AIR RAIDS ON LONDON ARE HEAVY

Enemy Continues Intensive Attack Without Regard To Objective —Incurable Hospital Is Demolished

LONDON, Oct. 9:—Although it is not so long as some have been, the Nazi air attack staged with renewed fury and intensiveness on England last night was regarded as the most violent. One hundred and two different areas were visited, thirty-eight in London on which the assault was, as usual, concentrated. Next in bearing the brunt were points down the Thames River and on the south- and southwest coasts.

The attack commenced soon after dark and increased in intensity until midnight, after which it died off, becoming fairly quiet. Incendiary and high explosive bombs were dropped. One bomb was dropped into the site of a London hospital containing 108 patients, the most of them elderly and incurable people of eighty years of age. Three wards were entirely demolished and the rest of the building laid in ruins. Not a single person escaped death or serious injury, it is reported. Nurses as well as patients were killed.

An air raid shelter containing persons was directly hit and at least eight were killed.

The town on the east coast was bombed and machine gunned. Dropping below the clouds, one bomber flew low above the rooftops in London to engage in the method of attack.

Two attempts to raid Liverpool were driven off by fierce anti-aircraft fire.

Three German planes were brought down over Great Britain yesterday in the course of fierce raiding, the Air Ministry announced.

Today's Attacks
German raiders, hidden by clouds, attacked London in mid-morning and again this afternoon, so alarms this afternoon being the 187th and 188th of the war.

Flying in loose formation to make the city's growing anti-aircraft defence, as many as a dozen biplanes were counted over London at one time this afternoon in continuing the attack on the capital. The sun had cleared away clouds that hid the raiders during the first daylight attack.

Late in the afternoon a few bombs were heard in London while a German raider, caught in a full anti-aircraft blast, was broken to pieces.

In raids apparently aimed directly at the coast, two or three raiders striking at one southern town were shot down. The town residents said that the Germans turned machine guns on buses, trains and pedestrians, killing three persons before they were shot down.

Official Statement
According to the official communiqué, summarizing overnight bombings, explosives smashed an air raid shelter, housing 160 persons and three wings of a hospital housing 108. In addition to the eight killed in the shelter, an undisclosed number of others were injured.

The bombed hospital was described as possibly the hardest hit building in London where the raiding went up to midnight was reportedly the severest the city has undergone. Three wings, two housing men and one women, mostly over eighty years old, were crumbled and it was feared none escaped death or injury. Damage and casualties were reported from 102 sections of Britain. Thirty-eight of the areas were in London which again bore the brunt of attack.

Would Give Canada to Uncle Sam

INVASION IMMINENT

There Should Be No Slackening in Vigilance, Declares Churchill

LONDON, Oct. 9:—In the course of his speech before the House of Commons yesterday, Prime Minister Winston Churchill declared that the danger of a German invasion attempt was by no means over. He said a force of 1,200,000 Nazis were massed for such an invasion and back of them 500,000 more. There should be no slackening in vigilance.

WARNING BY DUCE

Says Axis Powers Ready To War On United States If Gauntlet Is Thrown Down

ROME, Oct. 9: (CP)—Premier Benito Mussolini's newspaper Il Popolo d'Italia declared yesterday that Germany, Italy and Japan are ready to go to war with the United States if Washington should reject Rome-Berlin-Tokyo axis' mutual "living space" offers and prefer, instead, to "throw down the gauntlet."

The paper's military commentator said that the axis had already tolerated many United States violations of neutrality and "winked at" United States acquisition of joint naval and air bases "in tribute to the principle of vital space" as long as they were confined to the American continent but talk of including Java, Singapore "and even Dakar" made the axis warning necessary.

JAPAN NOT AIDED ANY

Churchill Fails To See Where Nippon Benefits From Pact

LONDON, Oct. 9: (CP)—The tripartite pact between Berlin, Rome and Tokyo, declared Prime Minister Winston Churchill in his speech to Parliament yesterday, cannot be considered favorable to Japan. It is difficult to see how Germany and Italy can assist Japan as long as the British and United States remain intact. The Prime Minister wondered if there were not some secret clauses in the pact.

ARE ACTIVE OVER REICH

Royal Air Force Continues to Hit Hard and Effectively at Enemy Bases

LONDON, Oct. 9:—The Royal Air Force was again successfully active over enemy territory in one of the greatest British counter-offensives from the coast into the Reich.

