Rode In Triumph

Their Majesties rode in triumph past Manhattan's towering skyscrapers to the thunderous acclaim of millions. The city forgot to be blasé from the moment their Majesties set foot on a 300-foot long red carpet at the Battery to their dramatic entrance into the World's Fair, the city's population gave vent to unbounded enthusiasm.

In Mining Districts

Encouraging progress is reported in other sections of the home field, particularly in Kirkland Lake, Ontario, where a vigorous congregation has been built up in two years. Rapid growth of the Val d'Or mining area in Quebec offers opportunities for service. Work in Newfoundland also comes in for favorable comment by the board and a new congregation is reported at St. John's.

Highlights at Washington

Undoubted highlight of the visit of the King and Queen to Washington was the meeting with members of Congress in the huge rotunda of the Capitol With the Queen at his side, smiling and genial, His Majesty shook hands with four hundred senators and members of the House of Representatives. The brilliant reception demonstrated anew the international pledge of friendship of the night previous at the state dinner tendered the King and Queen by President Roosevelt.

PRINCE RUPERT'S LOAN

It might be in order to point out to the two out of town correspondents who object to the loaning of forty thousand dollars to the city by the federal government that this money is loaned only for self-liquidating purposes. The money in question is loaned for waterworks replacements and, before the loan was granted, the city water rates had to be increased to a point where the income from that source would repay the principal and interest on the loan.

The publication of the notice asking for objections to the loan was intended for the information of ratepayers of the city and not for those residing outside the city. However, we are always glad to give publicity to discussion on public affairs if we think they have sufficient public interest and in every case we must be the judges of the public interest in any correspondence.

APPEASEMENT AGAIN

If the British government thinks it can appease Germany by negotiating any plan for handing over to them territory now under British control, it is mistaken. Brigands never could be bought off permanently. We also doubt if Britain has a right to hand back territory which it has taken over under mandate with the understanding that it would no longer be German territory. At any rate the people of those territories should be consulted before any action is taken.

SPEECH OF THE KING

All Canadians, we feel sure, will agree with the King when he said to the people of the United States:

"I pray that our great nations may ever in the future walk together along the path of friendship in a world of peace. I trust and believe that in the years to come the history of the United States will continue to be marked by that ordered progress and by that prosperity which have been theirs in the past."

UNITED STATES' VIEW

The reply of the President also needs emphasis when he said: "If this illustration of use of methods of peace, divorced from aggression, could only be universally followed, relations between all countries could rest upon a sure foundation and men and women everywhere could once more look upon a happy prosperous and peaceful world."

Junior Baseball Game Is Played

McClymont Park Wins Over Fraser Street By Score Of 19 to 15

DORIES ARE VALUABLE

Worth of Sturdy Craft Again Demonstrated in Sea Collision

GLOUCESTER, Mass., June 10: (CP)—The collision at sea between the Gloucester fishing schooner Edith C. Rose and the Boston schooner Isabelle Parker, with the loss of both vessels but only one casualty among the crews of 49 men, turned attention locally to the sturdy dories in which the fishermen rowed as much as 140 miles to reach land.

Both the Rose and the Parker were engaged at the time of the accident in what fishermen call "single dory haddocking." That term means that the boats were catching fish by the hook-and-line method, carrying crews of 20-odd men each, and sending out men in dories to set and haul the trawls while on the fishing banks.

It was these dories that averted serious loss of life after the collision. While there was a lack of food and water and no means of signaling in the little craft, the fact the fishermen travelled the open sea for 24 to 48 hours and for more than 100 miles before being rescued or reaching land is considered by Gloucester fishermen as a tribute to the seaworthiness of the craft.

The Gloucester fishermen's dory is a small, flat-bottomed, high-sided craft, sharp-pointed bow and stern, about 14 feet long for the single dory and a couple of feet longer for the double dory. It is considered one of the staunchest of small boats. It is true that occasionally one is swamped on the banks, but local fishermen say that has been due, almost without exception, to its being overloaded after hauling the trawl rather than to the sea or lack of stability of the boat.

Periodically has come the suggestion that dories be provisioned and carry water when they leave ship. During the World War a number of vessels were sunk by German raiders operating on the coast and doryloads of men were cast upon the high seas without sustenance.

Now, after this collision, the need is again emphasized by the survivors that something should be done to equip the dories better for such emergencies.

MARINER DEAD

SAINT JOHN, N. B., June 10: (CP)—Captain William R. Bennett, honored by the United States government on two occasions for rescue work in 1900 and 1901, died at the age of 77. He was formerly inspector of steamships and examiner of mates and masters at this port.

**Missionary Show
 At Seal Cove Is
 Very Interesting**

A missionary exhibition was held during the week at St. Peter's Church, Seal Cove, and proved very interesting. There was a wide variety of articles on display.

Mrs. G. A. Rix, assisted by Mrs. Priestley and Miss Elsa Heaps, acted as adjudicators for the various exhibits shown including the best dressed dolls for which prizes were awarded. There were also prizes for essays on the life of David Livingstone and for the best

arranged scrap books. The display of model African villages, one in Livingstone's time and one of the present day, was much admired. The special lighting effects were a feature.

Work done by boys and girls of St. Peter's missionary classes were also on exhibition and were creditably remarked upon.

Mrs. J. B. Gibson gave a brief talk on missionary work in the diocese as she declared the exhibition open.

**Requiem Mass For
 Mrs. Astori Draws
 Out Many Friends**

Many friends and sympathizers gathered at the Church of the Annunciation this morning when solemn requiem mass was celebrated for the repose of the soul of the late Mrs. Louis Astori sr., well known and highly esteemed pioneer woman. Rev. Father W. P. Lantagne celebrated the mass. Rt. Rev. E. M. Buno, Bishop of Northern British Columbia and Yukon, gave the address, eulogizing the saintly and exemplary life of deceased and expressing sympathy to the bereaved. Rev. Father A. Godfrey of Smithers also took part in the rites. Following the church service, interment was made in the Roman Catholic section of Fairview Cemetery with Father Lantagne officiating at the committal.

Palbearers were Theo Fortune, Louis Amadio, J. L. Blain, Thomas Trotter, P. J. McCormick and E. Pettenuzo.

Halibut Landings This Year Still Outstripping 1938—Cape Beale Has Brought in Most Fish So Far This Year

Halibut landings at the port of Prince Rupert for the 1939 season up to and including yesterday had reached a total of 5,752,700 pounds as compared with 4,453,150 pounds at a corresponding date last year. Canadian landings for this season aggregate 2,554,900 pounds in comparison with 2,175,750 pounds last season while the American total is 3,197,700 pounds as three trips, and Tongass third, against 2,376,400 pounds. The fact that so many additional smaller boats have been fishing for halibut this year both in the Canadian and American fleets is to large extent responsible for the increased landings. With the salmon season about to open, it is expected a considerable number of these boats would be withdrawing from the halibut fishery.

For the week ending yesterday halibut landings at Prince Rupert were a little over average at a total of 692,500 pounds of which 310,000 was from Canadian vessels and 382,500 pounds from American. Prices during the week were about average and there was little fluctuation. For Canadian fish the high price of the week was 6.5c and 5c paid the Alken for 14,000 pounds and for American 7c and 5.5c which the Baltic received for 18,000 pounds. Low Canadian price was 6c and 5c which a number of boats were paid while the lowest bid of the week for American fish was 7c and 5.5c which the National received for 20,000 pounds.

So far this season the Cape Beale, Capt. Edgar Arnet, as it was last year, has been the heaviest lander of halibut at Prince Rupert for the 1939 season, having brought in 78,000 pounds in two trips. Next was the Takla, Capt. Chris Parkvold, with 76,000 pounds in two trips and third the Joan W. II with 75,000 pounds in two trips. For the American fleet the greatest amount of fish has been brought in by the Yukon—75,000 pounds in two trips with the Explorer second, 73,300 pounds in

Seven is the greatest number of catches to be landed by an individual boat of the Canadian fleet, the little Tugwell having made this number of trips for a total of 18,700 pounds. Completing four trips have been the following boats: Congo, 7,300 pounds; Dickie Boy, 4,000 pounds; Essential, 30,500 pounds; Gony, 46,500 pounds; Kaen, 43,000 pounds; Relief, 45,500 pounds; Rose Spit, 49,500 pounds; Skeena M., 25,500 pounds; Signal, 65,000 pounds; Toodie, 38,500 pounds; Thrasher, 18,600 pounds; Viking, 48,000 pounds. For the American fleet the Visitor has landed the greatest number of catches—four for a total of 23,000 pounds. American boats having landed three trips are as follows: Augusta, 56,500 pounds; Betty, 46,000; Explorer, 73,500; Edgcombe, 37,000; Eleanor, 30,000; Frisco, 31,000; Galveston, 64,000; Judith, 28,500; Lorelei, 44,500; Middleton, 68,000; National, 33,000; Onah, 47,000; Oceanic, 50,500; Pierce, 34,500; Rainier II, 26,900; Star, 39,000; Sherman, 64,000; Teddy J., 43,500; Yukon, 75,000; Zarembo, 47,000.

Australia Has These Real Live Teddy Bears

"Cute" is a trite but altogether fitting word for this picture, showing a koala bear, native Australia "teddy bear," giving Junior a pick-a-back ride. Though many of the tiny bears abounded in Australia years ago, the government has been forced, lately, to prohibit their exportation in an effort to prevent their becoming extinct.

Card Party And Dance At Anyox Flavors Justice With Wit In C.B.

ANYOX, June 10.—A very successful card party and dance was held on Saturday evening by the Anyox Social Club. A good crowd was in attendance including sixteen visitors from Alice Arm. The hall was appropriately decorated in red, white and blue. The winners at bridge were: ladies' first, Mrs. T. W. Falconer; consolation, Mrs. W. F. Eve; men's first, W. R. Selby; consolation, W. Rudland. After supper, served by the committee, dancing took place with music supplied by Ward's Orchestra. The dance ended at 2:30 a.m. with the singing of God Save The King.

GLACE BAY, N. S., June 30: (CP)—It's close on half a century since the first "Good Morning, Judge" was directed at a tall man with a twinkle in his eye on the Glace Bay magistrate's bench, but A. B. McGillivray is still dispensing hearty justice from that same rostrum. As he heads towards his 81st birthday, "A. B."—his Christian names lie unused in some dim registry office—is perhaps the oldest active magistrate in the Dominion. He has been on the bench 45 years, and rarely has he missed a day in court in that time. The years have mellowed the sharp wit that often crackled like a whip across the ego of some unruly prisoner, but the legends of his judicial humor are still enough to bulge the covers of a sizeable tome. Never a gathering of Cape Bretoners is at the story-telling stage long before someone pulls out a new "A. B." anecdote. Here's a typical one:— A prisoner had just been found guilty of selling liquor. "Fifty dollars and costs," said "A. B." The prisoner reached behind him: "That's easy. I have it in my hip pocket." " . . . and 30 days in jail." His Honor resumed. "Have you got that in your hip pocket?"

TORY VOTE IS LARGER

Conservatives Did Better In Prince Edward Island This Year

CHARLOTTETOWN, June 10: (CP)—Declaration day figures revealed that more votes were cast for councillors in the Prince Edward Island general elections of 1935 than in the 1939 elections while this year assemblymen polled a slight increase. The aggregates showed that the total Liberal vote had fallen off from that of four years ago when they won all 30 seats in the legislature and the Conservatives polled an increase of more than 2,000 to gain their three seats this year. Because of the Island's unique voting system it was impossible to ascertain how many electors had marked ballots in the elections. In this province it was possible for one man and his wife to have cast 30 votes apiece if the man owned real estate of a certain established value in each of the 15 ridings in the province. Both he and his wife could deposit ballots for a councillor and an assemblyman in each district. An elector who owned no real estate could vote for the assemblyman only in his home district. Total vote for councillors in the province was 29,616 as compared with 39,423 in the 1935 contest. But assemblymen polled 46,518 against the 46,199 figures of 1935. Liberals polled 15,779 against 13,837 for councillors. Four years ago the Liberal margin was greater, the count being 17,626 to 12,807. The Liberal vote fell off and the Conservatives gained also in the voting for assemblymen. This year it was 24,585 for the Liberals and 21,933 for the Conservatives as compared with 26,736 and 19,463.

Mrs. Stan Saville and child returned to the city on the Princess Adelaide yesterday afternoon from a visit in Vancouver.

DOINGS AROUND OTTAWA HOUSE

(Continued From Page One)

is the use of the national credit in adjusting the mortgage burden and in providing facilities for refinancing mortgages in the future. The bill offers to the farmer mortgage debtor and the home mortgage debtor below \$7,000 in principal amount a reduction in the load which was assumed in many cases years ago under more favorable circumstances than now prevail. The companies which become members of the bank will be obliged to write off all arrears of interest with respect to such mortgages in excess of two years.

Secondly, the debtor will be relieved in cases where the mortgage debt exceeds eighty per cent of the value of the mortgaged property by the writing off of the excess over eighty per cent.

Thirdly, the debtor will be relieved of the adjustment of the future rate of interest on his mortgage in the two classes just mentioned, the rate of interest to be five per cent per annum and an adjustment in the length of the term of the mortgage.

This bill is far-reaching and will, I believe, be generally welcomed throughout the country.

