EDITORIAL

Picking Up Some . . .

The Chamber of Commerce monthly meeting was interesting this week, more interesting than usual. A number of matters were brought forward for discussion and a good many people were started thinking along lines not noticed before. Evidently the Chamber of Commerce dinners are looking up and should improve as the winter goes on.

New School Reports . . .

Evidently there is a difference of opinion in regard to the new school reports. We have heard people say they are much better than the old ones and we have heard others say they do not like them a little bit. Others have used even stronger language in expressing themselves. We suggest that they should not be condemned because they are new and different but if there is no value in them after they have been used a while, then a strong protest should be made against their use. Because they are new does not mean that they are better or worse.

Divided Opinions . . .

We are not trying to start an argument but several incidents recently have drawn attention to the fact that we are all differently constituted, we think differently, react differently and live differently. Our likes and dislikes are as far apart as the poles. Take the matter of reading. One person likes detective stories and will read little else. Others get a thrill from the comics in the newspapers. There are those who read only philosophical literature, who read in Carle, who feed on Ruskin and who browse lightly with Thoreau. A few prefer the lighter classics. Then there are the busier minds that are attracted by sensational literature and the few who go even lower and will read nothing decent. We have all these people in the world and more. If we cannot agree on such a thing as the literature we read, we must certainly will not agree on the many other phases of life. Tolerance is the great virtue but even tolerance can be overcome.

Defence Of Alaska . . .

Says the Victoria Times: "Alaska's sparse population has caused the architects of United States defence considerable apprehension ever since totalitarianism began to redraw the map of the world and carve up the spheres of influence the men of Berlin, Rome and Tokyo consider essential to their particular international racket. This vast territory adjoining British Columbia has attracted so few settlers that many Americans have feared it might fall an easy prey to a would-be invader. "Population figures, however, have been studied recently and the authorities in Washington are noting with some satisfaction—if not with noisy jubilation—that a recent compilation shows a total of 71,511 compared with 52,278 ten years ago. This is growth at the rate of 21.1 per cent—a rate exceeded during the same period only by Florida and New Mexico. The military population is now growing still faster, of course, and that always draws a certain amount of civilians to supply the army posts, so greater growth is definitely in sight. But, says one commentator, "it is still a pitifully small body of people to hold this vast territory on the direct 'invasion airline' from Asia." Would not a highway through British Columbia help Alaska to grow?"

HALIBUT OPERATORS OF PR. RUPERT OFFER VIEWS

(Continued from Page One)

fishermen—which would formulate curtailment plans. If these boards were not able to agree among themselves, then the Commission would go ahead with a plan, treating dissentient parts by a system of time curtailment only. After explaining the details of the Commission's plan, Mr. Patmore invited discussion from the meeting.

Local Views

George Anderson, representing the Deep Sea Fishermen's Union, announced the opposition of that organization to the Commission taking hold of the curtailment administration. There had been, he said, a considerable amount of antagonism between the large American fleet and the local Canadian fleet. If the Commission took over curtailment function, one group might get a better deal than the other. Also the power of bargaining would be removed from the boat owners and the fishermen.

Capt. Ole Stegavik, representing the Canadian Halibut Vessel Owners' Association, concurred in what had been said by Mr. Anderson. The boat owners had changed their minds since they had asked the Commission to take over curtailment administration. Marketing control legislation had now been constitutionally established and that had made a difference. Capt. Stegavik stated that earnings of the halibut fleet were now estimated at from \$900 to \$1000 for the boats operating in Area No. 2 and \$1400 to \$1800 for the larger vessels operating in Area No. 3. If the length of the season were stretched out, these earnings would not be increased and the possibility of making something in the fall by black cod fishing or packing would be removed.

The longer the season was stretched out, Mr. Anderson believed, the more part time boats there would be in the fishery. It had been at first thought better prices would be obtained by a longer fishing period and the stretching of the landings but this had not proven to be the case since the dealers merely adjusted their holdings, and paid no higher prices.

It was generally admitted that the curtailment plan was of benefit in tending to prevent market glut and stabilize prices.

Mr. Whitmore pointed out that Seattle, Ketchikan and Petersburg at present did not have the force of law behind their curtailment plans such as the Canadian fleet had by reason of marketing legislation.

Opposed to Surrender
G. W. Nickerson was opposed to the Commission being invested with

any power to institute curtailment measures. It should not be permitted to do anything more than administer a control plan which might be drawn up by the boat owners and fishermen. There was too much power vested in the hand of commissions already. Mr. Nickerson declared that halibut had never been more plentiful or easier to get than they had been in the last year or two. This operated to the advantage of the part time fishermen and to the disadvantage of the regular fleets which were held down by the quotas. Something should be done to limit the boats which engaged in part time halibut fishing such as delaying the opening of the season to May 1.

