrasting Rupert's weather with that of Paris, challenged all Canada to instance a canoe trip for sheer pleasure in ideal weather taken anywhere else but Prince Rupert on February 1st.

From Barrie in sunny Southern Ontario comes evidence that the article has been read with widespread interest. The Barrie Saturday morning quotes it in full, and other papers following suit are sending the glad tidings around the civilized world. DEAD DOCKYARDS AND SILENT STEEL WORKS

Disastrous Effect on Industrial Centres in Great Britain Owing to Vast Coal Strike Still Unsettled---Continent is Affected

(Canadian Press Despatch.)

London, March 7.—Nothing authentic has been given out yet in respect to the three-hour conferences which have taken place between Premier Asquith, his colleagues and the miners' representatives this afternoon. The Premier's opinion is known to be that a way can be found by which to reach an agreement. The men express willingness to meet the Premier whenever wanted, but they still adhere to their demand for a minimum wage as interpreted by themselves.

The National Transport Workers' Federation has decided to help the coal miners in every way possible in the event of a strike.

This will bar the unloading of imported coal at British ports.

Already the prices of food have risen considerably everywhere, and are still rapidly rising. Mine owners are preparing for emergencies. They have had walls built around the mines and have laid in great stores of provisions in anticipating a long siege. The railroad and street car services in many cities was further curtailed today. Only two small non-union mines in the entire country are still at work. One of these is in North Wales and the other near Berwick on the Scottish border.

The tin plate mills of Wales

are all closed down for want of coal. Six hundred factories are idle, forty thousand employees being workless. Dock yard activity is dead and the great iron and steel industrial centres are almost all silent today.

From France comes news that the mines there are liable to close down also in sympathy with the British miners, and sixty-four miners' meetings were held at Essen, Germany, on Sunday to consider the mine owners' refusal to advance wages.

The miners' organizations have called on their members to refuse to work overtime on account of the English strike.

SEATTLE AND SINGLE TAX

Rate Payers Throw Out Measure by Overwhelming Vote—Socialist Figures at the Polls Prove Sensational.

(Canadian Press Despatch.) Seattle, March 7.—The city yesterday by vote of rate payers overwhelmingly defeated the single tax proposal. Cotterill's

majority was slightly over six hundred and the feature of the voting was the large increase in the Socialist vote, which at last election totalled only between four and five thousand, but yesterday for some of the Socialists the vote reached over 16,000 and up to 24,000 votes.

HAD A LIVELY DEBATE

Small Audience Heard Address by J. H. Kelly on "Success."

Owing to many counter attractions the attendance at the Presbyterian Club last night was small. However, those who were present enjoyed a well gotten up paper on "Success" by J. H. Kelly. At the close of the address a lively discussion ensued between two Scotchmen (with Irish names) as to what success really meant. One took the stand that success had a great deal to do with a man's prosperity, while the other said if it wasn't for luck there would be no Carnegies or Rockefellers in the world today. Both debaters proved his point so well that the judges were unable to arrive at a decision.

ZARELLI CASE IS DISMISSED

"Not Sufficient Evidence to Warrant Conviction," Says Magistrate Carrs—City Authorities May Appeal if They See Fit.

Today Magistrate Carrs handed down his decision in the case of Delmonte Zarelli, charged with having run a blind pig. "On consideration I do not find that there is sufficient evidence to warrant conviction in this case," said Magistrate Carrs. "Of course there is always the right open to the city representatives to appeal just as in the case of the accused, if they consider it necessary."

ARBITRATORS UPHOLD G. T. P.

Decision Awarding Company's Original Offer Handed Down by Arbitration Court in Up River Right-of-Way Case.

Rev. R. Tomlinson has been awarded \$4,500 in the Meankinsight mission lands right-of-way case with the G. T. P. This is practically what he was offered by the railway company before the action was raised, and he has now to bear the burden of the costs, which is very considerable.

The arbitrators' fees alone work out to about \$1,260 at the rate of \$25 per day for each arbitrator for each day in session. Besides this there are the costs for bringing witnesses from all parts of the country. This runs to fully another \$1,000 or \$1,200.

And then there are the fees of counsel to be paid. These, it may safely be assumed, will not scale much below the expenses of witnesses, and may perhaps be considerably more.

Taking all together it looks as if Rev. Mr. Tomlinson would be considerably out of pocket over this case, and there is a good deal of regret expressed that he did not close with the first offer of the company for the right-of-way across his mission lands.

