SANDBAGGING OF THE PASTOR IS STILL A DEEP MYSTERY

Rev. Warren H. McLeod Was on His Way Home From a Rehearsal at Mrs. Chisholm's

WAS IT A VENGEANCE FOR HIS SERMON?

Popular Pastor Spoke Very Plainly the Sunday Previous of Conservative Orgy in McIntyre Hall and Liquor Abuses Generally ---Street Gossips Connect Two as Grounds of Suspicion

Today the activities of the police force were concentrated on investigation of the reported sandbagging of Rev. W. H. McLeod, who lies at the general hospital suffering from the effects of his ugly experience. Able to speak and think more collectedly and coherently than he could last night when only half-conscious as a result of his injuries, Rev. McLeod was inclined to the suspicion that he had, if sandbagged, been the victim of some one perhaps resenting the strong statements he made on Sunday relative to liquor. Mr. McLeod could not imagine any other motive for an assault upon him, nor can any one else. The pastor of the First Baptist Church is one

of the most popular men in Rupert. Mr. McLeod, as far as his memory served him today, recalled the moment of his leaving Mrs. Chisholm's house after a rehearsal. He remembers thinking the night clear. He was aware of footsteps approaching behind him as he gained the street. The steps suddenly quickened, and turning with an instinct of self-protection, Mr. McLeod was in the same instant conscious of a sudden shock—a blow he thinks. Then all was dark until in a hazy way he recalls being picked up and helped from the muskeg where he had fallen onto the sidewalk. Mr. McLeod is loth to accuse any one of sandbagging him, but the circumstances as he recalls them are as stated.

City Clerk Woods, who happened to be passing Mrs. Chisholm's house at ten minutes past 10 or so, just when Mr. McLeod was leaving there, recalls having seen a man in the neighborhood who might have come up behind Mr. McLeod. The figure of the man was seen only indistinctly in the darkness by the city clerk, but his footsteps were clearly heard on the board walk. Frank Bratt, who at twenty minutes past 10 was first to find

MARINE DEPOT IS FINISHED

Contractors Have Only a Few Minor Matters to Clear Up Now.

RESIDENT ENGINEER GOES

Mr. Jennings Returns to Marine and Fisheries Department at Ottawa.

F. P. Jennings, the resident engineer of the Digby Island marine depot, left on the Princess May this morning for Victoria, where he will spend a few days and then report for duty at the Department of Marine and Fisheries, Ottawa. Mr. Jennings has finished his work, but that of the contractors is not quite completed, there being several minor matters yet to fix up. It will probably be ready to turn over to the government and be placed in operation, he says, about May 1st.

Mr. Jennings was born in London, England, spent some years in railway engineering work and came to Canada in 1905 to the engineering office of the Department of Marine and Fisheries at Ottawa. He made the original survey for this marine station, which was projected as one of the largest and best equipped in the Dominion, and also prepared the plans.

He again expresses himself as particularly pleased with the work of the contractors, especially so in regard to the construction of the wharf. He says the reinforced concrete pillars supporting it are a new feature on this coast, although used in the old country for a number of years.

LAND GRABBING

How McBride Is Conserving the Land for the People.

Harry Eastman was in from Porcher Island today and said that recently a party of would-be settlers from there went to Banks Island for the purpose of staking land for pre-emption or purchase. When they arrived at the government agent's office in this city they were informed that sixty thousand acres of the best land on Banks Island had been granted to one company.

PORCHER ISLAND SETTLERS REGISTER A BIG, BIG KICK

HAVE TAKEN OUT LICENSES FOR HAND LOGGING BUT HAVE FOR COMPETITORS UNSCRUPULOUS JAPANESE WHO HAVE NO LICENSES.

The settlers on Porcher Island are being badly treated if their accounts be true, and there seems to be no reason to doubt them. They are unable to make a living on their land at present and in the off season make a little money in cutting wood. To do this they take out licenses. But they are up against a lot of wood cutters who do not trouble to take out licenses or to map out ground for cutting. They have represented the outrage to Captain McCoskrie, the local timber inspector, but without having obtained even a recognition, so they have taken the course of getting up the following petition:

Prince Rupert, B. C. March 13, 1912. A. D. McKay, Esq., Chief Timber Inspector, Vancouver, B. C.

