President Roosevelt Proposes Additional Taxes For Army And Navy—Would Lead In Peace Move

Three Point Plan

United States Cannot But Be Affected by Conditions in Rest of World, Chief Executive Declares

WASHINGTON, Jan. 3:—President Roosevelt, addressing Congress at the outset of the new session, declared yesterday that the United States can ultimately become a leader for world peace but "we must likewise be prepared to take care of ourselves if the world cannot attain peace." Accordingly, he said, he was asking for army and navy increases which are based "not on panic but on common sense."

The President proposed that sufficient additional taxes be levied to meet the cost of emergency defence spending. He said "there is a vast difference between keeping out of war and pretending that this war is none of our business." He renewed his pledge to keep the United States out of war. Further President Roosevelt said that trade agreements "should be extended as an indispensable part of the foundation of any stable durable peace."

Three Point Plan

The President submitted a three point program—

First, increases in the army and navy in view of world uncertainty.

Second, additional taxes to meet the emergency of spending on national defence.

Third, extension of reciprocal trade agreements as a foundation for cordial international understandings.

The President announced budget reductions in all items except national defence. The President, who was given a great ovation, failed to make any remark on the subject of a third term.

The Secretary of the Navy announced legislation which would empower the President to commandeer private shipping in connection with national defence.

Budget Presented

Presenting his budget message today, President Roosevelt urged Congress to slash farm, relief and public works spending and asked for \$460,000,000 special defence taxes. If all the recommendations were followed, the President forecast there would be a net deficit for the fiscal year beginning July 1 of \$1,750,000,000. This deficit he compared with almost \$4,000,000,000 for the current year.

The President estimated expenditures at \$8,500,000,000 or \$75,000,000 less than this year.

