### DISMISSED CASE AGAINST MAN WITH SKELETON KEYS

MAGISTRATE CARSS FINDS EVIDENCE INSUFFICIENT TO UP-  
HOLD CHARGE OF THEFT AGAINST FRANK WILSON, BUT  
WARNS HIM SEVERELY—HE WILL LEAVE RUPRET.

Frank Wilson, charged with stealing a gold watch and chain, a bottle of perfume and several small articles of value from the residence of Mrs. Valpy, was up before Magistrate Carss this morning. Evidence that he had keys in his possession which would open the door of the premises supposed to have been robbed. These keys were upon him when he was arrested, and Constable Merritt said they were skeleton keys. Anyway, they opened every door in the court house, even Chief Vickers' "safe deposit."

The Valpys identified the watch as their sister's. Asked if he wished to say anything, accused said he had come to Prince Rupert in June, 1911, from Seattle, Wash. He had got a job on the Grand Trunk as news agent, which he quit in order to better his position, but he did not get the position he expected. However, he got intermittent work to do. This was the second time he had been pulled in, he said, with no adequate reason for it. He gave his name in full as Francis Wilson.

After considering the evidence Magistrate Carss decided that there was not sufficient to convict and dismissed the case, warning accused in severe accents.

The City Solicitor asked that Wilson be told that if he do not at once leave Prince Rupert he will be liable to deportation. In broken tones Wilson said that he seemed up against it, not able to secure steady work. He promised to leave Rupert as soon as he could.

### QUEBEC LICENSING

What is Good for City Might be Good for Province

(Special to Daily News.)  
Quebec, March 23—Premier Guoin in the House yesterday announced that if the plan of reduction of liquor licenses in the city of Quebec was good, he did not see why it would not be good for the whole province, and hinted at legislation to that effect.

### The Crutchfield Case.

William Crutchfield, against whom there is an unsavory charge, appeared again today before the magistrate. His case was further adjourned.

### THEY GOTTA QUIT KICKIN'.

Mayor Newton: They gotta quit kickin' my Empire aroun'.

William Manson: They gotta quit kickin' my record aroun'.

Joe Belliseo: They gotta quit kickin' blin' pigs aroun'.

Bill Bailey: They gotta quit kickin' us barkeeps aroun'.

Magistrate Carss: They gotta quit kickin' my judgments aroun'.

### Tom Paid.

Tom Andrews was this morning fined \$5 and costs for the usual d. and d. charge.

### TO START WORK

Silver Standard to be Fully Opened Up This Season

Angus Stewart left on today's train for Hazelton, to start up work on the Silver Standard mine. A large amount of development work is to be done with the hope of being ready to ship as soon as the steel reaches New Hazelton. Mr. Stewart will remain for a while to supervise the work.

### Sureties Renewed.

Nick Rocovich appeared in court this morning to have his sureties renewed, as his case is further adjourned pending the return of Judge Young.

### APRIL SEES G. T. P. BOATS WITH NEW TRIPS TO MEET NEW TRADE

INCREASE OF BUSINESS IN GROWING COAST PORTS ADJOINING  
PRINCE RUPERT WARRANTS MORE FREQUENT SERVICE—PRINCE JOHN TO BE OIL BURNER NEXT.

Increase of traffic between Vancouver and the smaller ports of the British Columbia coast has aroused the officials of the G. T. P. to a point where they have decided to inaugurate a service to Goose Bay by connection with the south and north bound steamers through the agency of the steamer Prince John. The attention of General Freight Agent Dewey, who was here by the George by her last trip north, has been drawn to the attention of Capt. Nicholson, general manager of the steamships of the company, with the result that the additional service will be arranged. The new schedule will commence on April 1, and when the Prince Rupert joins the Prince George on the run about the middle of April, the schedule will provide for the Prince John connecting with both steamers. The sending of the larger steamers directly to this port was considered, but the use of the Prince John, it is thought, will enable

the steamers to handle Goose Bay traffic without delay.

A regular schedule of calls at canneries and logging camps by the freight and passenger steamer Prince Albert will be announced on April 1. The calls will include Alert Bay, Rivers Inlet, Namu, Ocean Falls, Bella Bella, Swanson Bay, Lowe Inlet, Claxton, Port Essington, Skeena river canneries, Prince Rupert, and to Naas Bay, where the Prince John touches, as occasion requires. The Prince John has been ordered south for a general overhauling, which will include her equipment with oil burners. This makes the construction of a large oil tank now necessary for Rupert.

## THE MINIMUM WAGE BILL HAS PASSED HOUSE COMMITTEE

Not Entirely Satisfactory to Labor Members But Further Conference of Mine Owners and Miners to be Held Monday When It Is Believed Satisfactory Arrangement Will be Reached—Immigration to Canada is Decreasing

(Special to Daily News.)  
London, March 23.—The minimum wage bill passed through the committee at 1:20 this morning, virtually in its original form. It may never become a law, as the conference on Monday is expected to settle all the outstanding points in dispute.

### Another Conference Monday.

London, March 23.—Premier Asquith this morning announced that another conference between the miners and the coal mine owners will be held on Monday. In the meantime the minimum wage bill will be again considered in committee only, after which

the House will adjourn until Monday, when it is hoped the conference will be narrowed to the points at issue.

