## Roumania Would Stay Neutral Through Selling Goods To Both Sides

Some Concessions Have Already Been Made to Reich It Is Reported as Entente Meeting Opens

BELGRADE, February 2: (CP)—German pressure on Roumania to obtain acceptance of a sweeping plan to make her industries, petroleum production and agriculture adjuncts of the Reich's economic structure are reported by informed persons as a meeting of the Balkan Entente opened here today. Roumania, reportedly, has already made some concessions to Germany but is looking to her partners in the Entente—Turkey, Greece and Jugoslavia—to support her in a policy of economic neutrality which would enable her to resist encroachments which might involve her in war. Under this policy, proposed after it was decided futile for Roumania to ask other members of the Entente for a military alliance, the four nations would sell supplies both to Germany and the Allies but only to the extent of normal peacetime trade.

More Surveys Needed—President of National Parks Association Comes Out Flat

## Don't Overdo Warns Medico

Exercise May Be Harmful If Overdone Authority Believes

WINNIPEG, Feb. 2: (CP)—Too much emphasis is placed on exercise as a health factor, Dr. William O'Brien, director of post-graduate medical education at the University of Minnesota believes. Exercise is beneficial in small doses but there is danger in over-exercise. "If you feel in the mood for exercise, the best thing to do is sit down and rest until the mood passes," he said. After the 40th birthday more rest and a firmer check on bad habits is necessary, he declared, because the body cannot stand so much punishment. However, man's mental faculties continued to grow in power and this was achieved by keeping alert, studying and endeavoring to learn something new.

M. studio spokesman said today that they were trying to telephone Clark Gable and wife, Carole Lombard, at a gun club in Lower California where they said the "Gables are reported safe and sound." On a hunting trip to Mexico, the actors were reported missing last night. Apparently they were caught in a storm and spent the night in their station wagon. None of their friends are worried about their safety.

James Clark, new divisional superintendent of the Canadian National Railways from Edmonton, arrived in the city on last night's train and is busy today taking over his duties and getting acquainted with his staff. About the middle of the month he will be joined by Mrs. Davis. They will reside in the superintendent's house at Pacific Place.

## DEATH BY ACCIDENT

Jury Determines That William Scott Was Killed at Surf Inlet by Fall Of Rock

Accidental death caused by a falling rock in the Pugsley mine at Surf Inlet was the verdict of a jury which yesterday afternoon investigated the death of William George Scott, 39-year-old miner, whose body had been brought here the night previous by provincial police from the scene of the accident. Scott's skull was fractured and his brain injured. His death occurred at 2:30 a.m. January 29 following injuries sustained at 8 p.m. the night previous. He was entering the mine to go to work on night shift when the rock fell following a blast. He had been warned against doing so without being accompanied by the foreman. The inquest was heard by Deputy Coroner A. J. Lancaster. Jurors were William Millar, foreman, S. E. Parker, Tony Christian, Gus Berg, Erling Peterson and A. G. Bartlett. Scott's body will be sent tonight on the Venture to Vancouver where a widow resides and where interment will be made.

## NEW DRIVE BY SOVIET REPULSED

Fiercest Attack Yet On Mannerheim Line Fails—New Red Offensive In North—Summary Of Second Month

HELSINGFORS, Feb. 2: (CP)—The heaviest artillery attack yet on the Mannerheim Line was launched yesterday by the Russians but was successfully repulsed by the Finnish defences. A new general offensive by the Soviet from Petsamo in the Arctic section to Lake Ladoga also appears to have been commenced with heavy fighting reported from Sala and Petsamo. Russian bombing attacks on southern Finnish cities were resumed today. Air alarms started in Helsingfors at noon and continued for an hour and a half. No bombs were dropped on Helsinki but towns and villages to the west were believed to have been subjected to air attacks. Such is Russia's answer to the proposal for an "honorable peace" made yesterday by President Kallio of Finland. It was evident, even when he made his peace proposal, that President Kallio anticipated it would be spurned. One of his statements was that the Russians "know little of the Finnish people if they think we are capable of submitting to their dictates." This was in reference to Russian imperialism. President Kallio appealed to outside nations for assistance, particularly in the way of making anti-aircraft equipment available. The Finnish command summarizes the second month of the war in a statement saying that the invading Russian army lost huge numbers of men and an immense amount of booty. It did not give the exact figures of Soviet casualties but previous communiques had specified the total of over twelve thousand dead with unofficial reports even higher.

#### SMILE IF IT KILLS YOU

An interesting sentence appears in the bulletin of the recreation centres published at Vancouver. It is supposed to be an order given by one of the instructors: "Relax girls and smile. Smile if it kills you."

When Her Majesty, Queen Elizabeth, is meeting the people she always smiles. It seems to come natural to her and yet it is evident that she must sometimes be thinking: "Yes, I'm smiling but it nearly kills me to do so."

Some people delight in scowling. They think it looks masterful but they would get much further by turning that scowl into a smile. "Smile if it kills you" is a good motto.

#### CHAMBER OF COMMERCE

No, this is not about our Chamber of Commerce. It is a clipping from the Peace River Record. Prince Rupert businessmen may read into it whatever implications they wish.

"If the town of Peace River is judged by the activity of its Chamber of Commerce, then we must consider it ready to be relegated to the ash can for interest in the organization and associated matters has been at a new low for the past few months.

"A livewire Chamber of Commerce has an important place to fill in the everyday life of our community and, although at this time we cannot extend our scope of interest to matters of national or international interest, there is still plenty of room for operation of a wide awake Chamber of Commerce."

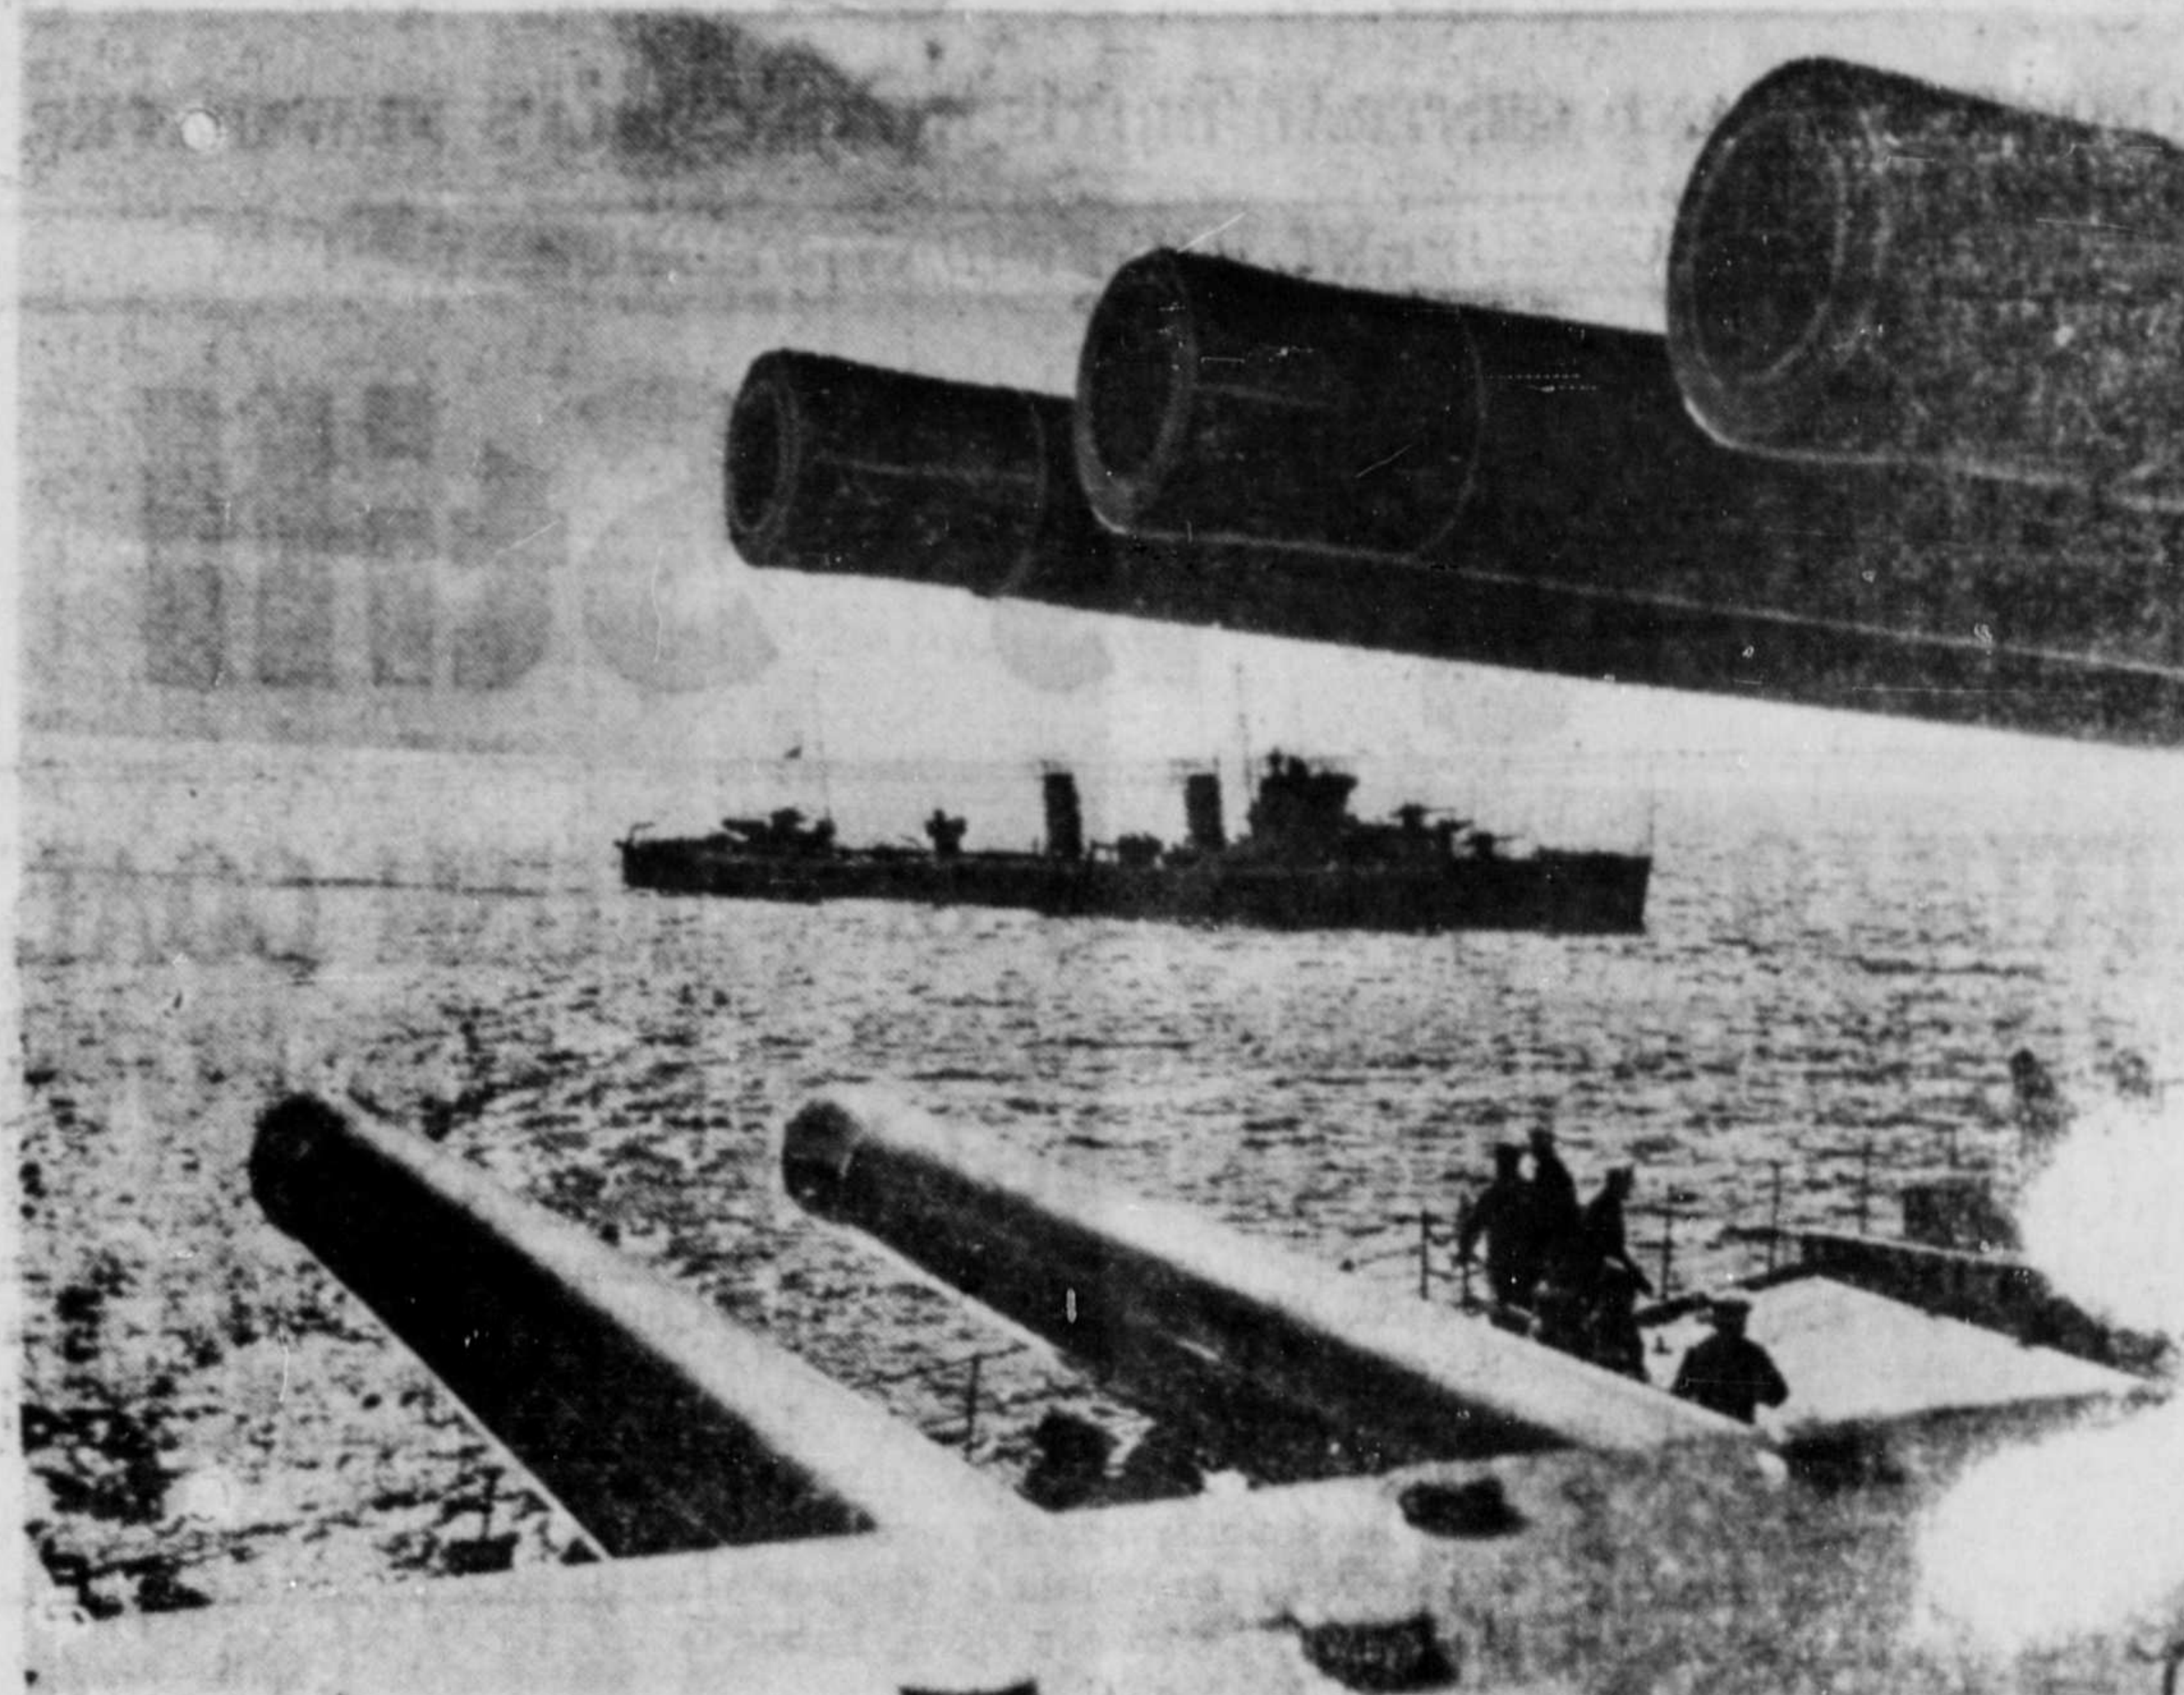

#### WHO STARTED THE WAR?

Evidently, there has been some discussion in Prince Rupert as to who started the present war. If a bandit runs amok robbing and killing and a policeman suddenly stops him, who starts that war? Was it the bandit or the policeman when Germany marched into CzechoSlovakia? At Munich the British and French had induced the Czechs to give up part of their country where Germans predominated so that a war might be avoided. The Germans marched in and took the whole country and have been shooting down all who opposed even up to within the past week. Germany was told that, if she invaded Poland, it would mean war. She went ahead and invaded the country, slaughtering men, women and children and destroying the cities. She had to be stopped. That meant war. It was the same man who gave way to the Germans at Munich who asked the British government to declare war against them in Poland. It was Prime Minister Chamberlain—all honor to him.

Now it looks like a war to the death in which Canada is taking part. So far we have felt it very little. We have suffered no hardships and, with the exception of a few air-men, no Canadians have taken part. We are told that the big war has not yet started. When it does our men will be needed and they will need support. At any cost Germany has to be stopped in her wild rampage of banditry.

Had Britain and France refused to fight for Poland the Germans today would have controlled Norway and Sweden, Denmark, Belgium, France, Britain and Canada and would have been threatening the existence of the United States. Happily our statesmen had the courage of their convictions and the Germans were stopped.

### SILENT GUARDIANS OF THE NORTH SEA

Framed by the mighty guns of a British warship, this destroyer of the Royal Navy passes silently while on patrol duty in the north sea. Military experts have advanced the theory that Germany's submarine warfare has failed 'dismally, largely because of the patrol work of these vessels.

### HOCKEY AT PR. GEORGE

Smithers Beaten In First Game And Second Is Draw

SMITHERS, Feb. 2:—The Smithers hockey team which travelled to Prince George on Monday played a couple of games in the large new indoor rink there, one on Tuesday night and one on Wednesday night to full houses of hockey enthusiasts and gave them their money's worth. Prince George won the first game 3 to 0 and the second was a two all draw.

The Smithers team was short several of its best players as it was not convenient for all the boys to go away on the trip.

In the Tuesday night game the Prince George team won by a score of 3 to 0 after young Guy Ludgate had broken three ribs in the first period, saying nothing about it until the game was over.

The score for Wednesday night's game was two all after ten minutes overtime in a fast and furious game which kept the fans on their feet all the time. The crowd did not want to disperse until a decision had been reached, by a continuation of play but there was no play beyond the regular overtime. Jack Dunlop and Mel McIntyre scored the two Smithers goals, the first being on a pass from Jack Hetherington and the second being a solo effort.

It is reported that the largest crowds ever to attend a game in Prince George crowded the new rink for these games.

### Pro Baseball Hurler Visits In Smithers Home

SMITHERS, Feb. 2:—John Carpenter, the Smithers boy who pitches for the Bisbee, Arizona, baseball team and who has been spending the winter at his home here with his parents, Mr. and Mrs. J. C. Carpenter, left Smithers Thursday for California to start his spring training in preparation for the coming season.

"Carp" is making a name for himself in the Southern League and should be heard from in the future. Wednesday evening he spoke to the pupils of Grade 8 in the public school here, giving them some of his experiences since he started with the baseball teams in the south.

### MR. ALDER'S FINAL TALK

Gives Address to Rotary Club on Occasion of Leaving Commissionership of City

"In going away I am carrying with me most kindly thoughts of Prince Rupert and of the Rotary Club," concluded W. J. Alder, retiring City Commissioner, in an address to the club yesterday at its weekly luncheon. "I take this opportunity of thanking the members of the club and other citizens of Prince Rupert for their loyal support. It was only during the past two weeks that I have come to realize what quiet support I had behind me in my work here."

In opening his address, Mr. Alder said he had always looked upon the Rotary Club as a sort of family gathering of businessmen. He felt more at home there than attending any other organization in the city. He had enjoyed the association with the members very much. He had joined soon after he came here at the suggestion of the late George Woodland and had never regretted it.

Mr. Alder said he had been city commissioner for six and three-quarter years. He had left a business in the south to come here. The suggestion for his appointment had come from H. B. Rochester, G. W. Nickerson, George Arnold, Fred Wesch, M. M. Stephens and Max Heilbronner. At that time he had thought a couple of years would have been all that was necessary. He had worked for a very moderate salary because he did not think he should ask others to take a lower salary if he was getting a large salary himself. He had never held public office before and he had at times felt that criticism levelled at him was unjustified. He had always considered his plans well before going ahead and had refused to take the advice of those who did not know as much about things as he did.

The retiring commissioner spoke of the refunding scheme as the most important work he had handled. This had saved the city \$34,000 a year in interest charges. Next in importance he considered was the zoning scheme which helped to rectify the injury done to the city in

### LOCAL NEWS NOTES

For prompt and courteous service Phone 13 Taxi.

Col. J. F. Preston, general staff officer of military district No. 11, arrives in the city on the Princess Adelaide this evening from Victoria to pay a visit to the local garrison.

Albert Farrow, steamboat inspector, called by the Prince Rupert last night on his return to Vancouver after spending the past week here on official duties.

Adjutant and Mrs. Howard Fisher, who have been in charge of the elderly men's home here for the city and Salvation Army, sailed last night on the Prince Rupert for Vancouver enroute to Calgary.

Inspector C. G. Barber, provincial police, called last night on the Prince Rupert for a trip to the Ocean Falls district on official duties.

The beginning in cutting it up into 25 foot lots. Most of the vacant lots now belonged to the city and it would be useless for a person to purchase one unless he already owned the one adjoining. The zoning bylaw helped to right a great wrong. He referred also to the garbage disposal system by which they had built Wantage Road right through the 440 acre city park. Part of the park was protected against those who would cut down the beautiful trees. The garbage was buried and was a nuisance to nobody. Compared with the odors of the dump on the highway this was a great improvement. The city parks would be a great asset and so would be the totem poles which were invaluable. Today they could not be duplicated. The museum also was a great attraction to tourists.

The speaker said his chief regret was that he had not developed the cemetery. He had been persuaded not to do this because some people thought developing it would spoil it.

President Peter Lakie thanked the speaker for his address and expressed regret at his leaving.

John Dybhaun said it was on April 7, 1933, that a bondholder in Vancouver had asked that a commissioner be appointed. Mr. Alder was appointed on May 3 and came here soon after that. It was a thankless job he had to face. He could not expect to satisfy every one. In that club they had enjoyed membership.

Visitors at the luncheon included R. L. McIntosh and H. F. Silverthorne. Sergeant Chris Jacklin and Indian Agent James Gillett were introduced as new members.

Tea and sale of home cooking, Red Cross headquarters, 2nd and 8th Street, Wednesday, February 7. Funds to be used for local Soldiers Hospital Supplies. (31)

Ross Nicholson, accountant of the Port Edward reduction plant, called last night on the Prince Rupert for a business trip to Vancouver.

Mrs. W. H. Goodsell becomes first vice-president and Mrs. F. Barber, second vice-president.

It was the regular monthly meeting of the Women's Auxiliary and Mrs. Schubert was in the chair. There was a large attendance and various matters of business were taken up.

The report of the Burns' banquet committee was received with enthusiasm. It showed that a substantial sum had been realized. A special vote of thanks was tendered to Mrs. H. K. Christensen for her work in connection with the banquet.

Arrangements were completed for a Valentine tea to be held at the home of Mrs. D. C. Schubert as well as for the annual banquet to be held by the Women's Auxiliary on February 15.

During the early part of the evening bridge and Chinese checkers were played, prize-winners at bridge were Mrs. C. Michaloff, first; Miss Margaret Fritz, second, and Mrs. R. Webber, third. For Chinese checkers the prize winner was Mrs. D. Morrison.

After cards delicious refreshments were served and the feature of the evening's proceedings then took place when little Miss Dorleen Olsen carried in a pretty basket laden with many beautiful gifts for the bride. The little girl helped the bride open the gifts and was surprised to find at the bottom of the basket a gift for herself as well.

Mrs. H. Smith sang a solo and Mrs. William Geddes gave a recitation. A happy evening came to a close with community singing with music honors for the bride.

Those present: Mrs. Peter Gamula, Mrs. Ernest Fontaine, Mrs. H. Bowden, Mrs. R. Chenoski, Mrs. J. Clavring, Mrs. J. H. Bulger, Mrs. Frank Ellison, Mrs. William Geddes, Mrs. George Howe, Mrs. George Hill, Mrs. Adam McIntosh, Mrs. James Krikeyevsky, Mrs. Walter Longwill, Mrs. J. H. Maht, Mrs. D. Morrison, Mrs. C. ### ORGANIZING FOR DRIVE

At a preliminary meeting in the Canadian Legion clubrooms last evening plans for the Canadian Legion War Services financial campaign were considered. Representatives of various organizations were in attendance and the objectives of the drive were outlined.

The need for such an organization to plan effectively for various vital needs not covered by other organizations was fully recognized and the fact that it was the Canadian Legion with its experience of the last war that was best able to deal with the problems were admitted.

A campaign organizer in the person of J. S. Wilson was appointed with Jack Preece, chairman of the committee. A meeting of representatives will be held again next Friday.

Colorful Pioneer of Skagway on Way to New York—To See Mae West Again

Martin Itjen, colorful long-moustached pioneer of the "Soapy" Smith and Gold Rush days and well known to all Alaska tourists as operator of the picturesque Skagway "street car," was here yesterday afternoon aboard the Princess Norah bound south. He is on his way for a trip to New York by way of the Panama Canal.

Five years ago the redoubtable Martin, who is well along in years but neither looks or acts it, encountered Mae West while on a trip to California and got a lot of publicity out of it. Asked of he would be going up to see Mae again this trip, Martin gave a far away look and an

