ITALO-GRAECO WAR: Nazi and Fascist War Chiefs In Session As Duce Losses Out

Things Still Going Sour for Mussolini With Hellenic Advance All Along the Line—Almost Driven Out of Greece

MEETING AT INNISBRUK INNISBRUK, November 15.—To discuss, it is believed, the military situation in Greece and Egypt which is going badly for the Italians, the German and Italian military commanders-in-chief are in session here today—General Wilhelm Kitel of Germany and Marshal Pietro Badoglio of Italy.

ATHENS, November 15: (CP)—Advancing everywhere Greek forces have assumed the initiative against the Italians all along the front and have now almost completely driven the invaders out of the country. From all parts of the 120-mile front come reports of continued Greek successes today.

The only sector on which the Italians still remain in Greece is in the region of the Kalamas River and there they have their backs against the Ionian Sea as they endeavour to pull back in disorder into Albania. The retreat of the enemy is general and at several points their front has been pierced with prisoners taken. It was revealed today that not one but two Italian divisions were virtually annihilated in the Pindus mountain area at the end of last week.

CANADA ABLE TO CARRY ON WAR EFFORT WITHOUT UPSETTING HER ECONOMY

Capacity Limited Only By Volume That Can be Mechanically Produced. President of Canadian Bankers' Association Tells Toronto Meeting

TORONTO, November 15.—Canada's financial ability to handle her war effort without upset to the national economy is bounded "only by the volume that can mechanically be produced," declared H. T. Jaffray, president of the Canadian Bankers' Association here yesterday, addressing the forty-ninth annual meeting of that body.

He based this conviction upon a review of the strength revealed in the position of the chartered banks at the end of the first year of war as well as upon the extent of the country's material, natural and financial resources. "A nation's war effort," said Mr. Jaffray, "must, in the final analysis, be governed by its financial strength." A sharp condemnation of suggestions for inflation or "funny money" featured the speech. Other highlights included a warning that taxation if carried to extremes could, by its impact upon inventories, produce all the privations of deflation; an expression of decided confidence in regard to the wheat problem; a declaration that in view of the part played by Canada's mines in supporting the nation's war-time buying strength, governments should give every encouragement to mines to increase their production. Mr. Jaffray had no misgivings that Canada's purchases of materials and equipment in the United States may have to be reduced. He paid high tribute to the work of the Bank of Canada and the Foreign Exchange Control Board, and expressed confidence in the Empire's ultimate triumph over Hitlerism.

Banks After War Dealing with the effect of the one year of war on the position of the chartered banks, the bankers' president stressed their ability to finance the requirements of their customers in war effort until victory, without curtailing the legitimate requirements of their customers for ordinary purposes. During the one year of war deposits of all kinds in the chartered banks had increased by \$46 million and now stood at \$3,142 million as of August 31st, 1940. Balances with the Bank of Canada, cash and other immediately available assets had decreased from 22 per cent of total deposit liabilities to 19 per cent in the same period—"a moderate decline indeed," commented Mr. Jaffray.

Current loans to the public at August 31st this year had reached \$939 million—an increase of \$113 million in actual financial assistance being extended to customers throughout Canada. Bank holdings of short term, high-grade Dominion and provincial government securities, all maturing within two years, had risen from \$443 million at the outbreak of war, to \$700 million at August 31st this year. In the same period long dated similar securities had dropped from \$743 million to \$604 million. This meant that to the extent of approximately \$140 million the banks swung from longer to shorter date securities to maintain a thoroughly liquid position and to aid in the additional financing of war contracts and other business. Notes in circulation of all banks showed no increase. Bank of Canada net circulation was up \$127 million—\$13 million of this increase being held by the chartered banks; the balance was not in excess of the day-to-day requirements of the country's increased volume of business.

RAIDS ARE EASING UP ON LONDON

Fewer Nazi Bombing Planes Getting Thorough to Capital These Days—Hitting Other Areas

LONDON, November 15.—Whether it be on account of the unfavorable weather, because of a move to transfer operations to another area which may be productive of more immediate and telling results, or by reason of the greater effectiveness of defences, London, both by day and night, is definitely lightening up. This has been apparent during the past week although the bombing attacks have by no means ceased and Londoners are not believing that they may not be resumed again on as great a scale as ever. The air raid defences are improving all the time and proving ever more deadly. Night attacks on London of late have started rather strong on some occasions but, after midnight now, (Continued on Page Three)

HIS BODY IS FOUND

Sergeant Major James Stewart Lost Life in Fall Down Canyon Cliff

The body of Sergeant Major James Stewart of the Royal Canadian Engineers was located yesterday by searchers in the bottom of a creek canyon between Salvus and Eskew, one mile north of the Canadian National Railway line, according to advice received last evening by Sergeant C. C. Jacklin, chief of provincial police, from Constable McKay who was directing the search. Owing to the rugged nature of the country, it was impossible to bring out the body yesterday but the party was going in early today. The remains are expected to reach Prince Rupert this afternoon.

THREE BIG SHIPS OUT

Damage to Italian Navy in Taranto Even Greater Than at First Reported

LONDON, Nov. 15: (CP)—The Admiralty today announced that reconnaissance had established that three Italian battleships were seriously crippled in the aerial torpedo attack on Taranto Monday night. Previously only two had been definitely reported crippled. The communiqué said that the Italians were trying to salvage one battleship. Since the raid on the naval vessels by the fleet air arm, another serious blow has been delivered on the port of Taranto.