The difficulty now, and to which the labor members of Parliament take exception, is the refusal of the Premier to accept their amendment that the minimum wage will be \$1.25 and 50 cents for boys, as desired by the miners. It is hoped the conference will take a more reasonable view and agree upon a standard.

### Immigration Decreased.

Montreal, March 23.—One phase of the British coal strike and of the general labor troubles

in Great Britain is the effect it will have on immigration to Canada. Mr. Southall, of the Canadian Northern Railway immigration department, is of opinion that the result will be a decrease rather than an increase of the normal amount of immigration from the Old Country. Mr. Southall has just returned from the United Kingdom.

### United States Coal Strike.

Cleveland, March 23.—The negotiations between the representatives of 200,000 miners in the bituminous coal fields and the operators for an adjustment of the wage differences has been postponed until next Tuesday.

### BELL FROM CAR WHILE ASLEEP

Young Lady of Vancouver Stepped off Moving Train While Walking in Her Sleep Clad Only in Night Robe.

(Special to Daily News.)

Calgary, March 23.—Suffering from a fractured arm and a dislocated hip, sustained by falling from the steps of east bound C.P.R. train No. 14 at Glenbow, 18 miles west of here, on Thursday night, Miss Ethel Upoff, of Vancouver, was brought to the hospital today. She may not recover. She was travelling with her sister to Winnipeg and is believed to have stepped off the train while walking in her sleep. She was clad only in a night-gown.

Capt. Kerr, C. O., of the Salvation Army, who has again taken over command of the local corps, wishes to announce that service will be held as follows: Sundays, 11 a. m., 3 p. m., and 8 p. m.; Sunday school 4 p. m.; week night services Mondays, Wednesdays, and Saturdays. 1t

### Camosun Arrives.

### GOVERNOR OF YUKON

Commissioner Black Receives a Cordial Reception

(Special to Daily News.)  
Dawson, March 23.—Governor George Black arrived yesterday from Vancouver and was given a great reception by the citizens. He assumed the duties of his new office this morning. He is planning to have the council and well within the time limit, which expires in June.

### G. T. P. PARTY RETURNS

Mr. Dewey's First Trip of Inspection Up Line—Progress Rapid.

The party of G. T. P. officials, including General Freight Agent Dewey, returned from near Skeena Crossing at 4 a. m. today. General Agent A. E. McMaster piloted the party and says they were well pleased with the work and that excellent progress is being made. This was Mr. Dewey's first trip of inspection. Mr. Dewey, accompanied by Mr. Druce, commercial agent, left for their homes on the Beatrice today.

Tom Parsons, for some time in Allen's book store and formerly of the South Africa constabulary, has joined the Provincial Police and left on the train today for Kitselas.

### PRINCE RUPERT TWENTY MINUTES AGO

The blind pigs wag their tails with glee, because the Mayor has gone to sea.

Finance Minister will handle real money tonight.

Tom Parsons just left for Kitselas as special constable. It is understood a bunch of Liberals threaten to vote there.

It was the launchmen's petition and not the longshoremen's.

The new trail to the post office does not come out of William Manson's appropriation, but he is sure to claim it.

Wilfrid Doughty says this is even finer weather than they have in Grimsby, Old England.

## TO START UP BIG CANNERY AT SKIDEGATE

Wilfrid Doughty and Party Leave for the New Oil Plant and Cannery With Expectations of Starting Operations Very Shortly

By the Prince John this afternoon have just sailed for the Queen Charlotte Islands Wilfrid Doughty, accompanied by J. H. Pillsbury, civil engineer, with L. Crippen and party of surveyors. The party is going to complete the survey for development purposes of some 200 acres of crown granted land at Aliford Bay on the south side of Skidegate Inlet, where the first of the great Doughty fishing enterprises is being started.

The plant is to comprise cannery, salting plant and fish meal works. At Skidegate on half a mile of water frontage there will be established a fish oil works. Houses for employees are to be erected as soon as surveyed for, and about one hundred men will be employed without delay, many more soon afterward.

A. W. Carter, who is to be local

manager, left with the party at 1 o'clock. The name of the company is "The British Columbian Fisheries, Ltd." Sir George Doughty, M. P., chairman of the North Eastern Steam Fishing Co., Ltd., England, is chairman of the new company. Other directors are James Stark Browne, director of Jno. Brinsmead & Sons, Ltd.; Alfred St. George Hammersley, M. P., director of Canada Wheat Lands, Ltd.; James William Hornsby, J. P., deputy chairman Richard Hornsby & Sons, Ltd., and Robert Tweedy Smith, director of Milestone & Stanforth, Ltd.

Wilfrid Doughty is managing director. The company holds three drag seine net licenses for salmon, one herring license and Dominion and British Columbia canning licenses.

The capital of the company is

\$1,250,000 and the company will spend this year upward of \$225,000 in development on the islands.

### POLITICAL BUG (HOUSE)

Absent Aldermen Seem Strangely Unmissed in Civic Affairs.

With two aldermen absent campaigning, and the Mayor also off to Stewart on business, and the Finance Minister in demand at every political meeting, Prince Rupert municipality seems all run to the dickens until the campaign ends. Fortunately, those who toil in the civic mill, the mute, obedient builders of the city at the mayoral and aldermanic behest, are as yet unbiten by the political bug and the various city works progress much as before.

