### CONSIDER SUPPLY SYSTEM FOR THE GENERAL HOSPITAL

HOUSE COMMITTEE WILL LOOK INTO CATERING QUESTION AND REPORT TO BOARD, THOUGH PRESENT SYSTEM GIVES SATISFACTION.

At the Prince Rupert General hospital the probation system is now in full swing, there being three probationers now duly entered for training after passing the preliminary examination. The three young ladies are the Misses Campbell, McLeod and Walker. Their appointment as probationers was approved by the hospital board in session on Thursday afternoon.

and the secretary, Mr Wright, mentioned that he had now called for competitive plans for the new wing proposed, for which the government and city had voted grants of \$10,000 each. Regarding the method of catering for the hospital there was a little discussion regarding the prices of supplies, and the question was raised whether under a different system of purchasing any economy might be effected. It was generally felt, however, that things had been managed so successfully last year under the present system, that the system might well be maintained. Not a single complaint had been received against the catering, was the report of O. H. Nelson, as chairman of the House Committee. The House Committee will go into details of the catering system and report to the Board shortly.

### FIVE C.P.R. BOATS

All Docked at Prince Rupert on the Same Day.

There were five Canadian Pacific steamers here yesterday—the Otter with dynamite, the Na with coal and lumber, the Princess May southbound from Skagway, the Princess Royal in from the south and the Princess Beatrice in from the Queen Charlotte Islands on her last trip on that run. The Beatrice left this morning with the following passengers from Rupert: J. Y. Johnson, J. A. Smith, J. S. Smith, Miss Mabel Ford, J. Jackson, J. Reynolds and twenty second class. Oddfellows social evening, Tuesday, April 9th. 31.

### HISTORIC HOMES DESTROYED

Fire Does Irreparable Damage to Three Landmarks in History at Widely Distant Points in British Isles.

London, April 6.—Three destructive fires at historic residences broke out last night, one at Lake House, Wiltshire, a fine old Elizabethan structure full of priceless rare Jacobean furniture; another at Rosdhu House, Loch Lomond, and another at Gibbstown Castle, County Meath, Ireland. The loss at the latter place is given at \$200,000.

### CHIEF VICKERS GOES SOUTH TO ATTEND THE ASSIZE COURT

LEAVE GRANTED AT POLICE COMMISSION MEETING—CITY REPORTED IN GOOD CONDITION FROM POLICE VIEW CONSTABLE MERRITT TAKES CHARGE.

Routine business principally occupied the Board of Police Commissioners on Thursday afternoon, when they held a regular meeting in the city hall. For the second time the letter from Magistrate Carss assuring the Board of his absolute fulfillment of the terms of his oath as Police Magistrate to do impartial justice upon all arraigned before him in so far as his powers and perceptions go, was read by the clerk to the Commission. This letter was received and filed.

Rupert in spite of urgent representations that they should be held here for Prince Rupert cases. Up till a short time ago it had been thought that the assizes would be held here. Chief Vickers has left the Police Department in charge of Sgt. Merritt during his absence in the south. The chief was able to report a very good state of the city from a police standpoint. During the past month there were nineteen convictions and six dismissals out of twenty-eight cases brought up. Three cases are pending. Only two were serious, viz: the Rocco-vich forgery charge, and the Crutchfield case heard in camera. Crutchfield was sentenced to three years with forty lashes for his unnameable offence.

Chief Vickers made request for leave of absence in order that he may attend the Assizes at Vancouver under subpoena in the Albert case. Leave was granted, the chief mentioning that he might be absent for a fortnight. The Mayor commented on the fact that the assizes were apparently not to be held in Prince Rupert.

## START FOR BELFAST TO PROTEST HOME RULE AGAIN

Seventy Unionist Members of Parliament Left Today for the Demonstration Against Home Rule to be Held in Belfast Tuesday—Asquith Asked Important Question as to Whether Troops Would Fire Under Orders at Striking Miners Who Are Armed

London, April 6.—Seventy Unionist members of Parliament leave for Belfast at the end of the week to participate in a demonstration on Tuesday. Bonar Law will receive an address emphasizing Ulster's adherence to the union, declaring that Ireland's wants will be supplied tenfold more efficiently by an imperial instead of an Irish government.

cases of drilling around Belfast, the object being to prepare an army to oppose the establishment of home rule; also whether he would say if any sanction had been given for such drilling, and if not what steps the government proposed to take to put an end to such practices. Asquith said that the government was fully informed as to the drilling, the immediate object being, he understood, to prepare for a party demonstration Easter Monday. (Laughter.)

drilling would they be allowed to do it without the law being called in? Asquith: That is a hypothetical question which I will answer when cases arise. Lansbury: Is the Premier aware that a leaflet is being circulated informing Ulster people that officers of the British army have assured their friends that they will refuse to order troops to fire upon the people of Ulster if they rebel against home rule? (Laughter.) Asquith: That is the first that I have heard of it.

