Atmosphere In Orient Explosive Russians Are Driving Germans Back Many Miles

Setback For Nazis—

RECAPTURE OF ROSTOV ANNOUNCED

Russians Getting Real Results in Counter-Offensive—Axis Planes Pound Cities From Air.

MOSCOW, Dec. 1.—After three days of fighting, Rostov-on-Don, important entry point to the Caucasus, has been recaptured by the Russians, it was announced by the Moscow High Command Sunday. Tegenrod is also recaptured, this indicating a forty-mile gain by the Russians in their counter-offensive. Four Nazi panzer divisions are in panic-stricken retreat after being smashed up 100 miles west of Rostov, with the Reds in hot pursuit, scooping up large supplies of abandoned war materials. Five thousand German dead have been left on the field.

Sixty miles east of Tula the Germans are reported to have been thrown back in their drive against Moscow. The enemy have suffered their first real setback in months with the Russians synchronizing their counter-attacks all along the front.

New daylight aerial attack have been made by the Germans on Moscow, Leningrad, Rostov and the Murmansk railway.

The Germans admitted abandonment of Rostov and Tegenrod as the oft-predicted Russian winter counter-offensive appeared to be fully under way.

Ten villages in the Moscow area have been recaptured, according to Moscow claims, and there have been new counter-thrusts around Leningrad.

The situation outside Moscow is still grave, the Russians admit, the Germans claiming new victories there.

SANITARY INSPECTOR

Alex Macdonald of Fire Department Appointed—Presentation Is Made.

Alex Macdonald, for years a member of the city fire department, has been appointed sanitary inspector for the city, it was announced this morning by City Commissioner D. J. Matheson. Mr. Macdonald assumed his new duties today.

At a gathering of the firemen in the Fire Hall on Saturday evening, Chief H. T. Lock, on behalf of the department, presented Mr. Macdonald with a handsome reading lamp as a token of esteem and well-wishing after his twenty-three years of service with the department.

Mr. Lock voiced suitable sentiments in making the presentation and Mr. Macdonald replied appreciatively.

Police Court Fines Higher

Almost \$2000 More Collected So Far This Year Than Last.

Police court fines in Prince Rupert for the present year to date have totalled \$8725.75 as compared with \$4985.55 in the first eleven months of 1940.

SHIP NEWS IS BANNED

Publication Or Broadcasting Of Marine Movements Prohibited In Cuba

HAVANA, Dec. 1.—The Cuban government yesterday forbid the publication or broadcast of news regarding the movement of merchantmen of belligerent countries so that they might not be exposed to the danger of attack by their enemies.

