LONDON, December 10 (Canadian Press)—A Bremen airplane factory, a Nazi naval base at Lorient and docks at Boulogne were heavily bombed by the Royal Air Force last night.

FIRES started along the French coast could be seen from the Kent coast today and were still burning fiercely.

ONE GERMAN fighter was shot down by a British bomber.

LONDON, Dec. 10: (CP)—A great fire was started by British night air raiders among buildings between two dock basins in the German-held port of Bordeaux.

Salvation Army Annual Appeal On Behalf Of Local People This Christmas

Christmas time, which should be the happiest period during the whole year, is quickly approaching once again. Many, because of favorable circumstances, will once again be able to enjoy the good things which are so closely associated with the festive season.

THIS IS NOT mainly a Salvation Army appeal. The Army is but the means whereby, not only in Prince Rupert but in all parts of the world, sorrow has been turned into joy because of the parcel of foodstuffs that has arrived at many needy homes on Christmas Eve.

THE REGULAR annual appeal for the Salvation Army Christmas Cheer and Winter Relief Fund is being conducted this year again and we trust that it will receive a sympathetic and liberal response.

CONTRIBUTIONS may be either left at or mailed to the Prince Rupert Daily News office or mailed to the Salvation Army, Prince Rupert. All donations will be publicly acknowledged.

ST. BARNABAS' CHURCH WRECKED BY NAZIS

Southampton, great southeastern port of England, has been the target of repeated bombings by the German raiders. In the so-called "Hell's Corner" of England, it bore the brunt of bomb storms before the Germans began the business of "demolishing" London.

Keep Up Sports . . .

With all the soldiering and war work in Prince Rupert we suggest that it is a splendid thing to keep up our regular sports. Many of the boys not old enough to join the army are keeping fit by playing games. Others for various reasons the army will not take. They also need to keep fit. Those who may not have joined the army for reasons of their own or are awaiting the call for the Air Force need to keep fit. We should all be ready and willing to encourage the playing of games if only for the value it is to the men in the army.

The Squeeze On Italy . . .

The Financial News summarizes the present condition of Italy by saying: "It may be an unholy sentiment to cherish, but we suppose that most people who have an instinctive liking for fair play and the doing of things in a half-way decent manner, share a deeper sense of satisfaction over the hastening miseries of Italy."

"President Roosevelt gave the Italian policy of war-making, in France's extremity, a name which will live as long as Italian history. He called it a stab in the back. Mussolini hoped to buy a cheap conquest, an almost free ride on the chariot of the Hun.

"Well, Il Duce miscalculated on the stuff of which the British people are made and now she is being remorsefully starved of economic sustenance.

"Italy, presumably, shared in the loot of France, but what France had in the things that Italy chronically needs will not last the Axis partners long and it may be presumed that Germany has doled out Italy's share with a niggardly hand.

"Eighty per cent of the commodities essential to life in Italy are normally imported. The British blockade of the Mediterranean, more effectual than ever as British craft hoves close to Italian shores challenging Il Duce's navy to come out and fight, is gradually threatening the whole Italian war effort with collapse.

"It is almost out of the question, now, for Graziani's army to go on a great offensive from Sidi Barrani, in Egypt. His supplies have been practically cut off and his stores reduced by constant air raids. The new British base in Crete, plus the victory at Taranto, give the Libyan forces only a slim chance of going on with a full scale campaign.

"Inexorably, the British squeeze in the Western and Eastern Mediterranean tightens on Italy, and the longer it is maintained, the lighter will be the British losses in the final military showdown in Egypt.

"That Italy alone, despite her vastly superior numbers, can dispose of Greece this winter is to be doubted. Italy's best alpine warriors, specially trained for a year to attack Greece, were decimated by the mountain fighters. Her best Spanish war veterans and her plumed Roman Bersaglieri have had to fall back before the tough fighters of little Greece. Now the Greek passes are snow-covered and Italy has no troops that can storm them in winter. After five more months of British blockade, will she be in any better shape to fight Greece?

"Germany might intervene and her aerial might would change the picture, but, regardless of the consequences, the Greek Islands are doubtless in British hands for the duration of the war—and Crete is 400 miles closer to Italy than was Alexandria.

