IS IT A CRIME.

Evidently it seems that it is a crime for any person in any way related or connected or even friendly with the government in power to secure a contract at the present time. It seems that some member of a firm handling contracts for government work in this city once played a game of golf with the minister.

THE DEEP SEA WATERWAY While we do not feel very favorable to the deep sea waterway scheme which is proposed to be a joint operation of the United States and Canada, we feel that if the carrying out of the scheme is going to improve the already close relationshin between the two countries, we are for it. We want the United States to finance the Alaska Highway which would benefit British Columbia so we must be prepared to give and take.

Prince Rupert is the home town of a large number of the readers of this paper. It is where they have their homes and where they make their living. Their work and interests lie here. Our first duty today and always is to be leyal to our own home town. What applies to Prince Rupert applies just as much to Smithers, Burns Lake, Stewart other smaller places.

We speak of ourselves as a community, which implies that we have common interests and common benefits to be derived from acting not necessarily in unison but harmoniously. If each has an eye to the common good we make progress. If there are discordant elements in which some members of the community have nothing in common with the rest and no interest in its progress, then we are in danger and cannot hope to make proper progress.