### WHERE IS CAPTAIN SCOTT?

Japanese Expedition Saw Nothing of His Party.

(Special to Daily News.)  
Wellington, N. Z., March 23.—The Japanese Antarctic expedition returned here today. They report having seen nothing of the British expedition under Captain Robert Scott. The Japanese reported all on board Kainan Maru well. They engaged chiefly in a coastal exploration of King Edward land.

### WELCOME NEWS

Rev. W. H. McLeod Out and About Again.

Rev. Warren H. McLeod wishes to cordially thank his many friends for their expressions of kindness and sympathy during his recent illness. He also thanks the Mayor and City Council for offering a reward in connection with this matter and deeply appreciates the efforts of the police officers in their diligent search for his assailant. Mr. McLeod is rapidly regaining his strength and will preach as usual at the Baptist services in McIntyre Hall tomorrow morning and evening.

### DENOUNCE WAR IN AIR

Two Hundred Influential Men Petition Arbitration League.

A petition signed by two hundred notable people in Europe has been issued by the International Arbitration League protesting against the use of aerial vessels in war. The signatories appeal to all governments to foster an international understanding which shall preserve the world from "a new hideousness of warfare." They also deprecate the suggestion that aerial warfare, by reason of its horror, must frighten men from war.

## CHURCH UNION VOTE IN CITY

Presbyterians of Prince Rupert Favor the Idea of a United Church in Canada—Rev. F. W. Kerr Has a Very Exalted Ideal.

The result of the balloting on church union in the Presbyterian congregation here was 78 in favor and 12 against. It is expected that the western churches will favor union, while in Presbyterian circles in the east the vote is pretty well divided. At all events, the location of property and the redistribution of congregations and of ministers will make it at least a number of years before the denominational ties are severed. Rev. F. W. Kerr believes that in five years there may be a union church, and hopes that in fifty years there will be one united Canadian Protestant church, comprising all non-Romanists in Canada.

### Magnificent Pictures

The Westholme Opera House is most assuredly deserving of the patronage of the people of Prince Rupert, when they offer such magnificent moving picture entertainment, as is furnished by the pictures of "The Fall of Troy." Tonight will be the last opportunity of witnessing this truly remarkable series, and everyone should make a point of visiting the cosy theatre in the Albert block.

### CORRECTION.

The Joe Scott referred to yesterday as having threatened to tear up the petition of the launchmen is not young Joe Scott of the Kaien Hardware Company.

POLITICAL SENTIMENT OUT OF TOWN.

Very contradictory reports blow into town as to political sentiment up the Skeena. According to the Journal William Manson has strung up all the voters like colored beads on a string.

In his printed address to the electors of Skeena district William Manson says: "During my term of office I have been able to secure appropriations for public work in increased amounts annually."

MISUSE AND ABUSE OF POWER.

John P. McConnell, long well known as the editor and part proprietor of the Vancouver Saturday Sunset, and now editor-in-chief of the Morning Sun, is the Liberal candidate for Yale.

"Speaking generally, I think all thoughtful citizens must come to the conclusion that a government without an opposition cannot be the best kind of government. The spirit of the British institution of representation in parliament is that of a balance of control of power composed of the Government, the Crown and the Opposition."

"If the Legislature is practically unanimous, each member being elected to support the Government, the tendencies must inevitably be toward the misuse of power and the gradual introduction of abuses which are equally to the disadvantage of the province and the government itself."

WHY VOTE FOR A RUBBER STAMP?

The government of British Columbia consists of two men, who exercise as they please and to the fullest possible extent and in the fullest possible measure both executive and legislative powers.

William Manson was last session one of these rubber stamps and you are again asked to vote for him. Why should you? You have yourselves heard his closest friends making excuses for him and asking you to view his many faults and failings with the eye of pity.

Remember

There will be two Manson names on your ballot paper. Be careful to make the distinction between the McBride Manson, who has been tried and found wanting, and ALEX. M. MANSON, the people's candidate, and a true representative of Skeena riding.

More Reasons Why Wm. Manson Must be Defeated Stated by His Apologists

- 1. Alderman Douglas, one of William Manson's most able supporters, had to admit the spinelessness of his candidate at the Conservative smoker, and said: "I will put starch into his back and make him take it." 2. Mayor Newton, the latest leader of public opinion to be whipped into line by Ring domination, says: "All of us make mistakes. William Manson has made his." And Mayor Newton crawls down from his pinnacle of whilom independence and entreats us to return William Manson to continue his costly mistakes.

Yesterday we received through the mail a letter from Herbert L. Harris, a leading Liberal of Bella Coola, on the political situation there. We cut this same letter from the Victoria Times and printed it on Thursday, which shows the need of better mail facilities between this port and Bella Coola.

### PROVINCIAL STAKES SILENT VOTE FEARED

To Be Run on March 28th for a Purse of \$1,200.

Intelligence and Common Sense Will Defeat William Manson at the Polls.

**Starters.**  
**THE DENTIST.** By People's Choice—Fighting Chance.  
**THE LAWYER.** By Ginger—Forslorn Hope.  
**SILENT WILLIAM.** By Broken Promises—Side-stepper.  
**SOCIALIST.** By Wild Irishman—Red Flag.

This race is causing widespread interest, and excitement will be high until the winning post is passed. The Dentist is a good horse and can always be depended upon to run well in fast company. In his last race he showed a great burst of speed under a heavy handicap.