"If Italy should cave in this winter, the naval strength that Britain could divert to the Atlantic and the troops that could be put into Greece and the Near East to support Turkey's resolute stand would have a profound effect on the course of the war."

QUIET DAY
IN LONDON

Long Lull Followed Heavy Strafing Sunday Night by Royal Air Force

LONDON, Dec. 10. (CP)—Sunday night's prolonged attack by Nazi bombing planes on London was followed by a day without alarm and throughout last night the capital and whole country were still undisturbed in spite of fine clear weather. The first air raid alarm of the day came early this morning.

Britain was pleased but puzzled as more than twenty-four hours passed without alarms or reports of bombings.

The Press Association speculated that the lull might be caused by the Royal Air Force's blows at Germany or by Germany strategy of massing its air force for a heavy blow later.

Warning was given by a London newspaper today of a new type of parachute bomb which the Germans are said to be about to use. The missile is a sheet metal cylinder bound with wire. While not large, it has high fragmentation powers.

BANGOR, Maine, December 10 (CP)—State game wardens are waging a determined campaign against poachers illegally slaying the Whitetail deer, the state's last real big game animal.

Explanation In Connection With Letter Is Made In Legislature At Victoria

VICTORIA, Dec. 10. (CP)—R. L. Maitland K. C., leader of the Opposition, in the public accounts committee of the Legislature last week, explained that the name of M. M. Connelly, M. L. A. for Omineca, had been linked in mistake with a letter before the committee which made certain charges. E. T. Kenney, M.L.A. for Skeena, chairman of the committee, dubbed the charge as foul after which Mr. Maitland explained that Mr. Connelly's name had been incorrectly linked with the letter.

SPORTS

Basketball Buzz

The Petersburg basketball party, which arrived in Prince Rupert at noon yesterday for its series with Savoy's of Prince Rupert tonight and tomorrow, consists of the players averaging twenty-one years of age and all former High School stars of the Alaskan town. The line-up is as follows: Les Nygren, captain and centre; Normal Heindahl, Lloyd Pedersen, Vernon Heindahl and Bill Johnson, forwards; Robert Concannon, George Nicholson, Dave Ohmer and Bob Elkins, guard, and Maurice Rumsdahl, centre. The first string and starting line-up comprises Nygren, Norman Heindahl, Pedersen, Concannon and Nicholson.

SPOKANE IN LEAD

Shuts Out Vancouver and Displaces Lions From Top of Pacific Coast League

VANCOUVER, December 10 (Canadian Press)—Spokane jumped into the lead of the Pacific Coast Hockey League last night by displacing Vancouver with a four to nil shut-out victory over the Lions.

The Pacific Coast League standing to date is as follows:

	W	D	L	F	P	Ts
Spokane	7	2	4	32	30	16
Vancouver	7	1	6	44	36	15
Seattle	5	3	5	42	45	13
Portland	5	0	9	37	44	10

basketball in Seattle and Portland respectively.

The visitors do not carry as much height as the Savoy's but look like they might be somewhat faster and possibly more accurate from a scoring standpoint. There are indications, however, that it will be a close game.

According to what was being said this morning Lieut. Walter Johnson will turn out this evening for the Savoy's. This will be Walter's first game this season and, while he may find himself slightly out of condition, there is no doubt his presence will be a welcome addition to the home squad. Unfortunately, Bob Houston will not be able to reach the city from his military duties for tonight's game but he will be on hand for tomorrow night, it is definitely stated. Bob, leading defence man here for the past two seasons' will be missed tonight. He is looking better now than ever.

There will be two games, the Intermediate Booth Memorial High School team meeting the Young Men's Christian Association opener.

Letter Box

PARCELS LOST OR DELAYED

Editor, Daily News:

You will recall that on November 20 I wrote you in regard to the question of the delivery of mail to troops overseas, pointing out that a large volume of mail was on board the C. P. R. freighter "Beaverford," recently sunk in the Atlantic. It may interest you to know that there were 11,000 parcels of tobacco, intended for soldiers, on board this steamer.

