Co-ordinated Effort Can Still Retrieve Position Of Allies In Great Battle Waging In France

Bottle-Neck Has Been Narrowed From Thirty-Five to Twenty Miles As Main French Army Drives to Liberate Entrapped Forces in Flanders

LONDON, May 25: (CP)—Military sources declared today that a "co-ordinated Allied effort still can retrieve the situation" of the French, British and Belgium armies in France and Belgium which the Nazis claim to have trapped. "It should be remembered that the form of warfare employed by the Germans has weaknesses as well as strengths. There is no reason for loss of confidence."

The French High Command has made a special request that no mention be made of troop movements or of places where action is in progress.

The French fought today to further narrow the twenty mile gap in the Allied lines north of the Somme but German motorized troops are reported to be still moving through the French breach toward the Channel.

French troops in the Channel region, according to a military spokesman, are fighting off the German advance guards and have checked the Nazi advance on the western region.

The Peronne-Bapaume breach yesterday was thirty to thirty-five miles wide but the French in the last twenty-four hours have cut the distance to twenty miles.

The spokesman said that fighting also continues in the regions of Abbeville and Boulogne. He said the whole front is without "damp" south of Sedan where fighting is progressing favorably in a wooded section, the French having recovered all ground lost to the Germans.

While the main body of the French to the south drove north from the Somme to cut the German "bottleneck," Allied troops in Belgium hammered at the Nazi flank in the vicinity of Cambrai.

Neither London nor Paris condemned German High Command tactics that Vimy Ridge, the scene of Canada's greatest victory in the last war and the site of Canada's war memorial, was in the possession of the enemy although it would appear probable that it is.

Reports from Basel, Switzerland, said that French Army engineers had blown up scores of locks on the Rhine-Rhone Canal, flooding hundreds of square miles of territory on the French side of the Rhine. It was believed that this strengthened the Maginot Line in the sector, freeing thousands of soldiers for duty in the north.

Heavy artillery exchanges between the Maginot and Siegfried lines on the eastern extremity were reported today.

Driving Upon Fifth Column

Voluntinous Information In Hands Of United States Attorney General

WASHINGTON, D. C., May 25:—The United States government is speeding up its drive against "fifth column" activities in this country. In his press conference yesterday, President Franklin D. Roosevelt said that Attorney General Jackson had voluminous information in regard to subversive activities, much of this having been brought to light by the investigation by the Dies committee on un-American activities.

KING SPEAKS

LONDON—In an Empire Day radio broadcast King George warned the United States and the rest of the world that Germany was seeking complete and final overthrow of the British Empire and world domination for itself. The King declared that the issue was one "of life and death for us all." He said that defeat would mean destruction of our world "as we know it" and descent of darkness upon its ruins. It would be a triumph for dishonor and brute force over honesty and justice. The King's voice was touched with emotion at some points as he spoke. He urged Britons everywhere to keep their resolve unshaken.

VETERAN'S HOME GUARD

OTTAWA—Hon. Norman Rogers, Minister of National Defence, announced that a force of ex-service men to be known as the "Veterans Home Guard" for protection of military property and "any other purpose that may be found necessary" would be established immediately. They will be uniformed and armed as a military force under command of officers who were veterans of the last war. The force will consist of twelve companies of 250 each located in each of the military districts, to be enlarged if necessary.

EARTHQUAKE IN PERU

LIMA—Two slight earth tremors brought new panic to this section of Peru early today but added little destruction and apparently no new casualties to 249 dead and more than 3000 injured in yesterday's quake.

KILLED IN AIR CRASH

TRENTON, Ont.—Flight Lieutenant H. R. McBurney, 23, Saskatoon, was killed and Sergeant-Pilot Al Cheesman of Port Arthur, suffered minor injuries last night when a Royal Canadian Air Force plane, in which they were landing, nose-dived into the ground. McBurney was at the controls. Cheesman was a member of Sir Hubert Wilkin's 1938 Arctic search for six missing Russian aviators including Sigismund Levanevsky.

APPEASING ITALY

NEW YORK—It was reported in New York last night that Prime Minister Winston Churchill had exchanged messages with Premier Benito Mussolini of Italy with a view to clarifying his position in regard to the war and his intentions in regard to same. Diplomatic quarters suggest that France and Great Britain have opened negotiations with Rome for relaxation of the Allied blockade in the Mediterranean.