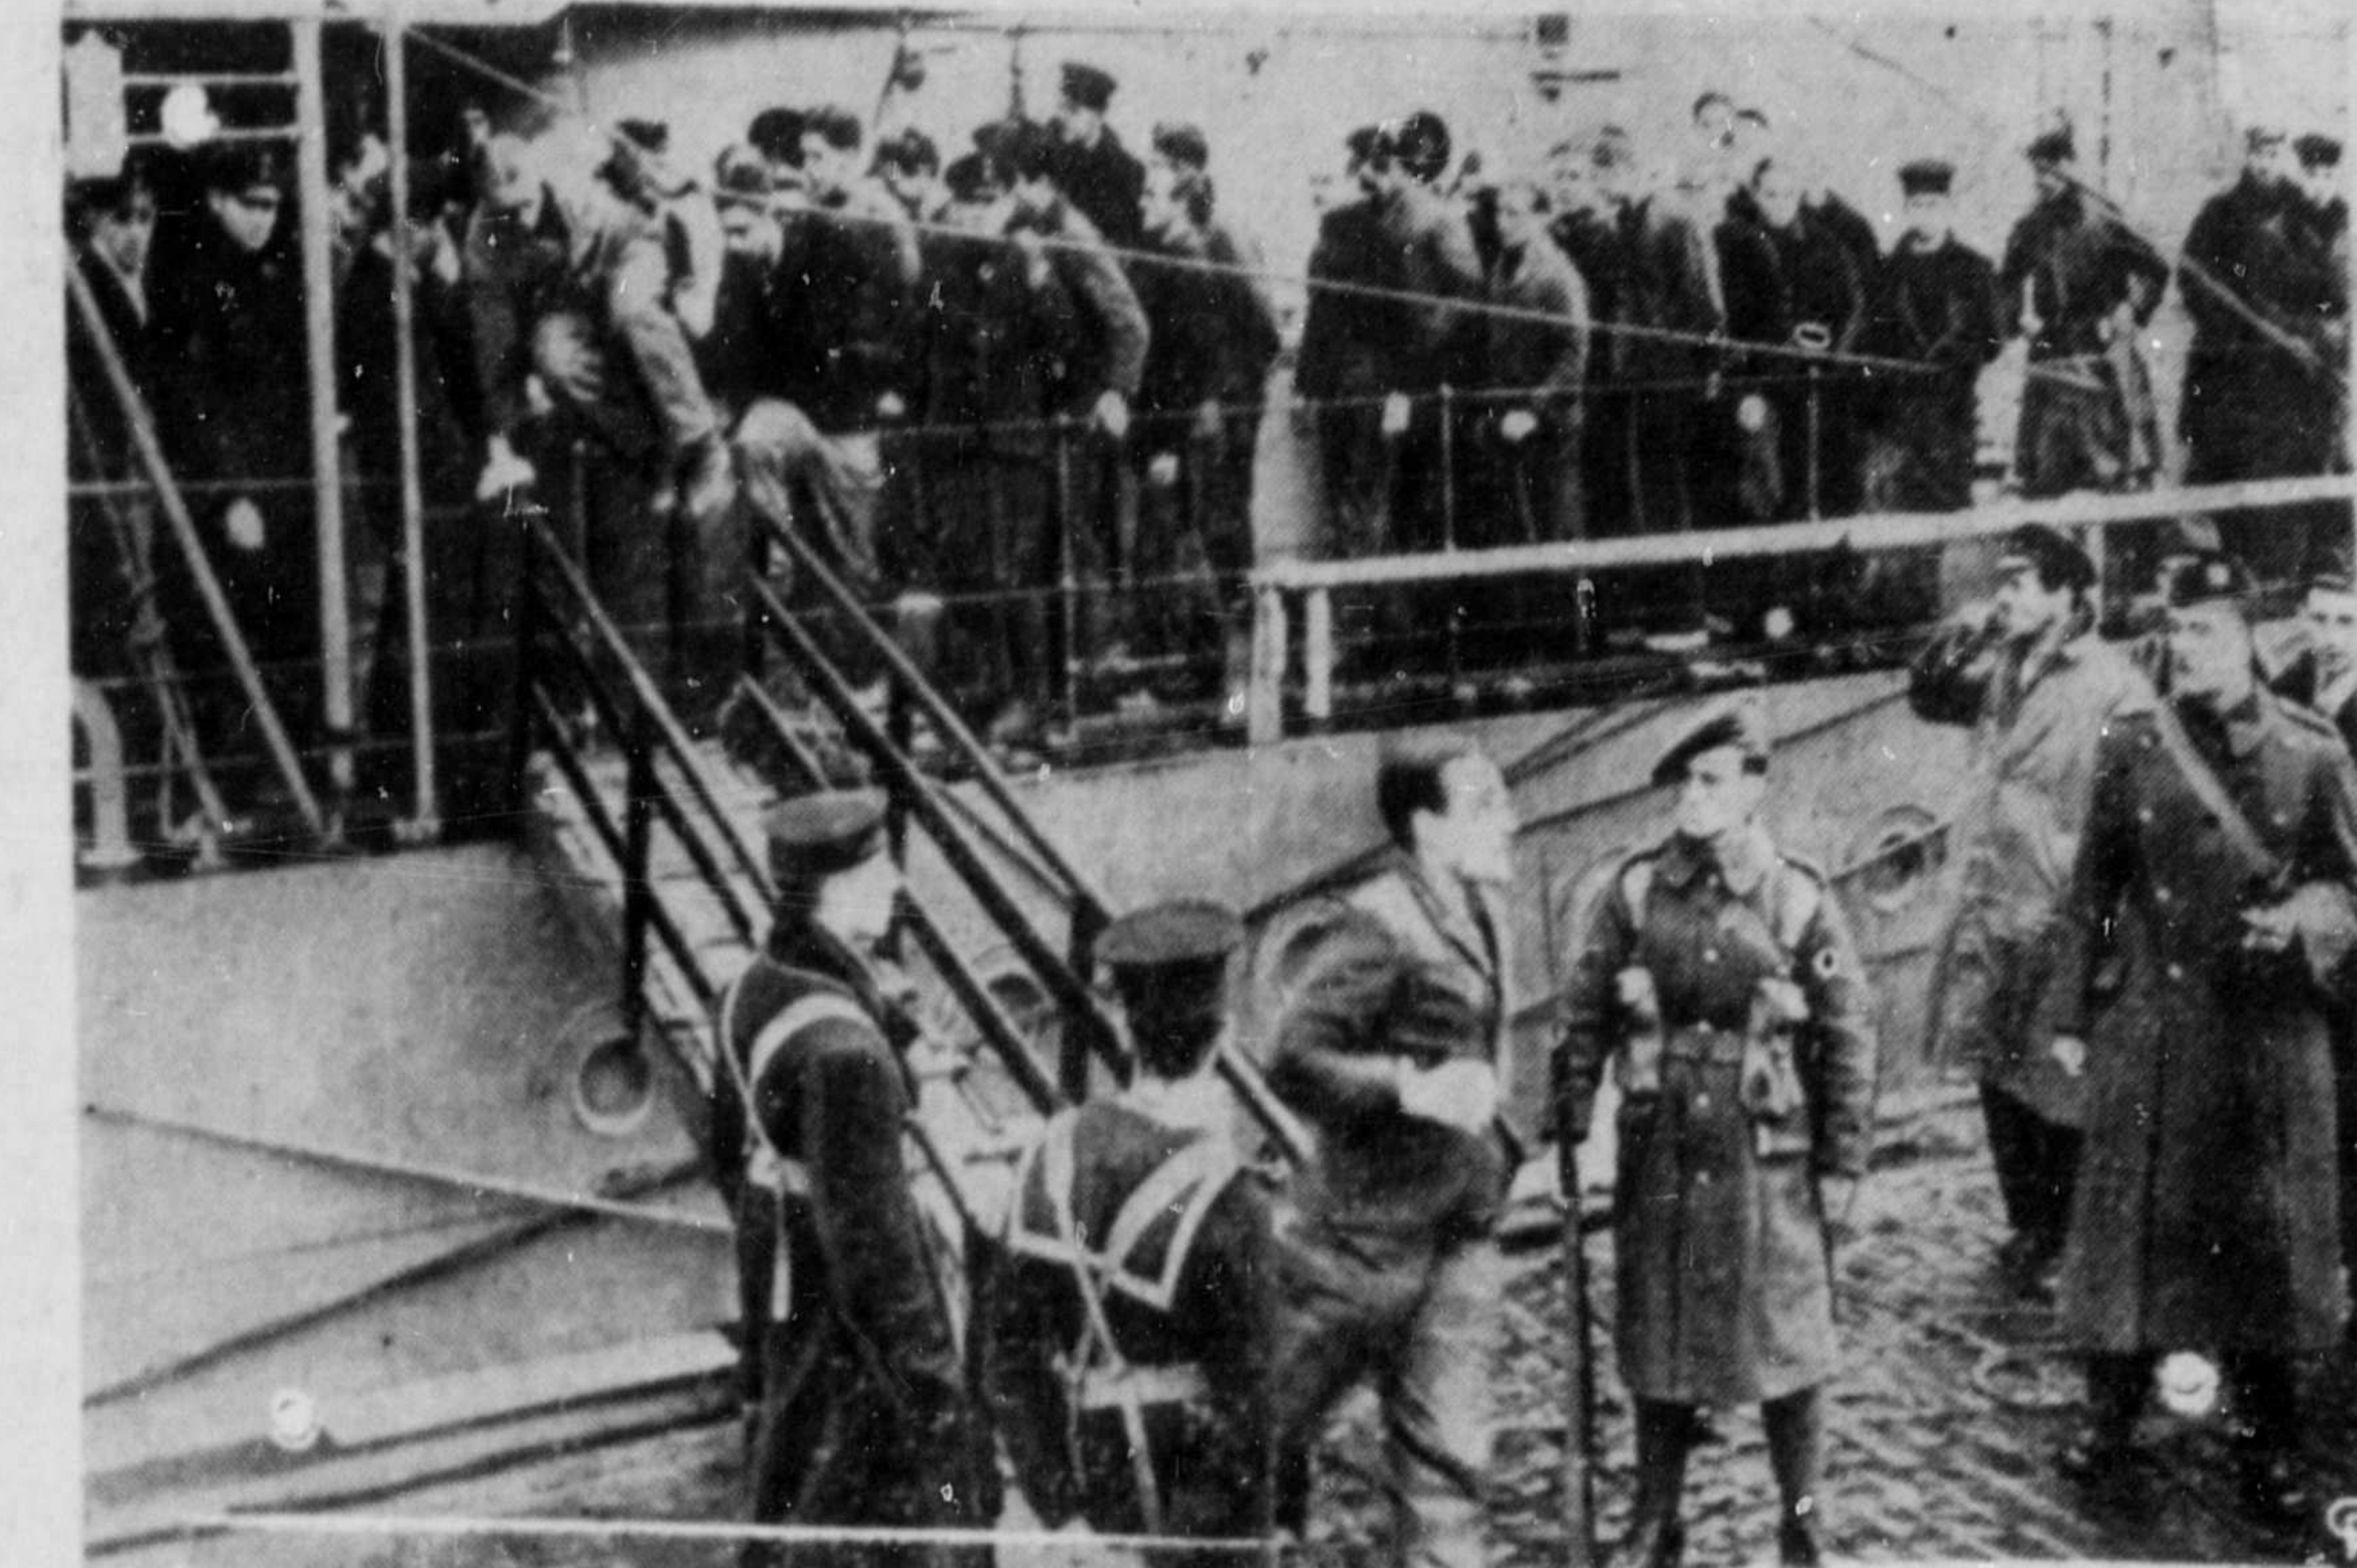

No provision is made for continuing work of the Alaska Highway Commission which received \$4,000,000 last year.

The President asked for defence appropriations totalling \$2,250,000,000, the highest in twenty years, special taxes to meet part of this burden. The proposals represent an increase of almost \$500,000,000 from the current defence expenditures.

LONDON, (CP)—The Montreal price of bar gold on the London market was unchanged today at \$35.54 per fine ounce.

CREW OF SUNKEN NAZI U-BOAT ENROUTE TO INTERNMENT CAMP

Men of an ill-fated Nazi U-boat are pictured as they arrive "somewhere in Britain" as prisoners of war. They are shown coming from the naval vessel which captured them in battle at sea. The war is over for them—an internment camp will be their "home" for the duration of the struggle.