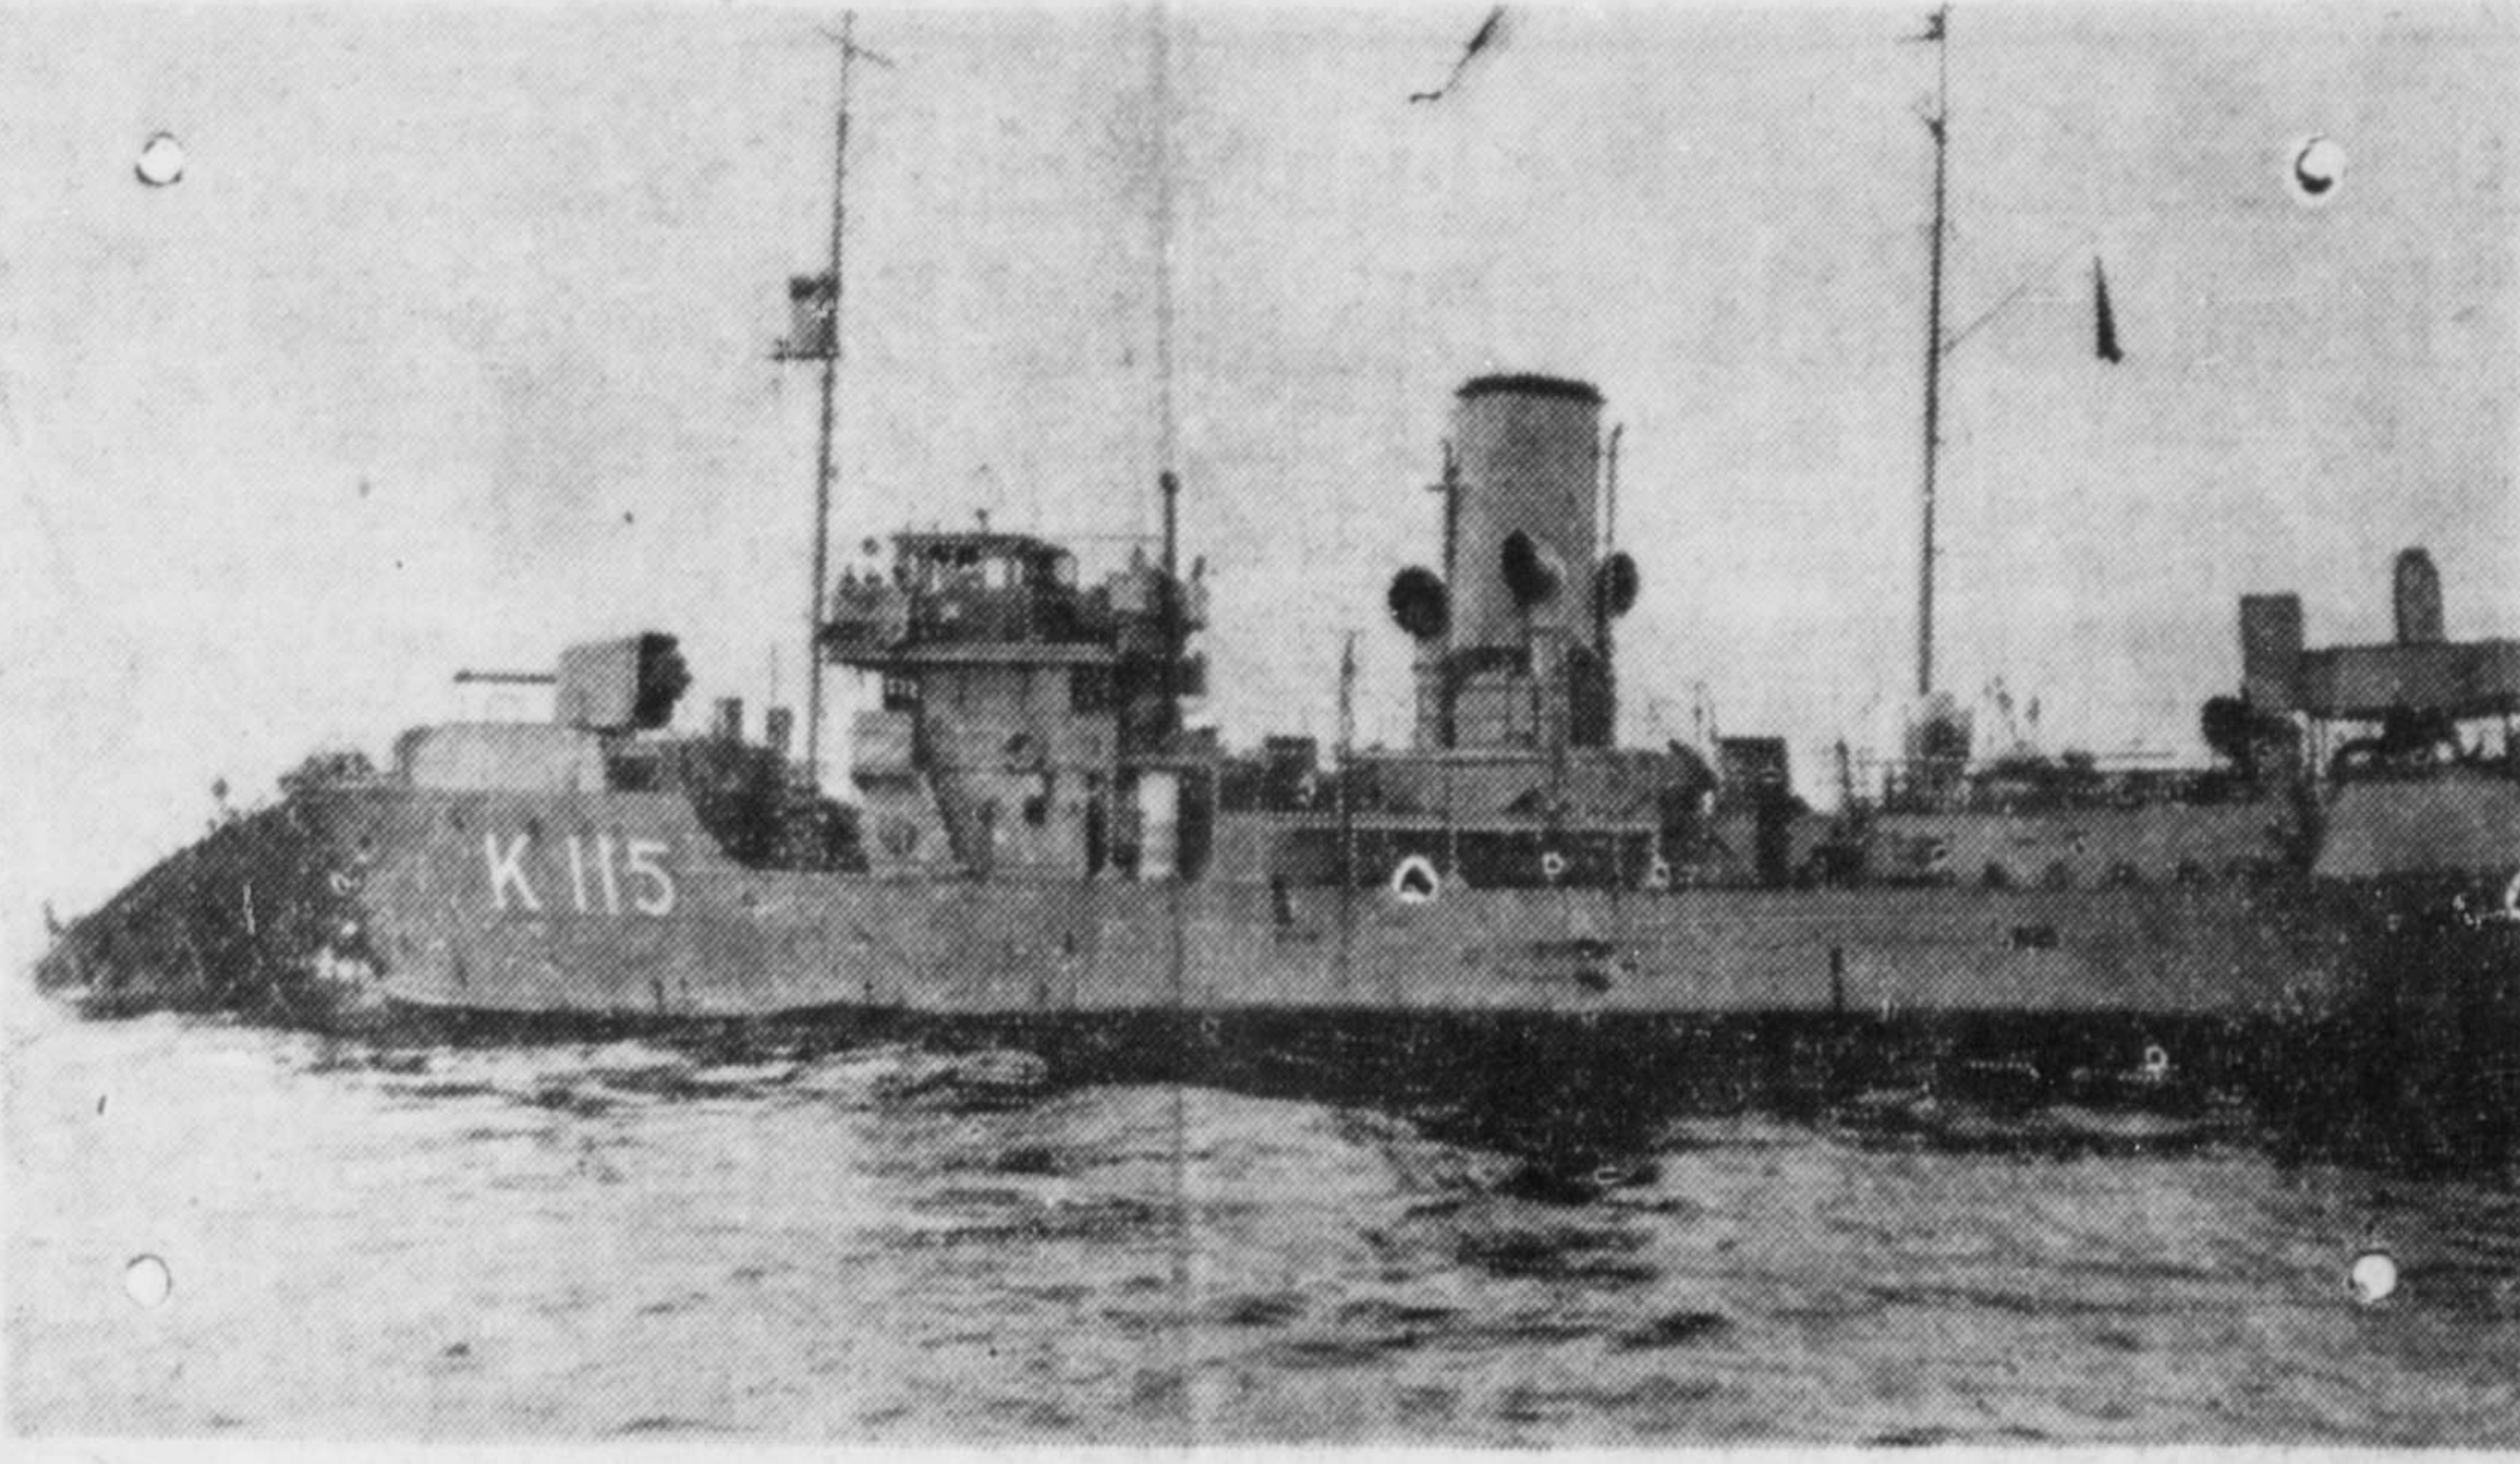

GREETINGS SHOWERED

Prime Minister Churchill Receives Congratulations From Many Quarters on Birthday.