Question Over Drilling. London, April 6.—In the House of Commons Thursday Lansbury asked the Premier whether his attention had been called to the

### RUPERT'S FIRST CANTATA "CHRIST AND HIS SOLDIERS"

Beautiful Song Service to Herald the Coming of Easter, Sweetly Rendered by the Baptist Choir in the McIntyre Hall Last Night

Beyond question the "Good Friday" cantata "Christ and His Soldiers," rendered in the McIntyre Hall last night under direction of Mr. J. E. Davey by a choir of twenty-six voices and several of the best soloists in the city, was a brilliant success. In no choral entertainment ever before given in Prince Rupert has so ambitious a rendering been even attempted, and none it is certain has ever achieved so much or given so great general satisfaction. The cantata, the first ever rendered in Prince Rupert, was a decided triumph for its director, Mr. Davey, and for every one taking part in it. To the Baptist Church choir belongs great credit. Credit, too, belongs in unstinted measure to members of other choirs lending skilled services toward the success of the cantata.

with singers and theme; Mr. Bert Froud as flautist, Mr. Walt Miller, cornetist, and Mr. Humphries, organist of St. Andrew's Church, with the melliphone, all contributed instrumental music of the most acceptable toward the success of the whole. As soloists Mrs. Jarvis McLeod, Mrs. Neher, Mr. J. E. Davey, Mr. H. Mellior, Mr. C. Swindell and Mr. Clapperton gave evidence of the really excellent work they have devoted toward the perfect rendering of the solo parts taken. Applause was cordially accorded them, and Mrs. Neher was presented with a bouquet. The sweet solo singing of Mrs. Jarvis McLeod, who, wearing a white Easter lily, occupied the central position in the front row, charmed everyone, and the whole hearted work of all the voices in solo and chorus was good to hear.

The only encore responded to was insisted on by the audience for the fine part singing by the quartet consisting of Mrs. Neher, Mrs. Jarvis McLeod, Mr. J. E. Davey and Mr. Clapperton. This part of the cantata was outstandingly pleasing. In a few words just before the final chorus Rev. W. H. McLeod gracefully thanked all the choir, and especially those who had lent their most acceptable services from other choirs toward this cantata. The pastor, referred to in terms of highest appreciation to the ungrudging pains and perseverance maintained in the face of considerable discouragement at the outset by the conductor, Mr. J. E. Davey, who labored with the zeal of the true artist to achieve with the voices of the choir the standard of excellence revealed last night. The evident and expressed appreciation of an audience which in spite of inclement weather filled the McIntyre Hall rewarded conductor and choir. Prince Rupert's first cantata ranks as a first rate musical achievement.

To those who rendered service as instrumentalists the choir and audience owe much. Miss Froud, A. L. C. M., as accompanist showed perfect musical sympathy

### DUKE OF CONNAUGHT

Will Not Be Vanderbilt's Guest at Newport This Summer.

Ottawa, March 29.—Despatches sent out from Newport the other day that His Royal Highness the Duke of Connaught would spend August at a fashionable American resort as a guest of Cornelius Vanderbilt Jr. are denied at the government house. His Highness will spend the summer touring Canada.

### THE WEATHER.

### Good Friday Celebrators.

Archie Dennison, H. Johnson and J. Coast celebrated the holiday yesterday not wisely but too well. They stayed last night at the Chateau Vickers and this morning paid \$5 and costs.

### RAID ON COMOX

Three Ladies Brought in for Illegally Supplying Liquor.

In the police court this morning three of the residents of Comox avenue were lined up. Their names are Jane Lewis, Stella Palmer and Julia Belmont. Jane was fined \$100 and costs for having liquor for sale and is still waiting for some one to pay the fine. The two other cases were remanded until Tuesday.

### RUPERT VOTERS LIST

Court of Revision to Sit on May 6th at Prince Rupert

(Special to Daily News.) Victoria, April 6.—A court for revision of the voters list at Prince Rupert will be held on May 6th.

