

HOME RULE BILL TO BE INTRODUCED TOMORROW

OLD TIMERS BRINGING IN MORE CAPITAL FROM ENGLAND

O. H. PARTRIDGE, PROMOTER OF THE MOSQUITO FLEET OF STEAMERS THAT FIRST NAVIGATED YUKON—RUFFNER, THE HYDRAULIC PIONEER AND CHUTE OF DAWSON.

O. H. Partridge, the pioneer of pioneers of the extreme north-west corner of this province, was a passenger on the Princess Mary last night on his way back to open up the Ben McCree mine, near Golden Gate, Atlin. He has been to England and succeeded in securing more capital for the enterprise, and he took with him Mrs. Partridge, this being the first trip she has made to the outside in fourteen years.

J. M. Ruffner, the well known hydraulic miner of Atlin, was another notable passenger. He has been engaged in mining operations there ever since gold was first struck on Pine Creek in 1898.

Fred Chute is a Dawson pioneer, the first staker of the Lone Star group of placer mines. He also returns from England with more capital to develop that property.

Mr. Sivert of Jedway, Queen Charlotte Islands, is in town. Mr. Sivert has sold his wharf at Jedway to the Dominion government and will remove to New Westminster, where he expects to engage in the hardware business.

We have for sale a lot on 5th Avenue, Section 6, for \$500 cash, on very easy terms. H. F. McRae & Co., 315 2nd Ave.

HUDSON'S BAY MAN HERE

Says Misleading Report of Rupert Climate Works Vast Injury.

Mr. J. R. Myers of Winnipeg, manager of the mail order department of the Hudson's Bay Company, is in the city looking after the interests of his company. Mr. Myers is very favorably impressed with the climate and general outlook of Prince Rupert. That Prince Rupert has suffered greatly through false and misleading statements relative to the climate is the positive opinion of Mr. Myers. In the Southern B. C. cities especially they give out most discouraging reports. He suggests that a general publicity campaign aimed particularly to correct the widespread erroneous impression of the climate, would be vastly beneficial to the city.

EXTRADITE BANK CHIEF

Prominent Idaho Man Under Arrest in Vancouver.

Vancouver, April 10.—Bernard O'Neill, an Idaho banker holding a prominent position, has been ordered to be extradited. The charges against him allege embezzlement and fraud in connection with his bank's failure.

Chelohsin in Dry Dock.

The steamer Chelohsin, which went aground near the North Pacific cannery, was hauled off by the salvage tug and reached Vancouver under her own steam. She is now in the North Vancouver dry dock undergoing repairs.

COOK KILLED THE CAPTAIN

Ugly Story of Murder on the High Seas Revealed by Crew of Schooner Just Arrived at San Francisco.

(Special to Daily News.)
San Francisco, April 11.—Captain Bersen, of the American schooner "Americane," which reached port here today, 128 days from Australia, was killed on January 27th by the vessel's Japanese cook. This information was received when the vessel entered quarantine. United States marshals have been sent to the ship to arrest the cook, who was held in irons during the completion of the voyage.

DAFFODIL LUNCH PRONOUNCED BIGGEST KIND OF SUCCESS

DAINTY VIANDS AND CHARMING ATTENDANTS—SEVERAL BUSINESS MEN CALLED FOR DAFFODILS ON THE HALF SHELL AND GOT SOUP.

In the midst of a perfect profusion of daffodil decorations the Daffodil lunch held in St. Andrew's Church Hall this afternoon was carried out to the limit of success. There was a splendid attendance, most of the prominent men of business having graciously elected to lunch with the ladies instead of at their clubs and usual haunts for the midday repast.

It was a good humored, friendly, thoroughly satisfied crowd, too. Those who came determined to have daffodils on the half shell for lunch were daintily served with a daffodil menu which would be hard to surpass even at a Japanese flower feast. All who desired to satisfy the inner man were most bountifully provided for by a bevy of charming attendants.

That there were charming ladies also in attendance as guests goes without saying, and the enjoyment of the mere males was accordingly enhanced. The feature of the lunch was really the representative nature of the patronage. Everyone was there from the veriest Liberal to the most pronounced Conservative, and all were frank, friendly and in the best of good humor. The lunch did credit to all concerned in getting it up and more than satisfied all who were there to get it down.