Dear Sir: We, the undersigned, being on the voters' list and for the most part having pre-emptions on Porcher and Lewis islands, wish to enter a strong protest against the laxness which allows the Japanese to cut cordwood and piles.

Practically all the cordwood and piles are used by the canneries and their managers are continually giving contracts to the Japanese for same. Owing to natural conditions it is impossible for us to secure a living from our pre-emptions and as a result it is necessary for us to work out part of each year.

Should a white man wish to cut cordwood or piles it is necessary to secure a license from the government. Not so the Japanese, who are being allowed to cut and carry away cordwood and piles unmolested, notwithstanding that we have been informing the assistant timber inspector, Captain McCoskrie, again and again with no results.

We beg to inform you that the settlers are indignant and are considering the advisability of calling an indignation meeting to discuss this flaring abuse. We also beg to inform you that we shall make it our business to seize all unlawfully cut piles and cordwood through the provincial police if not through your department.

Trusting you will give this important matter your immediate attention and issue instructions to Mr. McCoskrie how to act we remain,

Yours respectfully, Leonard Bentley, John Warner, Harry List, John Oliver, Wm. H. Harrison, John Dazie, Louis Locker, Ed. Normann, Wm. Noel, Harnes K. Fremann.

RECORD RUN OF RED DEVIL

Imaginary Blaze at Central Hotel Extinguished in Minute and a Half—May Result in Reduced Insurance Rates.

One of the smartest fire brigade turnouts ever achieved in Rupert was managed yesterday afternoon at about 5 o'clock. The surprise drill was quietly arranged for the benefit of Mr. R. Trumbull of the American Union Fire Insurance Companies and was planned at the request of J. Lorne McLaren of the Mack Realty Co. An alarm was rung in suddenly from the Central Hotel. In one minute and fifty-five seconds thereafter streams of water were pouring onto the building. It was a record turnout and gave satisfaction to the fire insurance expert.

Windsor Hotel Case Evidence of Two New Witnesses Not Taken—Adjourned Again.

Two new witnesses, Malcolm McArthur and Robert Doyle, were called for the prosecution in the Windsor Hotel case today, but as their testimony concerned a period some time back and not that charged their evidence was not taken. The court now awaits the appearance of J. H. McLean, who resided in the hotel continuously during the period in question. His evidence will be taken on Monday, the case standing adjourned until then.

LEEBRO SAFE AT LANGARA

Report Regarding Lumber Found Jetsam Points to Trouble for Another Vessel.

Last night the William Joliffe returned to Prince Rupert from Langara Island with good news of the Leebro. The vessel is safe discharging cargo at the island for the lighthouse. What vessel cargo of lumber the 30,000 feet found on the east coast of Graham Island may have belonged to is not yet ascertained, but the report sent to the wireless station by Captain Wearmouth of the John and acted upon as promptly as possible by the provincial government authorities was of course a perfectly bona fide one.

Relatives of those on board the Leebro rendered anxious by the perfectly correct and legitimate news that the provincial government authorities here had attached sufficient weight to Captain Wearmouth's report to send the William Joliffe in search of the Leebro have no further cause for anxiety.

Neither have they any cause for complaint against any newspaper alive enough to the public

DAILY EDITION.

FRIDAY, MARCH 15

PLENTY OF CANDIDATES TO CHOOSE FROM.

Every man with political ambitions knows that to be the sole representative of a great constituency such as this, with the coming world-port as its metropolis, will be a position of unique importance. Had there been the redistribution of seats the rapidly increasing population has the right to demand there would have been two members to elect from the Prince Rupert and Skeena district alone, with members for the vast district beyond Hazelton, for the Portland Canal district and for the islands and the coast to the south. But to follow out such a just course must of necessity have meant an increase in the opposition to the Two-Man government, and these monopolists of political faith and liberty schemed to avoid this. They schemed also to defeat any honest and direct representation of the people by giving insufficient time for the scrutiny and correction of the padded voting lists.