The gathering of the workmen of the new Methodist Church tonight in the church parlors at 8 o'clock will be entertained in a social evening by the members and friends of the congregation. Rev. Dr. White, who has wrought at the carpenter's bench, will give an address, and speeches by the various crafts. Readings and songs and luncheon by the ladies will fill in a pleasant evening. Workman, bring your wife or friend.

DAILY EDITION.

THURSDAY, MARCH 7

THE LIBERAL CONVENTION AND PLATFORM.

We print on another page the leading planks of the Liberal platform for this campaign. We have received from the hands of the delegate who had the honor of drawing it the original platform, but are unable to publish it in full in this issue. The platform itself and the work of the convention generally is very highly spoken of by both the Liberal newspapers of Vancouver. The World says editorially of the convention:

...Singing the National Anthem with the greatest enthusiasm the delegates to the Liberal convention parted at midnight last night after five long and strenuous sittings, devoted chiefly to the work of laying down the principles and policy for which the Liberalism of British Columbia stands.

It was a most remarkable convention. Assembled in what at first appeared the darkest hour the party has known in many years, it was distinguished from the outset by the sanguine spirit with which the delegates were imbued. The question as to whether the party should fight or not was answered overwhelmingly in the affirmative.

Not only, however, were the delegates prepared to go out against admittedly heavy odds, but they insisted on taking back with them to their several constituencies a platform worth fighting for, and, as we put it the other day, worth losing for. Counsels of prudence were scouted. Not whether the adoption of a principle would or would not win votes was the question, but whether the principle was a right principle. They were root-and-branch men, those delegates, and hesitated not at all in incorporating in their platform local option, woman suffrage, industrial insurance, the minimum wage and the eight-hour day, the exemption of improvements from taxation, and half a dozen other proposals all equally radical.

The Sun finds the platform to be progressive to that point of radicalism which all progressiveness, especially that of Liberalism, must be. It must be ahead of its time. Only when it fights the battles of the people is Liberalism really itself. Of its well-fought battles in the past the Sun says:

Liberalism in Canada never made a more glorious record than when in adversity, fighting against overwhelming odds for the rights of the masses. Liberalism under Papineau, MacKenzie, Brown and many others whose names have added lustre to the history of Canada and the traditions of the great party, broke up the special privileges of the Tory classes.

When the party fought the family compact and the privileges of Tory officeholders, when it combatted the pretensions of those who arrogated to themselves the functions of government and denied the popular rights to responsible government; then the Liberal party was living up to its best traditions.

Later, under its present leader, Sir Wilfrid Laurier, in 1896, it went to the country the champion of purity in the administration of public affairs and the advocate of progressive measures, denied the country by the government of the day, it swept into power and for sixteen years gave Canada the cleanest and most progressive government the country had ever enjoyed. It went out of power fighting for a principle—defeated by false cries and false appeals to racial and sectarian prejudices.

The people of Prince Rupert will be glad to find when they read the platform that Liberalism in the rest of the province is not dead, it is not even somnolent, but is a sleepless fighting force making for purity in public life, clean government and the protection of the people's rights. Rupert Liberals were proud of the result of their efforts at the last general election; they will be in the van of the fight in the present election.

WHO WILL GET MARITIME JOB?

Great Depot on Digby Island Will Be Ready for Operation This Month—Its Work is Mapped Out by Victoria Times.

When the large marine depot is ready for occupancy this month, says the Victoria Times, a new agency will be established there to look after the marine work in northern waters. At present all the steamers of the marine department operate from Victoria, but it is a considerable distance for the ships to travel before reaching the lights and buoys in the north. It is understood that the new tender Estevan will be operated in connection with the Digby Island depot, and that the Quadra and Newington will look after the work on the west coast and the inside passage as far north as Queen Charlotte Sound.

The great amount of shipping which is now plying in British Columbia waters has impressed upon the Dominion government the necessity of having more aids to navigation established in the north. During the late government's regime many lighthouses, beacons and buoys were placed at dangerous points, and the task of looking after the aids has become an immense one. In order to assist the regular vessels the department has been forced to charter the steamer Leebro.

It is not known who will receive the appointment as agent of the new depot at Prince Rupert.

STRANGE MEN INHABIT MARS

Most Learned Parisian Astronomers Make Drawing of a Martian Worked Out Scientifically. Has Big Head and Spindle Legs.

The Paris Matin publishes a drawing of a curiously misshapen person, given as an approximate representation of an inhabitant of Mars. The drawing is not one of unbridled, fantastic imagination, but is given on scientific observation by Edmond Perrier of the Natural History Museum and Camille Flammarion, the astronomer, who have collaborated on a book, giving the results of their observations of human organism found on the planet.