BIG GUNS POUNDING

Coast of France is Again Target for Britain's Heavy Artillery

LONDON, Nov. 15: (CP)—Heavy British guns on the southeast coast bombarded German gun positions on the French coast this afternoon.

WAR NEWS

VICHY REVOLTS

VICHY—The Vichy government is reported to be up in arms at the persecution by the Nazi invaders of the people of Lorraine who have been rooted up from their homes and given the choice of moving to Poland or elsewhere in occupied France. Three hundred thousand people are said to be involved. A definite split between Premier Petain and the Nazi government is reported and D.M.B. German news agency admits that the recent agreement between France and Germany will not go into effect because the French people will not accept it. If the Vichy government is too hard pressed, it is suggested General Weizsacker may set up a new French government in Morocco.

MOST OF CONVOY SAFE

LONDON—Thirty-two vessels of a convoy of thirty-eight which the Germans claimed last week had been totally destroyed in the Atlantic Ocean have now reported safe in port.

ARTILLERY DUEL

LONDON—Both sides of the Channel coast took part in two hours today as a fierce long range artillery battle took place between British and German guns. Shells killed a number of persons and wrecked buildings in the Dover area.

WARSHIP DAMAGED

ROME—It is claimed here that an Italian submarine made three direct hits on a British warship of the Ramilies (29,150 ton) class off Sicily and badly damaged the vessel.

MINE SWEEPERS LOST

LONDON—The Admiralty announces the loss of six mine-sweepers. The crews of three were lost. Crews of the other three were saved.

SPECIALLY ON PARLEY

World Still Wondering What Happened When Molotov Met Hitler This Week

DEMAND ISTANBUL

LONDON—The Daily Herald, in a dispatch today from Stockholm, reported that Germany and Russia were demanding that Turkey cede Istanbul to Russia, thus giving the Soviet complete control of the Bosphorus and the Dardanelles. Turkey would receive important concessions in Syria and Iraq in return. Acceptance by Turkey of the demand is hardly expected.

BERLIN, Nov. 15.—Speculation is still rife as to what may be the outcome of the conference this week when Foreign Minister V. M. Molotov of Russia visited Chancellor Adolf Hitler in Berlin. It is still forecast in some German quarters that Russia is about to join in a four-power pact with Germany, Italy and Japan. However, indications are that deliberations have not been finally concluded and it was suggested today conversations will be resumed.

A general plan for the dividing up of Europe, Asia and Africa between the four Axis powers is said to have been discussed at the Hitler Molotov conference. Europe and Africa will be split up between Germany and Italy, according to the plan and Russia will get a free hand in India and Japan will control the Far East with a non-aggression pact with Russia.

CHICAGO WHEAT

CHICAGO, Nov. 15:—Wheat futures were unchanged to 3/8c lower today with December at 89 3/4c.

COVENTRY HARD HIT BY BOMBS

Heavy Civilian Damage Done With Thousand Casualties in Midlands City—Industrial Centres Unscathed

SIXTEEN DOWNED TODAY LONDON, Nov. 15: (CP)—Sixteen German planes were brought down over Great Britain today and two were destroyed last night, the Ministry of Information announced today.

COVENTRY, Eng., Nov. 15: (CP)—Coventry was a scene of devastation today after Nazi bombers from dusk to dawn overnight dumped destructive loads in ceaseless relays. At least one thousand are dead or injured. Victims were buried under vast piles of wreckage. Fires licked through the town. The famous Fourteenth Century Coventry Cathedral is but one of the many buildings in ruins. Scarcely a single street in the city, through which Lady Godiva once rode on her white horse, escaped the rounding of the raiders. It was the worst continuous attack experienced by any city, including London, since the siege of Britain began.

Despite the violence of the night-long attack and the fact that hundreds of enemy aircraft dropped their heavy missiles over a wide-spread area of the important Midlands manufacturing centre, an official statement said that the bombing failed to damage any vital industrial plant whatever.

Meanwhile, London had merely felt nuisance raids during the night a couple of hospitals being hit in the capital.

The Midlands bore the brunt of last night's attack which also extended to Liverpool and Wales.

Nineteen Nazis Downed

Nineteen enemy planes were brought down by the Royal Air Force during yesterday in fierce air fighting over the English Channel and southeastern England.

Today London had its second air raid alarm of the day this afternoon and its 340th of the war. Twice London defenders turned back the raiders. Twenty-four enemy planes approached but were driven off by anti-aircraft fire and British chasers.

Throughout today widespread attacks ranged from the south coast across the Midlands, the Thames estuary, London and the northwest. Two German bombers were brought down in Thames estuary and one off the southeast coast. Two planes, believed to have been German, collided in the air and fell with a crash into the sea.

While flames from last night's raid still crackled late this afternoon, the German raiders returned to resume the attack on Coventry.

RUMANIANS DEMOBILIZED

BUCHAREST—Complete demobilization of the Rumanian army by tonight is ordered but it is subject to re-call to the colors at short notice.

Dog Meat In Reich

BERLIN, Nov. 15: (CP)—Effective January 1 the meat of dogs will be legalized for human consumption in Germany. This is another indication of the effectiveness of the British blockade on foodstuffs for the Reich which has already exhausted to a great extent the supply of several subjugated countries.

More Healthy Fiscal Position of Province Revealed in Budget

Large Increase in Tax Revenue and Lowering of Relief Costs Among Disclosures by Finance Minister

VICTORIA, November 15: (CP)—British Columbia can anticipate a fully balanced budget for the current and next fiscal year, Hon. John Hart, minister of finance, told the Legislature today in presenting his fifteenth budget. No new taxation is called for. Mr. Hart said the budget was balanced by revenue surpluses totalling \$27,687,000 over an eight year period of which \$12,090,544 was allocated to debt redemption and \$13,234,000 to unemployment relief, leaving a credit balance of \$2,361,622 for full sinking fund instalments.