### Master Services of the Baptist Church.

11 a. m., morning worship with Easter sermon, followed by Easter communion service. 2:30 p. m., Bible school and Brotherhood Baraca class. 7:30 p. m., the minister, Rev. Warren H. McLeod, will preach on the subject "If a Man Die Shall He Live Again?" Special Easter music at the evening service under the direction of Mr. John E. Davey, choir-master. Strangers and visitors cordially invited to these services, held in McIntyre Hall, Third avenue, near Sixth street.

### AMUNDSEN

Proposed Name for First Freight Divisional Point.

The Continental Trust Company announce the forthcoming sale by public auction of a new townsite, the proposed name of which is Amundsen, at Mile 149 and the main line of the Grand Trunk Pacific Railway.

The new townsite is located on lot 919, which was originally pre-empted by Jens Anderson. This lot is located part on Anderson's island and part on the main land, the two being separated by a narrow slough or creek. Mr. Anderson sold the part known as Anderson's island to the Grand Trunk Pacific Railway Company some 80 acres or more, which has been cleared and leveled for sidings, round house and machine shops. This is to be made the first freight divisional point and the line east of Prince Rupert.

The property on the mainland, which has been surveyed for a town, is owned by Charles W. D. Clifford, ex-member of Provincial Parliament from that district, and his associates. Plans are being prepared for the erection of a hotel and a general store will be built on the property at once by Paterson of Kitselas, also a boarding house for the men working on the construction.

Men's Own Association will hold a meeting Monday night in Methodist Church. 4t

### RAPID PROGRESS AT TERRACE

Six Months Old Town Boasts of Three Hundred Population, Big Hotel, Saw Mill, General Store and Twenty-five Homes.

Dr. Traynor of Terrace was in town this week. The doctor gives a most glowing account of the marvellous progress made at Terrace in the six months of its existence.

"Six months past," the doctor said, "Terrace was but a wilderness; now it has bloomed into a most promising town between New Hazelton and Rupert. Its population already reaches the 300 mark. It can boast of the best country hotel in the interior, containing 60 rooms.

Geo. Little, the original townsite owner, is building a sawmill of considerable capacity, to be operated by water power. The town lots are selling like the proverbial hot cakes, so that a new addition to the townsite has just been placed on the market.

The town can already boast of a drug store, owned by Dr. Traynor, a blacksmith shop, a general store, a real estate office, and over twenty-five private residences. In short, according to Dr. Traynor, Terrace promises to be the metropolis of the lower Skeena. The soil around Terrace is, of the best, and is being cleared for a distance of four miles up and down the river.

### PRESBYTERIAN EASTER

Celebration of the World's Greatest Anniversary.

Morning service (11 o'clock), in church hall. Holy communion. Evening service (7:30 o'clock), in Empress Theatre. Easter music under direction of Miss Froud. Miss Holby will sing Water's "Day of Days."

Rev. F. W. Kerr's topic for Sunday evening is "What the Resurrection Means to Me." It is hoped that no one will neglect this, the greatest anniversary of the church.

### LITTLE'S STORE LOOTED

Till Rified of American Cents and Postage Stamps.

Some time during last night the newspaper and cigar stand of Mr. Little was broken into and the till looted. About \$10 in American cents and about the same in postage stamps are missing. The window facing on the alley was found open this morning and about a dozen of the pennies were found in the neighborhood by the police. An arrest may be made this afternoon.

### ANOTHER NEW TUNNEL BOAT

Improved Model of the Famous Kit-ex-Ohen is Being Built at H. Johnson's Boat Yard—New Craft Slightly Smaller.

At Johnson's boat yard at Cameron Cove the keel and tunnel frames have just been laid for another of the highly successful variety of power boats used in shallow waters up river by E. La Trace last summer. The boat is similar in design to the Kit-ex-Ohen, which, though a romy passenger boat drew only ten inches of water, and did tremendously good business in the shallow reaches of the Skeena Ferry stretches during the low water spell last year. The new boat will have a round arched tunnel instead of a square arched form which the Kit-ex-Ohen has, and should be more efficient still. She is to be 24 feet long, to the former boat's 35 feet, and 5 ft. 6 in. beam, instead of nine feet. She will draw nine inches, and be propelled by a 10 h.p. engine.