Then arose a discussion as to the advantage which the larger American boats had over the smaller Canadian in being able to fish in both areas whereas the Canadians could fish in only one. This discrimination might be in a measure removed by requiring boats to be licensed for a single area.

In the course of discussion of proposed new regulations for 1941 after the local boat owners and fishermen had presented their recommendation that the quotas be increased, Mr. Patmore stated that, whereas 22,700,000 pounds had been set as the No. 2 Area quota for 1941, actually 27,158,000 pounds had been taken, some two million pounds of the average being due, it was believed, to poaching. There had been a falling off during the past couple of years in the catch per unit of gear and the fish egg trend was also flattening off. Signs pointed to the danger of over fishing in Area No. 2 and the Commission did not see that any increase in the quota could be justified.

First Mr. Stegavik and then Mr. Nickerson challenged scientific contention that the abundance of fish was falling off. This contention was

not in accordance with practical experience.

Mr. Nickerson became quite emphatic and rather critical as to the practical value of the scientific findings. It seemed that figures were lying.

Mr. Allen reminded Mr. Nickerson that time after time he had been invited to go over the records and figures of the International Fisheries Commission.

Mr. Daulton informed the meeting that it had been found that the catch of halibut per skate of year, the production of eggs and the measurement of length of fish were diminishing during the last year or so. Particularly, Area No. 2, it was felt, could not stand any increase in fishing.

War Work Is Being Done

The regular monthly meeting of Municipal Chapter, Imperial Daughters of the Empire, was held on Monday evening at the home of Mrs. C. A. Brind, with the regent, Mrs. H. L. Landry, in the chair.

Reports showed that, although all chapters are devoting a great deal of time to war work, they will provide clothing and gifts as usual for several isolated schools as well as their local Christmas cheer.

The convener of war work reported that the November shipment of comforts for all services included forty-one pairs of socks, twenty-eight sweaters, fifteen scarves, one hundred and five helmets, nineteen pairs of mittens, and six dozen handkerchiefs. There were also eleven pairs of pyjamas, eleven pairs of boys' stockings and a quilt for evacuees in Britain.

It is planned to send a small remembrance to local men who are in the Navy or overseas with the Canadian Active Service Force at Christmas time.

WAR SAVINGS

COMMITTEE

An Urgent Message

To Every Employer

It is imperative that \$10,000,000 every month be saved from the pay envelopes of wage and salary earners — and invested in War Savings Certificates.

At present, the splendid co-operation of many firms and individuals is resulting in an investment of about \$2,500,000 a month in War Savings Certificates. But with the present course of the war this is not enough — heavier demands for more production require the increased objective of \$10,000,000 a month.

To secure this amount, EVERY employee in Canada must save, and EVERY employer in Canada must encourage his employees to save. This not only applies to those who are sharing in the \$35,000,000 monthly addition to payroll earnings which has resulted from increased business activity during the first year of the war, but to every wage and salary earner in Canada there comes the "Call to Sacrifice".

Some employers are alive to this fact. Many of them are not. Or, if they have the War Savings Plan in operation in their plant or office, their employees are not in it 100%, or are saving in such small amounts as to make it impossible to reach the increased objective of \$10,000,000 each month. This condition must be changed immediately, as only an all-out 100% effort from both employers and employees will do the job required.

This 100% participation must be Canada's answer to Germany, where coercion is used to secure money. We must show the enemy, and show him NOW, that we can do voluntarily what he is doing by coercion.

Why The Help of Every Employer Is Needed

FIRST — Because Canada is at war — a war for survival as a nation. To carry on this war requires a tremendous production of the sinews of war.

SECOND — Because we must not allow our productive capacity to be diverted from our war effort by unnecessary spending.

THIRD — Because to the greatest possible extent, employees must be protected against upsetting post-war readjustments.

Remember, War Savings NOW, will provide a vast backlog of purchasing power for ordinary commodities when the inevitable period of post-war readjustment arrives.

To the extent that savings from pay envelopes are mobilized, there will be a curb upon inflation. If employees spend all of their earnings as fast as they get them, there will be rising prices, inflation and the evils that follow.

How Employers Can Help

Experience shows that the easiest and most convenient way for your employees to save is by a War Savings Payroll Plan. We ask you as an employer — whether you have 5 employees or 25,000 — to instal such a Payroll Plan; and to see that it is carried out effectively for the duration of the war.

So that employees will understand the need for saving we shall send you at intervals small bulletins to put in pay envelopes, and shall publish advertisements frequently in the press giving reasons for savings, telling where the money goes, and how savings vitally affect our war effort. Factory posters will be supplied at intervals. Honour Roll Certificates will be awarded for achieving 75% to 100% of participation by permanent employees. The necessity for regular saving will be constantly impressed upon every man, woman and child in the country.