SATISFIED AT CRETE

Good Progress Being Made in Making British Stronghold in Mediterranean

CAIRO, November 15 (Canadian Press)—General Sir Archibald Wavell, returning from an inspection trip to Crete, said today that he was satisfied with the progress of work to make the Grecian island a new wartime stronghold for Great Britain in the eastern Mediterranean.

The Minister of Finance announced that a survey of municipal needs would be conducted with suggestions of the government to be presented to the House at the next session. Meanwhile a special grant of \$250,000 for school purposes should enable local governments to reduce school tax levies on real property.

British Bombing Of German Territory More Widespread And Increasingly Effective

EXTENSIVE RAIDS LAST NIGHT

LONDON, November 15: (CP)—Five railroad stations and freight yards and two power stations in Berlin were blasted with bombs last night in raids of the Royal Air Force reaching from Stavanger, Norway, to the German submarine base at Lorient, France, in the Bay of Biscay.

LONDON, November 15: (CP)—British bombing planes of the Royal Air Force continue to exercise effective care in selecting vital military objectives in the Reich and Nazi-controlled territory for their attacks. The area of the British attacks is gradually spreading out as the strength of the Royal Air Force becomes steadily increased and better organized. This has been particularly marked during the past week.

Norway bases, while danger of an invasion of Great Britain appeared imminent, were a favorite objective for the Royal Air Force but, now that the idea of an invasion appears to have been given up for the time being at least, more concentrated attention is being paid elsewhere and the scope of operations has been widened out to include numerous other points in enemy territory. For instance, Danzig, on the Baltic Sea, was bombed for the first time a few days ago.

The Krupp munitions plant at Essen is still a favorite point for submission to attack. Already extensive damage has been done to this centre of production for war materials as a result of repeated raids. Its output without doubt has been greatly lessened.

Another point that has been receiving a good deal of attention from the British bombers of late has been the Bay of Biscay port of Lorient in Nazi-occupied France. The reason for this is that Lorient has become one of the principal bases for the operation of Nazi submarines.

Boulogne and Calais on the Channel coast are also being heavily and regularly hit as well as air-dromes and other objectives on which the Germans base their attacks on Britain.

Munich an Example Another notable long range example (Continued on Page Six)

Damage To Empress Not Heavy At All

As Usual, Early Reports From Hostile Sources Were Overdrawn

LONDON, Nov. 15.—Damage to the big Canadian Pacific liner Empress of Japan, struck in the Atlantic last week by German bombing planes, is not very extensive, a survey of the ship, following her safe arrival in port, shows. The Japanese report, which was the first to tell of the Empress having been hit, was overdrawn. The vessel, although she sent out an S.O.S. while under attack, was, as it turned out, never in any serious trouble and had no difficulty whatever in making port. It was another case of where the enemy or his sympathizers excited too soon.

The Outstanding Weapon - - -

It seems no longer speculation to assume that the present war will be won by airplane. Germany almost won the last war by the use of submarines but there is no chance of that this time. United States will make available her fleet of merchant ships if they should be needed to carry food to Great Britain. So far, however, these are not needed. Indeed there seems to have been no tightening of the food rations in the British Isles.

The Italian loss of battleships as a result of an airplane raid indicates that, while these vessels are undoubtedly useful, they are open to air attack to such an extent that it costs too much to protect them.

It was just the right time for the attack on Taranto Harbor when Russian Premier Molotoff was on a visit to Berlin and it also was interesting to note that this distinguished visitor of the German capital must have heard the British bombs exploding while he was conferring with Hitler.

British authorities must find it rather difficult to choose their targets. There are so many of them offering in Italy and Germany and German-controlled countries that it takes a man of wide knowledge to choose the most effective spots for the bombs to be dropped. Most people think that a few dropped on some transportation or other objective in Rome might have the greatest moral effect just now in view of the fact that Mussolini's airmen have been dropping bombs on Athens and London. If they do not do this it is not because they cannot. They could probably pick out Mussolini's home as the object of attack if they wished to do so, just as Hitler picked out Buckingham Palace day after day.

Railway Patrol During Floods

Coroner's Jury Sits At Smithers to Investigate Fatality

SMITHERS, November 15—The coroner's jury in the case of the late Otto Thom of Hazelton sat in Smithers Wednesday under Coroner H. B. Campbell. The jury consisted of A. C. Fowler, (foreman) George H. Wall Oswald H. Hoskins, L. T. Kemple, A. D. Jones and H. G. Windt, all of Smithers. The jury brought in a verdict that the deceased came to his death from multiple injuries presumably suffered while riding on a train that was wrecked at Lorne Creek. A rider was added that it would be advisable to have the railway patrolled at points where there was danger of accident in times of storm and flood. Witnesses from a number of points along the line were called to testify at the inquiry. They consisted of railway employees.

ferred while riding on a train that was wrecked at Lorne Creek. Witnesses from a number of points along the line were called to testify at the inquiry. They consisted of railway employees.

LONDON SILVER LONDON, Nov. 15.—The price of silver on the London market today was down 1/8 pence at 23 3/4 pence per ounce.

A "spot" costs you only half a dollar. Try it in the Daily News classified column. (tf)

Weather Forecast

General Synopsis—The pressure continues low over Southern Nevada and is relatively high over the state of Idaho. The weather is fair and mild over the interior while rain is reported on the coast.