Perrier declares the temperature averages 42 degrees. The year is twice as long, birds have luxuriant plumage, and there are huge plants and ideal flowers. The picture shows a blue eyed, long nosed, heavy eared being with a huge head, bulky chest and spindly limbs.

Perrier declares the Martians are acquainted with the noblest delights of intellect, and with the most suave emotions of the soul.

The cost of the tour will be about \$300,000, the transport and hotel expenses absorbing about \$225,000. The choir has sung to crowded audiences in Canada, New Zealand and Australia, and if the receipts are equal to the expense the promoters will be satisfied. The youngest member of the choir is a boy of 19, the oldest a man of 72. Three of the choristers are circumnavigating the globe hatless.

The Time For Action

Is the Time When The Daily News Appears each day

The Statement

If you have a legitimate, clean-cut offering of any kind to make to the intelligent public, the consistent, judicious use of the advertising columns of THE DAILY NEWS will bring you money returns much greater than your expenditure.

The Reasons

THE DAILY NEWS is read largely in the evening when the minds of people are free from business cares and therefore responsive to good selling arguments.

THE DAILY NEWS appears early enough in the afternoon of the business and shopping day to notify everyone of what you have new to offer.

THE DAILY NEWS is for this reason the best possible medium for all real estate dealers, as it immediately attracts those on the lookout for "snaps" or permanent investments.

THE DAILY NEWS is concise and to the point. It is read by practically every intelligent and prosperous person in Prince Rupert and the northern part of this province. These men and women have money to spend and buy regularly where they receive satisfaction. Their patronage is the merchant's best asset.

The Proof

THE DAILY NEWS is being used by more and more merchants and other business men as an advertising medium. They find that their advertisements in this newspaper pay them handsomely. Many instances can be cited. Results follow advertising in THE DAILY NEWS.

GET A RED BALL AND TEACH YOUR CHILDREN MUSIC.

MRS. FANNY HUGHEY AND A CHILD LEARNING MUSIC BY THE COLOR METHOD.

Color music for children! This is the newest kind of music! Instead of being a dreary study in black and white, music is already rainbow tinted. It is Mrs. Fannie Hughey of St. Louis who has worked out this ingenious method of teaching. "A child at the age of 6 months can begin to associate tone and color," declares Mrs. Hughey. "The younger children are the more plastic their minds, and the more elastic their muscles; and vocal chords." Mrs. Hughey begins her musical work with children by telling a story. They are not placed at the piano. They sit about the teacher on cushions to make their first trip into music fairyland. "And the queen of the fairies clapped her wee hands and exclaimed: 'We will send those little earth children some singing birds from fairyland. Each little bird shall pass through our magic rainbow and wear a beautiful color.' So the queen waved her wand and out flew a red bird down into Jane's hand—here the teacher slips a red bird of cardboard into the child's hand—"and the little bird began to sing Do-do-do." The teacher sounds middle C and the child gazing at the red bird unconsciously fixes in mind the color and associates with it the C tone. The children visualize the colors readily, and sing and play the tones upon the piano.

BOWLERS MEET IN VANCOUVER SOLUTION OF NAVY QUESTION

Chance for Some of Prince Rupert Cracks to Win Prize Money Enough to Pay for the Trip and Then Some. Ottawa, March 2.—The negotiations announced a few days ago for the establishment of a line of fast steamships between England and Canada may be a solution of the naval problem which has been bothering the government for a long time. The ships proposed would, to a considerable extent, be convertible into cruisers in time of war. The Laurier idea of a Canadian navy has been abandoned, while there are objections to a contribution of dreadnoughts.

AVIATOR'S BIG FALL

Dropped Two Hundred Feet and Was Only Scratched. San Bernardino, Cal., March 2.—Aviator Harvey Crawford of Los Angeles fell 200 feet yesterday when his aeroplane became unmanageable, and marvelously escaped death. When 1,200 feet in the air the engine in Crawford's machine went dead, and the aviator began to volplane to earth. All went well until about 200 feet from the ground, when air holes were encountered and the machine fell. Crawford escaped with but a few scratches.

WINDSOR HOTEL CASE UP; CHARGE AGAINST WM. WRIGHT

CITY SOLICITOR PETERS SAYS HE MEANS TO PROVE STATUTORY OFFENSE AND ASK FOR CANCELLATION OF THIS LICENSE--OTHER HOTELS TO BE INVESTIGATED.

