## GERMAN INSPIRED RADIO

Imperial Oil Once more we feel it our duty to warn radio listeners Angus Apartments against German-inspired broadcasts. Only a few days Moose ago we were told by some American broadcasters that the Canadian Scottish Balkan nations were taking such action as would throw their whole weight to Germany in the present war. Brit ish and Canadian broadcasters did not carry the story and now it develops that just the opposite is true. Roumania Qualified For has taken such action as will cut Germany off from many supplies from that country.

# TOO MUCH TO REALIZE

The number of British victories over the Germans at erham United qualified for the first the week-end was so great that it was hard to realize how round of the English Football Cup much had happened. The big thing was the clearing out vesterday by defeating Doncaster of Narwik and the sinking of Nazi destroyers there; the Rovers one to nil in a replay follanding of British troops in Norway to aid the Norwegians in repelling the invaders and the mining of all the German coast in the Baltic Sea as far as Lithuania. Ther there was the sinking of troopships and the shutting ofi of food and oil supplies from Germany by Roumania. Any 16: (CP)-Remembering a whale one of these events would have been very important if that entered Fish Hoek Bay two happening alone. In the aggregate, the British advantages have been so great as to be almost unbelievable.

### VOICE FROM BERLIN

The poor little voice from Berlin denying that Great Britain had done anything and inventing fictitious victories to Hitler's forces seems rather a sad affair. To think that the only way the great German nation can win is by.' lying is not pleasant even for her enemies to contemplate. There are splendid men in Germany but they are, evidently, led away by the deceit of a leader whom they profess to adore. We can only wonder what will be the reaction when the Germans really learn the truth.

# A SMART PASTIME FOR SMART GIRLS!

HERE are more girls and women cycling today than at any time since Kirkpatrick Macmillan invented the bicycle in Dumfrieshire, Scotland, one hundred years ago. That is why we say "Cycling is a Smart Pastime for Smart Girls".

Hollywood actresses started cycling to keep slim and to keep fit and they found it such fun they kept on riding. Soon the younger set at fashionable seaside resorts followed suit. Then college girls and school girls took it up. Right now all over the civilized world, cycling for exercise, pleasure and travel is the smart thing to do.

Have you ever stopped to realize how much pleasure and good exercise you and some of your friends could have cycling? Why not talk it over and then visit your nearest C.C.M. dealer and choose a smart C.C.M.? C.C.M. Ladies' bicycles are available in a variety of colors to match your sports ensemble. Then with your new smooth-riding and easy-running C.C.M. Bicycle you and your friends can have many glorious seasons of cycling-hikes, jaunts, picnics and personal transportation of the most flexible and inexpensive kind. Ask your dealer for a catalogue.
