LONDON, June 1: (CP)—Canada's Memorial to the dead of the First Great War on top of Vimy Ridge has been smashed to pieces in deliberate bombing attacks by the Germans, according to British Tommies who have returned from Flanders. An eyewitness said that Nazi planes, after destroying the memorial with their bombs, returned later and bombed British, French and Canadian military cemeteries in the vicinity, blasting the tiny crosses to fragments and wrecking graves. Commentators said that the raids served no military purpose.

If we can only show the same superiority on land we have won the war. It is estimated that we have now as many trained avaitors as Germany or very nearly as many. The United States and all the countries of the Empire are shipping in what planes they have on hand which will replace those lost in the Belgian trouble. Very soon we shall be ready to meet Germany on an equal footing, even though she has the help of another ally. If Italy goes in, so may Turkey and Greece, so we shall be no worse off.

Italy's Position

Everything points to the possibility of Italy joining; Germany and yet it seems contrary to nature. The Italians look on the Germans as barbarians and they have always been friendly with Great Britain.