West Coast of Vancouver Island—Moderate to fresh southeast to southwest winds. Cloudy and mild with occasional rain.

Prince Rupert—Broken clouds, southeast wind, eight miles per hour; barometer, 30.08 (rising); temperature, 45; moderate swell.

ADVENTURE IN CAREER

FUNERAL YESTERDAY RENO, Nov. 15.—A western funeral was given the late Senator Key Pittman here yesterday. There was a large attendance.

RENO, Nevada, November 15.—The roads of adventure enticed Key Pittman, who is dead here from his native state, Mississippi, and eventually led him to the United States and a high place in the councils of the Democratic party. As chairman of the Senate foreign relations committee he was an open friend of Britain. He was a New Deal supporter and monetary reformer.

They were long and devious roads and not infrequently dangerous roads that Pittman travelled. Sometimes he blazed new trails but he found much pleasure in traveling them and rarely did they fail to lead him to bigger opportunities in richer fields.

Desire for the hunt carried him to the Northwest in the early nineties. The thirst for adventure tugged him away from a good law practice at Seattle, and put him in the mad rush of gold seekers that streamed to Alaska with the discovery of the precious metal in the Klondike.

After four years in the northwest territory, Senator Pittman returned to the United States to try his luck in the new silver mines at Tenopah, Nevada. There his success as a miner and lawyer and his entry into politics combined to influence him to make the place his permanent home.

In 1911 he became the Democratic candidate for United States Senator from Nevada against Geo. S. Nixon. That was before the popular election of senators. At the suggestion of Pittman the two candidates went before the people under an agreement that the one receiving the smaller number of votes recommend to the legislature the election of the other. Pittman lost. A year later upon the death of Senator Nixon, Pittman again became a candidate. Under a similar arrangement with his opponent he was elected and since then had been regularly returned to the Senate.

Senator Pittman was born at Vicksburg, Miss., September 19 1872, the son of William Buckner Pittman and Catherine Key, Pittman. He was educated by private tutors and later studied law at the Southwestern Presbyterian University, Clarksville, Tenn., where he was graduated in 1890. On July 7, 1900, he married Mimosa June Gates of Eureka, Calif.

Served in Many Ways At various times Senator Pittman served on the naval, foreign relations and interstate commerce committee as well as the committee on mines. He sponsored much legislation relating to mining and reclamation projects. Four times he was the Democratic caucus candidate for president pro tempore of the Senate.

In the Democratic National Convention of 1924 he was secretary of the committee on platform and resolutions and four years later was chairman of that committee.

When he went to Alaska in 1897, Senator Pittman worked two years as a miner and then opened a law office at Nome. He was said to have been the first lawyer to engage in practice in that region. He successfully defended the rights of

miners against encroachments of a mining company. He also took an active part in the organization of a "consent" government in which he became district attorney.

Senator Pittman had an abiding faith in the ability of men to work out their disagreements around the council table. He applied to legislative problems and party disagreements the same principles he employed in solving legal difficulties.

His favorite method was to bring the contending factions together and have them thrash out the controversial question until a common point of disagreement was reached. Then, as a basis upon which to work he would propose a compromise, which in turn would be modified until it had been made to meet the two factions.

MILITARY LUNCHEON

Remembrance Day Occasion is Suitably Observed by Local Gyro With Service Men As Guest

Called upon as one of the prominent ex-service men Gyro members for a Remembrance Day address, William Cruickshank, speaking at Wednesday's regular weekly luncheon of the Prince Rupert Gyro Club, said that various veterans of the First Great War might remember various things as their most vivid recollections of the conflict of a quarter of a century ago but to him the outstanding recollections of service in France had been the friendship and the comradeship of men in stress of conflict. Mr. Cruickshank, in his position as a veteran of the last war, was modest in his personal recollections and observations in regard to 1914-18. He was confident that those who found themselves in service in the present war would carry on with equal valor and credit to the traditions of the British forces. Briefly he reviewed some of the glorious accomplishments which had been achieved so far in this war by navy, army and air force, particularly by the Canadians. He referred to the Gyros at present in the service.

The Gyro Club had as special guests on this occasion officers in the local active services, these being fittingly introduced by D. G. Borland, another of the Gyro ex-service men. They were Lieut. Commander J. R. Elfert, representing Navy in place of Commander Geoffrey Borrie, who is ill in hospital; Lieut. Col. S. D. Johnston M.C., V.D., officer commanding, Prince Rupert defences; Lieut. Col. J. J. Burton-Willison, Royal Canadian Army Service Corps; Lieut. Col. J. N. Burnett, officer commanding, Irish Fusiliers; Major J. R. Low, officer commanding, Ninth Fortress Signals; Major J. D. Horne, officer commanding Second Battalion, Sixteenth Canadian Scottish; Capt. J. F. Campbell M.C., Royal Canadian Engineers; Capt. W. H. Crocker, officer commanding Second Searchlight Battery; Capt. Roy Durnford, area padre; Lieut. G. H. Worsley, Royal Canadian Army Medical Corps; Lieut. Cecil Fitzgerald, Second Searchlight Battery; Flying Officer L. V. Vineberg and Flying Officer Douglas Christie, Royal Canadian Air Force. Other guests of the day were D. E. Galloway, Montreal; J. G. Davies, Winnipeg; Brigadier J. T. Gil-

ingham, Wrangell; S. J. Jabour, Vancouver, and C. G. Ham. The blessing was pronounced by Capt. R. C. H. Durnford and the luncheon was favored with fine vocal solos by Len Cripps, accompanied by C. P. Balagno, President. A. Panter was in the chair.