A further instance of "unavoidable" delay in the delivery of overseas mail has just come to my attention. The cover of an item of mail matter received on November 29 by an officer of the Department has been submitted to me and the date stamp shows that it was mailed at a Field Post Office in England on October 17. The letter was included in the mail placed on board S. S. "Beaverhill" which left England 18 October. This steamer was subsequently attacked by the enemy and was forced to return to England for repairs, upon completion of repairs the steamer sailed again and arrived in Saint John at 5:00 a.m. on November 28. Delivery of the mail on board, as shown by the item in question, was effected in Ottawa on November 29—43 days after date of mailing. I have brought these two recent

cases to your attention, in order that you may have some definite examples of the problems which arise and render it difficult to provide an uninterrupted mail service under present day conditions. During the week ending November 23, some 162,120 letters, 60,640 parcels and 324 bags of news were handled in the Base Post Office, Canada, for despatch to overseas troops.

Man in the Moon

Everybody would like to see the city go ahead but they think it's somebody else's job to do the pushing.

The man who has not an enemy in the world has possibly outlived them all.

In a large hospital when a post mortem is to be performed the doctors all gather to hear the lecture that follows. Word is passed around. In one hospital they page Dr. Mortimer Post as the least objectionable way of letting them all know of the coming event.

Overcome all your fears by actions. They generate while you sit still.

Don't forget that while Prince Rupert is crowded with soldiers the navy still remains the senior service and should be the first mentioned such as "Navy, Army and Air Force."

We should be much likelier to succeed if we spent less time wishing and more time working.

Alberni is talking about establishing a civic centre to be used as a sports centre, military centre and social centre. Prince Rupert also has been talking for a number of years. I bet on Alberni.

A motorist dropped in at a village inn for a drink. The oldest inhabitant was just finishing his pint so the stranger bought him another. He swallowed it at a gulp. He was given another and a third. Each time it went down in one.

"Do you always swallow pints like that?" asked the stranger.

"Aye, sir, ever since my accident forty years ago."

"What was that?"

"Why, sir, I 'ad a pint knocked over."

WARNING INFLUENZA

To be Forewarned is to be Forearmed

With the possibility of influenza again becoming epidemic in British Columbia, the Provincial Board of Health calls attention to the following:—

People are very much given to underrating the effect of this disease and to regard it more as a common cold.

Remember, first, that it is very infectious, and you owe it to yourself and to your neighbors to do everything to avoid catching it; and—

Secondly, if you do catch it, that your duty to your neighbors is to prevent them from catching it from you.

It begins as a common cold, headache, pain in muscles, chills, feeling of cold in the head, soreness of throat, fever.

PERSONAL PRECAUTIONS

The germ of the disease is transmitted by:—

- (1.) Droplets of spray from loud talking, coughing, and sneezing.
- (2.) Through drinking and eating out of utensils improperly cleansed.
- (3.) By direct contact.

NOTE—The mild cases are as dangerous for spreading as severe ones. More even, because a man with a mild case comes in contact with a greater number of people.

(4.) The carrier plays a larger part in the spreading of the disease than is realized. Therefore

AVOID CROWDS

(5.) There is no vaccine against influenza.

If attacked by the disease, keep warm, send for the doctor, and keep the other members of the family out of the room. If the children complain, keep them at home, and remember, if care is not taken, that the after-effects of the disease are the cause of the deaths.

Isolation of the Patient will prevent the Spread of the Disease

GENERAL RULES

1. Avoid needless crowding; influenza is a crowd disease.
2. Smother your coughs and sneezes; others do not want the germs which you would throw away.
3. Your nose, not your mouth, was made to breathe through; get the habit.
4. Remember the three C's: "A clean mouth, clean skin, and clean clothes."
5. Open the windows, always at home at night; at the office when practicable.
6. Your fate may be in your own hands; wash your hands before eating.
7. Don't use a napkin, towel, spoon, fork, glass, or cup which has been used by another person and not washed.

British marines are shown drawing huge sponges and wire brushes through one of the big guns of an English battleship following the bombardments of Forts Capuzzo and Bardia recently.