However, that is an evil that cannot be remedied at this election and, as we started out to say, the citizens of this constituency have four candidates to select from. The most interesting point in this is that there are two Conservative members, both loyal supporters of the McBride government which the people generally desire to see defeated or at least curbed in its capacity, but who are at issue to the death in regard to the local representation to that government. There is plenty of room for a choice between them and the man who thinks cannot possibly make a mistake.

Of William Manson we all know. He has earned a high reputation here, as high as that of Charles II "who never said a witty thing and never did a wise one." Locally he is known as the silent servitor of a political machine. It has even been suggested that by sending a proxy to the legislature instead expense might be spared and just as much good for Prince Rupert secured. The other Conservative candidate, Dr. Clayton, has shown some manhood and ability as an alderman. It is manhood that counts with the people and they showed their appreciation of the stamina of the Clayton brand by again returning him to the council. Dr. Clayton declares that if elected he will loyally support the McBride government BUT—and this is a but that will make all Conservatives in this constituency pause and consider.

"I have a strong objection to the great Conservative party being made the tool of a petty clique who use it merely for their own selfish ends. I ask every loyal Conservative who has the real interest of his party at heart to stamp out utterly on the 28th the ring rule which has cursed the party for the last few years."

There is some backbone in that. It rings true, honest and independent. It costs something to declare one's self openly and defiantly against a secret political monopoly. The man with the bravery to do it can be absolutely sure of popular admiration.

News was received here yesterday that Dr. H. C. Young, the provincial secretary and minister of education, had been returned for Atlin by acclamation. One of the old-timers of Atlin, who knows the difficulty of reaching there over the ice from Log Cabin or Carcross this time of the year, says the fact that there was no other nomination saved the government at least \$18,000, that being the sum spent at the previous election in shipping voters at \$5 a day to support the McBride candidate.

The whole community was shocked this morning by the horrible sequence of events. Rev. Warren H. McLeod on Sunday apologized to his congregation in McIntyre Hall for the stench to which they were subjected because of the orgy of Manson's supporters in the hall the previous evening. Last night the popular pastor was sandbagged and was this morning in the hospital.