Great reports concerning the Lawyer are to hand from his training stables, but as he has not yet performed in public we would prefer taking one of the other horses and must pass him over.

Silent William has generally run well and at present is a slight favorite, but his fatal habit of sidestepping may throw him off his balance and lose him the race.

Socialist is a fine, upstanding colt and will run brilliantly for a short distance, but over the full course will be outclassed. We confidently expect to see The Dentist roll home an easy winner, with Silent William and The Lawyer fighting it out for second place.

#### SOME HOME TRUTHS.

We would like to ask the Conservatives of this city a few questions:

Why was the telegraph office moved with such indecent haste, immediately after the late Dominion election?

Why has the Post Office been handed over at the earliest possible moment to the defeated candidate for mayor?

Why is a man who has struggled along in a one-horse retail grocery, occupying only half of a small building, erecting an immense warehouse to go into the wholesale trade?

Why did a two-by-four semi-weekly newspaper branch out as a daily, when the daily field was already well covered by two papers which have hard work to make both ends meet?

The answer to all these questions is the same. A few men have secured control of the local member and through him are able to exert a strong influence on the Dominion member, and unless their plans miscarry will be able to hog all the patronage of both governments.

What has the great body of Conservatives in the city to gain by a continuance of these conditions? Even putting the matter on the very lowest plane of self-interest, where do the rest of you get off at? These men constitute a close corporation to which no new members are admitted. All branches of business are represented. Furniture, Hardware, Groceries, Real Estate—they are prepared to handle them all, and you need not think you will get the crumbs, because there won't be any crumbs. We ask you again, where do you come in even if you have something you want to sell the government?

#### THAT WICKED RING.

(With Apologies to Edgar Allan Poe.)

Hear the clamour of the Ring,  
Wicked Ring,  
What a heap of coals on fire upon their heads they'll bring,  
While the party start to groan  
At the Ring as it is known  
But their voters must have down;  
What defeat they'll have to own,  
Will the Ring, the Ring, Ring,  
Ring, Ring,  
How discordant is the tone  
Of the Ring.

Manson, that is, Obsequious Bill, would have gone in flying had he shaken off that lethargy and stood alone, but, alas—Mene, Mene Tekel Upharsin!

So W. E. Fisher says Clayton has not got the courage of his convictions. The trouble with Billy is that he has neither courage nor convictions.

There is a great growing intellectual force in this country to which we owe the fact that we are on the whole fairly well governed, and to which civilization owes its gradual rise from the cave man and his club to the polished statesman of today. This force, to which we all take off our hats on election day, is the Great Independent Elector and His Silent Vote.

If the people of Canada were to remain perpetually divided into two great camps, and every man voted exactly as his fathers had done before him, it would only be necessary to take a poll among the immigrants. For the native born the census would be sufficient to show which party was entitled to hold the reins of power and considerable expense might be spared. But fortunately there is a large body of the electorate which insists on being shown every election day that the representative of a constituency shall be worthy of its confidence, and the result is that parties are generally careful to select the very best man available.

That the system of party government, as we have it, has worked out well no one can deny, and that party loyalty—when not carried too far—is also a good thing is equally true. But when party loyalty is pushed to the extreme of supporting a party candidate irrespective of his qualifications, or the manner of his nomination, it becomes ridiculous and a menace to good government.

Also we see here men who have fought openly and fearlessly against the ring which manipulated the nomination, and which they admit is a curse to their party, being carried away by the spurious cry of party loyalty. Party Loyalty! True party loyalty consists in ridding the party ship of the barnacles which clog its progress. True party loyalty should consist in a determination that the representative of the party should be in every way worthy of public confidence.

There is a loyalty above party loyalty which is loyalty to one's country.

#### MANSON WAY.

Of course you've heard of the Manson Way;

It's a way that leads to a wharf. There are several other Manson ways;

And some of them lead through a terrible maze,  
And are likely to carry him off.

Now Manson has a particular way,

And he finds it hard to kill  
With wool pulled over, obscuring his gaze,

By men inspired with a selfish craze;  
He will bow to their evil will.

Now Manson has a good clean way

If left to himself alone;  
But he never would stand an earthly show

If ruled by Jack, M. M., or Joe,  
For their sins he could never atone.

In the balance some day will Manson weigh;

And shall he be wanting then;  
Or will he for freedom a bold bid make;

And from his shoulders the parasite shake;  
And the grafter return to his den?

While William has brains without backbone—

Wee Alec has backbone only—  
Doe Clayton possesses backbone and brains;

So we'll give him a chance to handle the reins;  
And the Manson way will be lonely.

#### LITTLE TRUTHS

Why doesn't the Empire give some notice before taking one of its sensational flops. These sudden shocks are bad for one's nerves.

If we have to petition or send a delegation to Victoria every time we want our rights recognized, why go to the expense of electing a member. There's

nothing to it. We've just got to have Clayton.

It is often said that politics make strange bedfellows, but the sight of J. F. McDonald, Bill Sibbald, Joe Merryfield and M. M. Stephens in the same bed is enough to make the gods weep.

Manson called off his advertised meeting in Hazelton rather than meet Clayton on the platform. We suppose Fisher would call that having the courage of one's convictions.