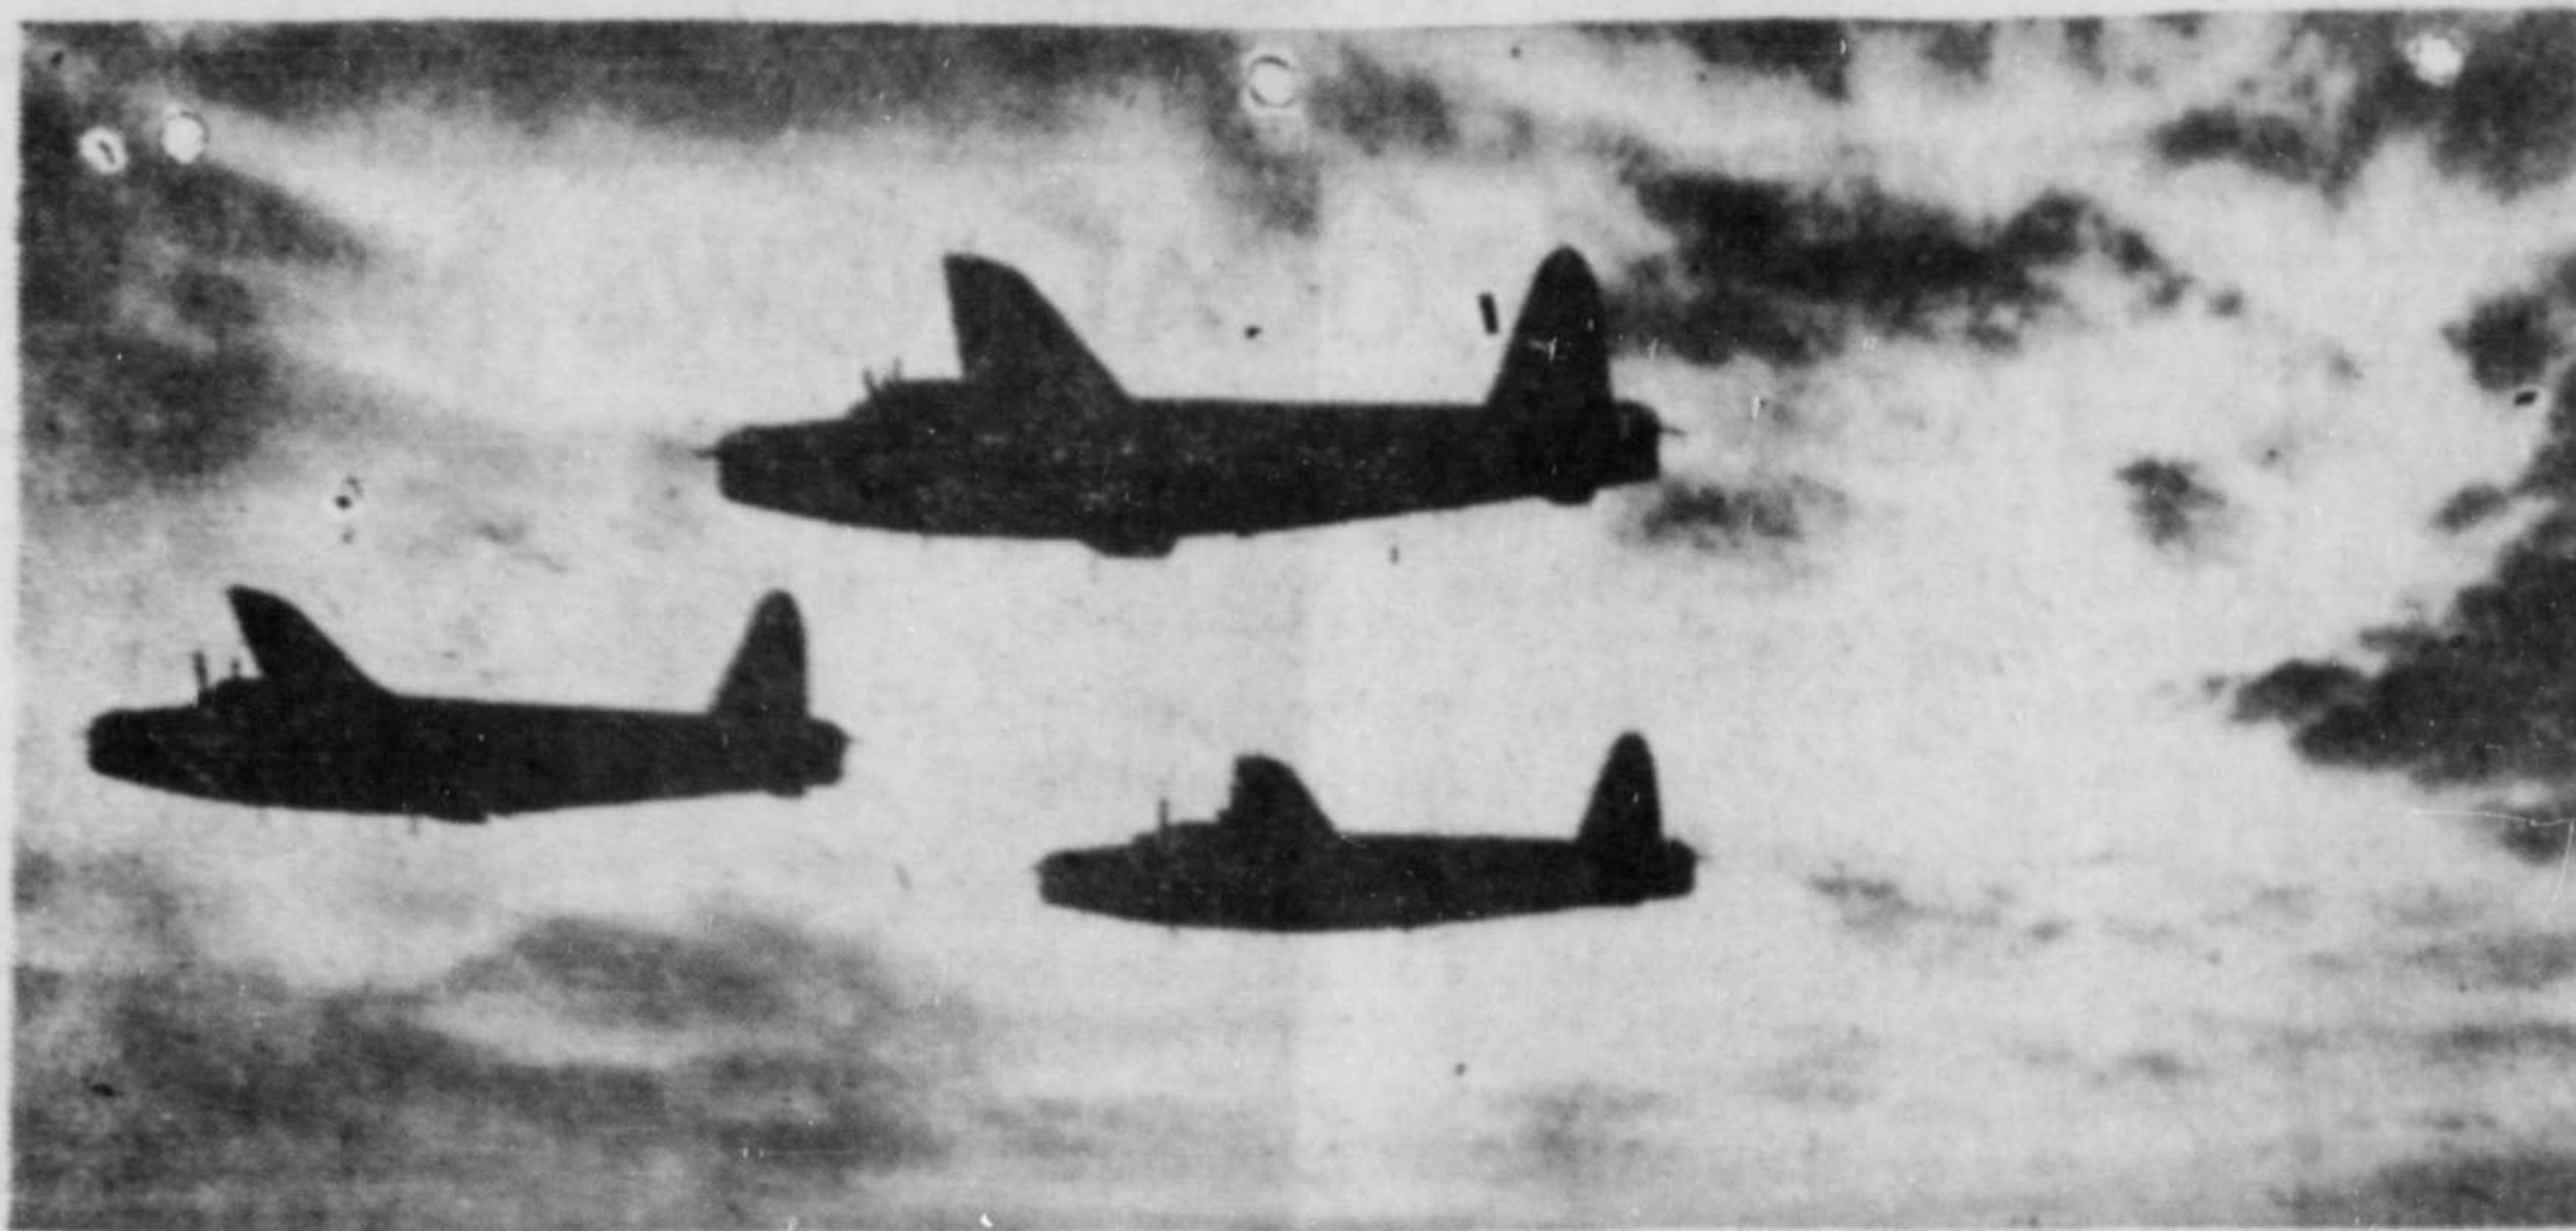

evasive answer but it was to be understood that the famous siren of the screen was still on his date book. Martin didn't know how long he would be away except that he would be back in time for the tourist season. He has a good thing in the Skagway "street car"—there are two now—and he makes more than an easy living during the three vacation months of summer by the pleasant means of driving the tourists to the various points of interest around Skagway and telling them stories of the early days.
