"There'll Always Be An England" Makes Spectacular and Impressive Entertainment

An outstanding entertainment which greatly pleased an audience completely filling the Capitol Theatre and necessitated would-be patrons being turned away was the performance under the general title "There'll Always be an England" presented Sunday night under the auspices of the Canadian Legion in aid of the Canadian Red Cross Society. It was a gratifying announcement made by the chairman, George W. Cripps, that there will be a repeat presentation next Sunday night for the Christmas Cheer fund for local troops. This will enable those who were disappointed at not being able to get entry Sunday night to enjoy the show as well as affording the opportunity to many who will probably wish to see it

The first part of the program featured a skit "A Day in the Army" presented by a party from the First Battalion of Irish Fusiliers. This was of burlesque nature, depicting the ludicrous antics of an awkward squad. Presenting a variety of talent it proved very amusing and put I the big audience in happy good humor. Individual numbers included la banjo solo and bass vocal.

The tableau "In Flanders Fields," investigations of blasts which which opened the second part of the destroyed life and property at program, was one of the outstandthree explosives manufacturing ing features of the whole show. It plants in the United States today was impressively presented in will be undertaken immediately shadowy darkness with only a single by the Federal Bureau of Investi- , glimmering light from a large white gation. ### COLDS

### Don't Upset Stomach By Drastic Dosing

Taking strong medicines into the stomach for colds may add to the misery by upsetting digestion. That's why 1 out of 3 Canadian mothers treat colds externally with Vicks VapoRub.

Just rubbed on throat, chest and back at bedtime, VapoRub acts on the skin like a warming poultice and -at the same time-gives off soothing medicated vapours that are breathed direct into the irritated air passages. Often by morning most of the misery of the cold is gone.