HELPING FINLAND

Great Britain, France and Italy Make No Bones About Side They Are Taking

GENEVA, Jan. 4: (CP)—Great Britain and France have advised the League of Nations formally that they will give as much aid to Finland in her war against Russia as the war with Germany will permit. Italy is less reticent, openly admitting that she is sending men and equipment to the aid of the Finns.

BRITAIN IN FINE SHAPE

Former Premier Bennett Tells Of Defence Program

NEW YORK, Jan. 4:—Speaking before the Canadian Club here yesterday, Former Prime Minister R. B. Bennett declared that, during the past eight months, Great Britain had carried out the greatest defence program in its history. Airplanes were being turned out at the rate of one thousand per month and warships at the rate of one per week. The British war policy was one of preserving life to as great an extent as possible.

Clipper Forced Back By Storm

Turns Around To Oakland After Being 240 Miles Out At Sea

OAKLAND, Jan. 4:—After getting 240 miles out to sea on a flight to Honolulu and the Orient, Pan American Airways Philippine Clipper was forced to return to Oakland yesterday on account of a storm. The ship has already been delayed almost two days in leaving.

Off To Ottawa To Attend War Supply Board

VANCOUVER, Jan. 4: (CP)—W. C. Woodward, British Columbia's member of the Dominion War Supply Board, left yesterday for Ottawa to attend sessions of the board. On the way he will stop off for a couple of days at Edmonton in connection with his business interests there.