"That William Wright did unlawfully allow a prostitute named Marcelle to occupy a room, to-wit, room No. 23, in the Windsor Hotel for the purpose of carrying on her trade." So reads the amended charge against William Wright this morning.

Magistrate Carss showed a disposition this morning to refer the whole matter to the Board of License Commissioners for investigation of the charge. He argued that this is in terms of the Municipal Clauses Act.

City Solicitor Peters reads the act differently, arguing that the statutory offense must be proved against accused before the License Commissioners can act.

"I am going to prove the statutory offense," he said, "and ask for the cancellation of this license."

"This is not any spasmodic move to get after one man," added the City Solicitor. "The whole of these men are going to have their methods investigated to see how they conduct their businesses."

TORIES BOLT AT OTTAWA

Split in House on Manitoba Boundary Question, an Amendment Declaring Proposed Settlement to Be Unfair and Unjust.

(Special to Daily News.) Ottawa, March 7.—In the debate on the Manitoba boundary question yesterday Sir Wilfrid Laurier mentioned the separate school question, but did not discuss it. He moved an amendment that the terms were unfair, unjust, etc. Five French Conservatives bolted and voted for the amendment because in the government bill no provision was made for separate schools in new territory. The amendment was defeated by thirty-eight majority.

But not without some discussion. Considerable high feeling was exhibited at the acts of the old officers—Fred Ritchie, Ed. Clarke and H. H. McKinnon. The latter was the secretary, but had to leave for Porcher Island and himself appointed Ed. Clarke to act as secretary. Then the books of the association disappeared, and it was suggested that they got into the hands of Fred Ritchie and were taken below with him.

This betrayal of the association was bitterly resented by several speakers and a resolution was unanimously carried that the president and secretary be empowered to take legal steps against the McBride returning officer, Ed. Clarke, and against the secretary, H. H. McKinnon, for the recovery of the books.

As to Dr. Clayton, one of the charges was that as chairman of the Light and Water committee of the city he had cut off the light from the Conservative Club because the secretary, Ed. Clarke, had neglected to pay the light bill, it then being known that Clarke had funds in hand to meet this indebtedness.

The proceedings lasted to a late hour and were harmonious all the way through. There was some talk of a Prince Rupert candidate, but none will be announced until after the convention.

Letters to the Editor

Editor Daily News.

Dear Sir: On looking over the columns of your valuable paper of the 23rd February, 1912, I saw a letter headed "Warning to Canadians," and signed James Woram. I would like to state that neither the letter nor the sentiments expressed therein emanated from me. As the writer bears the same surname as myself, and as I am an employer of labor, it might be inferred that the ridiculous letter referred to was written by myself. My experience as a contractor for a great number of years in Canada has been just the reverse of my namesake's, as I have always found Canadian workmen smart, business like and civil, and have never had violence offered to me by workmen on any work that I have carried through.

I consider the remarks passed on Canadians generally by James Woram very uncalled for and liable to create ill feeling among Canadian workmen.

Trusting you will insert this letter in your valuable paper and that this may meet the eye of "James Woram." Your very truly, BENJAMIN WORAM, Davis & Woram, Contractors, Haysport, B. C.

PLANING MILLS ENLARGE PLANT

New Electrically Operated Machinery to Be Added to Equipment of Prince Rupert Planing Mills, Ltd.

Within the next month the Prince Rupert Planing Mills on Fifth street and Fraser is to be enlarged with new electric driven machinery into a fully equipped sash and door factory with double its present staff.

"The mill will be operated by city electric power and will be in position to handle very greatly increased business in house building materials," said Mr. Gordon Bain, managing director, to The Daily News today. "The firm's business has been running actively throughout the winter, and with the opening of spring we anticipate a growing demand for house finishing material, making this expansion necessary."

"The firm will specialize in this class of business—sash and door supplies, plate glass and all interior finishing materials as well as the other classes of material supplied hitherto."

"We shall continue our cabinet work department in charge of Mr. A. F. Knight, whose reputation for turning out first rate work is well known in the city. I am leaving for the south on Friday morning in connection with the new development contemplated."

REAL ESTATE

Mere mention of it brings to your mind the idea of Security.

It is the basis of all wealth; the foundation of all values.

The man who owns real estate owns something tangible; something that cannot be cornered and its price forced down.

Real estate in Prince Rupert is particularly desirable. It grows more valuable as the years pass.

Those owning Prince Rupert property are not only earning a good rate of interest, but the principle itself is growing as the property becomes more valuable.

I have some of the best "buys" to be found in the city. See these:
