TRAGEDY UNLIKELY

Lawyer Island Incident Believed to Have Been Patrol Plane Dipping Among Fishing Vessels

Opinion was expressed by the provincial police yesterday afternoon that what the steamer Princess Charlotte reported as apparently an airplane coming down on the into the sea near Lawyer Island outside of Prince Rupert Harbor may merely have been a fisheries patrol airplane of the Canadian Airways, which is operating in the district, dipping over a fleet of salmon gill net vessels which are fishing in that vicinity. Investigations which were made following the Charlotte's report failed to reveal any indication of a tragedy. The keeper of Lawyer Island light reported that the only plane he saw in the vicinity was that of the fisheries patrol swooping over the salmon fishing boats. The pilot of the fisheries patrol plane, which was in Prince Rupert yesterday morning, is C. G. Ballentine.

An Interesting Visitor To Office On Midsummer Day; Passes Up Editorial Nuts

There was an interesting visitor in the Daily News office yesterday. And he did not happen to be a tourist either. He was a bonafide resident of the hillside back of the office—a cheery, little brown squirrel. Apparently, he had scampered up the outside wall at the back and popped in through an open window on the bright sunny day.

Our little friend made himself quite at home. He popped around the various rooms and ran right into the editorial office. Not liking the kind of nuts he saw around the sanctum, he flicked his tail and head saucily, looked around some more and, in as nonchalant a manner as squirrels may have, departed by the way he had come.

Maybe he went up to Ross Ingram at the Thrift Cash and Carry or Jack Mussallem at the Economy Grocery to see what kind of nuts they had up there.

He was a welcome visitor to the office, fitting nicely into the wonderful summer day when everybody was feeling that nature was indeed grand. We hope he comes up again to see us some time.

The scheme was criticized mildly as being too late to have much effect on the situation.

PRETTY WELL SO FAR

The British government has done pretty well so far in keeping all of us out of war. Every move and apparently every thought has been to prevent an armed conflict which would embroil most of the world. The thing is so awful to contemplate that it is no wonder world leaders have been worried and even those of us who know only what we read and hear have done our bit of worrying at times. Very few people in Canada want to see a war and very few people in England want war. We also believe that very few people in Germany or in Italy want war. The danger has been that the European leaders would involve their people by some rash act. We do not know that the government-controlled newspapers of Germany and Italy have been saying some very nasty things about British public men and have been boasting of what they intend to do. This does not make for peace in spite of what anyone may say to the contrary. Both Hitler and Mussolini have been very provocative and only the forbearance of the British and French has prevented a collision.

Mr. Chamberlain is said to be taking a holiday in Scotland and yet we hardly think he has shut

himself wholly away from a restless world. He is never far away from the receiver of a telephone or from a telegraph office which can reach him in a few minutes at the most. It is a terrible life to lead with the whole weight of an empire on his shoulders.

BRITISH NOT JITTERY

We are told that Germany today has two million men under arms and that those recently called for manoeuvres have been retained under arms in case they should be needed. Yet in spite of this the British people enjoyed their August holiday as usual yesterday and many people went for brief trips to France, Belgium and other countries. They evidently feel confident that everything possible is being done to prevent war and that, if it comes, they are prepared.

HARVESTING CROP

Canada has just commenced to harvest her wheat crop. Manitoba, as usual, leads in this work and all the indications are that the crop will not be as large as was expected. Heat and drought has been too much for the crops in some parts of the prairies. Possibly, the huge crop which had been expected would not have been good for the country.

RARE PICTURE OF GANDHI IN A PLAYFUL MOOD

Mahatma Gandhi, seldom pictured in a happy mood, is in a playful frame of mind as he walks along the seashore at Bombay, jabbing his walking stick into the back of an urchin, who insisted upon leading the Mahatma's procession. Both the Mahatma and the boy seem to be enjoying the joke. On the right of the 69-year-old leader of India is the woman who is soon to marry his grandson.

On The Gyro Playgrounds

With the continuation of fine weather, swimming classes at Morse Creek were resumed yesterday and a fair number of young people were in attendance. Instruction was given informally beginning with diving for a few of the older boys and concluding with individual attention to the younger children who could not swim. The progress of three or four of this younger group who previous to the beginning of these classes were not able to swim, merits the time spent by the instructor.

For the first time in the history of Prince Rupert, tennis coaching for younger enthusiasts commenced yesterday as another activity in the program of the Gyro supervised playgrounds. A promising number of would-be players were given the fundamentals of the game by Neil Ross who, with his past experience, makes a very competent instructor. Mr. Ross stated that a larger attendance is desired but that too great a number would prevent his giving the individual attention which he believes to be necessary.

SOFTBALL EXCITING

Moose And Three Two Taxi Winners Last Night

Moose defeated Lipsett's by a score of 11 to 10 in an exciting Senior Softball League game last night. In the second game of the evening Three Two Taxi won over Acropolis 11 to 3, the game being featured by a home run in the fifth inning by Ray O'Neill for Acropolis with one on board. A large crowd of fans, under ideal weather conditions, turned out to see the games.

Lipsett's took an early lead with three runs in the first inning and five in the second to one and two respectively by Moose who added another pair in the third. Then there was no scoring until the fifth when both made two runs. In the seventh the Moose went to work and, by the time the smoke of battle had lifted, they had scored four runs to give them the victory by the odd run.

Three Two proved too consistently strong for the Acropolis Hill boys who, nevertheless, put up a characteristically valiant fight and were never discouraged until the end.

Two Small Mills At McDames Creek Getting Results

Gold Operations in Liard Mining District Giving Good Returns So Far

Word received from the Liard mining district is to the effect that a ten-ton mill taken in by the McDames Creek Mining Co. on the property formerly under bond by the Consolidated Mining Co. and thrown up by them is doing well and good results are being obtained from surface ore.

Another mill of similar size is installed on Quartz Creek, across the valley from the other. It too is setting good returns. The mills were taken in by airplane from Carcross.

The Barringtons are operating a drag line outfit on placer claims on Boulder Creek in the Liard district but the work is difficult owing to the rough ground on which they are operating.

Must Move Museum From Over Library

It is quite possible that the museum collection may move from its present site in the near future. When several tourist vessels are in port at one time the upstairs rooms where the museum is now located is apt to be crowded. While there is no immediate danger, a limit is placed on the number of visitors who are allowed in the room at one time.

The present proposal is to have the museum moved to a vacant store opposite the Prince Rupert hotel alongside the old Westholme Theatre. It is understood the theatre building is to be taken down to the corner would then be more or less isolated.

The Museum Board would like to have a new building but just now does not seem to be an auspicious occasion for raising seven or eight thousand dollars. The matter will be before the board at its next meeting.

TOPICS FOR DISCUSSION

Prince Rupert Will Provide Quota For Associated Boards At Prince George

At a meeting of the council of the Prince Rupert Chamber of Commerce held in the city hall last night with President J. T. Harvey in the chair it was decided to forward to the Associated Chambers of Commerce meeting at Prince George a resolution asking for a reduction of telegraphic tolls. The trade and commerce committee was responsible for the resolution. It pointed out that rates from Vancouver were much lower than from Prince Rupert and all they asked was to have the rates made the same as Vancouver.

Another resolution going forward was one emanating from the radio committee which asked the Canadian Broadcasting Commission either to establish a new station in Northern or Central British Columbia or else to bonus a private station and provide it with all the commission programs.

Another resolution which will come before the Associated Boards of Trade is one urging encouragement in the settling of the interior both through the opening up of the land and also through encouraging capital to open up and develop industries.

Completion of the highway into Prince Rupert as a defence measure is also likely to be discussed at the convention as one of Prince Rupert's contributions to the program.

It was reported by the president that an effort would be made at the meeting to have the organization join the Associated Boards of Trade of British Columbia but the local Board is opposed to that, preferring for the Central Boards to remain a distinct entity dealing with the problems affecting them, particularly, rather than merging with the rest of the province.

Keep up to date. Advise regularly.

IF LONDON SHOULD BE ATTACKED BY GAS . . .

This gas-mask sentry crawling from the sandbagged parapet of his post is fully equipped to cope with any attack that might be launched on London, and were the capital of the empire swept by gas in a new war, his uniform would be standard equipment. He is pictured in action during air raid precaution demonstrations stage 1 at Wellington barracks by the Coldstream and Grenadier Guards. No brilliant uniforms and glittering parade ground display here; this is the outfit in which war is waged.

Whifflets From The Waterfront

Commander Donald Arriving This Afternoon — Salmon Fishing Is Holding Up On Skeena — Big Schooners Land Catches At Seattle.

Lieut. Commander C. D. Donald is due in Prince Rupert this afternoon with H. M. C. S. Skidegate from Esquimalt. Lieut. Commander Donald is in charge of the Fishermen's Naval Reserve unit and is here to visit the local fishermen, many of whom took training with the unit at Esquimalt last winter.

Sockeye fishing on the Skeena and Naas Rivers continues to hold up well and the pink fishing is quite up to expectations considering that this is an off year.

Six western vessels from Area No. 3 marketed halibut catches at Seattle yesterday as follows: Eagle, 49,000 pounds, Booth, 9 1/2 and 9; Columbia, 40,000, McCallum, 9 1/2 and 9; Omaney, 40,000, Whiz, 9 1/2 and 9; Alten, 49,000, Sebastian, 9 1/2 and 9; North, 40,000, Washington, 1 1/2 and 9; Addington, 5,000, New England, 9 1/2 and 9. Yesterday also saw the first catches of halibut from Area No. 2, incidental to cod fishing landed in Seattle as follows: F. C. Hergert, 8,000 pounds of sable fish at 4 1/2 c; 1300 pounds of ling cod at 2c, 800 pounds of red cod at 3c, 1000 pounds of halibut 9c, McCallum, Reliance, 5,000 sablefish, 4 1/2 c, 100 pounds halibut, 8 1/2 c.

Frozen halibut holdings on July 15 this year totalled 8,800,000 pounds as compared with 9,700,000 pounds at the same date last year, according to the United States Bureau of Fisheries, this being in spite of higher prices for this year's production.

Work of tearing down the old Cannery of the Canadian Fishing Co. at Butedale is proceeding. A new reduction plant is to be built where the cannery now stands and a new cannery will be built.

Union steamer Catala, Capt. James Findlay, is expected back in port at 6:30 tomorrow morning from Stewart, Anox and other northern points. The vessel was at Wales Island this morning and is now at Anox. She is due at Mill Bay in the Naas River at 6 o'clock this evening and at Arrandale at 6:45 p.m. She has to load 5,000 cases of salmon at Arrandale.

Coastwise Steamship & Barge Co.'s steamer Amur, which was to have called here to load the Consolidated Mining & Smelting Co.'s assay plant equipment, which is being removed to Trill, did not put in here after all but is now south of Prince Rupert on her way from Stewart to Tacoma.

Light Rates In Seattle Are Reduced

SEATTLE, August 8: (AP)—The City Council passed a rate reduction ordinance today which will cut electric light bills of city light customers an average of 45 cents a month, beginning September 1.

The city-owned light and power service estimated its customers would save about \$200,000 a year. Customers of the Puget Sound Power & Light Company, a privately-owned corporation, which first announced a rate reduction, also will receive a similar power rate cut September 1. The corporation's rate cut will be state-wide, with an estimated savings to customers of \$7,000,000 a year, it is said.

The new low rates in Seattle will be 4 1/2 cents for the first 40 kilowatt hours, compared with 5 cents; 2 cents for the next 180 kilowatt hours, compared with 2 cents for the next 200 hundred and 3/4c for each kilowatt hour exceeding 220 compared with the former figure of 24c.