War News

FIFTEEN GENERALS "FIRED"
PARIS—Fifteen French generals were relieved of their commands co-incidentally with the appointment of General Maxime Weygand as commander-in-chief, it was disclosed tonight by Premier Reynaud's office. Names of the dismissed generals were not revealed. German forces have not yet reached Calais, a military spokesman said tonight, adding that "The Battle of Flanders" had only just begun. The situation at Boulogne was described as "uncertain" with heavy fighting proceeding.

HEAVY NAZI LOSSES
PARIS—A Paris statement last night estimated that, since the Germans invaded Holland and Belgium, the enemy have suffered 100,000 to 150,000 killed, 300,000 to 400,000 wounded with 1500 planes and 1500 tanks lost.

BOMBARDED NARVIK
NARVIK—With German aircraft and British naval forces both being reinforced, there has been increased activity around Narvik with further bombardment of the port.

CHURCHILL GLOOMY
LONDON—Prime Minister Winston Churchill, in a letter to the Trades Union executive council meeting today, said the "gravity of the situation deepens hour by hour." He said: "The country's needs are imperative, inescapable and imperious and we shall pay dearly if we fail to meet them."

ITALIAN SAILINGS DEFERRED
GENOA—Some significance was attached today to the announcement from headquarters of Italian steamship lines that the scheduled sailing of the liner Rex for New York had been postponed from May 29 to June 12. Other sailings of Italian liners are also reported to have been postponed including that of the Augustus for New York and the Neptunia for South America. No reasons were given but there were widespread reports that the new dates had little connection with Italy's relation to the war.

ESTIMATES CUT DOWN

Ordinary Expenditures Of Federal Government Are Reduced This Year Owing To War

OTTAWA, May 25: (CP)—Hon. J. L. Ralston, minister of finance, tabled ordinary estimates for the coming year in Parliament late Saturday. They total \$448,000,000 or \$77,000,000 less than last year and are in addition to the \$700,000,000 war estimates.

Col. Ralston said that little new in the way of public works would be undertaken this year and there would be closing down of some projects now under way. The minister hoped that the people would accept this situation in view of war exigencies.

FRENCH STILL DRIVING COUNTER OFFENSIVE TO SEVER NAZI SPEARHEAD

Capture of Boulogne and Calais Claimed By Germans But Questioned by Paris—Progress of Fighting During Past Two Years

BRITISH COAST RAIDED

The general war picture appeared not a great deal changed today. The French claimed that Boulogne and Calais, important channel ports, were still in French hands although the Germans claimed they had taken Boulogne and had encircled Calais. British naval and aerial forces have been active in connection with the defence of the Channel ports. In north central France the counter-offensive with a view to breaking the German bottle-neck to the Channel is being continued with further fierce fighting. The British Royal Air Force claims to have brought down thirty-one German planes yesterday with less than one-third of that number of losses itself. In an air raid on coast town of North Riding Yorkshire eight persons were injured. There were also air raids on East Anglia and Essex coast but no civilians were injured. Little, if any damage, was done in the raids.

PARIS, May 25: (CP)—A military spokesman last night said that the Allied armies had caught German columns in an artillery crossfire yesterday in a new effort to cut the Reich army's corridor to the sea and turn the tide of battle for the English Channel. Massed infantry also weighed down on the German salient, pressing south from

Air Training Schools For United States

WASHINGTON, D.C., May 25:—Air training schools for college students from 18 to 25 years of age will be opened in United States in connection with the plan to provide the personnel of the government's plan to provide an air force of 50,000 planes for this country.

In London it was stated by the Air Ministry that the Royal Air Force had carried out fresh fierce and devastating bombing attacks with deadly effect on the enemy forces in France and Belgium. Bombs had been dropped on German columns in the vicinity of Arras and Boulogne and there had been continued attacks on military objectives such as communication lines, railways and trains and munitions dumps both in German-occupied parts of France and Germany proper. In an air battle over the English Channel eleven British planes had brought down eleven enemy machines. The British Air Ministry announced that Royal Air Force fighters Thursday shot down 31 German planes and disabled nine. In three days the Royal Air Force has dropped 120 Nazi planes. The British lost eight planes yesterday. The ministry announced that Germany had lost more than 1500 aircraft in the last two weeks.

LONDON—In a radio broadcast yesterday King George warned the United States and the rest of the world that Germany was seeking complete and final overthrow of the British Empire and world domination for itself. The King declared that the issue was one of life and death for civilization "as we know it." Defeat of the Allies would mean a world of darkness, a triumph for dishonor and brute force over honesty and justice. The King's voice was touched with emotion at some points as he spoke.

Earlier yesterday in London it was reported by authoritative sources the Germans captured the strategic French Channel port of Boulogne, The British forces which had been assisting the French in

Sir Samuel Hoare Is Being Sent To Madrid On "Special Mission"

LONDON, May 25: (CP)—Sir Samuel Hoare has been appointed British ambassador to Madrid on a "special mission." This "special mission" will, it is believed by observers, have especially to do with Spain's possible relation to the European war.

BURIED AT ESQUIMALT

Full Naval Honors Are Accorded Late Nels Amoth of Prince Rupert

Full naval honors were accorded the late Nels Amoth of Prince Rupert whose funeral took place at Esquimalt where he passed away suddenly recently while on naval duty. Rev. Arthur Bischoffberger, R.C.N. naval chaplain, officiated and officers and men of the Fishermen's Naval Reserve, of which deceased was a member, were the principal mourners.

The casket was covered with a white ensign and was taken from the funeral chapel to naval cemetery at Esquimalt on a gun carriage drawn by young naval men. At the end of the service a firing party fired three volleys and Buglar Able Seaman Short sounded "The Last Post" as the remains were lowered to the final resting place.

Palbearers, all from H.M.C.S. Naden, were J. L. Smith, J. Greenhalgh, R. Bradley, P. B. Ellerton, C. McMullin and A. McAlpine.

There were floral offerings, among others, from the Deep Sea Fishermen's Union, Mr. and Mrs. Peter Wingham, Mr. and Mrs. Gliske, Mr. and Mrs. Jack Ivarson, Mr. and Mrs. Edwin Landeth, Miss Anna Peterson, Mr. and Mrs. Hveding, Ray and Louise, H.M.C.S. Naden ship's company, Mr. and Mrs. Ole Stegavik, Commanding Officer and Officers of Pacific Coast H.M.C.S. Dockyard, Commander and Mrs. C. D. Donald, Officers of Naval Headquarters staff, Prince Rupert, Commanding Officers, Officers and ratings of auxiliary vessels, Henry and Auslag.

Mr. Amoth's death was very sudden. He had complained of pains in the chest and was moved to the dockyard sick bay. He expired in the presence of sick berth attendants before a doctor could be summoned. Cause of death was a pancreatic condition.

The late Mr. Amoth, who is survived by a widow and family in Prince Rupert, would have been 55 years of age had he lived until September 19. In the First Great War he enlisted from Digby, Nova Scotia, and served in France with the Eighty-Fifth Battalion (Highlanders) Canadian Expeditionary Force, being discharged as medically unfit for further service. He had attained the rank of corporal and was a machine gunner.

Sergeant C. C. Jacklin, chief of city police, sailed Thursday night on the Prince George for a trip to Vancouver and Victoria.

SUBVERSIVE ACTIVITIES

There is a lot of talk around the streets about subversive activities in Prince Rupert. Most of it seems to be talk. There are people who evidently sympathize with the Germans though it is very difficult to understand the mentality of such persons unless they happen to be of German origin and with a strong national bias. So far as we know there is no subversive organization in the city and those who are opposed to the war are usually keeping their own counsels.

Just now there is a wave of feeling sweeping the British Empire against any who are not loyal to the Empire in this time of crisis. Even in Prince Rupert there is a very strong feeling that no chances can be taken with people who are openly opposed to the national action and who, if the city were invaded, might be a danger to the community and the country. The expression of opinion is that people coming to B. C. from any nation other than the British or French did so of their own free will and most of them have sworn allegiance to the King and country. Under these circumstances any action or speech which indicates that they are not loyal to king and country means that they are traitors. The penalty for being a traitor in Britain today is death.

HAYS CREEK BRIDGE

Editor, Daily News:

Much has been said lately about the improvements of the new Hays Cove Bridge. Nevertheless, the old bridge had one advantage. I refer to the sidewalk pedestrians use in crossing the bridge. Formerly it was in continuation with the of the road. Now it has been changed to the opposite side. Consequently, people must cross the street at both ends of the bridge in order to stay out of the lanes of traffic.

FIRST BALL NAVY WINS GAME HERE IN LEAGUE

Single Men Defeated Married 8 To 7 Yesterday In Spite Of Being Considerably Outfit

In the specially arranged Victoria Day baseball game yesterday, Single Men scored a close 8 to 7 victory over Married Men. The Married Men proved the heavier hitters, connecting twelve times as against nine for the Single Men and also making five extra base hits whereas their opponents had to be contented with bingles. A bad third inning when the Single Men did some timely hitting which, together with some errors by the Benedicts, settled the issue although the Married Men made a strong come-back in the seventh but fell one run short of evening up the count. A good-sized crowd of fans witnessed the first baseball game of the season and considerable enthusiasm was displayed. The standard of play shown augurs well for what may be expected during the summer if there is success in organizing the proposed baseball league.

NEW GREEN IS OPENED

Superintendent And Mrs. James Clark Officiated At C. N. R. A. Grounds Yesterday

The new Canadian National Recreation lawn bowling green was officially opened yesterday by Superintendent James Clark, with Mrs. Clark throwing the first jack. The members were welcomed by President F. S. Walton who related some of the difficulties that had to be overcome in building and financing the new green. Now that it was an accomplished fact, he hoped that everyone would be able to enjoy it to the full.

Vice-President D. G. Borland expressed the sentiments of the associate members who he claimed were fully appreciative of the privileges enjoyed by them in being able to hold membership in the Lawn Bowling Club. He also mentioned some of the early difficulties and paid special tribute to Fred Walton and Jack Frew who, as everyone knew, were largely responsible for having transformed an unsightly piece of ground into a thing of beauty which was not only a credit to the C. N. R. A. but to the city in general.

Mr. Clark, in declaring the green open for play, traced the history of lawn bowling from its inception in the twelfth century up to the present day, pointing out there must be something to it to have maintained its popularity throughout the centuries, notwithstanding the fact that it was banned on more than one occasion and when revived was confined to the nobility. However, today it was one of the most popular sports and had a large following all over the English speaking world and he was glad to see it had so many supporters in Prince Rupert, all of whom he hoped would derive much pleasure from the new green, which, he claimed was a

credit to the C. N. R. A. of which they had every reason to be justly proud.

Following the opening ceremonies the usual President versus Vice-President game was played between six rinks representing the President and an equal number representing the Vice-President. This resulted in a tie score of 114 shots each, individual rink scores in most cases being very close. The high score for the day was made by the rink consisting of J. M. Campbell, A. Haig, T. McClymont and Jack Frew (Skip), the rink being up thirteen shots.

After the game the players made favorable comments on the behaviour of the green, everyone feeling that it measured fully up to expectations and looking forward to a very enjoyable season.

Delegate Tells About Visit To District Meet

In telling the members of the Prince Rupert Rotary Club Thursday about his recent visit to the district conference at Portland, Peter Lakie, president, spoke of the very high plane on which the discussions were conducted. Great enthusiasm was shown and the proceedings were so well arranged that there was not the slightest confusion. He met a number of big men

and he said he felt that, if this small cross-section of the district was anything like the general membership, the whole of Rotary was a really influential organization.

One of the matters discussed was a proposal to divide the district. This proposal was turned down. Originally this district was Number One Rotary district and there was a sentimental reason for keeping it intact. It was international in character as it included the states of Washington, Oregon and a part of Idaho, the Territory of Alaska and also the province of British Columbia. In this area there were 82 clubs in all.

Mr. Lakie told of a wonderful banquet at which 1200 people were seated in the Armories and a dance in the Masonic Temple at which a thousand were present. He said the whole visit was a memorable one and the experience delightful and educational.

TWAS DOCTOR'S WRITING

SHENFIELD, Eng., May 25: (CP)—After glancing at a medical certificate, Albert Bardwell, 62, of this Essex town, rushed home and told his wife he had mental trouble. Later his body was fished from a nearby pond. The coroner said that Bardwell had misinterpreted the words on a doctor's certificate "because the writing was indecipherable."