The invasion coast between Calais and Boulogne was again dotted with fires.

Extensive damage was done at Bremen, Hamburg and Wilhelmshaven. The Krupp munitions works at Essen, a Fokker airplane manufacturing plant at Amsterdam and oil refineries at Hamburg were attacked. Elsewhere naval dockyards and industrial plants were struck. Many points in western Germany were visited by the Royal Air Force bombers but there was no attack on Berlin last night. Lorient on the Bay of Biscay was also visited.

Official Statement
Tons of high explosive and hundreds of incendiary bombs were dropped last night on the vital German seaport of Bremen, the Air Ministry announced today. Concentrating on military objectives, Royal Air Force bombers ranged over Bremen and the naval base at Wilhelmshaven as well as inland German cities and towns, also badly battering Channel ports.

The attack on Bremen lasted for more than a half an hour with the Royal Air Force time and again unloading showers of bombs. The air was filled with debris from explosions and fires broke out.

Oil refineries at Gelsenkirchen and Hamburg, the Krupp munitions plant at Essen, metal works at Hanau, power station at Kiel and Fokker aircraft factory at Amsterdam were raided, the official statement said. Several Nazi airbases were attacked.

All British aircraft returned safely from the raids as the furious battle for supremacy of the air continued.

ISLAND NOT IMPORTANT

However Great Britain Is Not Letting Challenge Go Unheeded

LONDON, Oct. 9:—While the British government does not consider Liu King Island, where a summer naval base has been maintained by Great Britain, as of any particular strategic value, it will not surrender its right following the landing of Japanese forces there, it is stated. In spite of some evacuation, the intention is to maintain a naval contingent on the island a ten-year renewal of lease on which was recently granted by the Chinese national government of General Chiang Kai-Shek, which renewal the Japanese government refuses to recognize.

MALTA IS SMILING

Survey Of Bombing Damage At Naval Fortress

VALETTA, Malta, Oct. 9:—Since Italy entered the war on the side of Germany against Great Britain, Malta has been subjected to 150 air raids but, in the words of a neutral correspondent, "is still smiling." Two hundred persons have been killed, 400 wounded and 700 rendered homeless. Some of the homeless are living in caves which the crusaders occupied.

During the first month of the war the air raids averaged eight daily and in the second, four. Since then they have been fewer and on some days there have been none.

The cost to the Italians of these attacks has been 35 planes and 46 pilots.

The Italian planes keep at an altitude of 18,000 to 20,000, rarely risking dive bombing.

Bridging the Gap - - -

The position of Canada not only in the British Empire but as a world power in constantly improving. Here is what one American speaker says of us: "Canada has become, as never before, the mighty bridge of a better understanding and a warmer sense of kinship between the British Empire and the United States. You are bridging the gap which certain superficial differences have created between Englishmen and Americans. Yes, superficial indeed, as we now know, but sufficient in times past to cause needless irritations and absurd suspicions. It is given to you to bring about the mightiest and most enduring friendship in the history of nations. If you can do that it will be the noblest achievement of any country in modern times. Did I say 'if'? You are doing it by word and deed, by your superb and unquenchable loyalty to Britain and by your daily acts of friendship to America."

"If ever a nation deserved loyalty it is Britain now. She has won such a loyalty as she has never had before—loyalty from her sons and daughters throughout the Empire, from her kinsmen and friends in America, from men and women throughout the world who want to remain or pray to become free. They know that if Britain lives, freedom lives."

"The British people once again are the pioneers of human liberty. The Mother Country of the English-speaking nations is leading the way to a better world. It is your and our privilege to be in her company, to share her burdens, and with her to fight the good fight."

A Lesson We Have Learned

Listen further to the American voice: "We in America can never quite repay our debt to the British people in this war. And that is not only because they are hurling back the Nazi barbarians day and night while we get ready. More than that. They have taught us again that democracy can be tough; that democracy can summon from its people a supreme devotion more lasting than a ruthless fanaticism begotten of cruelty and lies; that democracy can make a better world than any system, however efficient, which buys so-called 'material progress' at the price of the Gestapo and the degradation of the human spirit. They have taught us that we are fighting a classless war, a war of the plain people, a war of the little homes, a war for those simple decencies without which life is not worth living. And they have taught us in America that the English and Scotch and Welsh peoples today are not our ancestors but our contemporaries, our neighbors, our friends, the same kind of men and women as we are."

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach, you get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk. A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.