LONDON, Dec. 1.—From all parts of the Empire and from the Allies in the war, congratulations showered Sunday upon Prime Minister Winston Churchill on attaining his sixty-seventh birthday. King George, exiled monarchs and cabinet ministers sent greetings.

From Dutch East Africa came the gift of £90,000 for a dozen heavy tanks. The fact of the birthday made no difference to the Prime Minister in carrying on work as usual. He spent Sunday at his country home near London preparing a speech on war production to be delivered to the House this week.

RESCUE OF TORPEDOED CORVETTE FAILS

A picture of H.M.C.S. Levis, left, showing her under tow after being torpedoed. This picture was made from another Canadian warship that went to the rescue of the Levis and took her in tow. The rescue attempt failed when the torpedoed corvette started to sink and had to be cut loose.

One of Local Triplets Dies

Condition of Mrs. Henry Friesen Reported Better Following Triple Birth.

The condition of Mrs. Henry Friesen, who gave birth to triplets in the Prince Rupert General Hospital last Thursday night, is reported to be much improved. One of the two girls babies died on Saturday. The other two are still doing well.

Sunk In North Atlantic

NEW YORK, Dec. 1.—It was announced this afternoon that the United States Maritime Commission steamer MacBath was missing in the North Atlantic and believed torpedoed.

Best Year For States' Farmers

WASHINGTON, D.C., Dec. 1.—Reports from the Department of Agriculture here indicate that this will be the best year for United States farmers since 1929 from the standpoint of production and income.

British Are Advancing In Libya

YIELDING TO NAZIS

Pétain and Darlan to Meet Hitler and Goering—Use of Bases Conceded?

BERLIN, Dec. 1.—Marshal Henri Philippe Pétain and Admiral Jean Darlan will confer with Marshal Herman Goering on Monday and it is thought possible that Chancellor Adolf Hitler may also be in attendance. It is reported that Vichy France has already conceded to the Axis use of bases in West Africa and Tunisia.

United States Solons Visit Great Britain

LONDON, Dec. 1.—Five prominent Republican congressional leaders from the United States have visited Prime Minister Winston Churchill. As a result of their visit, they express belief that understanding between Great Britain and United States will be improved. Every Briton is prepared to die in defence of country, they say, lauding the courage and determination to fight until final victory is won.

FORGETTING JERRY

LONDON, Dec. 1.—This city's tube population—people who regularly sleep in bunks in underground railways—averages 28,000 nightly now compared with 70,000 after the last big London raid, May 10.

More Fire Calls Being Recorded

Eight Alarms in November, Bringing Total for Year Up to Seventy.

There were eight fire alarms in Prince Rupert during the month of November this year as compared with ten in the corresponding month last year. This brings the total for 1941 to date up to seventy calls as compared with 46 in the first eleven months of 1941.

In only one of the calls this November was damage involved, this being when a woodshed at the residence of Bert Shepherd, 237 Eighth Avenue East, was destroyed on November 14. The loss estimated at \$60 was covered by insurance.

Provincial Constable M. R. Daffoe has been transferred from the Peace River to Prince George as police radio operator, succeeding Constable R. J. Meek who is joining the Royal Canadian Air Force.

Bulletins

ARRIVES WITH TROOPS MANILA—The American liner President Madison arrived here this afternoon with United States troops.

R.A.F. ACTIVE LONDON—The Royal Air Force staged heavy raids during the night on Hamburg, Emden, Bremerhaven and Kiel, doing much damage. The raids cost the British twenty planes.

British Advance—STEADILY MOVE ON IN LIBYA

Have Swept Along to Point Near Bengasi in Westward Drive, Further Encircling Nazis.

CAIRO, Dec. 1.—British forces have swept far along the Libyan coast to the west and have now reached a point just below Bengasi, important port for the entry of Axis forces and supplies to North Africa. A German column was intercepted and put out of action. This is a further move of encirclement of the enemy in Libya. Heavy battle continues as the Axis forces endeavour to fight their way out and escape entrapment south and west of Tobruk.

Three Axis divisions have been hurled back by British and New Zealand force as they staged their assault to extricate themselves from a trap and the British endeavour to finally annihilate the enemy tank forces in Libya. One general, ten officers and 600 Germans in a spearhead were captured.

SAYS BRITONS IDLE

LIVERPOOL, Dec. 1.—In face of invasion warnings "Britons are wasting time in idleness and arguments," declared J. Gibson Jarvie, regional port director of the northwestern area, in a speech here.

Train Disabled For War's Jobs

British Ministry of Labor Plans To Utilize All Available

LONDON, Dec. 1.—A far-reaching plan for training disabled people to fit them for useful jobs is announced by the Ministry of Labor and National Service. War service or air raid victims probably will receive preference at first but after the war the plan will be extended to cover all persons more than 16 years of age, disabled in road, industrial and factory accidents.

"Winning of the war demands the full use of all available labor," said a Ministry pamphlet outlining the scheme, "and disabled men and women can make a valuable contribution—in some cases by entering the munitions industries, in others by taking jobs which they can set other men and women free for war work."

Ministry officers will interview disabled persons while they are still in hospital so as to fit them into useful jobs or provide vocational training for them.

INDIA'S GIFT

BOMBAY, Dec. 1.—Bought from money subscribed through its war gifts fund, a squadron of 20 planes will be presented to the Indian Air Force by the province of Bombay.

OF NEUTRAL SWEDEN

STOCKHOLM, Dec. 1.—Sweden, surrounded by war but not in it, has lost two more freighters by "enemy action" one sunk off Holland and one in the Baltic. Eleven of the crew were lost.

WAR TO BE DECLARED

By Great Britain Against Finland, Rumania and Hungary As Allies Of Hitler

LONDON, Dec. 1.—The British government will shortly ask Parliament to authorize the formal declaration of war against Finland, Rumania and Hungary as active allies of Nazi Germany.

CONVENTION OF NATIVES

Important Assembly Is Convening Here Tomorrow—Military Service To Be Discussed.

Leading natives from villages for hundreds of miles in all directions from Prince Rupert are gathering in the city for the annual convention of the Native Brotherhood of British Columbia which opens tomorrow morning. Mornings and afternoons will be given over to business sessions of the convention with special events in the evenings. At the opening there will be addresses of welcome by City Commissioner D. J. Matheson and W. R. McAfee, president of the Prince Rupert Chamber of Commerce.

President Alfred Adams of Massey will be in the chair with H. D. Bailey performing his duties as secretary of the Brotherhood. Official delegates will number about thirty. The meetings will take place in the old Dominion Building at the corner of Second Avenue and Eighth Street.

Delegates will come from the Naas River on the north, Queen Charlotte Islands on the west, Alert Bay and Cape Mudge on the south, and Kispiox and Hazelton to the east as well as from intervening villages.

This, to use the words of one of the officials, will be a "crucial" convention. In addition to such matters as rights to land, military service in relation to the natives will be a special question to come up.

