Monthly Payments . . .

Now that the income tax is becoming a real feature of every person's life, it is wise to consider how best it can be paid so as not to find it too much of a burden all Eastment. at once. Many say they plan to pay it by instalments. Postuk The first of these instalments must be paid this month. Danzanac One twelfth of the total is to be paid before the last day Timmermeister of this month and one twelfth before the end of each sub- Hingston sequent month. The amount to be paid now is similar to that paid last year. At the end of the year a new rate will be paid and the amount already paid will be deduct- Rangers ed. The main thing is that in order to take advantage of Robins the installment plan the payments must commence at Kellett once.

Drilling for Oil . . .

A Calgary oil journal is calling on the government of Alberta to spend a few dollars drilling for oil as a business investment. Half a dozen test holes is what is asked fo reach year. It is pointed out that the province draws down about half a million dollars from oil leases and it could afford to spend a few dollars to help the industry.

There are many complaints at the way in which the oil producing in that province is being administered. Evidently the oil controller is under severe criticism for holding down production to so large an extent at a time when the Empire needs oil and people are being asked to curtail on the use of oil fuels.

The province of British Columbia is spending a small amount of money drilling a hole in the Peace River area. Should they find oil it will be the means of partially transferring interest in the oil industry to this province.

Not Before Winter . . .

Even if Germany is able to defeat Russia, she cannot do it before winter sets in. As a matter of fact it is not at all sure that Russia can be beaten. It is very difficult for the British to send help because of the distance from the home base. However, that may yet be done and any help given by United States and Britain would be! very encouraging to the Soviets. Even if Germany wins the victory will have cost between two and three million men and huge quantities of equipment and ammunition and the end is not yet. Perhaps it may not be easy for them to consolidate or withdraw for the winter.

The help of every Canadian is needed for Victory. In these days

of war the thoughtless, selfish spender is a traitor to our war

effort. A reduction in personal spending is now a vital necessity

to relieve the pressure for goods, to enable more and more labour

and materials to be diverted to winning the war. The all-out

effort, which Canada must make, demands this self-denial of each

of us. Invest in War Savings Certificates the dollars you don't

need to spend. After Victory, they come back to you with interest.

ROMANTIC

"The Flame of New Orleans" Is Interesting Picture at Capitol Theatre This Mid-Week.

Starring Marlene Dietrich and Bruce Cabot, "The Flame of New Orleans," gay comedy romance, is the feature picture for Wednesday and Thursday of this week at the Capitol Theatre.

Miss Dietrich plays the part of a continental actress who goes to the town of New Orleans in the colonial days and beglamors the town's wealthiest bachelor, the part of which is taken by Roland Young, by impersonating a cloistered European noblewoman. However, a handsome roughneck river skipper, played by Bruce Cabot, takes her eye and thereafter her struggle is between the wealth and security offered by one man and the hazardous romance offered by the other. Complications ensue when she accidentally discloses her real earthy character to Young and she is forced to subterfuge to explain it off. Adventure follows adventure as the plot moves rapidly in entertaining fashion to an

intriguing climax. The cast also includes Laura Hope Crews, Mischa Auer, Andy. Devine and other cinema notables.