Grey Paint and "Skipper" Turn Fisher Craft Into Naval Units—Salmon Trolling Normal—Halibut Prices Better

When the deck's covered with fish scales the fish boat looks useful but not beautiful. But dress her up with a coat of grey paint, give the commander the rank of "Skipper" and she becomes one of the units of the Royal Canadian Navy and is proud of it! From a drab she becomes a lady with a certificate of character. Proudly she flies

boats can manoeuvre together on the water. In line abreast, in quarter line, in line ahead, these vessels chug-chug their way on orders, emulating as smartly and as proudly their bigger sisters of the service. They can scout, manoeuvre, sweep for mines or lay depth charges against submarines. Their Lewis guns or rifles will shatter the drifting menace of a hostile mine or take care of their own defence. "Fisherman's Reserve"—that is what they become in official terms. Each has its number and its job. War called them from peace to a job they could do for the country and there they are, spread from Cape Flattery to Alaska, alert and resourceful, not wishing it out loud, perhaps, but inwardly hoping that, if there is any dirty work by the enemy, they will be there to cope with it. In the boats with which the are familiar, for in most cases they own them, the skippers set out. That is their rank, "Skipper," and officially their boats are "reserve boats." Their crew usually includes a petty officer and two, three or four seamen depending on the size of the vessel. These may be reservists with naval experience but generally they are the hands who have been accustomed to working with the "Skipper" and his boat in peacetime. They all receive as much training as is possible to give them. But this is incidental. Their great value lies in several other qualities of which may be cited, mobility, manoeuvrability in shallow coastal waters, the knowledge of the personnel of the coast, bays, and harbors and their familiarity with all that pertains to the sea. The Fishermen's Reserve was an inspiration and its utility in this war is no less pronounced than the pride of the men in being able thus to serve their country.

Trolling Season Normal
The season is opening this year quite normally on the trolling grounds in Prince Rupert district. About the usual number of boats are out and there appears to be somewhat of a scarcity of fish. Complaints along this line are heard but it is usually thus about this date of year so the discontent in regard to paucity of fish may also be considered a normalcy. The usual packing services are being carried on. The prevailing price for red spring salmon at present is ten cents per pound and for whites about six cents.

Halibut prices at Prince Rupert are continuing to run from two to three cents a pound higher this spring than they did a year ago. Due to the adverse exchange rate against Canadian money, the tariff differential is no longer discernible in favor of American fish over Canadian on the sale quotations. Up to yesterday halibut landings at Prince Rupert for the 1940 season had reached a total of 5,163,769 pounds as compared with 4,385,300 pounds at a corresponding date last year. The Canadian total for this season to date is 2,062,169 pounds in comparison with 1,996,700 pounds while the American total is 3,101,600 pounds as against 2,388,600 pounds. For the past week landings amounted to 713,400 pounds including 221,400 pounds Canadian and 492,000 pounds American fish. The high price of the week for Canadian fish was 10.4c and 7.1c paid the Finella for 15,000 pounds and the low 9.4c and 7c which the Ath. Delmar and Peerless received for 14,000, 1,700 and 6,500 pounds respectively. For American fish the top bid of the week was 9.9c and 7.5c paid the Aegir for 1,700 pounds and the low 9.2c and 7.5c which the Majestic received for 36,000 pounds. Owing to the Victoria Day holiday there was no sale of halibut on the local Fish Exchange yesterday.

Five thousand Prince Rupert people read the Daily News. It says to let them know what you have to sell

BLONDIE IS HERE AGAIN

Lupe Velez Picture Also Showing Tonight At Capitol Theatre

"Blondie Brings Up Baby," another in the series of popular pictures based on the well known comic strip, and "Mexican Spitfire," a romantic comedy featuring Lupe Velez, comprise tonight's double bill program at the Capitol Theatre.

In "Blondie Brings Up Baby" Blondie and Dagwood are confronted with the problem of sending their child off to school for the first time. This is occasioned by Blondie's sudden discovery that Baby Dumpling, according to a book salesman, is a genius. In the process of sending Baby Dumpling to school, Dagwood gets himself arrested as a kidnap suspect. Daisy gets affairs running smoothly as possible. Penny Singleton, Arthur Lake, Larry Simms and Daisy the Dog play their usual parts.

In "Mexican Spitfire" Lupe Velez is seen as a madcap Mexican song and dance girl newly married to a staid New York advertising man. Efforts of the groom's jealous ex-fiancee to break up the marriage with the help of a scheming aunt provide basis for the story. Besides Miss Velez, the cast includes Leon Errol, Donald Woods, Linda Hayes and Elizabeth Risdon.

It's the cumulative effect of advertising that counts