WHOLESALE HOLOCAUST

Burning Mountain Engulfs Indian Village Near Panama.

(Special to Daily News.)

Mobile, Ala., April 11.—Thousands of persons have been killed and a whole Indian village swept away by the eruption of Chiriqui Peak, near Beas Del Toro, Panama, according to the story of Captain Olevik of the United States fruit steamer Fort Morgan, which arrived here today.

ACCIDENTS—The only complete protection is a policy with the Ocean Accident & Guarantee Corporation, the largest casualty insurance company in the world. The Mack Realty & Insurance Co., Agents. tf

Suspect Smallpox on Liner.

(Special to Daily News.)

Victoria, April 11.—(Special.)—The steamer Monteagle, which is nearing Williams Head, is said to have a suspected case of smallpox aboard. The vessel will proceed to quarantine.

NOT DREADNOUGHTS ONLY BUT FOOD SUPPLIES FIRST

Highly Important Representations Issued by the Imperial Maritime League of Britain Pointing Out Paramount Importance to the Old Land and the Empire of Protection for Food Supplies and the Arming of Mercantile Marine

(Special to The News)

London, April 11.—The Imperial Maritime League has issued a memorandum which states to the deep misfortune of the nation, public attention is likely, as usual, to be fixed on the subject of Dreadnoughts, to the exclusion of the two really vital problems, which are: (1) that of preserving our population from starvation in the event of war,—and (2) the provision of the complementary units and accessories absolutely essential to the use of

the battle fleet.
As regards battleships, it need only be observed that:

Our strength has suffered a most grave relative decline in the course of the last six years; and that:

To build additional Dreadnoughts required is yet only to make a present of them to the enemy, unless due and timely provision is made for the men required to man them, for the docks on the East Coast needed to clean and repair them, and for the scouting cruisers and destroyers which are essential alike to their effective employment and to their freedom of action.

As neither forty, nor a hundred, cruisers will be of the least assistance until they are built, the Imperial Maritime League urges upon the country the three following interim measures:

(1) The arming and otherwise equipping during peace of a selected number of British merchantmen to match those of Germany, so that our mercantile marine may cease to be regarded merely as a target, but may become also a sword;

(2) The passing of a short Act of Parliament making all food in the country on the outbreak of war become automatically the property of the government of the day, at the market prices previously obtaining;

(3) The immediate appointment by the government of a committee of experts to devise the best scheme possible for the

distribution of such food in time of war.

The object of the last two measures is to enable the government, by regulating prices, to avert panic and thus enable our population—rationed like the inhabitants of a besieged city—to have the full advantage of such food as the British Isles contain, the amount of which would be likely to suffice them for from at least two to three months, if not longer. In such a month the war might be finished.

PRINCE RUPERT MAN STIRS UP SASKATOON

Young Helgerson Buys Four Blocks of Best Business Locations in New City---Turned Over Couple of Millions in Nine Months

G. R. T. Sawle, who has been traveling around the Dominion for three or four months and returned on the George, says that the day he left Saskatoon O. M. Helgerson pulled off a big deal, paying for a corner on Twentieth street and Third avenue the sum of \$75,000. This is the concluding purchase of a very important deal.

Twenty-first street is the leading business thoroughfare of the city, the Canadian Northern depot being on it beyond Second avenue. This has made the latter the principal business street, but Mr. Helgerson's plan is to make Third avenue take the lead. With this aim he and his partner, W. H. Bulmer, have bought both sides of this avenue for a block on either side of Twenty-first street and are putting it on the market with reservations that

purchasers must erect buildings of from three to seven storeys.

This, Mr. Sawle says, is one of the biggest real estate deals Saskatoon has ever known. In addition to this he was told that Mr. Helgerson had during the past nine months turned over no less than two million dollars worth of city property over his own name.

Mr. Helgerson is well known in this city and all will be pleased to learn of his continued success. He came here with a modest couple of thousand dollars, which was practically expended before success came to him. Then he purchased the lot at the corner of Sixth street and Third avenue, erected the handsome Helgerson block on it and sold it to English capitalists at a big profit. He still holds large interests here.