We will read the Empire a lesson in courtesy and publish the following ad. free of charge if it so desires: For Sale, cheap, 1 second rate newspaper, formerly the property of the independent John Houston. Sale to include both the editorial and news columns, as well as advertising space. Tenders solicited from the ring.

We always thought Newton was a false alarm, but we were hardly prepared to see him take another somersault quite so soon.

Prince Rupert is sure born lucky. Just imagine having Newton for our member at Ottawa as well as Mayor.

Publicity Committee of the Ring: W. E. Fisher, Orlando H. Nelson and Neil Mackay. Ye Gods and little fishes! Manson sure is safe now.

The road leading to the government wharf is called the Manson Way. The manager of this wharf was taken from his duties and sent around the country gathering up proxies to help Manson steal a nomination. This is also the Manson way.

What a time Halsey will have telling those people of Bella Coola how "his friends," the Minister of Marine and Fisheries, put the protection boat Falcon at his disposal. Wonder if he will have time to mention anything about Manson.

If the election campaign shots of the Empire are not copyrighted we might be able to use some of them. Both McBride and Manson seem to be unfortunate in their self-appointed championships in this city.

We hope that Publicity Committee of the ring gets paid for overtime.

To hear some of these road bosses talk you would think that the government would withdraw its appropriation for roads and bridges from the Skeena district if Wm. Joliffe is defeated. Don't worry, Clayton will look after that.

If Halsey only got seventeen people to attend his meeting at Bella Coola, after going there in state in a government boat, how many would have attended if he went in a gasoline launch?

It was hardly necessary to send Halsey all the way to Bella Coola to tell the electors about Wm. Manson. They know him too well know.

Owing to his success as a professional organizer, Mr. Wadman has received several offers. We think Sunday School picnics about his size (if the clergy and parents are not too particular.

Didn't Halsey start his political career as a Socialist? Perhaps he is only applying some of the Socialist doctrines of confiscation.

Another prominent ring member says he cast his first vote as a Liberal. Later he also had Socialist leanings. Why should the party of the great Sir John be the refuge for all this political driftwood.

The Socialists are to be congratulated on their candidate this year. Alderman Montgomery is a gentleman in the very best sense of that much-abused term.

The saddest thing about this campaign is to see one or two good citizens lined up with the ring from a mistaken sense of party loyalty. True loyalty to the party consists in ridding it of the grafters who are bringing it into disrepute.

Mayor Newton says we should re-elect Wm. Manson as it may be necessary for him (Newton) to go to Victoria again soon and he would feel more at home if Manson was there also. We have heard many queer reasons advanced lately for re-electing Wm. Manson, but this is the richest. But why can't Newton take Manson along as a valet.

## DO WE WANT "A FRIEND AT COURT"

The Trombone tries repeatedly to make out that William Manson has proved himself "a friend at court" for the Skeena riding, in the effort to counteract the Liberal candidate's direct declaration that the "friend at court" claim is a fallacy and a fraud without one fraction of advantage in it for Skeena. The Trombone quotes the figures given below in support of its absurd claim. Study them, just study them!

## Platform of the Liberals of British Columbia

Adopted at the Vancouver Convention, March 1st, 1912

### 1. Free Lands for Settlers—None for Speculators.

We emphatically condemn the McBride government for its connivance at the evasion of the land laws by persons, syndicates and corporations, who have been allowed to obtain millions of acres of the choicest accessible public lands, which are held without use and to the detriment of the province as a whole.

We hold that agricultural land should be disposed of only on such conditions as will ensure its continuous use and occupation.

Free homesteads to actual settlers. Holders of pre-emptions to be given benefit of this provision.

Advances to settlers on easy terms to assist in land clearing, dyking, irrigation and other permanent improvements.

Surveys of all accessible agricultural lands to be rapidly completed, and survey sheets and all necessary information to be made easily available to the public.

Settlement in block to be encouraged by the removal of reserves, which scatter population and greatly increase the cost of roads, schools and other necessary facilities.

No public land for the speculator.

### 2. Transportation.

The immediate construction of a railway to Peace River.

We will co-operate with the Dominion government in securing air-rail connection between the railway systems of Vancouver Island and the railway systems of the mainland.

The construction of a line owned by the government to give direct communication, by the best route as to grades and distances, between the Simikameen and other interior points and the coast.

We favor the husbanding of the Provincial credit to assist lines that will open up new territory.

Provincial credit and resources not to be wasted in paralleling existing lines.

No land subvention to railways beyond what is necessary for railway purposes.

Abolition of the system of giving away Crown lands for townsites free of taxation and under railway control.

Aid to railways not to exceed what is reasonably necessary to secure construction.

The prevention of over capitalization of railways.

The Province to co-operate with the Dominion in aiding railway and highway construction.

All franchises for the construction, operation and ownership or leasing of government-aided roads to be open for public competition.

Freight, passenger and express rates and telegraph tolls of all government-aided roads to be under the jurisdiction of the Dominion Railway Commission.

With a view to meeting the demand for the transportation of grain from Saskatchewan and Alberta, the immediate construction of government-owned elevators.

The people to control the railways, and not the railways the people.

### 3. Timber.

We condemn without reserve the wholesale disposal of timber lands to speculators, which has been the only timber policy of the present government.