### Passengers for the North.

The excursion steamer Spokane, all newly fitted up and as spick and span as a brand new steamer, put in here Thursday evening and took north with her the following passengers from this port: F. S. Shaw, William Spalding, Nelson Rich, J. Henderson and R. Killarug.

### School Notice

Public school re-opens Tuesday, April 9th. Parents desirous of enrolling their children in the primary division (junior grade) are reminded that such must be enrolled during first two weeks. No other class for beginners will be made during the last quarter; that is, April, May and June.

**PICTURE SHOWS NOT ALWAYS BAD INFLUENCE.**

One of the films recently put on at the Westholme Opera House depicted the incidents of a strike. For the first day or two the husband returned to his family apparently happy and optimistic of the future. But the dairymen join the strikers, the supply of milk was cut down to one half and then cut off altogether. The children were starving. Then the mothers took a hand, held a mass meeting and soon settled that strike. The men could strike as much as they cared to, but the women were not going to sit idly by and see their babies starve.

This film has no doubt been shown all over Canada and the United States and in Chicago it seemed to have exerted a direct influence for good. Last Monday all the drivers of milk wagons there went on strike and at their meeting the next day the question was boldly presented what were the babies and invalids whose lives depend on milk to do in the meantime. It was important; it had to be met and met fairly. So that the supply of milk should not altogether cut off the union decided to call strikes upon one dealer at a time. One dealer was selected, the rest of the men went back to work and the babies are getting their daily supply of the needful.

**WILL PRINCE RUPERT GET THE GO-BY?**

That Mr. D'Arcy Tate, the astute legal adviser of the Grand Trunk Pacific Railway, should have resigned from that position to accept that of first vice president of the Pacific Great Eastern Railway is another unmistakable assurance that the road from Vancouver to Fort George is to be, is really now, part and parcel of the Grand Trunk Pacific system. Yet Premier McBride had the assurance to publicly state that the Pacific Great Eastern is an independently railway and that it may be extended eastward and constitute another transcontinental system.

It is worth considering a moment how much this city and port will be affected by the Grand Trunk Pacific having two ports or Pacific ocean terminals instead of one. Will it not divide the business and thus reduce by probably one-half the traffic this port had every reason to expect? The situation seems menacing at any rate. More especially so as Foley, Welch & Stewart, who have undertaken to build this road, are starting construction work at once. They have not to wait for preliminary and finished surveys, but all this work has been done them already by the Grand Trunk Pacific. All they have to do is to level a roadbed on the surveyors' levels and slap down the steel. Under these conditions the Pacific Great Eastern may possibly be completed before the Grand Trunk Pacific has completed connection between Fort George and Prince Rupert, and thus all the traffic of Manitoba, Saskatchewan and Alberta will be switched at Fort George to Vancouver instead of coming here. What are we going to do about it?

Truth—not the recent campaign daily, but the influential journal established in London by the late Labouchere—in commenting on Dr. Vrooman's lecture before the Royal Colonial Institute says:

"Before British Columbians come to London bearing the imperial drum, they ought to insist on the Dominion government keeping a naval base on the Pacific coast, ready for immediate use by the British fleet."

The proprietors of the gambling tables at Monte Carlo will be glad to learn that Russia is going to spend \$250,000,000 on her navy. It was at Monte Carlo Russia's aristocrats spent the money that should have gone into the "scrap-heap" navy Japan vanquished.

Declares He Will Whip Any Four Men Rivers Ever Met.

Portland, Ore., March 29.—Fresh fuel was added to the Wolgast-Rivers feud when Ad. Wolgast, champion lightweight of the world, arriving here, offered to fight Rivers at 124 pounds ringside with a substantial side bet. Angered by Rivers' repeated claims to superiority, Wolgast came out with a red hot statement guaranteeing to whip inside of twenty rounds any four men Rivers ever fought, including the Mexican's only conqueror, Johnny Kibane, champion featherweight of the world.

**DAWSON BRANCH OVERSEAS CLUB**

Another Large Mining Combine the Joe Boyle and Treadgold Interests Now One Under Joe's Management.

Dawson, April 2.—An Overseas Club, a branch of an empire-wide movement, was reorganized in Dawson Friday night. Governor George Black was elected president; Dr. Alfred Thompson, vice president; Bishop Stringer second vice president, and Captain Lacoeste secretary.

