TOKYO—Domei News Agency, in a special article today, urged the Axis powers to terminate the war with Russia so as to conserve German resources in manpower and equipment for an all-out assault upon Britain. Domei warned that the war with Russia, if extended, might leave the Axis powers faced with a dearth of materials. LETTER IN FACSIMILE

Interesting Missive Received by Mr. and Mrs. Christison From Their Son in Navy.

What is believed to be the first airgraph letter to be received in Prince Rupert has come to Mr. and Mrs. W. D. Christison from their son, Gun Layer Douglas Christison, who is serving in the navy aboard an armed freighter of the Harrison Line operating out of Cardiff. While, in compliance with censorship regulations, the point where the letter was written is not given, it was evidently at sea probably between England and the Far East for Doug is known to have been serving on vessels in Mediterranean, Red Sea and waters beyond for the past twenty-one months except for one which he spent in England. His ship is believed to have been involved in a bombing or some enemy attack around the end of August for a cablegram was received about then, announcing that he was safe and well.

Airgraph is a new air mail facsimile process whereby the original letter is photographed and the picture transmitted by air, being reproduced in facsimile for delivery.

The letter says in part: "Just a short note to let you know everything is going fine with us. It is quite warm here so get a fair amount of swimming. Please give my best regards to all my friends."

Merciful Judge—

TEMPERING OF JUSTICE HIS MOTTO

"Bill Of Rights" Was Inspiration Of Louis Brandeis—First Jew On Supreme Court

WASHINGTON, D. C., October 8: (AP)—The "bill of rights," embraced in the first ten amendments to the constitution, bulked large in the reasoning of Louis Dembitz Brandeis, now dead, throughout the 24 years in which he served as an associate justice of the supreme court in the United States. Designed by their framers to make clear the extent to which individuals should be safeguarded under the constitution, the ten articles found a consistent defender in the liberal-minded justice and he frequently turned to them for interpretations on the constitutionality of laws wherein the rights of property seemed to clash with human rights.

From the start of his supreme court service in 1916 he found a sympathetic soul in his old friend Oliver Wendell Holmes and he frequently joined with "the great dissenter" in minority opinions. The retirement of Holmes left Brandeis as the oldest member of the court.

The appointment of Benjamin N. Cardozo brought into being a new "liberal wing" of Brandeis, Cardozo and Harlan F. Stone and they formed a consistent "bloc" in upholding most of the New Deal acts which came before the court from 1933 onward.

They joined unanimous decisions against the NRA (national industrial recovery act), the Frazier-Lemke farm mortgage moratorium, the building and loan conversion act, the processing tax refund and the power of the President to remove a federal trade commissioner. They joined the majority in upholding the right of the federal government to sell power through the Tennessee Valley Authority, and in the "gold clause" ruling, both New Deal victories.

The trio dissented from decisions which invalidated the agricultural adjustment act, the Guffey coal act, the railroad retirement law and the municipal bankruptcy statute.

Paymaster Lieut. Commander P. M. Ray, R.C.N.V.R., leaves this Saturday night for Vancouver to which city he has been transferred in naval service. His successor here, Paymaster Lieut. A. J. H. HEADWAY BY NAZIS

Berlin Claims To Be Sweeping Forward Unchecked Into Russia

Nearing Moscow

Soviet Army Promises That Great Thrust Will Be Blunted.

LONDON, October 8:—Berlin reported last night that the drive into Russia from the south and centre was sweeping eastward unchecked. The town of Vyasma, 125 miles due west of Moscow, has been taken, indicating that the Nazis had advanced seventy miles since the commencement of the latest drive.

The German High Command claimed today that the great new German offensive had breached Russian defence lines on the road to Moscow and resulted in the encirclement of several Soviet armies.

The communique followed unofficial claims that the entire Russian south wing had been smashed by a German advance along the Sea of Azov.

The German High Command claims that the thrust to the Sea of Azov has cut off the retreat of the Russian ninth army and that many Soviet divisions trying to withdraw toward Rostov face annihilation.

Moscow Statement

Moscow admitted that the mightiest battle of the war raged toward a climax today on the road to Moscow where the Red Army was holding grimly against the fury of a tank and dive bomber offensive by which the Germans seek to reach the Soviet capital before winter.

The Russian Army newspaper Red Star asserted that the Nazi onset had won some initial advantage in wedges near Vyazma and Bryansk but that no sign of a major break-through had occurred. The paper declared that Russian artillery, mined tank traps and the Red Army's own huge tanks would blunt the Nazi thrust.

EDITORIAL

DAILY EDITION — WEDNESDAY, OCT. 8, 1941.

Nazi Offensive . . .

