INVASION OF PHILIPPINES

Six to eight Japanese divisions—eighty to 100,000 men—strove for a foothold today on the Island of Luzon, 150 miles from Manila, and were engaged by American and Filipino troops who "more than held their own." The Japanese invasion force was carried toward the Philippine beaches by eighty troopships under strong naval and air escort. HITLER TAKES C

Chancellor Adolf Hitler opened a new see of the war in Russia by taking direct command of Nazi armies there after removing Field Marshal Waltzer von Brauchitsch. This dramatic step came as the Soviets were rolling up new gains in what appeared to be nut a German setreat but a rout. Russian war dispatches said that Red advances on Moscow and Leningrad fronts are keeping the Germans from forming any kind of permanent winter line.

SURPRISE BRITISH STAB

A patrol far out in the front of Great Britain's rapidly advancing aimy in Libya has made a bold surprise stab against an Axis garrison 150 miles in Tripolitania, British general headquarters disclosed today in a communique which for a third successive day indicated main British forces were pressing westward at top speed. The exact site of the daring sweep where an entire garrison was accounted for although it out-numbered the attackers six to one and where at least twenty-four Axis planes were destroyed on the ground was not given. The main line of Britain's army hotly pursued the shattered Axis African corps and had driven beyond the highlands of Eastern Cirenaica last night, the communique said. It was said that one force was pressing back Axis units holding covering positions east of Bengasi while others were operating against enemy forces withdrawing southward towards Agebadia.

ATTACKED OFF CALIFORNIA

Three and possibly four vessels were attacked by Japanese submarines off the California coast at the week-end. One submarine attacked without warning and shelled the large American oil tanker Emidio Saturday twenty miles off the coast, 200 miles north of San Francisco. Incomplete reports listed two of the crew as killed, five missing and five injured. Five injured and twenty-six others were rescued. Several hours earlier another American tanker, the Agwiworld, escaped from a submarine off Cypress Point, 100 miles south of San Francisco. Although eight shells were fired at the Agwiworld, the tanker zig-zagged her way to safety in a thirty-minute chase. This attack was also only twenty miles off shore. Later Saturday the steamer Samoa was attacked off California coast. The tanker L.P. St.Clair was reported to have escaped from an attack by slipping into the Columbia River estuary.

# Fuehrer In Supreme Command \* \* \* \* \* \* HITLER IS ARMY BOSS

Fires General von Brauchitsch to Assume Commandership-in-Chief Himself.

PERSONALLY

LONDON, Dec. 22:-The "best news that has been received in some time" was the way in which certain British quarters yesterday described the announcement that Chancellor Adolf Hitler had taken over personal command of the armies of the Reich. The Daily Express says that typical Hitler frenzy may now be expected and it may result in a shorter war.

BERLIN, Dec. 22: - Chancellor Adolf Hitler yesterday announced that he had removed Field Marshal von Brauchitsch and had himself become supreme commanderin-chief of all the armies of the Reich. Henceforth he will personally make all essential military decisions in all theatres of war. Dissatisfaction with the failure of the campaigns in Russia and Libya are believed to have actuated Der Fuehrer in his momentous decision which came into effect last Friday.

Hitler, in his statement, said that the army must be prepared to resume the offensive in Russia in the spring. Meanwhile, he exhorted his troops on the eastern front to fight on in the east with

"fanatical determination." The Fuehrer spoke of "other measures" which would now be taken. This, it was thought, might mean a move either by way of the Balkans, Italy or through Spain and Portugal to North Africa.

Hitler gave no specific reason for the "firing" of von Brauchitsch and the assumption of personal command himself. Three reasons

are suggested in speculation: First, the German reverses in

Second, a serious rift between army leaders and party chiefs on

military policy. Third, a feint or trickery which may be prelude to sudden attempt to invade Britain or move southward toward North Africa.

Fielding Season This Year.

The new double-play record of 196 checked in by the world champion New York Yankees studded brilliant fielding season in the American League in 1941 in which the boys were picking them up generally a little better than in 1940. The general average for 1941 was .972 as compared to .973 for the previous year. Cleveland by adding a single point to their club fielding average took over first position by that margin with a .976 percentage. The Indians had tied with the Yankees in 1940 at .975.

While the Yankees were break ing the double-play mark, Bill Dickey tied the major league record when he made an unassisted double-play against St. Louis in the first game of their double-bil on June 8. During the season Dickey also broke the major league record for the most years catching 100 or more games by making it his 13th. This was also his 13th consecutive year of performing in 100 or more games, covering from 1929 to 1941 inclusive, which is another record. Dickey has caught 1518 games since he joined the New York club in 1928. This is short of Gabby Hartnett's record In spite of their splendid twin- total of 1756 games caught in