We advocate the survey, cruising and valuation of timber lands by the government before alienation, and the disposal of all such lands by public competition to actual users.

Improved methods of preventing timber waste and systematized reforestation.

Hand loggers licenses to be granted where conditions demand.

### 4. Public Protection in Respect to Coal.

Coal lands not to be alienated, but leased under conditions to be fixed periodically by the legislature.

Wherever practicable and necessary government operation of coal mines to be at once undertaken with a view to reduction of existing prices.

We insist upon the appointment of a royal commission to investigate the present exorbitant coal prices.

### 5. Practical Education.

We condemn the present educational autocracy of the government.

We recommend the appointment of a representative advisory board in educational matters, such as exists in all other provinces.

The present school curriculum is so overloaded with subjects as to render thorough education in any branch impossible.

We advocate an increase of

manual and agricultural training and domestic science teaching, and the establishment of an efficient system of technical schools.

The present school system bears unjustly on settlers in unorganized districts, and should be immediately remedied.

### 6. Representation.

The government's policy as to revision of the voters' lists and precipitating the present election without a proper redistribution of constituencies is a complete subversion of all the privileges of representative government.

We favor personal registration and insist on immediate redistribution.

We favor woman suffrage.

### 7. Taxation.

Abolition of the poll tax and personal property tax and the raising of the exemption of income limit to \$2,000.

Exemption of improvements on all lands paying taxes to the Provincial government.

A readjustment of the system of taxation whereby the Province may receive a fairer proportion of the unearned increment.

Immediate reform of the present costly, cumbersome and inequitable system of collecting school taxes in unorganized districts.

### 8. Labor—Workmen's Compensation Without Litigation.

A Provincial department of labor to be created, and a free government labor bureau established.

Thorough and frequent inspection of all industrial premises to ensure health, sanitation and safety.

The complete prohibition of child labor in factories and shops.

The present system of employers' liability insurance bears heavily upon employers, and is a frequent source of injustice to workmen and their families. We advocate the establishment by the government of a permanent industrial insurance commission, independent of politics. This commission to have full charge of a system providing positive compensation to employees for injury received during employment, without recourse to litigation, and giving employers the benefit of accident insurance at minimum cost.

The extension of the scope of the Workmen's Compensation Act, so as to cover all hazardous employments.

The payment of wages should be made at least fortnightly.

### 9. Oriental Immigration.

We unhesitatingly condemn the hypocrisy of the Provincial government as evidenced by its refusal to re-enact its own remedy—the Natal Act—on the ground that it would embarrass the Conservative Dominion government.

We stand for a "White British Columbia," and advocate continuously increasing stringency in immigration laws until this result is attained. The Liberals of British Columbia are in favor of the total exclusion of Orientals from the Province.

We insist that the Provincial authorities shall enforce strict sanitary regulations in all congested districts.

### 10. Extension of Municipal Powers.

Increase of local control in municipal matters.

Election of license and police commissioners by popular vote.

### 11. Public Ownership of Utilities.

We emphatically declare our adherence to the principle of public ownership of public utilities, and advocate limitation of terms of franchise to corporations, renewing the same, if in the public interest, in equitable terms.

### 12. Local Control of Liquor Traffic.

The liquor traffic of British Columbia is at present under the absolute control of the Provincial government, and is used by it as a political machine.

We insist upon the complete removal of the liquor question from party politics.

The control of the traffic should be vested in municipalities, or, in unorganized territory, in locally elected authorities.

We favor a local option law.

In the protection of the public we insist on frequent inspection of liquor offered for sale.

### 13. Public Accounts.

We denounce the McBride government for withholding year after year the public accounts from examination by the Public Accounts Committee.

We advocate the organization of an auditor general's department, independent of the government.

### 14. Fishery Control.

We advocate immediate steps to restore the fishing industry to white fishermen.

The protection of British Columbia fisheries from foreign poachers.

The adequate policing of Canadian waters.

### 15. Protection of Water Supply.

We condemn the shortsighted policy of the Provincial government in alienating the timber lands on watersheds tributary to cities, towns and municipalities. It should be the immediate duty of the government to remedy the mischief caused by this mistaken policy.

### 16. Torrens System of Registration of Title.

The present system of land registration is expensive and cumbersome. We advocate the adoption of the Torrens system of titles, and a reduction of registration fees.

### 17. Non-Partisan Civil Service.

We favor the organization of a civil service commission for both inside and outside services. Appointments to the civil service should be based on fitness, and not on partisan service.

## FIRST SHIPMENT OF LUMBER FROM OCEAN FALLS TO RUPERT

MATERIAL DELIVERED TO CONTRACTOR FOR THE NEW MOBLEY RESIDENCE HERALDS THE LOCATION HERE OF THE LESTER W. DAVID MILLS AND YARDS

Today the first shipment of lumber from the Lester W. David Company of Ocean Falls to a Prince Rupert contractor is being used in the erection of Mr. Frank Mobley's fine residence on Fourth avenue, near the Presbyterian Church site, by Messrs. Mitchell, Currie & Watt, the contractors for the new building.

To have another big lumber concern doing business in the city augurs well for the immediate future in the building line, and this first shipment of Ocean Falls lumber, to be followed speedily by other shipments, and the location within a few days of the Lester W. David Company's lumber yards and mills on the townsite is hailed by citizens with satisfaction.