War News

REQUISITION SHIPPING

LONDON—Sir John Gilmour, minister of shipping, announced tonight that the British government is requisitioning all ships of the United Kingdom and the colonies to facilitate its wartime shipping program. The scheme, following that used in the First Great War, is designed to enable economies of tonnage and more effective use thereof. Already steps with this end in view have been taken in Canada, some of the more important companies having been advised that their ships will probably be requisitioned.

NO ILL FEELINGS

BUENOS AIRES—Interned German sailors from the Admiral Graf Spee drank beer with British sailors from the British cruiser Achilles here last night, telling each other that they harbored no ill feelings.

GERMANS WARNED

BERLIN—The Nazi public was told today for the first time of the possibility of general war over Finland. Editorial comment from the Soviet military organ Krasnaja Swesta was reprinted by the controlled press of Germany with approving German comment added. This accused the Allies of trying to widen the scope of the war with Germany and charged that they had encouraged Finland to resist Russia.

Indiscreet But Not Disloyal

Minister of Education Makes Comment Regarding British Columbia School Teachers

VICTORIA, Jan. 4: (CP)—"Our teachers are not disloyal," says Hon. Dr. G. M. Weir, minister of education, "but some of them—fortunately a small number—might be more discreet in what they say about the war."

Teachers should instil in their pupils, the minister said, a love of country but not hatred of an enemy.

Dr. Weir made his statement following disloyalty complaints against teachers.

TWEEDSMUIR WILL LEAVE

Does Not Intend To Take Extension Of Term After This Summer

OTTAWA, Jan. 4: (CP)—The five year term of Lord Tweedsmuir as Governor General of Canada comes to an end during the coming summer. Prime Minister William Lyon Mackenzie King said yesterday that Lord Tweedsmuir had declined to accept an extension of the term. The Prime Minister did not hint, however, who the successor might be.

DISCUSSING WATERWAYS

Negotiations Between Canada And United States Are Resumed, Prime Minister Announces

TREATY BEING RUSHED
WASHINGTON, D. C., Jan. 4: (CP)—The United States Department of State announced today that a delegation headed by A. A. Berle jr. would leave for Ottawa Saturday to conclude a treaty with Canada for the development of the St. Lawrence deep waterway. The treaty would also provide for hydro-electric projects. The announcement here followed that in Ottawa yesterday of Prime Minister William Lyon Mackenzie King of Canada that informal negotiations had been carried on recently.

OTTAWA, Jan. 4: (CP)—Prime Minister William Lyon Mackenzie King, following a cabinet meeting yesterday, gave official assurance that negotiations were again under way between Canada and the United States towards an agreement on the gigantic seaway and power development of the St. Lawrence River and Great Lakes water system. Informal discussions have been resumed. A 2,000,000 horsepower electrical development is contemplated.

Charge In Regard To Irish Republican Army Made At Opening Of Dail By Justice Minister

Powers Given

De Valera Accorded Sweeping Powers to Smash Outlawed Organization in Eire

DUBLIN, Jan. 4: (CP)—Charge that the Irish Republican Army was financed with money from the United States was made by Justice Minister Gerald Boland in Parliament of Eire yesterday as legislators met in special session to draft drastic laws to combat any menace to public safety.

With its war chest of United States funds, Boland said that the I.R.A. was a highly organized body. Among other things it had been found that it maintained a laboratory where members were trained to make bombs. There had been at least one hundred members involved in the Phoenix arsenal robbery.

At the demand of President Eamon de Valera for an emergency mandate for the protection of the state, the Dail gave the government wide powers to smash the Republican Army. Among other things it was given power to intern all suspects or those whose liberty might menace public safety without trial. The vote was 82 to 9. The bill was given third reading by the Dail and went to the Senate today.

A detective was wounded fatally on Patrick Street in Cork yesterday.

PATROLS SUCCEED

French Get Important Information—Also Take German Prisoners and Inflict Casualties

PARIS, Jan. 4:—A French patrol penetrated one and a half miles into German territory today and brought back important information in regard to Nazi troop concentrations. This reconnaissance was in the Saar region.

Also in the Saar a German patrol was ambushed and several prisoners were taken.