Send Us SWEET CAPS for Christmas

When you enjoy Canada's favorite cigarettes—mild, cool, fragrant Sweet Caps—remember the boys overseas. They depend on you for the cigarettes which are their favorites also. Send them Sweet Caps to remind them of your good wishes—especially at Christmas. Packages should leave Canada early to ensure delivery before Christmas. A greeting card with the sender's name is enclosed with each parcel. "The purest form in which tobacco can be smoked!"

SWEET CAPORAL CIGARETTES

\$1.00 sends 300 SWEET CAPORAL or WINCHESTER cigarettes or \$1.00 will send either 1 lb. of OLD VIRGINIA pipe tobacco or 1 lb. of SWEET CAPORAL FINE CUT (with Vogue papers) to Canadians serving in C.A.S.F. overseas only. \$2.50 sends 1000 cigarettes to an individual or unit. Address "Sweet Caps," P.O. Box 6000, Montreal, P.Q.

Change Version of Canada's Anthem Rotary Gatherings

The Prince Rupert Rotary Club, at its luncheon yesterday, commenced the singing of "O Canada" to a different set of words to those generally used in the past. The version now to be used by the club has the wording as follows:

"O Canada, our heritage, our love
Thy worth we praise all other lands above.
From sea to sea throughout thy length from pole to borderland
At Britain's side, what'er betide, unflinchingly we'll stand.
With heart we sing, 'God Save the King'
'Guide thou the Empire wide do we implore
'And prosper Canada from shore to shore."

LOCAL NEWS NOTES

Just say—"Three Two please." Donald Fitch sailed last night on the Prince Rupert for Vancouver.

George Minns sailed last night on the Prince Rupert for a trip to Vancouver.

Mrs. E. B. Baker and daughter, Miss Kay Baker, sailed last night on the Prince Rupert for a visit to Vancouver.

Mrs. James Denholme and little daughter, Camille, who arrived in the city earlier in the week from Tiel, Queen Charlotte Islands, sailed last night on the Prince Rupert for a visit to Ocean Falls.

BRITISH BOMBING OF GERMANY
(Continued from Page One)

they ease up definitely and it is not unusual to have many hours of quiet now, enabling the people to get more needed rest. The night raids, though strong at first, seem to taper off sharply after a short time, continuing with reduced intensity.

The fire fighting and demolition forces continue to be still kept busy. Wherever incendiary bombs are dropped, fires are started and these often assume quite large proportions. However, it is remarkable how quickly they are brought under control and what a short distance they spread. One of the places struck in a recent raid was a well known hotel. On another occasion a single plane loosed three bombs on business buildings, causing undetermined casualties.

In addition to some light nights of attack, there have also been entire days of late when no bombers have appeared. The sounding of alarms does not always mean that bombers will come. Often they are driven off before they reach anywhere near to the city itself.

The Nazi attacks no longer appear to be concentrated on London but are spreading to the Midlands and other parts. In line with the campaign to terrorize the civilian population, aim seems often to be made direct for air shelters. Machine-gunning of street crowds is another of the favorite pursuits of the Nazi bombers. On the whole, however, casualties and damage appear to be steadily diminishing.

The raids by the Nazis are carried out only at great cost to themselves and the British Air Ministry state that within the space of the last few weeks some 400 German planes have been brought down in the Battle of Britain.

War Dogged Him To His Death Bed

Bombs Dropped Not Far From Where Chamberlain Lay Few Hours Before He Died

LONDON, Nov. 15.—The last few days of the late Former Prime Minister Neville Chamberlain on earth were troublous ones. Not long before he died, bombs fell within forty yards of the home in Hampshire where Mr. Chamberlain lay sinking. Not long before he died the King and Queen went out and spent an hour at the bedside but it is doubtful if the dying statesman recognized them. Mrs. Chamberlain and two sisters were at the bedside when the end came.

HOME OIL HAS LEAD

Enjoying One Point Margin Now Over Air Force in Five Pin Bowling Standing

Home Oil is now leading the Five Pin Bowling League with a margin of one winning point over Royal Canadian Air Force. In this week's play Home Oil won from Bankers two games to one while the Royal Canadian Air Force lost to Philpott-Evitt two games to one. Lipsett took a clean sweep three games to nil victory from Malkin's while the fixture of Armour's vs. Signals was postponed.

The total scoring was as follows: Royal Canadian Air Force—828, 807, 1007.

Philpott-Evitt—985, 949, 999.

Lipsett's—1198, 933, 990.
Malkin's—930, 903, 864.

Home Oil—1170, 856, 1035.
Bankers—1089, 931, 1028.

Cy Kellett of Home Oil had the high individual score of 291 and the high average of 240.

On the basis of winning points, the league standing is now as follows: Home Oil, 17; Royal Canadian Air Force, 16; Bankers, 14; Armour's, 11; Philpott-Evitt, 10; Lipsett's, 10; Signals, 7; Malkin's, 7.

SPORTS

SPORT CHAT

British football, competing against German air raids as a Saturday afternoon attraction, is bearing up stubbornly in the most trying times it has ever known. Forced by war contingencies to run its leagues on a goal average basis rather than on the usual "two points for a victory, one for a draw" system, the Football Association, of which the Earl of Athlone, Canada's governor-general, is president, has seen gate receipts dwindle because of what the press calls lack of "the real competitive spirit." Change in the system of compiling standings was made because it was believed games might have to be cancelled and because lack of transportation facilities made a full schedule impossible. After eight weeks of play, however, only a few games have been cancelled and sports writers generally have taken to goal-average system over the coals, claiming the standings give little indication of the true merits of the teams.