It will be recalled that when the Ocean Falls firm tendered for city lumber recently the good

quality of their lumber was specially mentioned in connection, and that this good quality is the nature of the first shipment now being handled on the Mobley residence. It is pine and very good quality lumber indeed. The cedar shipped for the same building is splendid stuff such as contractors, the best ever handled yet in Rupert.

Work is now actively progressing in the very best of weather conditions on the Mobley residence, the basement of which will be lined and framed up very soon. Work on the superstructure will be started by next week, it is expected. This residence will be one of the finest finished with and without on that side of the Bridge street, beautifully paneled rooms done in costly woods being planned for the building.

## LONGEST NAME IN THE WORLD

Miss Pillow of Chicago, Illinois, Has a Pet Name Which You Can Say in a Hurry.

The longest Christian name in the United States, and probably in the world, has been discovered in Chicago. It is Harbertunnibertunnia, and it contains twenty-three letters, only nine of them different. The name belongs to a 15-year-old girl, who was heard as a witness in a court case.

"What is your name?" asked the Judge.

"Harbertunnibertunnia Pillow, sir," replied the girl.

"What!" said the Judge. "Spell it."

Miss Pillow did so with ease and explained that her relatives and friends called her Harbertunni for short.

## You Can Thank Advertising

NEXT time you step into the corner store, take a look around. Of all the articles on the shelves, how many were on your shopping list five years ago? Make it ten years, and you will find that most of the things you buy to-day—and could not do without—were not even made then.

You men and women who buy things, let this sink in. You are better men and women because of advertising. You eat more wholesome food. You wear better clothes. Your home is better furnished. You have cleaner and more sanitary houses. You read better books and magazines. You seek more healthful amusements.

Your whole standard of living has been raised—and why? Because the men who make these better things are telling you that you will be more comfortable, happier and healthier if you use these higher grade goods.

It is advertising that makes it possible for you to buy "the best" right at your corner store. It is advertising that encourages the inventor to make new comforts and new utilities and enables you to buy

them almost immediately after they are perfected.

J. J. Hill says this "high living" costs more. True for J. J.—but it is worth more. And leaving the cost aside, do you want to go back to buying jam out of a pail, oatmeal out of a barrel, raisins out of sticky boxes, or tea exposed in an open chest?

Do you regret the money you paid for a Player Piano?

Would you forego the new style razor?

Isn't a Tungsten worth a thousand candies?

Would you now be enjoying these if enterprising manufacturers had not told you about them in their advertisements?

Isn't life brighter because we have new and higher standards of living?

Let us thank advertising for it.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.

## UNDERWOOD IS AGAINST RECALL

Democratic Presidential Possibility States His Position Regarding Initiative, Referendum and Recall.

Oscar W. Underwood, the Democratic leader in the House at Washington, says that he is utterly against the initiative and referendum. He says: "I believe that it is subversive of the very form of our government. It is the negation of representative government. It is wholly reactionary and not progressive. I believe, however, that the initiative, referendum and recall should not be placed in the na-

OSCAR W. UNDERWOOD

tional platform, but that as a local matter it should be worked out in each state, and not be made a party issue. I am absolutely against the recall, but I do not believe the recall, even in its worst form—the recall of judges—to be so dangerous as the initiative and referendum. The recall of an officer merely affects the tenure of an office. I believe that at reasonable intervals the people should have an opportunity to re-elect their officers, and short terms of office could accomplish much more than the recall."

## COBB SLIDES FIFTY FEET

Baseball Man Tries Racing on Frozen Ice.

Ty Cobb, world's champion batsman, recently attempted to slide over the frozen surface of the Detroit River. As a preliminary to the novel experience, he tested his ability as a broad jumper in trying to leap over a crack in the ice. He fell short and fell in, getting thoroughly soaked.

Feeling that he could do no worse on runners, Cobb boarded

TY COBB

the ice craft for a trial spin. As a decorative member of the crew Ty was a success, although his inability to understand a sudden order of Captain Mitchell having something to do with a mysterious bit of rigging known as the "sheet" (Cobb said he saw a sail, but no sheet), caused the craft to capsize while going at the rate of about sixty miles an hour. A fifty-foot slide along the ice, which was covered with an inch of slush, resulted.

## HOUSE AND HOME.

House and Home, the woman's magazine, is the name of a new monthly publication that has made its appearance in British Columbia. It is the only magazine of its kind in Western Canada, and will appeal directly to the women. In general appearance it is eminently satisfactory, printed on fine book paper, well illustrated and having an excellent three color cover design.

The departments of the magazine are such that they will be carefully read by the housekeeper. Two short stories give general reading, while the different subjects that interest women, such as beauty culture, hair-dressing, millinery, dresses, patterns and styles, home furnishings, home nursing, housekeeping, recipes, etc., are dealt with by writers who have had experience in their respective lines.

House and Home should be numbered among the successful publications of Western Canada. It is thoroughly high class in every respect, and the subjects are dealt with in such a capable manner that they cannot help but be of great assistance to the woman in the home. Needed help is appreciated help, and every woman who sees the magazine will become its friend. This fact should assure it a large circulation and also attention from the great body of advertisers who realize the worth of such an excellent publication. A sample copy may be obtained by enclosing two-cent stamp to House and Home, 347 Pender street west, Vancouver.