You as an employer have a grave responsibility. The leadership in your organization must come from you. We count upon you to give this leadership. To get the plan working efficiently will, we know, involve more clerical work, but we must ask you to consider that as part of your contribution to the nation's war effort.

Nothing is more vital to the successful prosecution of Canada's war effort than the mobilization of the nation's savings. It is a gigantic task, but it must be done. We must not fail. And in the fulfillment of this task Canada is relying upon you to do your part.

W. H. SOMERVILLE and de GASPÉ BEAUBIEN, Joint National Chairmen, War Savings Committee, Ottawa.

To Every Employee

If we could sit down as man to man and talk about War Savings, we know that you as loyal men and women would strain every nerve to help us do what it is imperative to do to win this war.

Because, in these days you men and women who are the wage and salary earners are really in the "front line". And you are a mighty important part of that "front line" — as producers and savers.

You are striking Hitler as you carry on with your day-by-day work — keeping up vital production for both war and domestic requirements.

In addition, you fire a shot every time you put a dollar into War Savings Certificates. Because some of you don't quite understand the tremendous importance of this, we are talking it over with you — frankly.

Because to defeat our foes — and make no mistake about this — we simply must count upon the pay envelopes of Canada to produce an investment of \$10,000,000 a month in War Savings Certificates. At present, loyal employees in many firms are saving about \$2,500,000 a month in this manner. But this is not enough, as the course of the war is making heavier and heavier demands for the production of military, naval and air supplies and equipment.

The enemy is coercing his people to raise money. We must show the enemy that we can, and that we will, do more by a united voluntary effort than any people can do by coercion.

We can and we shall get \$10,000,000 a month if EVERYONE saves his or her share. There must be no shirking, no putting-off, no "letting George do it". If necessary, you must sacrifice in order to save, for therein lies the path of duty and honour.

Why You Should Save and Lend To Your Country

FIRST, because you are helping to build planes and ships — to furnish guns and ammunition.

SECOND, because you are building a cash reserve for yourself — for your family — for the "after the war" period.

THIRD, because every dollar you spend unnecessarily may take people and machines away from war production and thus help the enemy.

You may ask: "What about the big fellows, what are they doing? What are you getting from them?" Be assured that the government is going after the big money, and getting it. Employers, executives, and wealthy people will tell you that. But, in addition to the big money, you wage and salary earners must lend Canada \$10,000,000 every month.

To buy 25c War Savings Stamps is good; they have their place. Sixteen of these buy a War Savings Certificate. But employees must save in dollars. Stamps alone will not bring \$10,000,000 a month.

No one need go without actual necessities to save, but we urge you not to buy things which compete for labour and materials with war production.

Save Every Dollar You Can—Lend It To Canada

There's that other vital reason for saving. When this war ends, there will be a period of readjustment. Men who now have good jobs may suddenly find themselves out of work or on short time. Let us hope not. But if you have a substantial sum in War Savings Certificates (accumulated while the war is on), you will be able to "stand the gaff" when industry is changing from a war to a peace time basis. You will be eternally glad THEN that you have saved money NOW.

We have sent to every employer the message you see alongside. When your employer asks you to start saving, or to increase your present savings, co-operate with him.

The following table represents an average basis of saving for a group of employees. These figures are only illustrative, of course, as the amount of saving which is possible will vary according to each individual's family and other economic circumstances.

EARNINGS PER WEEK	SAVINGS PER WEEK	WAR SAVINGS CERTIFICATES PURCHASED PER YEAR
up to \$20	up to \$1.00	\$15 to \$65
over \$20 to \$30	\$1.25 to \$2.00	\$80 to \$130
over \$30 to \$40	\$2.25 to \$3.50	\$145 to \$225
over \$40	\$3.75 to \$9.25	\$245 to \$600*

Men and women, you have a grave responsibility. These are indeed critical times, but Canada has confidence in you. We believe that you, as loyal and courageous citizens, will face the facts. We urge you to save your money and buy War Savings Certificates to see our country through to victory.

WAR SAVINGS CERTIFICATES

- Provide a safe investment — a direct obligation of the Dominion of Canada.
- Provide a good return — your investment increases by 25% by maturity.
- Are sold in convenient denominations: \$5 for \$4, \$10 for \$8, \$25 for \$20, \$50 for \$40, \$100 for \$80.

BOWLING RESULTS

Savoy Still Leading Ladies' League
With Big Sisters In Second
Place

Savoy Swingers are still tops in
the Ladies' Bowling League stand-
ing, having won two games to one
over Annette's in last night's play.
Big Sisters moved into exclusive
possession of second place by win-
ning a clean sweep three games to
nil victory over Stylettes while
Rangers got into third place by
scoring a clean sweep over Lucky
Strikes. In the fourth fixture of
the evening Knox Hotel took the
measure of Blue Birds two games
to one and is tied with Rangers
for third place.

Rose LeBelle was high average
scorer with 239.