Worker Heroes Given Medals

Men Who Risked Lives in Starch Works Explosion Are Recognized.

GLASGOW, Dec. 1.—Two heroes of a mystery explosion which killed 18 people in a Glasgow starch works a year ago were awarded the Edward Medal, known as "The Workers' Victoria Cross." They are William Alexander Pullar and John Scott, who risked their lives in an attempt to rescue workers in the building and despite a raging fire entered the boiler room and stopped the machinery, preventing another explosion.

The explosion was attributed to "an accidental cause which could not be determined with certainty" and theories of sabotage and the possibility of a high explosive bomb having been dropped from a German plane were advanced at the inquest.

AUSSIES' HOT (?) DOGS

MELBOURNE, Dec. 1.—Sausage makers are working overtime to supply a big contract for 1,000 tons for India as well as a 32,000,000 (sausages not tons) order for Australian men overseas.

War With Japan—SITUATION IS SERIOUS IN PACIFIC

Roosevelt Returns Hurriedly To Washington To Consider Nippon's Reply

WASHINGTON, Dec. 1.—President Franklin D. Roosevelt cut short a Thanksgiving holiday visit to Warm Springs, Georgia, and returned to Washington Sunday night after receiving an urgent telephone message from Secretary of State Cordell Hull. It was said that relations between United States and Japan had taken a new and serious turn. Japan's formal reply to United States' demands in regard to the situation in the Orient had been made, it was said and would be presented at another United States-Japanese conference today.

The view appears to be general here, following latest developments, that war may be expected to break out in the Pacific within the next week or ten days. Latest reports from Bangkok say that Thailand, fearing invasion by Japan from French Indo-China, is prepared for the worst.

All leaves for the British forces at Singapore have been cancelled. With his return to Washington President Roosevelt takes personal charge of the Far Eastern crisis. The United States government is said to be preparing to take joint military action with Great Britain, China and Australia in the event of attack.

As Japan appeared to be making large scale preparations to attack Thailand, all United States citizens there were warned to be prepared to leave the country on a moment's notice. A large Japanese fleet was reported to be steaming south past Indo-China with large air and mechanized forces moving towards Thailand.

From Shanghai comes word that all Japanese war planes are being suddenly transferred from Hankow and Peiping to French Indo-China.

Premier Tojo of Japan yesterday, condemning the "scheming" British and American powers, warned United States and Great Britain to get out of Asia as Japan was prepared to move with a vengeance and was determined to carry out her plans in the Pacific.

Secretary of State Cordell Hull had a meeting with British Ambassador Lord Halifax to consider the Pacific situation and also met with advisers on Far East affairs.

HEAVY SNOW IS FALLING

Snow Plows Being Used to Keep Railway Track Clear—Wires Are Down Again Today.

Heavy, wet snow has been falling in the lower Skeena Valley since Friday noon last and on Saturday between Terrace and Salvas had reached a depth of two feet between Terrace and Salvas with the snow still falling. It was necessary to run the snow plow over to clear the railway track on Saturday and this had to be done again today. A snow plow was also operated between Smithers and Pacific yesterday on account of snow conditions.

Falling of trees with the weight of snow has also interfered with telegraphic communications and wires were down again this morning.

Prince Rupert is itself getting a taste of heavy wet snow this afternoon.

MONDAY, DEC. 1, 1941.

Native Visitors . . .

The annual convention of the Native Brotherhood of British Columbia to be held here commencing tomorrow is an important event and it is interesting to know that it is the first time the Brotherhood has met in Prince Rupert. We suggest that every possible consideration be given the members of the Brotherhood while in the city so that their visit may be as pleasant as possible and that the work of the convention be facilitated.

Collishaw Looks Ahead . . .

Nanaimo's own air commodore, Raymond Collishaw, told newspapermen in Winnipeg that "we are on the threshold of the air age—an age that will change the whole course of our lives," says the Victoria Colonist. This distinguished Canadian airman, whose experience and direction were important factors in the first Libyan campaign nearly a year ago, sees Canada playing a tremendously important role in the new state he envisions, not only because the establishment and development of the Empire Air Training Plan has already contributed toward making the whole Dominion air-minded, but also because again it has demonstrated, and will continue to demonstrate, the aptitude of Canadian youth for a life in the air. As in the first Great War, so in this, the boys from the Land of the Maple Leaf are proving their mettle in the realm of breath-taking aerial adventure.

When H. G. Wells wrote "The War in the Air" a short time after the Wright Brothers demonstrated down at Kittyhawk that a heavier-than-air machine could be made to fly, skeptics laughed loudly at the prospect of huge contraptions raining death-dealing missiles from the skies. One of the illustrations in that enthralling book depicted a biplane of weird proportion and design circling Trafalgar Square at a height which seemed only a comparatively few feet above Nelson's Column. There below the sinister monster were the National Gallery, Morley's famous hotel, and horse-buses traversing the stretch from Cockspur Street to the west end of the Strand. Yet early in the First Great War—then only a short decade distant—the doubting Thomases were given a taste of Zeppelin raids. These recalled another illustration in Wells' book showing a great aeronautical pack containing dozens of sausage-shaped monsters bearing the royal insignia of Imperial Germany. Zeppelin, too, was laughed at. So if Air Commodore Collishaw should suggest that Vancouver Island one day will be dotted with airfields for the accommodation of private planes—probably then as common as the ubiquitous automobile—who will dare to say now he is talking through his hat? Advocates of the retention of Ripple Rock as the base for a transgulf bridge, incidentally, may yet live to see the day when Wellsian imagination will again be put in the shade by hard-and-fast realities.

Last Best Hope of Earth . . .

A new book recommended by the Book of the Month Club, written by Harry Scherman, is a very interesting essay which summarizes the issues at stake in the present war. It points out that the population of the world had increased since the advent of the age of steam from six hundred and sixty millions to slightly over two billions. Most nations export goods that others need and which they do not need in their own country. Most nations are dependent on some other nation or nations for articles of food or some other commodity. The United States, for instance, has been dependent on imports of rubber from the East Indies and other nations have been dependent on oil from United States. Everywhere the world has become an economic whole. It is to control this economic unit that Germany is fighting. She announced a number of years ago that it was her aim. The idea that Germans are a master race, Scherman says, has amused men and women of other lands. The Nazi blueprint visualizes three great "geo-political empires" as they call them. The first would be their own, covering most of Europe, Asia and Africa. Great Britain, looked on before the war as a degenerate people who would never fight again, was to be a sort of willing subordinate partner such as Vichy France at this moment has become. The Italians were to have a sort of sub-empire covering southern Europe and North Africa. Japan is to control Asia and the Americas.

