BLOCKADE ENFORCED

Italian Ships Bound From Holland With German Coal Are Intercepted.

LONDON, March 5: (CP)—The situation between Great Britain and Italy became more critical today as British contraband control stopped two Italian ships bound for Rotterdam to Italy with cargoes of German coal and prepared to intercept others. Rt. Hon. Ronald Cross, minister of economic warfare, told Parliament today that two Italian steamships had already been detained in compliance with the previously announced intention of extending the blockade to such cargoes. Mr. Cross made it clear that it was the intention to search shipments under the two-way German blockade. What really threatens the world is the force of evil.

Having the reputation of being a classical conductor in the truest sense of the term, Dr. Muck for more than three decades was considered by many music lovers of Germany and the United States as the best qualified interpreter of the German masters and especially of Wagner. By reason of his never failing portrayal of every score exactly as it was written, he was chosen by Frau Cosima Wagner as musical chief of the Wagner festivals at Bayreuth where for more than thirty years his conducting of "Parsifal" and "The Ring" were outstanding features. Twice Dr. Muck was the conductor of the Boston Symphony Orchestra: From 1906 to 1908 and then again from 1912 to 1918. (Continued on Page Four)

POLYANNA

Polyanna looked on the bright side of everything. She saw good in everything. No matter how bad the storm, how terrible the sickness, how abject the poverty, there was always a bright side to the picture. What a difference between Pollyanna and the modern politician who trades on jealousy as his chief stock in trade. If anything goes wrong, with many of the politicians it is the result of the capitalistic system. They try to make those who have failed to make good jealous of those who have been progressive. Everything they do and say is designed to rouse this jealous feeling. They do not realize that, if all people were failures, there would be no wealth in the world to divide. Better by far be a Polyanna, seeing good in everything than a perverted pessimist seeing nothing but evil in the world. The evil is mostly in the eyes of those who look for it.

A WONDERFUL THING

What a wonderful thing it is that we Canadians have a right to elect any person we wish to represent us in Parliament. This right has been won for us over a period of a thousand years of struggle. Yet there are some who would chance all this in a day by making us once more subject to the dictatorship of the proletariat. There are also some who would wrest our liberties from us by making us subject to fascistic regulations.

Toward the end of the month we shall all go to the polls and use our best judgment in making choice of members. We are favoring the return of our former member Olof Hanson but others hold different opinions and they are fully entitled to them. There is among others a candidate from Terrace who served in the last war and who is asking for our suffrages. We all have the right to make a free choice. That is democracy. Let us treasure it. We are not suggesting that Hanson is the only democrat. That would be untrue. What we may suggest is that Liberals have been the democrats through the ages. Occasionally they have been rebels but only when they were opposed to autocracy.

CHATTER OF CAGE GAME

Intermediate Championships in Offing—Ocean Falls and Premier

Friends of the Intermediate teams in the city's basketball circles will be interested to hear that they will be able to see their teams in action soon playing for the championship of the city. Metlakatla is to be invited to play off with the local teams and, should the village win, it will carry the Intermediate Cup emblematic of the championship of the city home for the year. In the city there is the High School, coached by Walter Ferguson, Ben's News Stand, coached by Sonny Beynon, Standard Oil Star and George Viereck and his Seal Cove team. This should create no small measure of enthusiasm among the players as they have been practising all season without any actual competition except when they show on the occasional intertown card.

Tonight the Standard Oilers will take on Ben's boys in a regular practice game at the Exhibition. The Oilers are now getting into shape for the championship series with Ocean Falls team this month. The tickets for the series will be on the street this week and it is expected there will be larger crowds than turned out for the series with Ketchikan.

The return games of the series will be played in the paper town sometime later than the games here. Due to the gymnasium at the Falls being used as a theatre also, the boys cannot play there on Friday and Saturday as planned and will have to leave here on a Tuesday and return on a Friday's boat. This makes the trip a little tough-

Sea Biscuit Was Speedy Saturday

New Track Record for Santa Anita—Kayak Second and Wichée Third

SANTA ANITA, March 5: (CP)—The C. S. Howard horse Sea Biscuit, in winning the Santa Anita classic Saturday, covered the distance in two minutes and one and one-fifth seconds, one-fifth of a second better than the previous record of two minutes and one and two-fifths seconds made last year by Kayak II.