Platform of the Liberals of British Columbia

—Adopted at the Vancouver Convention, March 1st, 1912—

- Free Lands for Settlers—None for Speculators.**
We emphatically condemn the McBride government for its connivance at the evasion of the land laws by persons, syndicates and corporations, who have been allowed to obtain millions of acres of the choicest accessible public lands, which are held without use and to the detriment of the province as a whole.
We hold that agricultural land should be disposed of only on such conditions as will ensure its continuous use and occupation.
Free homesteads to actual settlers. Holders of pre-emptions to be given benefit of this provision.
Advances to settlers on easy terms to assist in land clearing, dyking, irrigation and other permanent improvements.
Surveys of all accessible agricultural lands to be rapidly completed, and survey sheets and all necessary information to be made easily available to the public.
Settlement in block to be encouraged by the removal of reserves, which scatter population and greatly increase the cost of roads, schools and other necessary facilities.
No public land for the speculator.
- Transportation.**
The immediate construction of a railway to Peace River.
We will co-operate with the Dominion government in securing all-rail connection between the railway systems of Vancouver Island and the railway systems of the mainland.
The construction of a line owned by the government to give direct communication, by the best route as to grades and distances, between the Similkameen and other interior points and the coast.
We favor the husbanding of the Provincial credit to assist lines that will open up new territory.
Provincial credit and resources not to be wasted in paralleling existing lines.
No land subvention to railways beyond what is necessary for railway purposes.
Abolition of the system of giving away Crown lands for townsites free of taxation and under railway control.
Aid to railways not to exceed what is reasonably necessary to secure construction.
The prevention of over capitalization of railways.
The Province to co-operate with the Dominion in aiding railway and highway construction.
All franchises for the construction, operation and ownership or leasing of government-aided roads to be open for public competition.
Freight, passenger and express rates and telegraph tolls of all government-aided roads to be under the jurisdiction of the Dominion Railway Commission.
With a view to meeting the demand for the transportation of grain from Saskatchewan and Alberta, the immediate construction of government-owned elevators.
The people to control the railways, and not the railways the people.
- Timber.**
We condemn without reserve the wholesale disposal of timber lands to speculators, which has been the only timber policy of the present government.
We advocate the survey, cruising and valuation of timber lands by the government before alienation, and the disposal of all such lands by public competition to actual users.
Improved methods of preventing timber waste and systematized reforestation.
Hand loggers licenses to be granted where conditions demand.
- Public Protection in Respect to Coal.**
Coal lands not to be alienated, but leased under conditions to be fixed periodically by the legislature.
Wherever practicable and necessary government operation of coal mines to be at once undertaken with a view to reduction of existing prices.
We insist upon the appointment of a royal commission to investigate the present exorbitant coal prices.
- Practical Education.**
We condemn the present educational autocracy of the government.
We recommend the appointment of a representative advisory board in educational matters, such as exists in all other provinces.
The present school curriculum is so overloaded with subjects as to render thorough education in any branch impossible.
We advocate an increase of manual and agricultural training and domestic science teaching, and the establishment of an efficient system of technical schools.
The present school system bears unjustly on settlers in unorganized districts, and should be immediately remedied.
- Representation.**
The government's policy as to revision of the voters' lists and precipitating the present election without a proper redistribution of constituencies is a complete subversion of all the privileges of representative government.
We favor personal registration and insist on immediate redistribution.
We favor woman suffrage and personal property taxes, and the raising of the exemption of income limit to \$2,000.
- Taxation.**
Abolition of the poll tax.
Exemption of improvements on all lands paying taxes to the Provincial government.
A readjustment of the system of taxation whereby the Province may receive a fairer proportion of the unearned increment.
Immediate reform of the present costly, cumbersome and inequitable system of collecting school taxes in unorganized districts.
- Labor—Workmen's Compensation Without Litigation.**
A Provincial department of labor to be created, and a free government labor bureau established.
Thorough and frequent inspection of all industrial premises to ensure health, sanitation and safety.
The complete prohibition of child labor in factories and shops.
The present system of employers' liability insurance bears heavily upon employers, and is a frequent source of injustice to workmen and their families. We advocate the establishment by the government of a permanent industrial insurance commission, independent of politics. This commission to have full charge of a system providing positive compensation to employes for injury received during employment, without recourse to litigation, and giving employers the benefit of accident insurance at minimum cost.
The extension of the scope of the Workmen's Compensation Act, so as to cover all hazardous employments.
The payment of wages should be made at least fortnightly.
- Oriental Immigration.**
We unhesitatingly condemn the hypocrisy of the Provincial government as evidenced by its refusal to re-enact its own remedy—the Natal Act—on the ground that it would embarrass the Conservative Dominion government.
We stand for a "White British Columbia," and advocate continuously increasing stringency in immigration laws until this result is attained. The Liberals of British Columbia are in favor of the total exclusion of Orientals from the Province.
We insist that the Provincial authorities shall enforce strict sanitary regulations in all congested districts.
- Extension of Municipal Powers.**
Increase of local control in municipal matters.
Election of license and police commissioners by popular vote.
- Public Ownership of Utilities.**
We emphatically declare our adherence to the principle of public ownership of public utilities, and advocate limitation of terms of franchise to corporations, renewing the same, if in the public interest, in equitable terms.
- Local Control of Liquor Traffic.**
The liquor traffic of British Columbia is at present under the absolute control of the Provincial government, and is used by it as a political machine.
We insist upon the complete removal of the liquor question from party politics.
The control of the traffic should be vested in municipalities, or, in unorganized territory, in locally elected authorities.
We favor a local option law.
In the protection of the public we insist on frequent inspection of liquor offered for sale.
- Public Accounts.**
We denounce the McBride government for withholding year after year the public accounts from examination by the Public Accounts Committee.
We advocate the organization of an auditor general's department, independent of the government.
- Fishery Control.**
We advocate immediate steps to restore the fishing industry to white fishermen.
The protection of British Columbia fisheries from foreign poachers.
The adequate policing of Canadian waters.
- Protection of Water Supply.**
We condemn the shortsighted policy of the Provincial government in alienating the timber lands on watersheds tributary to cities, towns and municipalities. It should be the immediate duty of the government to remedy the mischief caused by this mistaken policy.
- Torrens System of Registration of Title.**
The present system of land registration is expensive and cumbersome. We advocate the adoption of the Torrens system of titles, and a reduction of registration fees.
- Non-Partisan Civil Service.**
We favor the organization of a civil service commission for both inside and outside services.
Appointments to the civil service should be based on fitness, and not on partisan service.