Arsenal, current leaders of the South Regional section, had a 5,000 average October 12 before their match with Tottenham. They won the game 3-2 and their average fell to 4,000. The next week they beat Northampton 5-4 and dropped another point in the averages. Had they played two scoreless draws their average would have remained at 6,000 so they actually were penalized for winning.

"Surely," wrote G. Wagstaffe Simmons, "it need not be emphasized that there is something wrong with a system of reckoning that punishes clubs if they win, but permits them to retain their average if no goals are scored." Despite the criticism, the Football Association decided to retain the system for the second half of the season, starting after the new year and continuing until the first week in May. But to conciliate those who believe wins and losses are more important than goals, the Association arranged for a knock-out cup competition. It will begin after Christmas and run until May 3 when the final will be played.

Competition has been keen in both the Southern and Northern halves of the English league and there wasn't an unbeaten team after eight weeks' play. Arsenal, with seven victories in eight games, has been the pick of the southern half, while Manchester City, with five victories, two draws and a loss and a goal-average of 3,600 has kept in front in the north. Clubs, paying a maximum of 30 shillings (\$6.68) a week to players and filling their lineups with a large number of amateurs, have managed to keep going despite slim crowds and hold-ups during raids and there have been no withdrawals since the leagues started. To do away with holdups a system of "spotters" similar to that used in factories and office buildings is being considered and if adopted it is expected attendance will increase. Crowds of 5,000 have been tops in England but in Scotland, where attendance restrictions are not so severe, as many as 30,000 have turned out for a game. The Southern Scottish League, which still uses the points system in compiling standings, keeps to familiar pattern with Glasgow Rangers in front with 18 points in 10 games. They are the only unbeaten team in the league.

David Scott, purser of the steamer Princess Marguerite on the Vancouver-Victoria-Seattle run, arrived in the city on the Princess Norah yesterday from Victoria. He is here to relieve W. L. Coates, general agent for the Canadian Pacific Railway, who, accompanied by Mrs. Coates, is leaving next Monday afternoon on the Princess Norah for a month's vacation trip to Vancouver and Victoria.

Bridge League Games Played

Cow Boys, C.N.R.A., Dairy and Ramblers Winners Last Night

Prince Rupert Bridge League results last night were as follows: Grotto 6740, Cow Boys 9810, C.N.R.A. 10360, Sons of Norway 5725.

Musketees 7420, Prince Rupert Dairy 8830.

Ramblers 8970, Quatsinos 6920.

The league standing to date:

For	Against	Points
Cow Boys	39760	28290
Ramblers	37660	26270
C.N.R.A.	32290	34515
Grotto	31450	33580
Musketees	31100	33590
Pr. Ru. Dairy	30950	30540
Sons of Norway	30455	39680
Quatsinos	26280	31780

HAWKS IN LEAD YET

Hold Off Menace of Toronto By Playing Tie With Americans Last Night

Toronto, 6; Canadiens, 2.
Chicago, 2; Americans, 2.

NEW YORK, November 15 (Canadian Press)—Chicago Black Hawks managed to keep in exclusive possession of first place in the National Hockey by holding the New York Americans to a two-all draw. Thus the Black Hawks held off the threat of the Toronto Maple Leafs who scored a slashing 6 to 2 victory over the Canadiens at Montreal and bounded into second place but one point below the Hawks. After losing the first start of the season to New York Rangers by scoring one goal in each period last Saturday to blank the Detroit Tigers, the Maple Leafs seem to have struck their stride. Tomorrow night they take on the Canadiens in the weekly game at Maple Leaf Gardens. The second fixture scheduled for tomorrow night will see Detroit playing the Rangers in New York while on Sunday there will be three games—Detroit vs. Americans, Toronto vs. Boston, Canadiens vs. Chicago.

The National League standing to date is as follows:

	W	D	L	F	A	Pts.
Chicago	2	1	1	11	9	5
Rangers	1	1	0	6	3	3
Detroit	1	1	1	6	7	3
Toronto	2	0	1	10	6	4
Americans	1	1	1	5	6	3
Boston	0	1	1	6	7	1
Canadiens	0	1	2	4	10	1

Basketball Buzz

Local league basketball plans for the coming winter season have suffered a severe setback with the calling up of Sonny Beynon, Jack Lindsay, Jim Currie and Terry Grimble, all members of the proposed Senior League, for a months' military training. These boys will leave next Tuesday afternoon so will at least be on hand for the opening game of the season on Monday night when Savoy Hotel meets Rupert Motors. There will be the usual Junior, Intermediate and Ladies' games and, with a break in the weather, there should be a good turn-out.

Carl Zarelli received the uniforms this week for his Savoy Hotel team and will turn his boys loose both with speed and color. He has Beynon, Holkestan, Dominato, Currie and Grimble on his first string. If the team plays up to

standard, it should have a good chance of coping the evening's honors. Jack Lindsay's Rupert Motors outfit has a power house at guard in Houston and Arney. On the front line are Stiles, Morgan, Jack Lindsay and Jack Campbell. All in all, it looks like real action Monday night.

SIGNALS WINNERS

Defeated Air Force by Score of 46 to 9 in Inter-Unit Basketball Game Last Night

Signals took the big end of the score when they played the Royal Canadian Air Force in inter-unit basketball at the Armory last night, the count being 46 to 9. Nevertheless, it was a fairly well played

match although the Airmen, having not played much together and being in practice, were unable to their scoring eyes. However, confidence and coaching, should soon be able to give a better account of themselves.