In the Vosges Mountain area two German patrols were surrounded by the French who inflicted casualties and took prisoners without suffering a single casualty themselves. The German losses were quite heavy for the two detachments of about 100 men.

Otherwise the front continues quiet.

NOT A SPIRIT OF HATE

There does not seem to be any spirit of hate among the British people in this war. It seems to have given place to a spirit of sorrow that the German people should have been so easily led away by powerful rulers. The British war is one of defence. The fact that the fighting does not take place on British soil does not change that attitude. There is no desire to secure more territory but only to defend British soil against aggression and also to defend the rights of the smaller nations. As long as the Germans or any other people insist on overrunning other nations they must be stopped.

It seems too bad that, in order to stop aggression, it is necessary to kill people and often innocent people, even women and children. It is too bad that the whole German nation has to be forced to slow starvation in order to prevent it overrunning its neighbors and enforcing its will on the rest of the world. Yet it seems that there is no other method except perhaps for the pacifists to convert the Germans to the idea of leaving their neighbors alone.

We hear the pacifists talk about the spirit of hate pervading the world. When a person from Poland hears that his mother, his wife and his children have been victims of German aggression it is difficult to cultivate a spirit of love for the German people. He at once realizes as never before that this aggression must be stopped. When a fisherman plying his calling in the North Sea finds himself fired upon by German planes or submarines he is bound to feel resentment. Such action tends toward developing that spirit of hate.

So far Canadians, except those who fought in the First Great War, have had little cause to hate the Germans. They have read of the German aggression in Czechoslovakia and Poland and are determined that this must stop because it is a danger to the world and even to Canada. As a part of the British Empire this country is in real danger. So Canadians go to Europe determined to do their part in staying the hand of the invader.

The German people have been taught to hate the British people because Britain is the one outstanding nation that is in the way of German aggression. It was the British who were the chief factor in stopping the Germans in the previous war. In saying this we are not making light of the work done by France, the United States and Italy. The very fact that Germany resents Great Britain more than any other country tells the tale of which country is the outstanding defender of the liberties of the world.

We are all pacifists in that we all seek peace but it must be a peace in which each country respects the rights of each other country. No other peace is permanently possible.

The average pacifist at a time like this is one who favors Germany and would create as many British pacifists as possible. He may also be one who favors Russia, such for instance as the Communists who are controlled from Russia, and it is the policy of Russia to try to prevent British people taking action to prevent their deprivations.

KISS YOUR TIRED FEELING GOODBYE!

Peoples Many Suffer Low Blood Count—And Don't Know It.
The baffling thing about low blood count is that you can weigh about as much as you ever did—even look healthy and strong, yet you can feel as if you had lead in your legs, dopey, tired and peevish.
Low blood count means you haven't got enough red blood corpuscles. It is their vital job to carry life-giving oxygen from your lungs throughout your body. And just as it takes oxygen to explode gasoline in your car and make the power to turn the wheels, so you must have plenty of oxygen to explode the energy in your body and give you going power.
Get Dr. Williams' Pink Pills today. They are world-famous for the help they give in increasing the number and strength of red corpuscles. Then with your blood count up, you'll feel like bounding up the stairs as if you were floating on air. Ask your druggist for Dr. Williams' Pink Pills today.

James R. Gaudin, superintendent engineer for the White Pass & Yukon Route at Whitehorse, and Mrs. Gaudin were passengers aboard the Princess Norah yesterday afternoon going through to Vancouver on vacation.

Mother Superior Marie Adalberge of the Sisters of St. Anne from Montreal and her secretary, Sister Mary Magdalen, disembarked here yesterday afternoon from the steamer Princess Norah after a visit to Juneau and proceeded East by train. Also aboard the Princess Norah were Sisters Mary Fintan and Dorothea of Victoria returning south after making the round trip.

How To Relieve Misery of Your CHEST COLD

Massage throat, chest, and back with plenty of Vicks VapoRub at bedtime. Then spread a thick layer on chest and cover with a warm cloth.
VapoRub's double action brings double relief. It acts as a poultice to penetrate the surface skin; and its soothing medicinal vapors are breathed direct to the irritated air passages.
Try it, to loosen phlegm—to clear air passages—check tendency to cough—and also to relieve the tightness and soreness of chest muscles.