REPRESENTATION OR MIS-REPRESENTATION

At the present time there are thousands of citizens who have made application to be placed upon the voters' list and are morally entitled to vote at the present election. These people, owing to the action of the government in forcing the election with such extreme haste, are deprived of their right to vote.

There are thousands of names upon the voters' list of people who have died or have removed from the districts in which they are registered. A number of revising officers have refused to comply with the provisions of the statute in respect to removing the names of persons objected to, and for this reason it has been found impossible to purge the voters' list of the names of voters no longer entitled to remain thereon.

The provisions of the present election law which allow persons to vote anywhere in the district in which they are registered render it impossible to prevent repeating and personation at elections. The provincial government has enacted legislation which has and will benefit promoters, corporations and speculators to the extent of hundreds of millions of dollars at the expense of the people at large. It is in the interests of these promoters, corporations and speculators to contribute immense sums of money for the purpose of securing the return to the legislature of such persons as will support the government from whom they receive such favors.

Under the provisions of the statutes in respect of crown lands, timber leases and licenses, coal and petroleum licenses and liquor licenses, and in many other respects the ministers of the Crown have the power to injure seriously those politically opposed to them, and correspondingly favor those who support the government.

A large majority of fire wardens, provincial police, license commissioners and inspectors, road superintendents and road foremen are political appointees of the government, and are actively engaged as electioneering agents on behalf of the government.

Immense sums of public money which are annually expended in public works are directed with the view of securing political support rather than to secure the maximum of benefit to the public.

The present basis of representation has no regard to area, interests or population and is inequitable. Present conditions favor personation, bribery and corruption. For the above reasons it is impossible to obtain a fair, unbiased expression of the wishes of the people at an election.

We no longer have representative or responsible government in the province.

The Liberal party demands a thorough revision of the voters' list, a proper and immediate redistribution of representation, the division of constituencies now electing more than one member of the legislature into separate electoral districts, giving to each district one representative, the division of electoral districts into polling districts so as to effectually prevent repeating and personation, and the extension of the franchise to adults, irrespective of sex.—Vancouver World.

JOE BAYLEY.

The above is a characteristic attitude of Joe Bayley, which many of his old time friends of this city will recognize. He will meet Pat Scott at the Kaien Island gymnasium next Thursday under the auspices of the Prince Rupert Athletic Club to contest for the lightweight championship of the northwest. Both men have made their deposits with the secretary of the club, so there is little fear the fight fans will be disappointed.

WHO OWNS THE SOUTH POLE?

Question Puzzles Authorities on International Law—Necessary to Occupy and Possess Land Discovered Besides Plant Flag.

The question of whether Norway owns the territory surrounding the South Pole, which has just been discovered by Captain Amundsen, already is being discussed by authorities on international law.

Ever since 1778, when Captain Cook's expedition planted a flag in the Antarctic, explorers of various nations have carried their flags to various parts approaching the South Pole. It is generally believed the land in the Antarctic will be regarded in the same way as the Spitzbergen archipelago, which is inhabited by men of various nations and now is regarded as a joint possession of all mankind.

John Bassett Moore, professor of international law at Columbia University, points out that leading authorities have taken the position that discovery alone does not suffice to give good title to a new unoccupied land and that the customs of the nations for centuries has crystallized into a

part of the law of nations that in order to perfect the right given by discovery it must be followed by general occupation.

Professor Moore says that the task of occupying the territory surrounding the South Pole undoubtedly will prove more difficult than its discovery and that it was extremely unlikely that the question of ownership would ever be brought up to the joint commission of arbitration for settlement.

M'NAMARA FREED

Evidence Insufficient to Hold Alleged Bank Robber.

New Westminster, March 8.—Word was received here today that John McNamara, alias "Australian Mack," was discharged in New York, where he was arraigned for the nineteenth time before United States Commissioner Shields for extradition on the charge of looting the Bank of Montreal here of \$258,000.

The motion of McNamara's attorney for his discharge was not opposed by the British government because of lack of evidence.