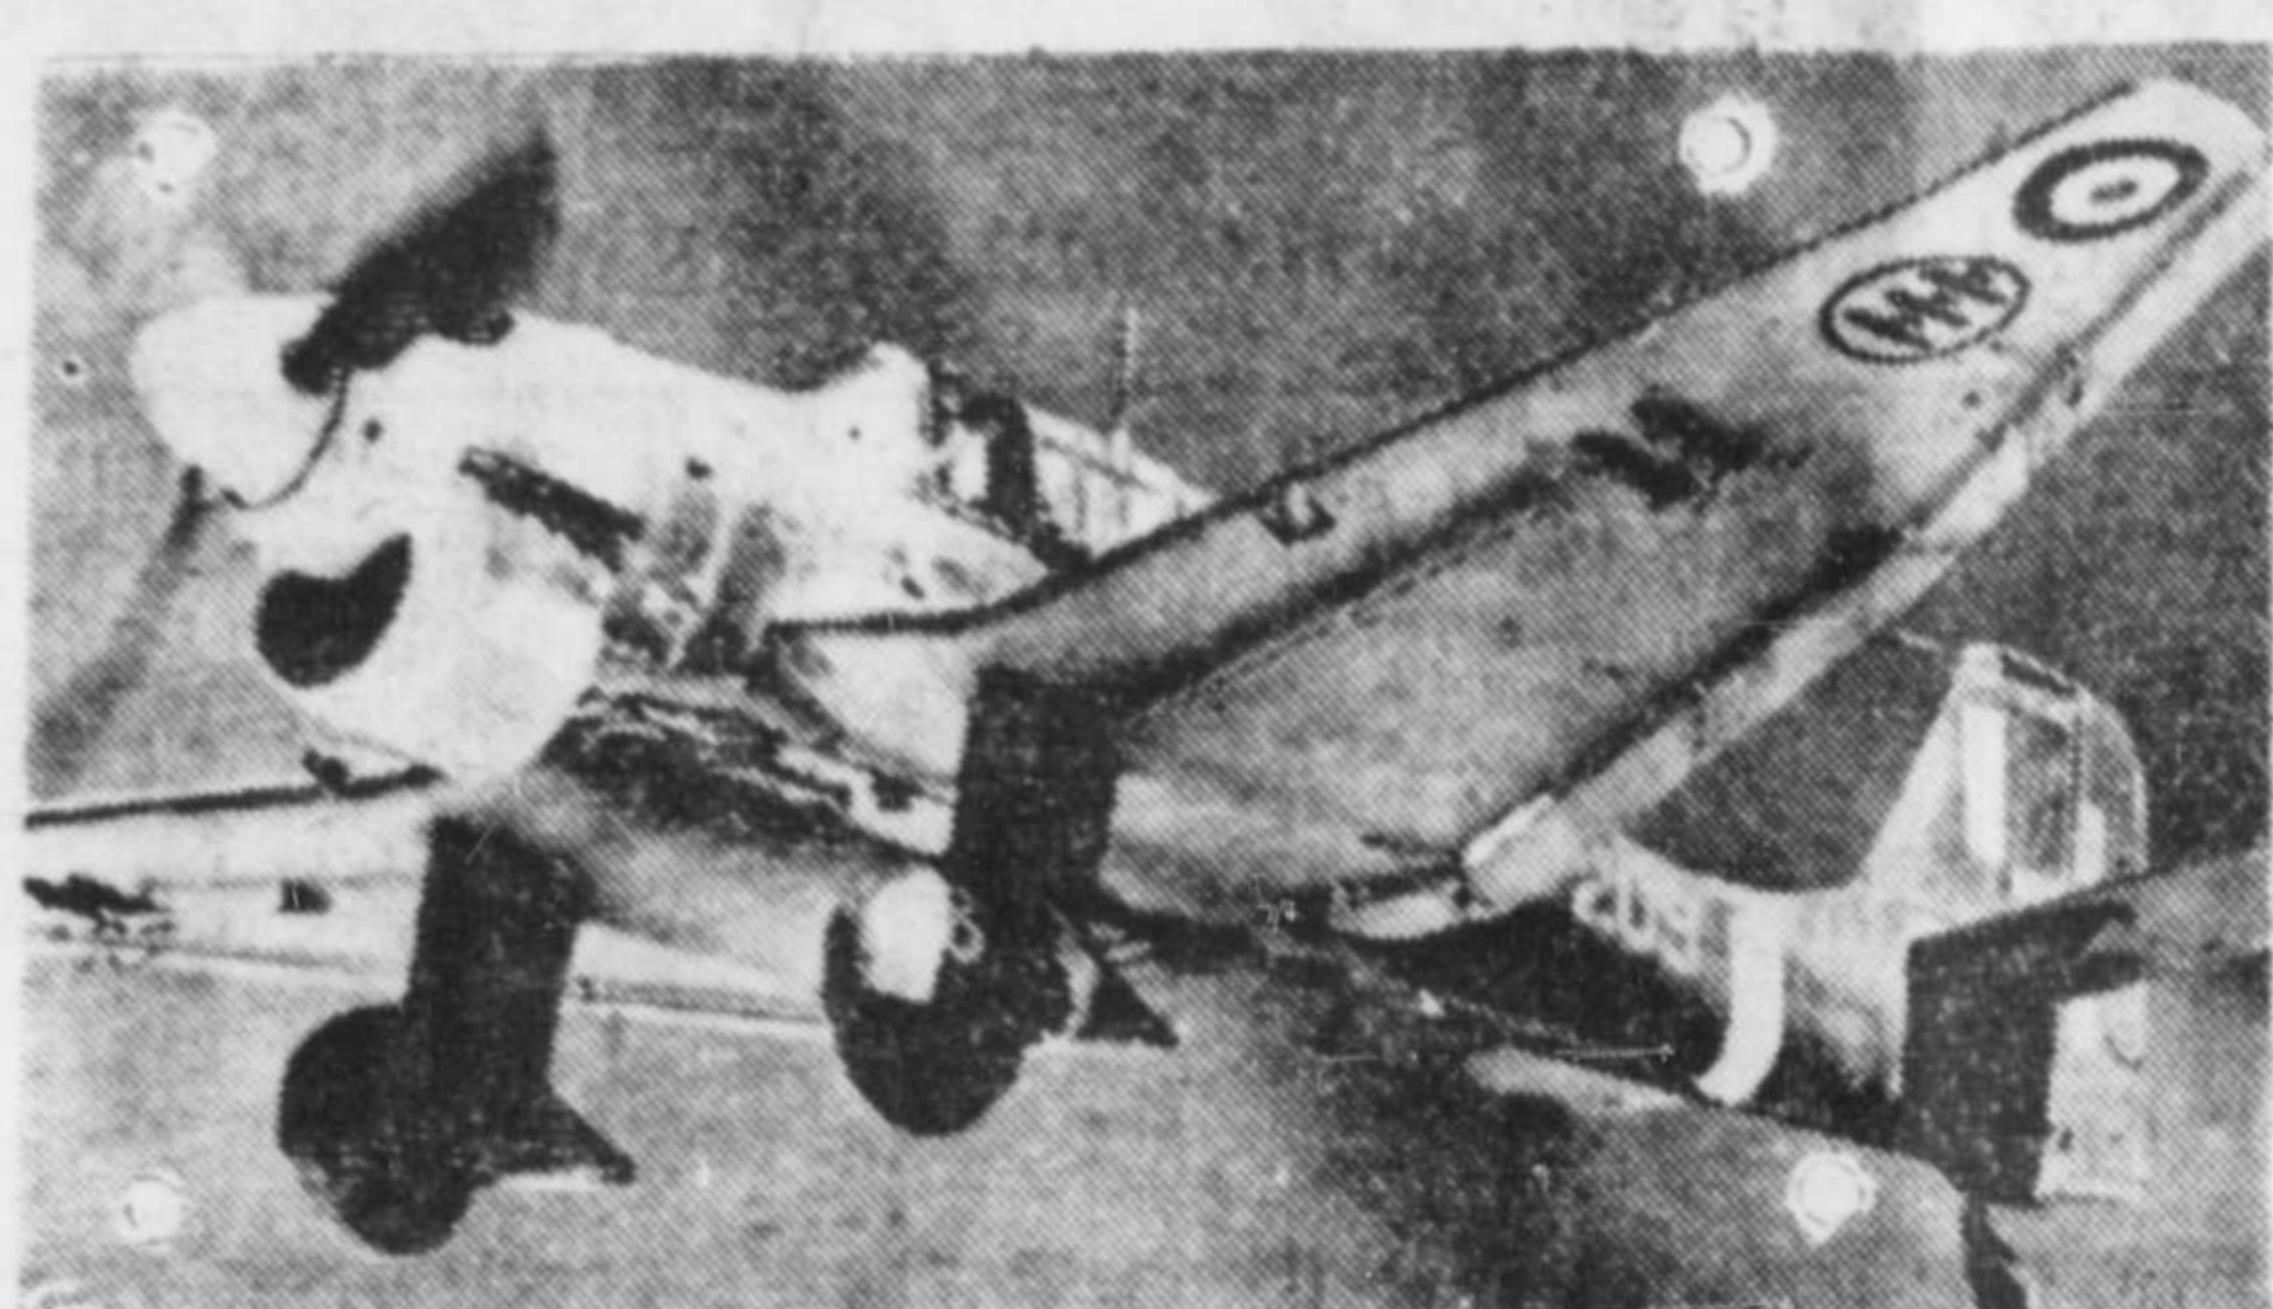

This war, then, is best understood as a war to defeat the insane effort of a single people numbering eighty million to be supreme for their special benefit in a unified world numbering over two billions.

The writer goes on to argue that the Germans cannot win such a war.

The basic notion that two billion people could be kept in subjection by force, Roosevelt had something like this in mind, doubtless, when he said: "We will not permit finally, the logic-mad Nazi idea that the technical means exist to achieve a world empire held in subjection by force. It ignores only one thing: two billion human beings."

One thing the writer seems to have forgotten is that only a few years ago the United States by means of mass production and high duties lived in luxury at the expense of neighbors who needed the goods she produced, a form of oppression that will have to cease, if there is to be anything like harmony after the war.

FROM ADOLF TO BENNY TO R.A.F.

This Stuka dive bomber bears insignia of the Italian Air Force and that of Britain's Royal Air Force. The German plane is one of a squadron given to Italy by Germany. The squadron ran out of gas over British-held territory in the Middle East and the planes fell into British hands. Some of them are now being flown by the R.A.F. The Italian insignia was permitted to remain on the wings.

Miss Manson Is Beautiful Bride

Daughter Of Judge Central Figure In Picturesque Wedding In Vancouver

A picturesque wedding took place at West Point Grey Presbyterian Church last week when Miss Katherine Marguerite Manson, daughter of Mr. Justice Manson of the Supreme Court and Mrs. Manson, became the bride of Godfrey Noel Harrison, son of Mrs. Harrison and the late E. R. Harrison, Rev. James Evans officiating.

The bride looked very beautiful in classically molded and shirred gown with long train and carrying anemone mums and pink roses.

A single attendant, the bride's younger sister, Miss Marion Manson, preceded her up the aisle. Her frock was a bouffant model of starlight blue organza and her bouquet was pale pink and white daisies with pink roses. Peter Crickman stood as groomsman and the ushers were George Parsons, Alex Manson and Lieut. Robert Hodge.

The guests were received in the Royal Vancouver Yacht Club. When the bride and her groom left she had changed to a dress and coat ensemble in blue-of-the-hills collared with mink. Her hat was the same shade trimmed with mink. They will make their home at Patricia Bay.

LOVE IN SALVAGE

LONDON, Dec. 1: (C)—Thirty five young women employees of a large London firm sacrificed their love letters for the waste paper salvage campaign.

Big Fish Special Dispatched East

Twenty-Three Carloads of Frozen and Mild Cured From Ketchikan Sent Out Today.