Teams were: Signals—Lawford, 13; Houston, Guelpa, 5; Browne, 6; Sutherland, 17; Gray, 2; Stogren, Bryson. Air Force—Hancock, 4; Gray, 3; Downer, 3; Heady, Breadner, Vi-berg, 2; Brown, Langton. Melbourne Bussey was referee and Bill Oliver, timekeeper.

Hockey Scores

Pacific Coast League Vancouver, 2; Portland, 3.

HAVE you ever thought of your bank as a citizen, taxpayer, employer and consumer? Your bank strives to be a good citizen — to render a useful service for a moderate remuneration. **AS A TAXPAYER**, your bank pays heavy sums to your community, your province and the Dominion — Canada's chartered banks paid over \$9,000,000 last year alone; \$42,000,000 in the last five years. **AS AN EMPLOYER** your bank and other chartered banks in Canada furnish employment to thousands of persons who are an asset of real value to the Community and to the Dominion. The banks paid last year over \$35,000,000 in wages — in the last five years, \$174,000,000 — a direct distribution of buying power all over Canada. The value of the services rendered by our men and women workers cannot be appraised in dollars. Their efficiency, courtesy and integrity are largely responsible for the goodwill and pleasant relations between Canada's chartered banks and the people they serve. **AS A CONSUMER** the bank is a customer of your utilities — water, light, power; it pays rent, buys fuel, office equipment, telephone and telegraph services, everything needed in modern business.

In war, as in peace, Canada's Chartered Banks maintain, uninterrupted, their useful services — safeguarding depositors' funds; facilitating the nation's business — looking forward to peace with freedom as the only sure basis of enduring prosperity.

THE CHARTERED BANKS OF CANADA

Rotary Luncheon Enjoys Talkies

Yesterday Robert Parker put on a talking picture program for the edification of the members of the Rotary Club.

The pictures depicted mass production of motor cars as seen at Detroit, Michigan. All the important operations at the huge thirty acre plant at Fort Rouge were illustrated and described. One particular feature of the series being the few men seen at the plant. One or two men seemed to control every

department, everything being so planned so as to reduce the use of man power.

Among the guests were W. C. Clarke of Prince George, D. C. Scott and S. J. Jabour of Vancouver, R. R. Nichol of Winnipeg and Albert Deidall of Prince Rupert.

CANADA ABLE TO CARRY ON WAR EFFORT

(Continued from Page One)

of business. Mr. Jaffray cited the above figures as indicating the ability of the banks to handle the war effort requirements of industry.

Can Carry Program

Turning to the ability of the country as a whole to handle its war effort he pointed out that government war orders—some \$5,000 in number—placed up to the end of September, totalled \$550 million—\$410 million on Canadian account, \$140 million on British account. The figures covered all purchases of munitions, aircraft, armaments, food and clothing and did not include soldiers' pay or the \$235 million of plant expansion which, with other items, brings Canada's war commitments and expenditures to date up to something over a billion dollars.

To finance this program war loans had raised \$500 millions of new money; taxation and other revenues had provided the rest. "With the ever increasing development of our natural resources, a favorable export trade balance of nearly \$2000 million a year—(it was \$45 million for the three months of June, July and August last), and with a considerable part of war expenditure in the form of wages finding its way into the hands of individuals, and available to some extent for subscription to further Dominion loans," Mr. Jaffray continued, "I am firmly convinced that Canada can handle its war effort limited only by the volume that can mechanically be produced and without upset to our national economy."

Would Encourage Mines

Commenting upon suggestions that an adverse balance with the United States might operate to restrict Canada's purchases in that country, Mr. Jaffray pointed to the adverse balance of imports over exports for June, July and August amounting to \$65 million. He added: "but these figures do not include interest payments abroad nor the revenue of tourist traffic, nor do they include gold shipments. The first two are not greatly out of balance, and as the total value of our gold production for the same three months exceeded \$51 million, available if needed to balance the account, coupled also with the accumulation of American assets in one form or another controlled by Canadians and which can also be drawn upon, if necessary, to support our war effort, I cannot share in these misgivings, but I think the figures do

emphasize once more the enormous value of our mineral production and stress the view that every encouragement should be given by our governments to our mines to increase production.

Inflation and "Funny Money"

"From time to time," he continued, "we hear suggestions to the effect that Canada should resort to inflation, or to one kind or another of 'funny money' to finance this war. I cannot too strongly condemn any such suggestions as not being in the best interests of the country, and because such experiments must inevitably carry with them an aftermath of depression. Labor of every kind is doing its part in the war effort in a whole-hearted manner, working long hours, waiving holidays, and in contributing both by its efforts and with its earnings to the country's need. To resort to any expedient that would bring to the working man at the end of this war another period of depression, is beneath the consideration of a country such as Canada, and I can only think that those who advocate such proposals cannot realize what the results would be. There is only one way in which to finance this war, and that is by taxation up to a level beyond which it would ruin its own purpose, and over and above that by borrowings, to be paid from the development of our unlimited natural resources over a period of time.

Extreme Taxation Unwise

"Perhaps I might develop for a moment the question of taxation—which, if carried to an extreme, may produce results not greatly different from the aftermath of inflation. With the increased volume of turnover in nearly all businesses, it is inevitable that heavier inventories must be carried and brought further in advance. The present rate of taxation leaves to the manufacturer, wholesaler, and others, little margin for increased profit, and little opportunity to set up proper reserves against these increased inventories. It seems to me that the Government in assessing for taxation should take this factor into consideration, as it would be regrettable indeed if, after the war, the business men of the country were faced with the necessity of reducing these inventories, and with inadequate reserves against them, a situation of deflation with its accompanying suffering and unemployment were brought about even where there had been no inflation."