Germany has tried a number of all-out offensives against Russia. Those who listen to the radio will remember hearing that Odessa had been taken, that the Germans had entered Leningrad, that Murmansk had been captured by the invaders. Also at Smolensk the Russians were badly defeated, according to Berlin. In fact a couple of weeks ago the Russians were so badly beaten on all fronts that they could not recover. On each of these fronts the attacks failed to achieve their objectives.

Now the Germans are starting a new offensive. Also the Russian defenders have been strengthened and while we know little about the real condition at each point, there is little to indicate that the present offensive will be any more successful than were the others.

Labor in Australia . . .

Labor has captured the reins of power in Australia, but there probably will not be very much change in the policy of the country. The Laborites are pledged to an all-out support of the war and it is impossible to make any considerable policy changes while giving full support to the war. This will not be Australia's first experiene with a Labor government.

ELECTRIC RANGES

can always be trusted!

"Let ME do the worrying about ALL your meals," says Reddy Kilowatt. "You just plan 'em. I'LL cook 'em, and never miss a move. My action's automatic, you see: you just set the oven at the desired point and go about whatever else you wish to do. There's no need to peek or check up on me; you'll never find me loafing for I love good food and my biggest pride is to cook it right, with all the flavour and nourishment retained. Electric Cooking costs so little, too; just a few cents a day. And it keeps your kitchen cool and comfortable and ends the mess and risk of matches and open flames. Whifflets From The Waterfront

Having been delayed by fog on the voyage up the coast, C. N. R. steamer Prince George, did not arrive in port until 1:15 this afternoon from Vancouver, Powell River and Ocean Falls and will sail at 10 o'clock tonight for Ketchikan whence she will return here tomorrow night southbound.

Aboard the steamer Princess Louise, which was in port yesterday afternoon southbound from Skagway to Vancouver, were 178 passengers of whom twenty-seven disembarked here. Seven took passage from Prince Rupert for Vancouver.

Union steamer Catala, Capt. Ernest Sheppard, returned to port at 9 o'clock last night from Stewart and other northern points and sailed at 9:30 p.m. in continuation of her voyage to Vancouver and waypoints.

Bella Bella and Smith's Inlet areas will be closed to net salmon fishing this week-end, it is announced today at offices of the Department of Fisheries. This will mark the closure of all areas on the mainland part of the Prince Rupert district, leaving the north end of the Queen Charlotte Islands the only area in the whole district remaining open. The sum of chums is rapidly falling off and a number of seiners at the north end of the island abandoned fishing at the end of last week. Inverness, Prince Rupert and Namu canneries on the mainland and Pacofi and Lagoon Bay on the Queen Charlotte Islands are still in operation but the most if not all of these will be closing this week-end as far as salmon canning is concerned, it is expected. Prince Rupert has been running along lately on fish from Alaska.

PASSES AT KITWANGA

Mrs. Celina Williams, Chief in Her Own Right, Dies at Interior Village.

KITWANGA, Oct. 8:—Mrs. Celina Williams, wife of Amos Williams, died suddenly at her home early last Tuesday morning. She had been ill for two days with pneumonia.

Mrs. Williams was a chief of the Frog Crest in her own right, her tribal name being "Chief Ha-lo-ws." She was well known all along the Skeena River. Many friends are deeply grieved by her passing.

The funeral took place on Friday afternoon from St. Paul's Church. Many friends from various villages, including Skeena Crossing, came to attend the obsequies. There were many floral offerings and the casket was beautifully adorned. At the graveside a hymn "God Be With You Till We Meet Again" was sung. Pallbearers were Wallace Morgan and Robert Harris.

In the evening a feast was held by the Frog Crest in the village hall.

Mrs. Alice Sampare succeeds Mrs. Wililams in the chieftainship.

"We've got to deliver"

CONDUCTOR: "Working hard, Sam?"

ENGINEER: "You're telling me—but I guess we shouldn't complain—we've got safe jobs, and we're making good money."

CONDUCTOR: "That's right—and we don't have any bombs dropping on us. We've got lots to be thankful for, I guess."

ENGINEER: "It sort of puts it up to us to do all we can. It's our war and we've got to win . . . wish I could do more."

CONDUCTOR: "Well, one thing we can all do is to buy more War Savings Certificates. Money talks . . . you've heard that before . . . and in a modern war money fights."

ENGINEER: "That's little enough to do, isn't it . . . just lend our money . . . and for every $4.00 we invest in War Savings Certificates we get back $5.00."

CONDUCTOR: "Yes. I'm investing $20.00 in War Savings every month. At the end of seven and a half years I'll get back $25.00 every month. That'll be handy to have. We must all buy more War Savings Certificates . . . we've got to deliver."

The help of every Canadian is needed for Victory. In these days of war the thoughtless, selfish spender is a traitor to our war effort. A reduction in personal spending is now a vital necessity to relieve the pressure for goods, to enable more and more labour and materials to be diverted to winning the war. The all-out effort, which Canada must make, demands this self-denial of each of us.