A heavy "fish special" consisting of twenty-three cars—eighteen of frozen and five of mild cured—was dispatched from Prince Rupert to the United States this morning, leaving at 9:10 a.m. The fish was brought in from Ketchikan yesterday by the Alaska Steamship Co. liners North Sea and Northland, both of which were in port.

FLY PLANES THEY BUILD

American Boys Trek To Canada To Join R. C. A. F.

WINNIPEG, Dec. 1: (C)—The son of a war buddy of Eddie Rick-enbacker, No. 1 United States flying ace during the First Great War, headed a group of six American youths who hitch-hiked to Winnipeg from Wichita, Kansas, to join the Royal Canadian Air Force. Bill (Lule) Lucas led the Americans who hitch-hiked to Winnipeg in a Cessna aircraft which flew here from Wichita to train fliers under the British Commonwealth Air Training Plan. Bill's dad flew with Rick-enbacker in the famous Lafayette squadron in the First Great War. "We've seen Mr. Rick-enbacker often," said Bill when interviewed here at the R.C.A.F. recruiting depot.

With Bill from Wichita came Roy Davis, Marvin Gregory, Robert Tate, Kent Herndon and Cliff Suhm. Their ages range from 19 to 22. All were engaged in aircraft work or study at Wichita.

"We're tired of building 'em we want to fly them," they said. Lucas was an assistant foreman in an aircraft factory, Gregory was taking an aircraft engineering course, Suhm has 250 flying hours to his credit, Tate and Herndon worked in a Beechcraft aircraft factory, and Davis was a navy torpedo operator. On the trip to Winnipeg Davis took over the controls of the Cessna machine for part of the way.

Asked why they wanted to join the R.C.A.F. Gregory said: "We wanted to get the jump on the kids back at Wichita. There's plenty more coming."

EXPANDING BIG MILL

Pacific Mills Is Spending Half a Million at Ocean Falls.

Pacific Mills Ltd. have been authorized to spend \$585,000 on a new expansion program at their plant in Ocean Falls. The investment will enable the company to increase production of sulphite pulp from 120 to 145 tons daily, and to boost the output of kraft paper from 140 to 165 tons daily.

CATAFIGHTER RESCUED

LONDON, Dec. 1: (C)—The pilot of a "catfighter"—fighter plane catapulted from a merchant ship to tackle raiding German bombers—spent four days in his dinghy in the Atlantic before being rescued by a corvette.

NOVEMBER VERY WET

Dampest Month Recorded So Far This Year in Prince Rupert.

November was the wettest month so far in 1941 with precipitation totalling 18.07 inches compared with 8.99 inches in the same month last year. There was sunshine to the amount of 39.5 hours this November, compared with 61.9 hours in November, 1940. So far this year precipitation has totalled 67.74 inches as against 77.92 inches in the first eleven months of 1940. The sunshine this year to date has aggregated 1085.9 hours as against 931 hours.