One Million Feet of Timber, Lost in Hecate Straits Storm, Recovered in Alaska

The J. R. Morgan Logging Co. has been successful in rounding up from the shores of Clarence Straits, Alaska, some one million of three million feet of clear Sitka Spruce logs which the company's towboat J. R. Morgan had to cut adrift in a storm in Hecate Straits on December 7 last. The logs were contained in two Davis rafts which the Morgan was endeavouring to tow from the company's camp on Moresby Island to the mainland.
The salvage operation was directed by Elmer Palmer, the company's logging superintendent. Alaska beach combers obtain considerable work thereby.
The salvaged logs were loaded on the log carrying barge Monogahela and towed south by the tug Marmion. The outfit, which belongs to the T. A. Kelley Logging Co., passed southward to Vancouver a couple of days ago.

BUSINESS RALLY TO LEAD CANADA TO NEW HEIGHTS IN 1940 'TIS EXPECTED

Position of Farm, Factory and General Industry at Year-End Big Factor for National Prosperity in 1940

By ALEX PRINGLE
Canadian Press Financial Writer

Canadian business swung into a spectacular sprint in the closing months of 1939, partly on the stimulus of war's demands, passing the 1938 level and giving promise of setting a new all-time peak in 1940. Industrial production, in fact, attained a new Canadian volume in the last quarter of the year, showing output fully a third greater than for the corresponding period of 1938.

The improvement in the first half of the year over the same months of 1938 was on a conservative scale but the summer and fall months brought more definite evidence that the slump from the 1937 peak was but an intermediate recession in a major upward trend. The sharp rally in the war months of 1939 lifted the general average for the year about eight per cent higher than that of 1938.

The long period of uncertainty preceding the outbreak of hostilities had fostered a hand-to-mouth policy in Canadian business. The rush to enlarge inventories immediately following the war declaration moved the wheels of industry into high gear even before war orders began to make their appearance.

Farm Crops Boost

The heavy field crops, valued at about \$645,000,000 and the best since 1930, along with the consistent prosperity of the mining industry had stimulated Canadian trade before the war started. Retail sales around October 1 indicated a pick-up of better than five per cent over 1938 and the tempo continued to rise as the fall advanced. Department store sales and wholesale order bookings were up 15 to 20 per cent by Dec. 1. The 1939 Christmas trade was up record figures according to mercantile authorities. Collections in western Canada in the fall months were reported to be the best in 20 years.

Practically all departments of Canadian industry were on an upward trend in the last quarter of 1939 except building and logging. The war rocked many lines out of their accustomed grooves but on the whole the upheaval was more beneficial than detrimental.

New York put a premium of 10 per cent or more on the value of Canadian gold, assuring producers of extra income, sufficient, perhaps, to cover the prospective rise of mining costs. Canadian production of gold from 155 mills in 1939 was estimated at \$183,000,000, compared with \$166,529,156 in 1938, an increase of about 10 per cent. Towards the end of the year the mines were receiving about \$38.50 an ounce for gold in Canadian currency.

Other metal production, marketed outside the Dominion, benefitted similarly from the exchange factor but the base metal mines received their chief lift from an undertaking given by the British government to buy Canada's entire production for the duration of the war. Canada exported 505,662,000 pounds of copper in 11 months of 1939 compared with 514,012,700 in 11 months of 1938, showing a minor decline. Nickel exports were up 20 per cent in the same months, and zinc exports 13 per cent. Mineral production totals all show gains. Coal production increased by 7.7 per cent.

Farming, lumbering and of course, the infant aircraft industry, stand to benefit heavily from the demands of war. The British government has already contracted to take hams and bacon up to 5,500,000 pounds weekly which is a greater quantity than the Dominion has ever had available for export. Canadian sales of pork products to the British market are expected to reach \$50,000,000 in 1940.

