MISSING AT New Axis Offensive Is Hitler's Aim In Talks That Have Been Held

Much Speculation in Europe as to Latest Negotiations But Official Announcements Are Still Lacking

SPAIN NOT GOING IN BERLIN, October 24: (CP)— A hint that Chancellor Adolf Hitler's attempt to drag Spain into the war has failed was dropped tonight by informed German circles who said Germany has "complete understanding" of Spain's economic position as a result of her civil war. "It is too much to expect Spain to join in the war — at present at least," they said.

BERNE, October 24: (CP)—Chancellor Adolf Hitler's talks with Vice-Premier Pierre Laval of France and NEW YORK, Oct. 24.—New York the Spanish dictator, Francisco Franco, were bound together today by reports that they had laid the groundwork for an Axis offensive in the Mediterranean and the industrial average at closing was South Atlantic. Hitler and Laval had put the finishing touches to an agreement whereby the Vichy government would give the Axis power to use IN FRANCE air and naval bases in Africa, Syria and unoccupied France in return for certain concessions. Reports reaching diplomatic sources from Vichy today said that Premier Henri Bases to be Sought and Country Petain had left for Paris. It was believed here he was going to join Vice-Premier in signing the new French-German agreement.

> At the same time reports indicated that one of the subjects discussed by Hitler and Franco was the possible use of ports and air fields in Spain and the Canary Islands as spring boards for Nazi attacks on South Atlantic shipping.

Diplomatic sources envisioned a campaign in which Italy and Spain would attempt to seize Gibraltar and smash Great Britain's power in the Mediterranean while Germany and Spain struck at Britain's south American trade.

It was reported that concessions to France would include release of all French war prisoners and the advancing of the frontier of unoccupied France northward to the seine River, dividing Paris between part of the country from Vichy | Germany and France.

Adolf Hitler is trying to piece together an empire; and hold the various elements together by force. It is a difficult job and not at all likely to succeed. The cement is provided by the diabolical Gestapo headed by Heinrich Himmler. This method of building is to say the least very precarious. Already there are said to be objections; to the Hitler method which have resulted in riots. When the people become hungry they will be less careful of annoying the German authorities.
