lics and Germany. With Roumania and Turkey the Reich expects Russia to conclude pacts of non-aggression, the aim being mainly to turn Turkey from Allied leanings.

The Associated Press reports that Germany, according to reliable private sources, has obtained a pledge from the Soviet that Roumania will be spared, come what may in southern Europe. This assurance has evidently enabled German diplomacy in turn to make Roumania incline toward a Russia-Roumanian non-aggression pact, according to one source.

A Russian trade delegation, which has been at Milan, may move from there to Rome to finally negotiate a trade treaty.

These diplomatic moves are believed to be the result of the recent visit to Rome of German Foreign Minister Joachim von Ribbentron and his efforts to bring Moscow and Rome closer together.

Speakers Declare It Would Be Folly to Throw Out Tried and Experienced Administration by Voting Against Well Known and Hard Working Olof Hanson

If size of audience and orderliness of hearing may be regarded as criterion, the cause of Liberalism in the federal election contest here should have little to be apprehensive about at the polls on March 26. Last night the Moose Hall was filled to capacity with a crowd of some six hundred persons when Premier T. D. Pattullo and Senator J.

of Olof Hanson; the Liberal candidate for re-election. If people had gone there anticipating excitement, " they were disappointed for there was not a single interruption.

Mr. Pattullo and Dr. King discussed the federal election situation primarily from the standpoint of the war and its successful prosecution, contending that it would be folly to send out of office a government experienced and familiar with the progress of the war effort, replacing with a new and raw administration which would require months if not years to be broken in

Both speakers submitted that Mackenzie King's action had been the democratic and sensible thing to do. Both lauded Mr. Hanson VISIT BY and paid tribute to the fine representation he had given Skeena.

Dr. W. T. Kergin presided over the meeting and others on the platform were Olof Hanson, the candidate, E. T. Kenney, M.L.A. for Mrs. Frank Stead, Provincial Head Skeena, and E. T. Applewhaite of Stewart. It was announced that Mr. Hanson, Mr. Kenney and Mr. Applewhaite would be speakers at a final meeting to be held March 23.

LACK OF SUPPORT

In dealing with that lack of support, there seems to be a general feeling that Great Britain should have jump- nore than 8,000. The "WAAFS" ed in and thrown all her support to the Finns. That, of have as their head Miss J. Trefusis responsible also before the war for course, would have been the great opportunity for Germany. She would have used it as her excuse for attacking Britain through the low countries and possibly of marching through Finland and taking the British and French forces in the rear and wiping them out.

The only country that could have taken action without perators and fabric workers. Air-, on the Prince George for a trip to much fear of reprisal was the United States. She had the ships, the men and the money and her people were all sympathetic to the Finns. But while Finland suffered, the United States Senate talked and talked and the people of creased to 50 cents daily. Sergeants, that country failed to realize that there was a crisis and they were the only people that could possibly have saved the little democarcy and turned the whole tide of affairs.

Wing offiend, both Russia and the United States will possibly bel taking part. We may count on real war soon and we must not think that all the victories will be on the British side. The enemy is a formidable one and not to be despised.

POLITICAL CAMPAIGN

The arguments and discussions used in connection with the political campaign now in progress are extremely petty considered in view of the greater tragedy that is hanging over mankind just now. Premier Pattullo hit the! nail on the head at the Liberal meeting last night when he said that there was only one issue today and that issue was how best to win the war.

Prime Minister Mackenzie King has been in close! touch with the British government and with the governments of the other nations of the Commonwealth for the past year and more. Daily confidential communications have passed between them. Often they have been hourly. No one but the Prime Minister is fully informed of the situation and he is the natural man to carry on. Mr. Hanson is giving him his full support in this crisis. He is the logical representative for Skeena and that seems to be realized by many Conservatives and former members of the C.C.F. He can represent the views of everyone just nowthe view that the war must be won and that when it is won the country must resume its ordinary course with the least possible friction. After that we can solve lesser problems.