Wichée, the horse of Major Austin Taylor of Vancouver, led a good deal of the way after the start of the race but, just before the stretch, Sea Biscuit took over the lead and drew ahead during the stretch, finishing a length and a quarter ahead.

The most sensational spurt was by Kayak II, which was far behind at one stage of the race.

Eleven horses ran. The winner and the runner-up both belong to C. S. Howard.

For players off work to travel south. As it was they intended to miss only Friday and Saturday arriving home on the Sunday but now they will miss the half-day on Tuesday all of Wednesday, Thursday and Friday.

Sonny Styles is enquiring from the south all about the dates, etc., of the games both here and in Ocean Falls. This makes it more apparent that he will be with the team for at least two games. There is a little doubt as to whether Morgan, Dominato and Houston will be able to leave town due to their respective duties—Morgan in the printing line, Dominato in the machine shop business and Houston in the Army.

Word has been received from Premier of his willingness to entertain the boys this year as usual but, as the games will mean nothing more than a two-game series at the Mine the locals have declined the offer and will now concentrate on the series coming up.

SPORT CHAT

New York Rangers, by winning over Chicago Black Hawks in Chicago Sunday night after playing a one-all draw with the Maple Leafs at Toronto Saturday night, moved out into the leadership of the National Hockey League with a three point margin over Boston Bruins who were defeated 6 to 3 by the Detroit Red Wings at Detroit Sunday night. It looks like the Rangers should now be able to cop first place in the standing although Boston will have a chance to recoup itself again tonight when the Bruins play at home with the Red Wings.

Sports editor and columnist of the Toronto Daily Star, Lou E. Marsh died four years ago yesterday after a brief illness. Noted as a boxing and hockey referee and an authority on most sports, Marsh was 58 years old when he died. He had joined the staff of The Star when he was 12.

A complaint familiar to rugby fans of today was voiced 16 years ago when C. E. Chown of Winnipeg, that day named president of the Canadian Rugby Union, urged adoption of uniform rugby rules for all Canada.

COMMERCE CHAMBER MEETING

Four New Members Elected and Number of Matters Dealt With At Meeting Last Night

Four new members were elected to the Prince Rupert Chamber of Commerce last evening at the regular dinner meeting in the Commodore Cafe, the president, W. M. Watts, in the chair. They were Arthur Brind; manager of the Imperial Oil Co. Ltd., Thomas W. Brown, of the law firm of Brown and Harvey, D. J. Matheson, acting city commissioner, and A. G. Landels, local manager of W. H. Malkin Co. Ltd.

A resolution was passed congratulating the standing committee on shipbuilding on its success and relieving it of its duties in that regard.

The question of the appointment of a permanent agent of marine at Prince Rupert was referred back to the committee to take up with Ottawa.

Customs Clearance

Considerable discussion took place in regard to the feasibility of having a customs officer on duty on Sundays for the purpose of servicing pleasure and fishing boats and cannery tenders. It was felt that the present system was quite unsatisfactory. A fee of \$1.50 was charged for each clearance and, in addition, the person securing it had to hunt out the customs officer at his home.

President Watts stated that he had interviewed the collector and had been told that the clearance could be secured any time during

the preceding week for use on the Sunday and that there was not sufficient staff to keep the office open Sundays.

The discussion became general, F. A. MacCallum, Frank Skinner, Andrew Boreland, and Weldon McAfee each expressing an opinion. Mr. McAfee stated that in Vancouver a man was sent to the fish dock to make it convenient for the boats to clear. The port committee will have the duty of taking up the matter with Ottawa.

The Mail Service

There was a brief discussion in regard to the failure of the air mail to serve this community, a suggestion being made that an effort should be made to improve the condition here.

At the suggestion of Weldon McAfee it was decided to send a letter of congratulation to H. R. MacMillan on his appointment to the chairmanship of the Canadian Chamber of Commerce.