The weather summary for this November is as follows:

Maximum barometer reading at sea level, 30.362 on November 19.

Minimum barometer reading at sea level, 28.80 on November 13.

Maximum temperature, 57.5 on November 9.

Minimum temperature, 31 on November 22.

Mean temperature, 42.8.

Precipitation, 18.07 inches.

Sunshine, 39.5 hours.

Maximum wind velocity, 52 miles per hour from southeast, November 4.

Wife's Services

\$21,632—Life

Australian Figures It Out To Meet Woman's Challenge

SYDNEY, N.S.W., Dec. 1: (C)—When a Sydney Feminist Club officer declared that men would be astounded if they assessed their wives' economic value, one of the city's business men sat himself down and worked it out.

"The average New South Welshman marries at 27.7 years. The average marriage lasts until the man is 65. For 32 years his wife cooks, cleans and sews. At \$13 a week these services are worth \$21,632.

"But the wife does not pay for her board, lodging, entertainment or dances."

Canada's "R. B." Gave Her a Bike

Former Canadian Prime Minister Admired Girl Worker's Zeal

CARDIFF, Dec. 1: (C)—For two years Ada Williams, worker in a Royal Ordnance Factory in Wales, walked 10 miles and spent two hours in a bus going to and from her work. When on the morning shift she had to get up at 3 a.m. to arrive at work on time and in the winter trudged through the blackout despite rain and snow.

Viscount Bennett, former Canadian Prime Minister, heard her story when he visited the factory. A few days later he sent her a bicycle with a note expressing his "admiration for the fine job of work you are doing, which is a shining example to us all."

"I Like Pacific Milk"

"Rich, creamy, pure, fresh; full of the nourishment essential to childhood; a bone and teeth builder; excellent for tea, coffee, puddings, ice cream, candy; and lovely for whipped cream.

"There are my reasons for preferring Pacific Milk."
—From the letter of Mrs. K. J.

PACIFIC MILK

Irradiated and Vacuum Packed

In service to the public—in acceptance by the housewife—in quality of product—in value to the user.

ON December 1st, 1916, two hundred Canadian dairy farmers first delivered milk to a Carnation condensery at Aylmer, Ontario. Today . . . every day now . . . over twenty-five hundred Canadian dairy farmers deliver milk to Carnation condenseries at Aylmer, Ontario, and Sherbrooke, Quebec . . . to meet the demand for Irradiated Carnation Milk for Canadian homes, for the Canadian Government, for the British Food Board.

Carnation—the evaporated milk that is used by more people in Canada and throughout the world than any other brand.

We are proud of that fact—and grateful for it. Since the first can of Carnation Milk was pro-

duced at Aylmer, Ontario, twenty-five years ago, much has happened in the evaporated milk industry—and in Carnation's own business.

Literally millions of Canadians have learned the quality, economy, usefulness of Carnation Milk.

That quality has been steadily improved!

The price of Carnation Milk through increased sales and plant efficiency, is about half what it was 25 years ago.

Carnation Milk is now irradiated for extra "sunshine" vitamin D—without any added cost to the consumer.

Irradiated Carnation Milk was the milk the Dionne Quintuplets were fed through many critical months.

Today, Irradiated Carnation Milk is the milk preferred by thousands of baby specialists and other doctors for infant feeding.

And it is, by far, the preferred evaporated milk for creaming coffee and cereals, for cooking, for drinking.

Thank you!

Carnation Milk is just pure, whole, cow's milk, evaporated to double richness, homogenized for creamy smoothness in every drop, sterilized for safe-keeping without refrigeration and for greater digestibility, irradiated for extra "sunshine" vitamin D. Won't you order two or three cans of this fine milk from your grocer, and try it?

Man in the Moon

Dad: "Now, son, what's this 55 for on your report card?" Son (hopefully): "Maybe it's the temperature of the schoolroom."

It's a pretty dull day when there is no battle won or lost these days.

Jake says he likes the battles won very much better than the battles lost, but he knows we are going to win the last battle.

Army recruits in England are now given an intelligence test. They have to do a sort of jigsaw puzzle - picking out the right pieces to complete a series of formal pictorial designs.

Twenty-five percent is the usual score; 50 percent is good. But the other day the army thought they'd discovered a superman. He scored 100 percent by completing all the designs correctly.

A special board was convened to investigate the "find." But they only needed to ask one question: "What was your occupation in civil life?" The reply was: "Wallpaper designer."

Golfer—"Dear, dear, I'm certainly not playing the game I used to play." Caddie (disgustedly) — "What game was that?"

The following dispatch is from Randolph Field, Texas: Among the 308 Aviation Cadets reporting to Randolph Field for 10 weeks of basic training is one Winston S. Churchill. Any similarity to any other Winston Churchill is purely coincidental.

A motorist was asked if he had tried a new atomizer which is said to halve petrol consumption.

"Rather," he replied. "It did all the makers claimed for it, and saved fifty percent of my petrol. I also bought a new carburetor which saved thirty percent, got another brand of petrol which saved twenty percent, and some special sparking plugs which save another ten percent.

"Then I took the car out for a test run, and I'm dashed if the petrol tank didn't overflow before I'd gone five miles.

LAST RITES ON SUNDAY

Many Attend Funeral of Late John A. Hinton From St. Andrew's Cathedral.

A large congregation of friends, desirous of paying their final tributes of esteem and respect, assembled at St. Andrew's Anglican Cathedral yesterday afternoon for the funeral of the late John A. Hinton, well known local business man.

Following the service in the Cathedral, interment was made in Fairview Cemetery. Pallbearers were Lieut. Col. S. D. Johnston, M.C., V.D., Capt. Robert Bartlett, Hubert Ward, R. E. Mortimer, G. P. Tinker and W. R. McAfee.

The Canadian Legion paraded in a body, its members being led by President Jack Preece. As the casket was lowered to the final resting place, Bugler William Rance sounded the "Last Post."

There were numerous floral offerings.

SPORT CHAT

Balmly Beach, standard-bearer for the Ontario Rugby Football Union, defeated Hamilton Tigers of the Big Four for the Eastern Canada championship at Toronto 11 years ago. The Beaches team went on to win the Canadian title with an 11-6 victory over Regina Roughriders.

E. Chistwell of Charleswood, near Winnipeg, in a letter to a Winnipeg newspaper, suggested a sure way of saving gasoline would be to cancel all privileged beer licences for private clubs and enforce liquor laws. He said: "This game (golf) has long since passed the disease stage and is fast becoming an epidemic. Revoke all these privileged beer licences for all time, as they are the main drawing card and the golf involved is merely a means to an end..."

NAZI VENGEANCE

LESS PORK WAS USED

Review of Bacon and Dairy Indus-
tries in Canada Show Effort
to Conserve.

By ALAN RANDAL
Canadian Press Staff Writer
OTTAWA, Dec. 1: ©—The Can-
adian hog, the Canadian farmer
who produced it and the layman
Canadian who didn't eat this hog
played an important part in the
Dominion's 1941 aid-to-Britain
program. In that same order their
part in 1942 is destined to be even
greater.