Wheat Situation

For days on end during May the House listened to speech after speech after speech on the wheat situation. This came about by the introduction of four bills in connection with wheat, the most contentious one being that dealing with the wheat bonus. Most of the speeches were made by the Opposition members to the bill guaranteeing the bushel and limiting the guarantee to only one individual grower of not more than 5,000 bushels. The arguments put up by the Social Credit members from Alberta and the C.C.F. from Saskatchewan were truly amazing and one could not help but come to the conclusion that if the guarantee had been a \$1 per bushel the same arguments against the measure and of course the government would still have been made.

Later the House witnessed the spectacle of a Social Credit member, who had argued very strenuously for more bonus for the wheat farmers rising in his place and objecting to a bonus being paid to the fishermen on the Atlantic coast when a bill introduced by the Minister of Fisheries was being debated. All of which is truly amazing and likewise confusing.

The measure introduced by Mr. Dunning to raise 750 million dollars by way of a conversion loan to meet maturing obligations was opposed by practically all Social Credit members from Alberta on every occasion when the measure came before the House took time to air their theories on monetary reform. It was rather interesting to watch the moves of the Social Credit party and the C.C.F. group who seemed to be competing with each other

for prominence when this bill was before the House. When the Social Credit party moved an amendment to the bill asking that at least a portion of the 750 millions to be raised be free of interest but limiting the issue of such amount to 200 million dollars, the C.C.F. group then moved a sub-amendment. They were willing that the government issue 100 million dollars free of interest, such sum to be used this year for certain classes of public works but were unwilling to go as far as the Social Crediters 200 million. When the matter came to be voted on the sub-amendment of the C.C.F. was defeated on division.

The C.C.F., apparently, were not willing that a recorded vote be taken on this. Later on in the day the amendment offered by the Social Credit group was voted on and defeated 127 to 113, the C.C.F. and Conservatives voting with the government and against the Social Credit party amendment.

War Veterans Allowances

Since the amendments to the War Veteran's Allowance Act have gone into effect in April 1 of last year 7,717 ex-servicemen have been taken off the relief rolls. Under the act as it now stands the moment they suffer some physical disability, be it due to war service or to any other circumstances whatsoever which precludes them from following their ordinary employment, they become a charge on the Dominion government and receive \$20 if single and \$40 a month if married. The total now receiving war veteran's allowance number 20,910. This year the amount for war veteran's allowance is \$7,100,000 as compared with only some \$3,000,000 some three or four years ago. The minister estimated that some 500 ex-servicemen are being added every month to the numbers of those receiving war veteran's allowance. Under the new hospital arrangements whereby non-pensioners with meritorious service are given free hospital treatment the total number of applications since January of this year amounted to 2,636 of which number some 1,700 have received free hospitalization. After July 1 of this year the Appeal Court will be abolished. All final appeals will then be adjusted through the Canadian Pension Commission.

The visit to Parliament of Their Majesties, the King and Queen rounded out a session of historical significance.

They're Bushed In Africa, Too
But They Have Another Term For Loneliness of Hinterlands

CAPE TOWN, June 10: (CP)—Isolated farmers of Damaraland in South West Africa suffer from "bush balminess,"—"bushed" is the term in Canada's northland—according to former Bishop C. C. Watts, whose diocese, one of the largest in the world, is three-quarters the size of the Union. Dr. Watts said many of the farmers see no white people for years on end. "Bush balminess," therefore, is common. Affected persons manifest the condition by becoming depressed and sometimes violent. The bishop declared it is his custom while travelling, to take a long sleep as soon as he sights a lonely farm, because he knows the farmer will keep him talking all night when he arrives.

NEW AND BETTER
COLD CURED ICE
For the Halibut and Salmon Fleets
Following the investigations of the Fisheries Research Station, the Company has just completed extensive changes and improvements in ice storage and ice delivery methods.
Ice for the boats will all be old ice, thoroughly cured or aged at new low temperatures. It will be delivered into the hold, even in the hottest weather, as cold as the storage room.
Fishermen are invited to inspect the new system. Better ice than ever before, at no increase in cost, means economy to the boat and improved quality in fish delivery.

Aged Gardener On Digby Island Is Still Thriving
Oscar Anderson, aged truck gardener and beach comber, one of the colorful figures hereabouts, is still going strong on his place alongside the beach of Digby Island just beyond the marine station. Despite the lateness of the season, his potato, rhubarb and berry patches are flourishing and he looks for a good crop. Anderson was attracted to the spot twenty-nine years ago when he worked on the construction of the marine station and has lived there ever since.