A circular letter was received from the British Columbia Government Travel Bureau stating that Hon. T. D. Pattullo had announced that, in view of the completion by the Dominion Government of the Big Bend Highway between Golden and Revelstoke, the official opening date of the highway had been fixed as June 29. He also stated that Hon. A. T. Crerar, Minister of National Resources from Ottawa, had been requested to officially open the highway on that date and he had been good enough to accept. The new motor highway between Banff and Jasper would also be opened this year on July 1.

Birthday Party Is Much Enjoyed

A delightful birthday party was held at the home of Miss Helen Dodder, 1144 Ninth Avenue East, the happy young people enjoying a pleasant evening playing games and dancing. At midnight delicious refreshments were served. George Marchildon was master of ceremonies.

WAS RULER OF AUSTRIA

Country Had Comparatively Happy Days During Hainisch Regime

VIENNA, March 5; (CP)— Election of Dr. Michael Hainisch, who is dead at Gloggnitz at the age of 81, as first president of the Austrian Republic was regarded as a stroke of good fortune for the country. During his regime from 1920 to 1928 there were comparatively happy days.

Political strife that came after the abdication of the last of the Hapsburgs with the signing of the armistice to end the World War caused a serious economic situation throughout the country. This continued for two years until some sort of order was brought about by the adoption of the republican constitution.

Even then there remained in the path of reconstruction and progress serious obstacles caused by the continued hostility of the political parties toward each other. Although the office of federal president was purely a ceremonial one and devoid of political power, the leaders at first declined to cooperate in the election of a president. Each wanted the honor for his own party.

Balloting in the National Assembly continued for three days with the hostile parties fighting each other so hard that the prominent men in each were eliminated and there was nothing left to do but turn to an outsider who had no enemies. Finally on December 9, 1920, the Pan-Germans and the Christian Socialists combined to elect Dr. Hainisch.

Although he had a reputation as a Socialist writer, few people knew much about Dr. Hainisch when he was elected president and his political standing was regarded as between the Pan-Germans and Christian Socialists who brought about his election. In 1924, he was chosen for his second term, the limit allowed by the constitution. At that time he received 111 votes for the Bourgeois parties, the Socialists abstaining from voting.

Dr. Hainisch was born August 15, 1858, at Aue on the Semmering, and was educated at the Universities of Vienna, Leipzig and Berlin. The family were representatives of the best element of the Austrian middle class of society. The president's father owned a cotton mill at Aue. His mother, Marianne Hainisch, was very widely known throughout Austria as she had been in the foreground of the women's cause more than 50 years and was the first to ask for equal rights for women before the law. She was only 21 when her son was born and lived to see his election as first president of the Austrian republic as well as his re-election. President Hainisch married Fraulien Emilie Fiedor, one of Austria's wealthy women.

CLOSE TO OBJECTIVE

Sum of \$819.70 is so Far Reached In Canadian Legion Drive

With Still some subscriptions outstanding, the Prince Rupert Branch of the Canadian Legion reports, in connection with the War Services Incorporated financial campaign, to have received to date the total of \$819.70. There are two large contributions to come in yet and many smaller ones so that there is little doubt but that the objective will be reached.

At the end of February the province of British Columbia was only \$1,110.00 short of the gross quota and that has since been reached. Manitoba has gone 52 per cent over its quota, Quebec 27 per cent over its quota and Prince Edward Island 67 per cent over its quota. The Legion can look back and forward with gratification at the result of this financial drive, organized and put over in the short period of six weeks. Wartime problems made a quick campaign necessary and the success speaks well for the merits of the objectives, the effective work of the canvassers and the generous response of the people who have thus shown their confidence in the ability of the men and women who fought in the last war to do their job in this one.

Locally there is a worthwhile contribution that the branch has been able to make in the way of personal services. This was in the matter of reduced fares for troops now serving in Prince Rupert to enable them to spend their leave at their homes. The local branch of the Legion sent a night letter to the Provincial Secretary of the Legion urging him to take the matter up with the steamship heads in Vancouver and with the Minister of National Defence at Ottawa. As reported in the press this has met with success and a copy of the letter from the steamship headquarters advising of this happy result has been received by the Legion here.