In 1941 this Dominion shipped
to the United Kingdom 425,000,000
pounds of bacon and hams. Now
it is engaged in another 12-
months' contract calling for 600-
000,000 pounds of pork products.
That is an order unheard of in
peacetime years and, like the 425-
000,000-pound program, it is go-
ing to be accomplished through
the co-operative efforts of hogs,
farmers and domestic consumers.
During the past year Canadians
were asked to eat less pork. Of-
ficials say they did. This volun-
tary restriction plus a ban on
shipment of Canadian pork to the
United States resulted in some-
thing like 2,000,000 pounds of pork
products a week which was divert-
ed to Britain. Thus Canada's com-
mitments were met. "This same
co-operation is going to be just as
necessary to ensure that we fulfil
our current contract," say Agri-
culture Department spokesmen.

Present indications are that
Britain will take all the pork prod-
ucts over and above the 600,000-
000 pounds contracted for that
Canada can provide. The hope of
Agriculture Department officials
is that consumer co-operation
which, with the efforts of produc-
ers made 1941 a triumphant year
on the bacon front, will be main-
tained. "The effort to provide
Britain with the bacon required in
1941 was a nip and tuck battle for
several months," department offi-
cers recalled.

The Case of Cheese
The same facts apply to Can-
ada's cheese-for-Britain program.
In 1941 Canadian farmers supplied
112,000,000 pounds of cheese to the
United Kingdom and in 1942 the
contract will be about 150,000,000
pounds.

To ensure that all possible sup-
plies were available for export the
Dairy Products Board made effec-
tive a regulation that the produc-
tion of Ontario and Quebec, the
major cheese producing provinces,
should be available for export.

Removal of this regulation in
November demonstrated that the
required amount for export was
in sight in spite of a difficult year.
Biggest problem of cheese pro-
duction was an early drought
which curtailed summer output in
the eastern provinces. At the end
of August cheese production had
increased only one per cent com-
pared with the same eight months
in 1940.

Restrictions made it impossible
for Canadians to enjoy their us-
ual quantities of home-produced
cheese but information reaching
agriculture authorities was that
Canadians generally welcomed an
opportunity to cut down cheese
and bacon consumption if it
would benefit the people of Brit-
ain.

The price paid by the British
food ministry plus bonuses for
grade from the Dominion, Ontario
and Quebec governments and a
one-cent-a-pound Dominion gov-
ernment bonus for export, brought
cheese prices to 20 cents a pound
for highest quality basis Montreal.
Complications

The bacon production campaign
was complicated during the year
by an increase in hog prices in
the United States to the point
where they attracted the Cana-
dian product. In July measures
were taken to prohibit the export
of hogs and pork products out-
side the Empire and the prices for
export were increased to a point
where, at conclusion of the 1940-
41 contract, they were 25 percent
above initial quotations.

Grade "A" Wiltshire sides, un-
der the 1941-42 agreement will
bring \$19.90 per 100 pounds at
Canadian seaboard, the full price
being paid by the United King-
dom.

This mammoth order for bacon
and hams means that 100,000 hogs
must be slaughtered each week in
the Dominion. Actually more
than that number of hogs are
killed during the heavy delivery
seasons, less during the slim pro-
duction months, but the Canadian
Bacon Board sees that reserves
are kept in shape for an orderly

Roadmaster Is Being Moved

Gunderson From McBride to Blue
River—Peterson From Prince
George to McBride.

Elmer Gunderson, well known
Canadian National roadmaster,
who has been stationed at Mc-
Bride for the past few years, has
been transferred from there to
Blue River to cover the subdivi-
sion on the Vancouver line be-
tween Blue River and Jasper. A.
L. Peterson is going from Prince
George to relieve Mr. Gunderson
at McBride.

Fred Griffin of Smithers Buried

Funeral of Interior Man Took
Place Last Week in Van-
couver.

VANCOUVER, Dec. 1:—The fu-
neral took place here on Thursday
last, Rev. F. P. Clark officiating,
of Fred Thomas Griffin of Smith-
ers, who passed away recently at
the age of sixty-two years.

stream of pork to move forward
in convoys sailing for Britain.

The hogs themselves co-oper-
ated and marketings in the latter
part of 1941 have been estimated
at 160,000 weekly, an increase of
nearly 10 percent above 1940.

Important too to Britons is Can-
ada's egg production. The British
Food Ministry will take all the
eggs the Dominion can ship, has
ordered 30,000,000 dozen and will
take 30,000,000 dozen more if it
can get them.

"Two more eggs a month from
every hen"—that is the slogan
used in Canada's Eggs-for-Britain
campaign.

Whifflets From The Waterfront

One of Prince Rupert's best
known power cruisers has changed
hands. George Bryant has dis-
posed of the Harla to Con Michal-
off. The Harla is a 35-foot ves-
sel, equipped with a Sterling gas-
oline engine.

Union steamer Catala, Capt. Er-
nest Sheppard, arrived in port at
8:30 this morning from the south,
sailing at 2 p.m. for Stewart; and
other northern points whence she
will return here tomorrow after-
noon southbound.

Mr. Justice A. M. Manson, in
Supreme Court at Vancouver, has
quashed a conviction by Police
Magistrate W. D. Vance of Prince
Rupert of Albert McKay, a fisher-
man, who was found guilty of il-
legal possession of salmon from
closed waters in Metlakatla Pas-
sage. The quashing of the con-
viction restores to McKay his gill-
net fish boat which had been con-
fiscated. He had also been order-
ed to pay a fine of \$100. R. L.
Maitland, K.C., was counsel for
McKay, and D. N. Hossie, K.C., for
the crown.

Union steamer Camosun, Capt.
James Watt, arrived in port at
9:30 last night from Vancouver
via the Queen Charlotte Islands
with passengers, mail and freight,
and will sail at 10 o'clock tomor-
row night on her return out over
the same route. This is the last
voyage for the time being of the
Camosun on the Queen Charlotte
Island route. She is being re-
placed by the Cassiar. The Camosun,
which brought in a considerable
number of loggers from Island
camps which are being closed
down until after Christmas, will
be making some special trips to
handle movement of loggers into
Vancouver for the holiday season.

Letting Things Slip Is Sermon Topic of Banker

Preaching from the pulpit of
First Presbyterian Church yester-
day morning because of the in-
disposition of the pastor, Rev. A.
F. MacSween, G. R. S. Blackaby
urged the congregation to hold
fast to Christian beliefs and prac-
tices in these days when a mul-
tiplicity of less important con-
siderations tended to divert at-
tention from them. How many
today neglected the daily prayer,
the daily Bible reading which had
been a part of the religion of the
forefathers? Carelessness was in
reality a sin, declared the special
speaker, who felt that the old con-
viction was lacking, there was too
much tendency to compromise and
be agreeable, to let the fundamen-
tal beliefs slip. Possibly this fac-
tor had a lot to do with what was
wrong with the world today. Mr.
Blackaby used as his text Hebrews
II, 2: "We ought to give the more
earnest heed to the things we have
heard, lest at any time we should
let them slip."
In the evening there was a 80-18
service by the Senior Choir under
direction of Mrs. E. J. Smith.
