OTTAWA. March 5: (CP)-Prime Minister William Lyon Mackenzie King last night charged the Montreal Gazette with publishing "libellous, false and malicious" statements in a recen editorial on the setting up of a committee on war expenditures.

Premier King also charged the Toronto Globe and Mail with making "false statements" in an editorial.

Mr. King said that the Gazette editorial related to a report that he (King) had threatened to resign at a meeting between himself, some ministers, Conservative Leader R B. Hanson and some other Conservatives to discuss the proposed committee.

The Premier said that the Globe and Mail editorial stated that the proposed committee was to take the place of the public accounts committee which the government did not want to sit.

Convention Report

Mr. Flaten's report on the convention occupied the greater part of the meeting and was of intense interest to all present. The speaker stated that he had received a great deal of inspiration from his attendance at the meetings and a great deal of this inspiration had been passed on to his listeners last

His complete statements gave the picture of the vast amount of work accomplished in British Columbia. The sudden advance in the number of branches when war broke out, the whole-hearted cooperation of citizens everywhere. the excellent response to financial drives of the Society and the very excellent management of the entire organization that had kept down expenses to a very low figure.

The speech of the B. C. Society's president had been of particular value, said Mr. Flaten, and, through his conducting of the meeting, many problems had been thrashed out and solved. Rumors that had started from misinformed persons had been set at rest. Of these stories one dealt with the socalled "selling" of goods by the Red Cross and of the reputedly high salaries paid to officials. A full explanation of this will appear later.

Problems affecting the local branch were discussed with officials by the delegate while in the south and the matter of collection of waste materials such as metals, old newspapers, rags, etc. were brought up. It was explained to Mr. Flaten that, as Prince Rupert was at such a distance from the markets, the price that could be received for waste material would be eaten up by handling charges. In Vancouver and Victoria, with the market at their door and where voluntary workers do the collecting an income of about \$1200 monthly, has been added to the Red Cross.