For prompt and courteous service Phone 13 Taxi.

Mrs. Harry Calderwood is sailing this afternoon on the Catala for a trip to Victoria.

R. W. Sinclair, manager of Inverness cannery, is sailing this afternoon on the Catala for Victoria.

Mr. and Mrs. T. W. Brown returned to the city on the Catala this afternoon after making the round trip to Stewart and other northern points.

G. W. Nickerson left on last evening's train for Terrace and Smithers where he will address election campaign meetings on behalf of Olof Hanson.

The Prince Rupert Gyro Club will be in business session at its regular weekly luncheon this Wednesday. An executive luncheon of the club was held today.

Modern Poilus Less Romantic

PARIS, March 5. (CP)—The stationers and postcard shops have got their supplies of new wartime postcards. In stands in some out-of-the-way places are to be found, still existent if a little yellow, those which were popular in the last war—but France is like that.

Every family album has a number of those from the 1914-1918

period—the over-sentimental poses, the "ideal girl," the "dream sweetheart," a sailor gazing at a star from which a magazine-cover girl looks down. "The Kiss" was a favorite and another pose of the same theme reads "A Soldier's Recompense."

The industry of love postcards—for it is an industry—is going strong again and the French poilus in their sky-blue uniforms are seen hovering about the stands, a little sheepishly, it is true, but interested.

Producers say the old type of card has lost its popularity and the

boys and girls want something to express their sentiments without being over-sentimental.

Thus the cards for 1940 are posted and selling. One shows a wall in which a horseshoe forms a window about which flowers are growing. Through the window leans a girl with modern windblown haircut and a general 1940 allure. Her hands, filled with roses, are held by a handsome young soldier who gazes into her eyes raptly. The verse below reads: "Nothing is sweeter than your caress. In return I offer my tenderness."

Service With Q. C. Islands Is Discussed

Prince Rupert Chamber of Commerce Decided Not to Take Any Action

Complaining that the steamer stop-overs at Prince Rupert and Vancouver were not long enough for passengers to do their shopping and return, a letter from the New Massett Community Club read at the Prince Rupert Chamber of Commerce regular monthly dinner last night asked that a stop-over of at least 36 hours at each end be given. This would allow wholesalers and others to fill orders. The letter had been referred to the trade and commerce committee which reported that the request would not be feasible so the report of the committee was adopted.

A suggestion was made that possibly, now there was increased logging business on the islands and the tourist business on the Prince Charles had been steadily increasing, the company might consider putting on the two boats during the coming summer, running over the same route alternately with each other.

Peter Lakie, on behalf of the company, explained that two extra trips had already been made to the logging camps and the men would stay there until the camps closed. There would be no extra business that it was not able to handle with the one boat. It was also expected that tourists could be satisfactorily accommodated by giving a daylight run to Prince Rupert from Port Clements.

Considerable Increase so Far in 1940 As Compared With Year Ago

Building permits in Prince Rupert for the first two months of this year amounted to \$8230 in construction value as compared with \$2875 in the corresponding period last year. February building value was \$3055 as compared with \$1575 in the same month last year.

ONCE MORE THE BUGLES!

ONCE again the bugles call and the Salvation Army goes to the front on active service with the troops—not to kill and destroy but to comfort and save . . . to help men to keep a grip on themselves and their own souls. Will you help to make the soldiers say what they said in the last war, "God Bless the Salvation Army."

The Red Shield Programme includes:

- Chaplain Service
- Hospital Visitation
- Recreation Centres ("Huts")
- "Dry" Canteens
- Hostels (Beds and Meals in London and elsewhere)
- Libraries and Reading Rooms
- Writing Rooms
- Socks and Knitted Wear
- Darning, Mending, Clothes Pressing
- Clothes and Shelter for Discharged Men
- Contact with Soldiers' Families
- Educational and Recreational Departments

And many other services, including friendly counsel and advice when asked or needed.

We owe a responsibility also to the mothers, wives and children the enlisted men have left behind. And always there is the regular work of the Salvation Army, which will be heavier because of the war. Will you help?

Volunteer workers will call upon you. Receive them kindly and give as your heart dictates.