WHO DO YOU WORK FOR?

Do you have anything left for yourself at the end of the month, or do the grocer, the butcher, the baker, the coal man and so on get it all?
If so, then you are living wrong. Did you ever think of the soil as an avenue of escape from this high cost of living?

Buy a few acres of land where you can raise your own vegetables, and some to sell besides; where you can supply your table with poultry and eggs, where you can grow your fruit, where you can have a cosy home in the fresh air and sunshine, with no rent to pay.

This spring is the time to act. See me about 160 acres on Porcher Island. \$15 per acre. 2,000 ft in the Bulkley Valley, \$7.50. Let me write in your next Insurance Policy.

The Only Way to Obtain What You Wish Promptly is to Send a Want Ad. After It

Reasons Why Wm. Manson Must be Defeated

- 1. The growth and prosperity of Prince Rupert is being hampered and retarded by the attitude of the McBride government in direct opposition, in order to serve the interests of the rival port of Vancouver.
2. That Prince Rupert can raise no voice of protest so long as she is represented in the legislature by the silent and obsequious William Manson.
3. That the said Silent William did once or twice gently purr in mere explanation of what this city was seeking from the legislature, but never sufficiently loud to wake up any other member of McBride's huge majority.
4. That even on Prince Rupert matters he always voted with the government.
5. That when a respectful petition was sent to him asking when the government wharf would be completed he never brought the matter before the house at all, and that this matter was brought directly before the house by the Liberal representative of another constituency, H. C. Brewster.
6. That with an able and energetic Liberal from Prince Rupert in the house, such as is Mr. Alex. M. Manson, the Liberal nominee, this city might shame the monopolists of political representation into giving at least a certain measure of justice.
7. That the Silent William never brought before the house the subject of the sale of government lots in Prince Rupert, but in default gives us his interpretation of what the premier is alleged to have said, namely, that the government was in the real estate business good and hard and as it had passed laws exempting taxation on these lots it could hold them without expense until the people had made them enormously valuable, and the people could go to.
8. That the Silent William is alleged to have presented a petition from the people of the city for a government wagon road around Kaien Island, and that as an anti-election statement he is now promising the road will be built, but he whispers in an aside that he does not know the amount of the appropriation.
9. That these are the things the Silent One claims to have attempted to do in the interests of this city.
10. That what he ought to have done and which he didn't even try to do would take from now until election day to enumerate.

To the Electors of Prince Rupert:

I had intended at first to retire in the event of a Liberal being nominated, but the dissatisfaction against the ring rule within the Conservative party is so widespread that I think it only right that those Conservatives who cannot conscientiously endorse the candidature of William Manson should still have the privilege of voting Conservative, and I will therefore remain in the field. I have no quarrel with the McBride government and will loyally support it, but I have a strong objection to the great Conservative party being made the tool of a petty clique who use it merely for their own selfish ends. Do not allow the ring to persuade you that Mr. Manson is the only man whom the government will recognize. We saw how Mr. Manson stood with the government when a deputation was sent to Victoria to press his claims for a cabinet portfolio. They would have none of him and they had tried him before. If elected I have no fear of not receiving full recognition from the premier, especially as I will have no personal axe to grind, but will work solely in the interests of my constituents. I ask every loyal Conservative who has the real interest of his party at heart to stamp out utterly on the 28th the ring rule which has cursed the party for the last few years. Remember, if Mr. Manson is elected the ring will claim a victory and it will be useless to attempt to dislodge it. Yours faithfully, WILLIAM BARRETT CLAYTON.

WHAT A ROW AT THE FIRE HALL

Poor Acoustics Prevail in the Temporary Quarters of the City Fathers. REGULAR FEAST OF DIN City Solicitor Peters on the Phone Alone Able to Cope with Rival Noises.

With praiseworthy patience the public spirited citizens of Prince Rupert attend at the various public meetings held in the building at present used as the city hall. They are there at the council meetings and they were there at the license court yesterday. They are there, but what good does it do them? Eyes have they, and they see what is going on as in a dumb show. Ears have they, but they hear not a word of what is spoken. Even for the members of the press, close by the board, hearing is hard in the hollow sounding fire hall, even the members of the council themselves can hardly make out what is said.