The Saskatoon Daily Star of March 27th bears out the statement of Mr. Sawle. In the second column of an article deposited to the subject on its first page it concludes:

"Mr. Helgerson, the man responsible for this important movement in the heart of the city's business section, is not a believer in partnerships, and does not do a commission business, buying and selling his own property only. During his stay here he has bought and sold property to the value of \$2,074,750, practically all of which lies between Nineteenth and Twenty-third streets on First, Second, Third and Fourth avenues."

Ninety-nine feet frontage on Seventh Ave., near Hays Creek, \$3,500. H. F. McRae & Co., 315 2nd Ave. 2t

HERE'S HEALTH FOR HIM!

A Word of Well Wishing for a Brother Scribe in Repair Dock.

With regret it is learned by his many friends in the city that the slight indisposition which has confined Mr. W. Raymond of the Evening Empire staff to his home for the past day or two may keep him down for a day or two yet. Mr. Raymond as one of the very earliest pioneers of newspaperdom in Rupert has borne the brunt of the news-

paperman's battle without respite for several years. His present lay-off, due to a sharp spring chill, will it is hoped prove rather a blessing in disguise, being at least a relief from the jar and fret of the newspaper maker's daily day, if not exactly a desirable holiday.

Ladies Always Want. Many new seasonable things. They always go to Mrs. Frizzell's for the latest styles in suits, dresses, collars and millinery. tf

Warm, clean rooms at Savoy.

RED DEVIL DID ANOTHER RUSH

Alarm Again from the Alder Block—Wild Excitement but No Fire—Red Devil Ready to Pounce on Even a Sunburn.

Another furious stampede by the Red Devil & Co. from the city fire hall at about 7:30 last night resulted in a hullabaloo down in the business section for a few minutes, but fortunately not a spark of fire. The alarm reported an outbreak in the Alder block, but the spark hadn't a chance against the swift efficiency of the devil with hose pipe and chemical. Chief Dan McDonald, whose appointment to his present position was notified by the Monetary Times, is tuning up the Devil & Co. to such efficiency that the whole outfit is liable to be on the job if they hear of even only a sunburn on the back of a bo-hunk's neck.

Choicest steaks at the Royal Hotel. tf

C. P. R. EMPRESS HAD HER DAY

Famous Trans-Pacific Liner Stranded Last July and Re-floated Will Be Sold to Be Broken Up.

(Special to Daily News.)
Victoria, April 11.—Word has been received here that the C. P. R. steamer Empress of China, which stranded off the Japanese coast last July and which was floated after being on the rocks for several months, will be sold at auction as the vessel has been declared a total loss. She cannot be profitably repaired.

I.W.W. AGENTS RAISING TROUBLE ALL OVER

Seattle Judge Delivers a Solemn Warning About Followers of the Bloody Red Flag---Their Doings at Other Points

Seattle, April 8.—The parade of 800 Socialists and I. W. W. last night, headed by the red flag, was made the subject of an address by United States Judge Cornelius H. Hanford in the federal court today, the Judge predicting a conflict between the adherents of the red flag and those of the American flag. During the regular motion calendar, permission was asked to present two applicants for citizenship. After asking the usual questions, Judge Hanford said:

"In admitting you to citizenship, I give you a glad welcome, because you have proven to the court that you are attached to the constitution of the United States.
"Yesterday there was a procession marching in the streets of

Seattle following the bloody, red flag of revolution.

"Recently other persons have marched behind that red flag in the streets of Seattle, in which men enjoying the rights of citizenship of this country were included. Some of them were born in this country and others have acquired the rights of citizenship by professing and swearing allegiance to the constitution.

"It has been declared in the speeches of their organizers and in public statements that those who marched behind that red flag have no more respect for this flag of the United States than they have for the flag of Russia, and that their purpose is to destroy this government.

"If these demonstrations continue, the time will come when there will be a conflict between those who march behind the red

flag and those who take their stand under the flag representing the lawful flag of the country."