Meat Industries

Hog slaughtering in Canadian plants in 10 months of 1939 totalled 2,747,733, an increase of 8.1 per cent over the comparable 1938 period. The total of hogs shipped direct to packing plants and sold at public stock yards in the 56 weeks to December 14, was 3,482,578, an increase of 12 per cent over the run for the same 56 weeks of 1938. Calves show a small increase and sheep a small decline.

From January 1 to December 14 Canada exported 177,399 beef cattle and 79,549 calves to the United States, recording gains of 124 per cent and 72 per cent respectively.

The status of the newsprint industry improved vastly in the last months of 1939, partly owing to the premium on United States funds which increased income from Canadian sales in the U. S. by 10 per cent and partly owing to diminishing shipments to the U. S. market from war-threatened Scandinavian countries. Exports of newsprint in the 11 months for which figures are available totalled \$104,440,675, a gain of \$8,875,505 or better than nine per cent.

over the total for the comparable period of 1938.

Launching of the commonwealth air training scheme is expected to call for greater output in numerous Canadian plants to equip the many training centres. The scheme is expected to cost about \$500,000,000 in three years and to require personnel of 40,000 men aside from the numbers in training.

Industrial production in October was indexed by the Dominion Bureau of Statistics at 139.7, the highest level since 1939 and more than 15 per cent over the level of October, 1938. The volume of output continued to rise in the succeeding months. Orders for boots for soldiers boosted production of footwear by nearly 50 per cent over output in the last quarter of 1938. The shoe industry had shown a gain of 6.6 per cent in the first nine months of 1939.

Flour production gained 22.4 per cent in the year, steel production 10 to 15 per cent and electric power production about nine per cent. Sugar, pig iron and motor car production registered narrow declines in the 10 months to the end of October. Planks and boards exports in 11 months increased 38 per cent wood pulp exports six per cent, fish seven per cent and cheese nine per cent.

Stability of Trade

Canadian external trade continues its strong upward trend. The total of domestic exports in 11 months of 1939 was \$823,980,256, compared with \$768,696,252 in the first 11 months of 1938, a gain in \$55,284,004, or more than seven per cent.

Imports in 10 months of 1939 declined 4.4 per cent while the favorable balance of exports over imports increased by 15 per cent. Raw rubber products, a barometer of industrial activity, were up 30 per cent in 10 months over the comparable 1938 period.

Prospects have brightened considerably for railways in recent months. Carloadings for the year are up about five per cent over 1938, and the November and December figures show some weekly gains of 15 per cent. Earnings are up correspondingly.

Banking factors are uniformly favorable. Commercial loans, totaling around \$900,000,000 at the end of October, were greater by nine per cent than at the end of October 1938. Deposits increased 4.5 per cent, bank debits 2.5 per cent and bank note circulation expanded to its highest level in 20 years.

Dividends paid by Canadian corporations in the year aggregated \$297,174,290, a total exceeded only in the years 1937 and 1938. Reductions in millions of dollars by Imperial Oil, International Petroleum and Brazilian Traction solely because of exchange conditions brought the unfavorable showing.

STORY OF MARRIAGE

Modern Drama in "In Name Only" At Capitol Theatre Tonight and Friday

An unusually absorbing story of modern marriage, "In Name Only," with Cary Grant, Carole Lombard and Kay Francis, is the feature picture for tonight and Friday at the Capitol Theatre. It tells how a wife's mercenary interest in her husband restrains her from giving him his freedom so that he may marry the woman he really loves. Grant and Miss Francis are the unhappily married pair, Grant the son of a millionaire real estate operator and Miss Francis as a thoroughly selfish woman who has married him only for his prospects and social position.

When Grant meets Miss Lombard, she refuses to give up her position and threatens scandalous notoriety if Grant dares to take any steps. A series of pulsating dramatic episodes carry the picture to a stirring denouement.

Other members of the cast of "In Name Only" are Charles Coburn, Helen Vinson, Katherine Alexander, Jonathan Hale and Maurice Moscovitch.