## TRUTH ABOUT SIXTY MILE

Mining Inspector Reports Sixty-five Shafts Sunk to Bedrock and in Most of Them Not a Color Found.

T. D. Macfarlane, government mining inspector, has returned from a trip to Sixty Mile, says the Dawson Daily News. Respecting conditions there, he says:

"Since my visit to Matson the first week in February I find that considerable prospecting has been done on the creek; also on Weide, Christmas, Borden, Fortier, Angus, Marion, Nettie, Emma and Pine creeks. There is probably in the neighborhood of sixty-five shafts sunk to bedrock in the entire district and from all reports and information that I could gather from the men who did the prospecting there is not a prospect found, that is to say, sufficient prospect or gold to show evidence of pay. Some light colors have been found, but I am satisfied that the total value of gold recovered outside of Matson's discovery and No. 4 below would not exceed fifteen cents. Mr. Dyke, the owner of No. 1 below, claims to have taken out forty cents from the first pan. This gold was in two pieces, but he was unable to get even a color from other pans taken from the same shaft."

## SOUTHERN WOMAN'S WORK

Has Practical Trade School for Children.

Miss Martha Berry of Possum Trot, Ga., who some nine years ago started in a very crude way a school for the "highlanders" of the south, started her work with a little ragged group of children, telling them stories of a Sunday, and thus she became known as the "Sunday Lady of Possum Trot." With a leaky shack, a squeaky melodeon and one hymn book she did the pio-

neer work which has resulted in a practical trade school with some 250 pupils where the boys learn carpentry, blacksmithing, the care of stock and farming, and the girls dairying, agriculture, housework, cooking and simple dressmaking and millinery. All the work of the place is done by the pupils and this includes the building of houses and barns by the boys.

## FORMER ACTRESS A WRITER

Wife of Steel Magnate Has Entered the Literary Field.

The Mrs. Corey that is and the Maybelle Gilman that was, has entered the shiny realms of literature. She is writing a book. The former light opera star is mysterious about the book.

MRS. COREY

There is something in it about good advice to girls who are ambitious to become singers. Whether it tells them how to catch wealthy steel magnates or not will remain a profound secret for the nonce, unless Mrs. Maybelle W. E. Corey has cabled it over since breakfast.

### CHINESE ARE SELLING GIRLS

In Famine Stricken Districts Girls Are Sold for Less Than a Dollar—Little Demand for Boys.

Shanghai, March 19.—Children are selling in the Central China famine district today for a trifle less than \$1 American money each. Not in years have such bargains been offered. Speculators are investing heavily in promising girls. Boys are not so much in demand.

The fathers and mothers who are selling their own children to strangers say that they have no choice between selling them and seeing them starve to death. Already the people of the famine districts are dying by wholesale, either of directly starvation or of the diseases which attend it.

### Canada to Rule the Empire.

Canada destined to be the controlling power of the British Empire! Earl Grey's prophecy has a ring that drowns the echoes of Champ Clark's exordium on annexing the land of the aurora boreal. The former governor general of the Dominion was telling his countrymen at home, in an address leading up to his remarkable pronouncement of the loyalty and patriotism which imbues all parties in British America. Seemingly sharing the view held by Englishmen who look far into the future of the empire, Earl Grey said that as the United Kingdom could not forever hope to play alone her present part as a maker of righteousness throughout the world, the highest of all duties that lay before the present and coming statesmen of all parts of the empire was the solution of the problem of welding the autonomous portions each to develop the strength of its own free aspiring nationality.—Washington Post.

### 5,000 Facts About Canada.

The 1912 edition of that popular and indispensable booklet, "5,000 Facts About Canada," compiled by Frank Yeigh, the widely known writer and lecturer, and author of "Through the Heart of Canada," is now out and is replete with new matter, including an outline map of Canada, a calendar and the new census figures. In compact form is found a wealth of facts and figures of the Dominion that will prove a revelation of our natural resources and growth. The mass of information, gathered with infinite pains, should be in the hands of every intelligent Canadian, and the wide sale and popularity of the publication is easily understood. Copies may be had for 25 cents from the Canadian Facts Publishing Company, 667 Spadina avenue, Toronto.

### RAILWAY MUST PAY

Ten Thousand Dollars Because Brick Fell on Man.

Seattle, March 19.—In site of the fellow servant rule and the assumption of risk doctrine, the Chicago, Milwaukee & Puget Sound Railway must pay a verdict of \$10,000 to the widow of Christ P. Coloff, and their three children. A brick falling from the top of an oil tank during its construction at Moncton, Wash., last September, hit Coloff on the head and he died in a few hours. The company fought the case desperately, but the jury yesterday decided against them.

## SKEENA BRIDGED IN FIVE WEEKS

Only One Pier Left to Construct and Steel for the Bridge Rapidly Being Rushed to the Scene.

After spending several weeks inspecting the condition of sanitation among the railroad construction camps along the route of the Grand Trunk Pacific, Dr. A. E. Clandenan of Edmonton, Dominion government health inspector, has gone east to Ottawa. He was unprepared to talk with regard to the result of his inspection as his reports go first to Ottawa.

The camps are now being moved to the vicinity of Telkwa, in the Bulkley valley. The bridge over the Skeena River, he says, ought to be completed in about five weeks as there is only one pier left to construct. Bridge steel is now being rushed to the