Scoffed at in Tacoma.

Tacoma, April 8.—Although the leaders of the I. W. W. had set today as the date on which they would succeed in forcing the St. Paul & Tacoma Lumber Company to suspend operations, the big plant has been running full blast since early morning with no sign of a walk out of the men.

The mill workers paid no attention to the I. W. W. pickets. In the morning fifty members of the I. W. W. paraded the streets on the tidewaters, but scarcely attracted any notice from the mill laborers. During the noon hour a crowd of mill laborers at a street corner scoffed at the I. W. W. agitators.

HOME RULE BILL NOW COMPLETE

Great Measure Will Be Introduced by Premier Asquith Tomorrow—Bill Much Resembles Gladstone's Famous One.

(Special to Daily News.)

London, April 11.—Leading members of the British cabinet today put the finishing touches to the Home Rule bill, which Premier Asquith will introduce in the House of Commons tomorrow. Members of the government and a few Nationalist members who have been taken into their confidence have kept secret the details of the measure, but with the exception of clauses relating to the control of excise and customs and the number of Irish representatives to be retained at Westminster, the general outlines of the bill are pretty well known. It is expected that the bill will follow closely that which was proposed by Mr. Gladstone.

NEW FEDERAL OFFICE HERE

Authoritative information has just been received at this office that the Dominion government has decided to establish a branch of the Public Works department in Prince Rupert, primarily to disburse the appropriation of \$365,000 voted for this district for the building of wharves and similar purposes. These appropriations have formerly been paid through the New Westminster branch, that being the only Dominion office of this character in the province. The Prince Rupert office will be a new one, under the direct control of the department at Ottawa.

DAILY EDITION.

THURSDAY, APRIL 11

GENERAL OUTLOOK REMARKABLY STIMULATING.

Good news always comes in bunches, and The Daily News came out in the glorious sunshine of yesterday afternoon with quite a fine assortment of encouraging intelligence. The municipal ownership of public utilities is still a much debated and debatable question, but Prince Rupert is rapidly proving the wisdom back of the suggestion from the most prudent and economic standpoint. Had the city not purchased the telephone system it is questionable if it would yet be paying a dividend to its stockholders at the present charges for service; yet the city is already able to declare a profit on its operation.

Then take the electric light and power plant—a much larger and more difficult undertaking. That also shows a profit, notwithstanding the recent expensive addition to it of the most modern type of power producing machinery. We are assured that the plant is now sufficient to thoroughly light the city and to supply power for all power using firms until the hydro electric system is able to supply water created electric power. Under these circumstances, this statement being accepted as official and authoritative, the profits should naturally increase.

Then in the same paper you read that work had actually begun on the two million dollar government dry dock. That means a tremendous amount spent in labor, which means increased business, increased savings and investments in Rupert real estate. Even the large estimate mentioned may yet be increased in amount, for the reason that since this estimate was made there has been a movement to increase the size of dry docks all over the world so that they may be able to accommodate the much larger vessels that are now being built.

So an era of broader prosperity is settling upon Prince Rupert in every way. The cold storage plant will employ some two or three hundred men after the first of May; the Ocean Falls lumber company about as many in the construction of its new wharf and lumber yards; the construction of the Doughty fish

plant on Porpoise Island, only a few miles away, will also employ a large number, and this is only the beginning of the industries to be established here.

Few have ever left Prince Rupert to look for the bag of gold at the end of some other rainbow. Those who came here have stayed. They have shown their faith in the place by investing their earnings. So great is this faith that it has become difficult for real estate dealers to obtain listings of city property for sale in the more desirable sections of the city. Prices will now naturally stiffen owing to the present prosperous outlook from every point of view.

Not all the capital for the exploitation of the wonderful coal fields of the Groundhog district is coming from the east, and, in fact, only one million dollar proposition has yet been put on the market. The capitalists of Prince Rupert have been by no means slow to take a chance at these newly discovered resources. A local syndicate has managed to corral forty sections of these valuable coal lands and this spring is to spend a liberal sum in their thorough prospecting to prove their values.

