ENEMY HAS HUGE LOSSES

PARIS, May 15: (CP)— German troops, trying to force passage across the Meuse River at various points from north of Dinant, Belgium, to south of Sedan, France, have been hurled back with enormous losses in the last twelve hours, a French spokesman said. Battle is in progress along a 150-mile front with heaviest fighting near Sedan. Germans won small footholds on the left river bank at a few points but were mostly driven back into the river. The British Air Ministry announced that the Royal Air Force had destroyed permanent bridges and two pontoon bridges and, with anti-aircraft guns, brought down fifteen German planes in a battle near Sedan. British losses were thirty-five planes.

AIR SUPREMACY

According to the International News Service the Allies have supremacy in the air in the present war. Not only have they shot down many more enemy planes than the Germans but there have been very few casualties compared with the number of German. The new plane that the British have just sent into action seems to be proving very effective. If this air supremacy continues the course of the war may be largely determined by it.

LONG TERM STRATEGY

Naturally we all like to see our side in the war winning all the time and driving the enemy back. That cannot be. We are bound to lose at least part of the time. However, we are not beaten because our forces are driven back and we are not beaten because we have to retreat. We are not beaten until the last great battle has been, fought. Then we confidently expect to emerge victorious.

WAKE UP YOUR

LIVER BILE-

And You'll Jump Out of Bed in the

Morning Rarin' to Go

The liver should pour out two pounds of

liquid bile into your bowels daily. If this bile

It just decays in the bowels, Gas bloats up

your stomach. You get constipated. Harmful

poisons go into the body, and you feel sour,

at the cause. You need something that works on the liver as well. It takes those good, old

Carter's Little Liver Pills to get these two

pounds of bile flowing freely and make you

feel "up and up". Harmless and gentle, they

make the bile flow freely. They do the work

of calomel but have no calomel or mercury is