The Canadian Klondike Mining Company and A. N. C. Treadgold's extensive mining interests in Klondike Basin were amalgamated this week in New York. Treadgold retains independently all his properties on the Indian River side of this camp. Joseph W. Boyle will be manager of all the properties in the new combination, and is president of the company, which retains the name of the Canadian Klondike Mining Company. The amalgamated properties include the Granville power plant on North Forks, the ditches from Rock Creek to Hunker, the mills along Hunker, the Boyle concession and the Bonanza Basin group.

Two new dredges, equal to the Canadian, the largest in the world, have been ordered by the new combined corporation, one for the Bonanza Basin group and one for Lower Boyle concession. This will give the company four dredges. There is plenty of men in camp for all the spring work in sight. Outsiders have little chance of securing employment, preference being in all cases given to men who have been for some time in the Yukon.

Large Orders Placed in Canada and States for Additional Equipment—Delivery to Commence Next Month.

The extent to which the Grand Trunk Pacific Transcontinental Railway is rapidly becoming a factor in the transportation business of this country is shown by Bradstreet's, in the fact that there have been ordered for this company since the first of the year no less than one thousand new freight cars. Of these 250 are refrigerator cars, each forty feet long and having a capacity of 60,000 pounds, from the Canadian Car Foundry Company. The American Foundry Company is to supply 250 refrigerator cars of the same capacity and dimensions. A Detroit foundry will supply 250 automobile steel under frame cars, and the Western Car Foundry Co. of Chicago will contribute a similar number of the same variety. Delivery of these cars is to commence in April of this year and it is to be completed at the rate of twenty-five cars per day.

**TALLEST VETERAN DEAD**

Nearly Eight Feet in Height and Weighed 300 Pounds.

Pittsburg, Pa., March 29.—Captain William P. ("Pat") Bane, the tallest soldier in the Civil War, known as "The Greene County Giant," is dead to his home near here. Bane was nearly eight feet tall and weighed more than three hundred pounds. He took great pride in his height, which was exaggerated by a tall, old fashioned beaver hat, said to have been given to him by President Lincoln. It is said that at Gettysburg, when Lincoln delivered his famous address, he saw the tall figure of Bane towering above all the other heads, and said in a loud voice: "Will that fellow please get down off the stump over there."

GLACE BAY, N.S., CANADA.  
Dear Sirs—I am in receipt of my suit a few days ago, and I am very well pleased with the same. The tailoring is first-class in every respect, and the fit the same. Thanking you for the way you made all the changes I asked for. The same suit here would cost, tailor made, \$24. So wishing you all success in your business, I am, respectfully yours,  
(Signed) DAN, J. MCKENZIE.

"Better Satisfied after Testing in Actual Wear."  
Gentlemen—Last year I got from you some clothing, and afterwards wrote for spring and summer samples. I might now say that after fifteen months' experience with your clothing, I am better satisfied with it than I was at the beginning, if possible. The tweed suitings have worn well, retained their colour and shape, and after fifteen months of "strenuous life," they look almost as good as new. I would now like samples of some steel grey worsteds and light-weight summer and spring cloth, and also some for raincoats.—I remain, yours truly,

SILENT AEROPLANES The All British Machine Which Experts Have Been Demanding

"People are afraid of aeronautics, but when the aeroplane is flying frequently from town to town silence will become imperative." So says Mervyn O'Gorman, superintendent of the army aeroplane factory at Cranborough, who has turned out the new all-British "silent" aeroplane that the experts have been demanding.

"As a matter of fact," he says, "silence is very easy to obtain. This machine shows a little step in advance. As far as I know, this is the first absolutely silent aeroplane; it is silent to this extent, that when the wind is blowing strongly from it toward you you cannot hear it."

"A military aviator who was present at our trials remarked that there were other machines with which he was acquainted which it would not have been safe to have gone up in, in the wind that was blowing. I see no reason why every aeroplane which does not employ a rotary engine should not be silent. It is a very simple matter. The reason why it has been put in the background hitherto is because other matters have required more attention, but everyone knew that the moment for silence would soon arrive at all events on a large class of engines."

A GREAT BATSMAN In His Day Was the Best Cricketer in South Africa

AERIAL STABILITY Englishman Demonstrates Value of Invention to Maintain Equilibrium

What appears to be the most important invention in connection with the navigation of the air has been announced in London. The entire future of aviation, it is admitted, is centered in the one word—stability. Among all the modes of locomotion aerial navigation alone is deeply affected by the problem of stability, which is the life and soul of the aeroplane.