George R. T. Sawle, the pioneer editor of the old Optimist, is back in town on his way to Granby Bay. He is to start a weekly newspaper in the new smelter town and the people of Rupert will undoubtedly wish him every success.

MINING ACTIVITY HAS BEGUN IN THE HAZELTON DISTRICT

Plans for the development of the American Boy group have been extended to provide for the resumption of sinking on the rich No. 3 vein. The shaft, now 87 feet deep, is to be continued at once. A horse whim has been constructed for hoisting from this shaft. The tunnel on No. 2 vein is making good progress and the face shows excellent ore.

Silver Standard Working.
 The recently installed plant at the Silver Standard is working smoothly. The No. 5 Cameron pump quickly cleared the shaft of water. The workings are being retimbered and straightened where necessary, and development will be actively prosecuted with a full force of men.

Camp for Surprise Group.
 William Sargent came into town on Saturday night from the Surprise group on Glen mountain, where he has been looking after the construction of a camp for the miners who will operate on the property this season. It will be remembered that it was this property which has been taken over by those interested

in the Steamboat mountain failure and they will have a big gang working shortly.—Omineca Herald.

Silver Standard Shaft.
 Sinking on the shaft of the Silver Standard mine was started last week. Superintendent Haskins has no trouble in pumping the water out of the shaft and the inflow is much smaller than expected and the shaft can be easily kept dry.

To Stake Groundhog Coal.
 Bill Sweeney and party left Hazelton Sunday with several dog teams for the Groundhog country to stake some more coal lands, and also to do some prospecting. They went up the Skeena on the ice and they will be gone for several months. When they return it will be by the old trail over land.

Supplies for Turnagain.
 Thomas Hankin left Hazelton Sunday with six toboggan loads of supplies for the Turnagain country, where he will spend the next few months presumably looking for placer diggings. He had twenty dogs in his string.

SWAM FROM THE WEE BLIND PIG

Three Indians Arrested Intoxicated with Rye from a Submarine Blind Pig Somewhere Down at the Wharf.

Down at the G. T. P. wharf at the witching hour of 1 a. m. Harry Dudoward, who isn't an Indian, and Joshua Sebastian with Jacob Shaw, who are Indians, were discovered by Constable Shields in bathing. Suspecting the presence of a submarine blind pig, the constable arrested Jacob, who resisted the interference with his water walking stunt. Joshua, too, was apprehended and the walls of the Vickers Hotel didn't tumble down though he trumpeted nasally after his drenching. So yesterday morning Harry paid a \$7 fine and the two others await an interpreter for their cases. There is another case up at the police court over this incident. It is a case of rye whisky saved by the police from the wreck of the submarine blind pig.

Comox Charges Came Up.
 The charge against Julia Belmont, accused of selling liquor unlicensed, was yesterday dismissed, the magistrate holding the evidence insufficient. Stella Palmer, charged with keeping a house of disrepute, refused to plead and her case was remanded.

In the World of Sport THE RUNNING AT POWDERHALL

MILES IN CANADA FASTER THAN 1.40

Longboat Set Too Fast a Pace in the Beginning-The Indian Pleased the Spectators

The Powderhall Marathon is described by the Sporting Life as follows: "The pace was a cracker from the outset. Longboat broke away in the first mile, run in 4 min. 55 sec. 16 sec. faster than Bouchard's time last year. Two miles in 10.7 was astounding in for a Marathon--27 sec. ahead of Needless to say, by this time Longboat was out on his own, and he kept clear of his field for a full hour without any signs of flagging, but then he began to slack. At ten miles, it may be remarked, he was out a second ahead of last year's leader's figures, and from then he dropped gradually behind till at 15 he was 1 min. 37 secs. behind, but still well ahead of his field. The effort had been too much, however, and as the lapped men overhauled him again and went away, cutting down his lead only too decisively, the Indian faltered and finally stopped. He had set out to break up his field--but neither Holmer nor Kolehmainen was to be taken along at a pace which they knew would crack them, and so the Indian only beat himself.