Wheat No Detriment

Mr. Jaffray then touched upon the wheat situation, refusing to regard the West's large crop as a detriment, "rather than a blessing." It had produced financing and storage problems which another crop might even accentuate "but, in spite of this I would say that it is my conviction that this national wealth added to the country is a tremendous asset, and that in the long run every bushel of grain that we grow will be needed, but it is possible that, for the next year or two, a percentage of switching from wheat to feeding grains may be in the best interest of our farmers."

Praises Bank of Canada

Touching the Bank of Canada and the Foreign Exchange Control Board, Mr. Jaffray declared that they had both done an efficient, farsighted job and if, particularly in the realm of exchange control, individuals considered their personal liberties infringed, "I would only say to them that nothing has been done which is not in the best interests of the country, and of the freedom of the world, and that their individual inconveniences are a minor matter." Mr. Jaffray closed with a note of

confidence in ultimate victory. He said: "In the minds of those of us who have some faint conception of the enormous assets, real and potential, of the British Empire, and with the resources of other friendly nations, including our neighbors to the South, at our disposal, there can never be a moment's doubt as to the final outcome. Once these

An OLD-FASHIONED bottle and an old-fashioned reason

IN this streamlined age, there is sound thought behind the determination of Macdonald Greenlees of Leith, Scotland, to continue to ship Grand Old Parr Whisky to all countries of the world in the old-fashioned untippable bottle.

In far-off lands where house servants do not always read English labels, the squat brown flagon serves to identify at a glance this famous product from Scotland. The bottle is the guarantee of the genuine imported Grand Old Parr Scotch Whisky.

SMITHERS **Stock Market**
Stays Steady

Lance Corporal Pat Downey of the Canadian Scottish Battalion of Victoria, who has been visiting his parents, Mr. and Mrs. J. P. Downey, left on Thursday's train en route to rejoin his Battalion.

The funeral of the late Ed. Johnson of Evelyn was held in Smithers from the United Church on Wednesday afternoon, Rev. J. T. Burchill conducted the services. A large number of friends and neighbors of the family attended the funeral.

If you want something, advertise for it. Hundreds of people get what they want that way. (1f)

Values Have Not Showed Great Deal of Fluctuation During Past Couple of Days

NEW YORK, Nov. 15.—The stock market has been steady during the past day or so with not a great deal of fluctuation in values. Following yesterday's turnover of 1,380,000 shares, transactions in the first hour today totalled 230,000 shares and the averages then were: industrials, 136.93, off .04 from yesterday afternoon; rails, 30.27, off .02 and utilities, 21.49, unchanged.

Bulletins

PERIOD EXTENDED
OTTAWA—Extension of the present thirty-day training period for men called up under the National Mobilization Act is under active consideration, Hon. J. L. Ralston, minister of national defence, told the House of Commons today. This would tend for greater efficiency in the training of draftees.

DEPTH CHARGE LOOSE
VICTORIA—The Department of Naval Affairs announces that a depth charge has become accidentally adrift in the Straits of Juan de Fuca. Shipping is warned to be careful. The charge was not timed and the belief is that it would probably sink.

LAGUARDIA IN VICTORIA
VICTORIA—Mayor LaGuardia and other members of the joint defence board arrived in Victoria yesterday from San Francisco, leaving today for Vancouver. The board conferred with Premier Pattullo and the Alaska Highway is one of the subjects believed to have been discussed.

SITUATION TENSE
HONG HONG—The situation in the Far East is becoming tense again as Japan evidently moves to occupy Saigon in French Indochina.

RELIEVING MARTINIQUE
WASHINGTON—There is a possibility, it is believed, of the United States releasing sufficient frozen French assets to permit relief for the island of Martinique which is suffering from a severe food shortage.

RUSHES TO PARIS
MADRID—Spanish Foreign Minister Raymond Suncar was rushing today to Paris on a mission the nature of which was not disclosed.

RED CROSS
News Notes

PENTICTON HELPS

Boys and girls of the Penticton Junior and Senior High Schools under the leadership of Mr. and Mrs. H. Martin, gave up much holiday time this summer for Red Cross work. The girls sewed one afternoon a week and have sent in seven six-year-old dresses, 33 comfort bags, 93 knitted washcloths, 316 handkerchiefs and seven articles for layettes. They supplied materials for and made three quilts and one lap rug. The boys made 11 beautiful posters advertising Red Cross work and helped move the sewing machines.

RAIDS ARE EASING UP
(Continued from Page One)

plott by the Royal Air Force recently was that when a stick of British bombs overshoot its mark and hit the famous beer cellar where Hitler spoke at Munich, starting a large fire, according to the British Press Association. The Air Ministry, in a communique that day, reported military objectives in Munich bombed with the Royal Air Force flying more than six hundred miles and dropping bombs for more than an hour.

Communications and objectives elsewhere in Germany and the industrial sections of Italy are also being bombed regularly by night including Milan and Turin.

Informed sources in Berlin admitted that British planes had raided Munich but claimed that the alarm came after Hitler had completed his address to Nazi stalwarts. It was in this address Hitler had boasted Germany was "prepared for future as never before" and "strong enough to meet any combination in the world." Der Fuehrer claimed that German production was the highest in the world and the Reich would soon have capacity of the rest of Europe added to its own. The speech was not broadcast, apparently on account of all German radio stations being off the air through fear of the Royal Air Force. Keeping of German radio stations off the air is another regular effect of the British bombing.