Briefly, the facts are these: On a recent Friday J. W. Dunne rose from the grounds at Eastchurch, in the Isle of Sheppey, on his "automatic stability" monoplane, with the object of carrying out a test that should conclusively demonstrate the natural stability possessed by his machine.

While the message was being written Mr. Dunne had both hands off the control levers, thus freely abandoning his machine to the air. Only those who have realized the true nature of this achievement. In an ordinary aeroplane the pilot can never abandon his control, but has to exercise constant watchfulness, has to correct incessantly by slight, almost imperceptible touches the ever-varying equilibrium of his aeroplane.

### A MOST DISTINGUISHED COCKROACH IS "ALBERT"

INSECT HAS TRAVELED ALL OVER THE WORLD ON BOARD THE BLUE FUNNEL BOAT KEEMUN—IT ALMOST TALKS.

"Albert" is the best known, most important personage in the cockroach kingdom in the world. "Albert" has the distinction of being the only cockroach allowed to live aboard the Blue Funnel steamer Keemun and is the pet of Chief Steward W. A. Nixon, whose faculty for making friends has even extended to an old time enemy of the ship's pantry.

"Albert's" age is an unknown quantity, but he has been known in many seaports all over the world for at least four years. He was trained by Mr. Ronald Kenyon of Vancouver, who spent much time teaching the intelligent insect proper table manners while on a voyage to Shanghai in the Keemun several years ago.

"Albert" makes his home in Mr. Nixon's stateroom. In a corner of the room he has selected a permanent niche where the electric wiring turns in a corner of the wall. During long trips at sea Mr. Nixon has taught "Albert" a number of tricks. The result is that "Albert" has come to be known in Canadian, Oriental, Indian and all seaports touched by the big liner.

A former ship's doctor wanted to chloroform "Albert" some years ago and almost caused a riot on the ship. The cockroach was saved, however, and lives to be the most distinguished traveler of his species in the world.

### HOW JAPS CAN FISH CHEAP

Cunning Little Orientals Use the Primitive Scull to Save Cost of Gasoline When Speed is Not Needed.

After progressing from the use of oars and sails to gasoline engines, the Japanese fishermen who operate on the British Columbia coast are going back to the use of a huge sculling oar as a means to cut down expenses in handling their boats when speed is not required to get their fish to market. Many of the small gasoline boats used by the Japanese are sculled miles each day by the little brown men, who send their boats along with the clumsy looking stern oar at two and three miles an hour.

Another feature which enables them to take their time is that a number of them now carry live fish in their boats. They have a watertight compartment amidships, covered with loose boards, where the fish weakly wallow in a thick liquid which they vainly endeavor to believe is pure brine. The fish live in the compartment for several days until "baled" out and cut up for the market.

Quite a number of the Japanese fishermen operate their boats in the crudest manner and live in quarters which would be small for a large sized dog.

### A MONEY MAKER IF IT MAKES GOOD

Substitute for India Rubber Has Been Discovered by a Young Chemist in Moscow—Financiers Interested.

An interesting chemical discovery is reported from Moscow. It is stated that M. Ostromislensky, a young professor of chemistry at the Imperial Technical School of Moscow, has succeeded in making artificial rubber.

When studying the properties of benzol he found a substance which closely resembled rubber. He has now synthetically produced what is claimed to be a perfect substitute for the natural rubber.

The discovery has naturally caused considerable excitement in the rubber industry, and it is announced that the British and foreign rights of the new product have been acquired by Count Tatistcheff, head of the United Bank and of the Bogatir Rubber Company.

#### Plain Talk on Socialism.

I don't believe in Socialism. It's a wild dream. If they ever got a four-hour day the Socialists would have twice as much time to spend it in. The Socialists don't want to work. ### A WARMHEARTED SEND-OFF HELD

Farewell Dinner in the Bayview Last Night for Eddie Mann, Popular Oldtimer, Who Leaves for Nelson Shortly.

In the Bayview Hotel last night dinner was given to young Eddie Mann, who is leaving the city hall staff and the city of Prince Rupert. A group of intimate friends gathered to do him due honor and give him a good luck send-off that will keep warm in his heart the memory of Prince Rupert, where he has become exceedingly popular. Mr. Mann is quite an old timer of the district, having been here in early days, and spent some time in Stewart. Wherever he went he made good friends, and the good will expressed toward him at last night's little function is echoed by very many who were not able to be present. Mr. Mann leaves here to go to Nelson and the Boundary country.