A BOXING FIASCO An English Paper Refers to the Storbeck-Moran Bout

Many lessons may be learned from the contest in England between Fred Storbeck (South Africa) and Frank Moran (United States). First of all the bout was quite unpretty because of the crudeness of the two exponents, who did little beyond punch in unsullied fashion. Moreover there was a distinct suspicion that the South was a distinct favorite at the points when disqualified, went to the floor of the ring twice without being hit. This sort of thing, suggestive of cowardice, is not forgivable, but the two boxers were so clumsy of movement that it may be Storbeck's seeming miscademancy was merely the consequence of inability to move rapidly and retain his equilibrium. On one occasion, however, when, from a crouching position, he merely bent his knees and placed his gloves upon the floor, Storbeck might have been disqualified without any undue harshness on the part of the referee. The striking of the blows after the ringing of the bell at the end of the seventh round was due to two things--Storbeck's eagerness to win and the Christmas-tide nature of the bout. The Ring officials should learn the lesson of this fiasco and obtain a gong that can be heard above the murmur of excited onlookers--English Exchange.

COAL \$8.50 Per Ton, Delivered Lumber and Mouldings All Kinds of Building Supplies

THE DYMENT STRING Death of John Dymont Will Not Interfere With It

The lamented death of John Dymont will not interfere with the continued interest of Messrs. Simon and Albert Dymont in their breeding and racing ventures. They have at Brookdale a band of highly-bred broodmares, and the stallions Red Fox and Tongador. The latter is the good Order horse that won so many high-class races for the orange and green, while Red Fox is a son of the mighty Flying Fox, and the only one on this continent. He is a picture of a horse, and, though he came out here with the reputation of possessing a bad temper, he is now an animal of admirable disposition, and anybody can handle him without difficulty. In the Argentine Republic, where he was bred, two sons of Flying Fox, which cost their owners \$150,000 and \$140,000 respectively, have been most successful sires. The horses in training at Brookdale include two slashing King's Flaturs, Heresy, by Sain, and Tropeolum, by Nasturtium.

LEARNING TO SKI The Duke of Connaught Takes Interest in the Pastime

H. R. H. the Duke of Connaught has spent most of his spare time of late learning to ski. Almost every afternoon sees him on the hills of Rockcliffe Park, accompanied at first by two aides, one on each side, and later, as he became more proficient, with only the Princess Patricia, who became an adept at the sport in Europe. The latest exploit of the Princess Patricia is to ski down the ice-belt toboggan slides at Rideau Hall without falling. It is a proof of her courage and perseverance that it was only after four unsuccessful efforts and a stiff neck that she finally achieved the descent safely.

LECTURED ON HYDRO ELECTRIC

Mr. Graham Kearney Delivered an Interesting Explanation of the Features of the Hydro Electric System to Presbyterian Club.

An interesting illustrated lecture on hydro electric systems was given in the Presbyterian Hall on Fourth avenue last night by Mr. Graham Kearney, whose professional training and experience specially qualifies him for dealing with the subject. A considerable number of those citizens interested in the proposition, which is again to bulk largely in Prince Rupert prospects shortly, attended and heard the lecture with interest. Sixty splendid photographic illustrations of the lecture subject were thrown on the screen by means of the radiopticon, which is proving itself a valuable property of the Presbyterian Club. Rev. F. W. Kerr is to be congratulated on arranging for these up-to-date subjects at the club gatherings.

WEDDING WENT OFF GAILY

Mr. and Mrs. Ed. J. Waterman Warmly Congratulated.

Last night the wedding of Miss Zelia La Velle to Mr. Ed. J. Waterman of this city was solemnized duly by Rev. Father Donnelly, the famous evangelistic orator of the Roman Catholic Church in England. By a coincidence the Rev. Father's address the same evening in the Roman Catholic Church dealt with matrimony. The wedding was a quiet dignified little ceremony, followed by a supper in the Royal Hotel. The bride, who was assisted by her sister, Mrs. Clyde Rogers, looked handsome and happy, and the bridegroom made good in the important role, supported by Mr. Clyde Rogers. The wedding took place in the Rogers residence on Second avenue. Many useful and costly gifts were bestowed with cordial congratulations on the young couple, who have taken up residence in the Alder block.

Don't Forget—What?

