French Announcement

At Grenoble, France, the French navy ministry announced that the French destroyer, Frondeur, was attacked and sunk by two British' cruisers off Isle of Crete in the Mediterranean. A dispatch from Vichy, seat of French government, said that the Frondeur was enroute to a French port according to terms of the German-French armistice when it was met by the British

ANY MORE SURPRISES

This war has been full of surprises. Who would have thought a few weeks ago that France would be found fighting the battles of the German and Italian people? Any person suggesting it a month ago would have been thought crazy. Nobody today knows where Russia will'. stand a month from now. Then there is Japan. That; country is a very uncertain quantity.

Other questions asked are as to how Germany plans to invade and try to destroy Britain. Doubtless, the plans have been made or are in course of preparation and the element of surprise will not likely be lacking.

### HUGE PREPARATIONS

Genius though he is, brilliant strategist though he has proved himself to be, it should always be remembered that Hitler does not possess a temperament equal to reverses. Napol- FOR SALE-Stove and Oil Burner, St. Louis eon stretched his communications too far; look at the map and see how extensive is the coastline over which the FOR SALE-16-foot cance-actu-Swastika is flying.

HITLER'S VIEWS

It should not be imagined for one moment that Hitler! is unaware or not apprehensive of his developing weakness, says the same paper. He is afraid of the consequences of mass air attacks on the vast collection of factories in the Ruhr and at those points at which he has stored fuel for his airplanes. Despite all the glamour of victory to date, the middleaged German may be far from convinced of the certainty of ultimate success. He remembers that highly-spectacular things happened between 1914 and 1918 but that in the end German envoys were compelled to assume the role in which Hitler cast the envoys of the Petain government the other day.

It is conceivable, therefore, that the Fuehrer's besetting fear is his inability to divine the quality of civilian, morale when those who went through the first Great War; are confronted with large German cities laid waste-as they will be if the expected mass bombing on Britain is launched.

It's interesting to know when reading the Daily News FIRST Class board and room. Reasthat the people of the whole district are doing the same.

Sockeye Season Opens Up Well — Troll Fishing is Quiet Again — Earlier Closing of Halibut Season Explained

In spite of unfavorable weather conditions with rain and wind, sockeye g linetters on the Skecna and Naas Rivers for the first cek of the 1940 fishing season have averaged fifteen to twenty fish per boat, according to fisheries department figures. Canadian landings this year to date are 3,912,919 pounds in comparison with 3,633,700 pounds at the corresponding date last year while American landings have reached a total of 5,770,600 pounds as against 4,644,-000 pounds. Prices were stiffer during the week with the high bid of the week for Canadian fish 10.6c and 7c which the D.S.T. was paid for 5,000 pounds and the low 9.5c and 7c which the Margalice was paid for 2800 pounds. For American fish the high price of the week was 10.1c and 7.5c which the Blanco received for 17,000 pounds and the low 9c and 7.5c which the Eagle and Sunset were paid for catches of 40,000 and 37,000 pounds respective-

The International Fisheries Commission reports that American and Canadian halibut fleets have landed a grand total of 28,862,958 pounds; from the start of the season on April 1 through to June 30 at all ports on this coast from all areas. The catch for the same period last! year was 25,943,079 pounds.

In explanation of the Interna-, tional Fisheries Commission announcement that Areas I and 2 would be closed to all halibut fishing at midnight of July 13, sixteen days earlier than last year, it is explained that the earlier attainment of the Area 2 quota (22,700,000, pounds) and the consequent earlier closure of Areas 1 and 2 in 1940, have been caused by an increase in the rate of landing due to several factors. Twenty-five to thirty new vessels have been added to the Area 2 fleet this year. A number, of vessels that in previous years left! the halibut fishery in June have elected to continue halibut fishing to the end of the Area 2 season because of higher halibut prices and uncertainty regarding the profitableness of the salmon fishery to which they normally turn. A change; in the regulations, restricting fishing to a single area on any one trip, has brought about the correct re-, Oklend, .031/2. porting of considerable quantities of Area 2 catches previously reported as from other areas. In addition to the above, the rate of landings in Area 2 has been accelerated by the increased catch per man per trip allowed one section of the fleet under the fishermen's self- continues high off the British Colimposed curtailment program.