The Daffodil lunch to be served by the ladies in church hall of St. Andrew's, today, 11th inst., between the hours of 12 noon and 2 p. m. Will be a specially attractive feature, both from a social and substantial point of view. Business men who decide to help the success of the plan by having lunch there instead of at their usual rendezvous will find prompt and satisfactory service. Epicureans who like a good lunch prettily served will be entirely satisfied. Ladies who like to meet each other under pleasing auspices will certainly be attracted. Don't forget, then, the Daffodil lunch.

Best meal in town at Savoy.

STORE CLOSED AT SIMPSON

Hudson Bay Manager Now Arranging for Distribution of Stock at Port Simpson Among Other Posts of Company.

J. C. Boyd, manager of the Hudson's Bay store at Hazelton, has gone to Simpson to arrange for the distribution among the Hudson's Bay Company posts of the stock of the Port Simpson store, which is to be discontinued. The steamer Port Simpson will carry a full cargo of goods up the Skeena as soon as navigation opens, and is expected to remain on the river during the early part of the season at least.

It is probable the boat will make one or two trips on the Stikine during the summer to carry hunting parties to the big game country on the headwaters of that river. She will connect at Wrangell with the coast steamers and go as far up the Stikine as Telegraph Creek, a distance of 160 miles.

LEADING ATLIN MINING MEN

Several of the Best Known Among Atlin's Old Timer Miners Pay a Visit to Mr. Frank H. Mobley.

On their way north to Atlin yesterday afternoon there visited Mr. Frank H. Mobley a regular delegation of Atlin old timers, mining men of note in the north-west. J. M. Ruffner, manager of the Northern Columbia Gold Mining Company, was one of them, and with him was T. M. Dalton, manager of the Placer Gold Mines. Accompanying these two members of the party were some eight or ten of the mine foremen, all well known in mining circles, and old friends of Mr. Mobley's. A cheery little re-union took place, the boys on the way north responding heartily to the welcome of Prince Rupert as extended to them by Mr. Mobley. They were beyond measure impressed by the enormous development of the city since their visit here on the way south. Active mining operations will be prosecuted in Atlin this season as before.

GREAT TRADE BOND VISION

Mon. George Foster in Great Speech at West Indies Commission Dinner Foresees Imperial Commercial Units.

Toronto, April 11.—Speaking last night at a dinner tendered to the West Indies commissioners by business men of the city, lion, George Foster said this treaty is only the beginning of a wider trade union for the Dominion. There is no reason why Canada and Australia should not reach a similar agreement. Then in a few years it will be possible to bind together a great sisterhood ready to march with the mother country secure on an imperial bond of commercial unity throughout the empire. The session of trade conference today passed a resolution urging imperial aid for cable and steamship services between Canada and the West Indies.

NEW UTILITY PLAN

Goal to Be Converted Into Power Underground.

(Special to Daily News.)

New York, April 8.—A proposal which if adopted would revolutionize the coal mining business of the world has been launched by Sir William Ramsay, the noted English scientist. He suggests that much of the expense of coal mining and handling might be avoided if the coal were turned into gas in retorts in the bowels of the earth. The gas thus generated could either be distributed by pipe lines or used at the pit head for producing electricity, which could be distributed from there.

All Adjourned.

Today's police court, owing to the difficulty in getting evidence out of Indian witnesses through an interpreter, dealt with but one case and that ended in adjournment. The case was the famous submarine blind pig, in which three Indians are charged. None of them knew how a case of liquor had got aboard their boat.

TO RAISE RATTLESNAKES

Oil and Skins Will Be Products of the Proposed Farm.

One hundred rattlesnakes from the Schaghticoke hills in Connecticut are to be brought to Lenox, Mass., by a syndicate of Connecticut farmers to start a twelve acre rattlesnake farm, land for which has been purchased. Rattlesnake oil is worth \$5 a pint and there is also a good return in the skins. The farmers expect to have at least 5,000 rattlers within the next few months.

Do you pay your bills? Could you pay them if you were burned out? Get a policy in the Commercial Union Fire Insurance Corporation. Assets \$111,000,000. The Mack Realty & Insurance Co., Agents. 1f
