Smithers People Impressed With Work of Mechanized Equipment

SMITHERS, Aug. 27.—Rapid progress is being made in the clearing of the airport grounds. Two large bulldozers, like some pre-historic monsters, roam through the bush pushing up huge piles of trees and stumps which are being burned as they pile up. Townspeople of Smithers visit the field every evening to watch these machines tear the trees out by the roots. Already a strip a mile long and a hundred yards wide is cleared of trees and several small temporary buildings have been erected.

Robert Campbell of the firm of Robson and Campbell, is in charge of the clearing.

ASKS HELP RECRUITING

The Minister of National Defence Appeals to Chambers of Commerce for Co-Operation

The secretary of the Prince Rupert Chamber of Commerce has received the following letter from the Minister of National Defence, Hon. J. L. Ralston:

"The purpose of this letter is to ask for the co-operation of the members of your association in assisting in recruiting for the Canadian Army.

"The members of your organization who are employers of large numbers of men can materially help, not only by releasing for military service those men who apply, but also by encouraging employees to join the Army.

"I am earnestly urging each employer to examine the lists of his employees to ascertain those men who can be released. I realize that it will require time and trouble and planning to make readjustments and replacements, but time and trouble and planning are after all minor concerns compared with the distractions and confusion and readjustment which are being suffered by the industries of the United Kingdom resulting from bombed plants and injured and killed workmen. If the employers in England can replace and readjust under the conditions there, I am sure you will agree that it can be done here.

"I would like to ask for active efforts by employers talking it over with their men who can be spared or having their foreman talk with them and explain to them their duty to enlist. While this may be a good deal to ask, I know that the employer can do it better and with more understanding than anyone else. I am sure the members of your organization will tackle the job with vigor and determination, knowing as they do our vital need for manpower in the armed forces.

"Special leave arrangements for key men in war industries have been worked out between the Department of National War Services, the National Labour Supply Council, and the Department of National Defence. In a word, these arrangements provide that the merits of the case will be considered by a board which is independent both of the Department of National Defence and of the employer, and on the recommendation of this board, leave will be granted to men to continue their work.

"It would be greatly appreciated if you would give your co-operation by bringing this request for support to the notice of all your members."

IRANIANS AND NAZIS

Discussions Reported on Between Berlin and Teheran

LONDON, Aug. 27: (Reuter) — An authorized spokesman said yesterday that Germany and Iran are in active contact with each other over the situation arising from the invasion of Iran by Great Britain and Russia but declined to disclose the nature of the negotiations.

Iran's small navy has been virtually wiped out by British war vessels and the Iranian Admiral Bayendor has been killed leading a counter-attack, Reuters reported today.

Collapse of Iranian resistance within the next three days was predicted by well-informed diplomatic sources today as Russian forces, smashing southward into Iran, were reported to have captured the country's second city, Tabriz, while British armies, striking northward, advanced forty miles. Riza Shah Pahlevi, these sources believed, realizes that Iran's position is hopeless and the British and Soviet representatives in Teheran have convinced him that he should come to terms.

So far there has been no indication that Iranian defence has been other than the token variety.

Moscow reported that Russian troops, driving southeastward into Iran, have captured the town of Dilman, 100 miles northwest of Teheran, Soviet News Agency Tass announced today.

PEOPLE IN FIGHT TOO

Civilian Army Joins With Red Troops In Defence Of Leningrad—Nazis Crossing Dnieper

LONDON, August 27: (Reuter) — Soviet press dispatches said today that Leningrad's people's army had gone into action with regular Red troops to check Finnish-German thrusts on the Soviet's second largest city.

This was after the Germans had smashed another link in the chain of Leningrad's outer defences by capturing fortified Novgorod and driving the battle lines within thirty-five miles of the main Moscow-Leningrad railway. The Nazis have launched an air offensive against Leningrad where 101 German planes were shot down in 48 hours.

Meanwhile in Berlin the German high command claimed last night the capture of Dnieperpetrovsk which was described as the last Russian bridgehead on the west bank of the lower Dnieper River.

In Berlin the German high command claimed today it had "annihilated" the Twenty-Second Russian army in a pincer encirclement behind the most advanced lines, killing more than forty thousand Russians and capturing thirty thousand in an unusually bloody battle. The Germans said the battle occurred on the north central front between Smolensk and Lake Imen and resulted in the capture of the town of Velikie Luki, 275 miles west of Moscow and 250 miles south of Leningrad.

Meantime Finnish observers, according to Helsinki reports, claimed that a tremendous blaze on the southern horizon, seen from Finland, indicated that Russian forces were devastating Tallinn preparatory to withdrawing from the city from the east and south. Tallin is the capital of Estonia.

Daylight Saving - - -

A number of communities in British Columbia are considering the possibility of returning to standard time after the first of the month. Particularly this applies to communities in the Fraser Valley. They say that the system does not help the war effort and it is otherwise very objectionable, especially to children attending school. In Alberni, a sawmill town, there is also a movement to return to standard time.

If daylight saving helps the war effort, we are strongly in favor of it. If it does not help the war effort, we are vigorously opposed to it. It is really up to the shipbuilders to decide. We still have standard time on the railway, the telegraph service and some of the steamships. Some radio comes on according to standard times. We are not campaigning to get a change made in the time schedule but, if the war work is not benefited by it, we suggest it would be a great thing to revert to the standard system. If the shipyard schedule is best the way it is, there is little more to be said. All depends upon it.

England Has Done Something - - -

We have been taken to task for using the word England when we should have used Britain. We humbly apologize for this lapse. In France they say Angleterre and in most countries of Europe they use the equivalent to English for the people of Britain. Often in the United States the same expression is used. But that does not excuse those of us who know better. We know that it is blasphemy to use the word English when we should say British. If we wish to include the north of Ireland or Wales we scarcely know what to say but perhaps there is a word. British are primarily people who live in Great Britain but also people who live in Canada and are citizens of that country. Also people who have taken out their papers in Papua, regardless of color, are British.

When caught up by one of the sticklers for proper nomenclature recently a tired Englishman remarked: "You must admit that England has done something in this war. I read of Highlanders making a name for themselves. I read of the wonderful Anzacs, of the spectacular Canadians, of the Indian troops that are continually distinguishing themselves. Yet there are more English regiments taking part than all others put together but they do seem to be worthy of mention. They probably did something but their deeds must not be whispered. Happily in this war some foolish man wrote a song "There'll Always be an England" to remind the world that there really is an England as part of the Empire."

GYRO SPORT IS CLOSING

Tournament Of Table Tennis—And Shuffleboard Held Last Night

Gyro summer sports drew to a close last evening with the staging of a monster tournament of table tennis and shuffleboard. During the evening prizes were presented to the members of the winning Westview softball and soccer team by Cecil Shantz, supervisor of playgrounds.

In the girls' table tennis finals Rose Marie Hartwig coasted to an easy 21 to 8 win over Lorraine Youngman while, in their shuffleboard finals, Bessie Lee defeated Madeleine Youngman in the singles. In the doubles Lorraine Youngman teamed with Theresa Wong to defeat Bessie Lee and Rose Marie Hartwig.

The boys' table tennis produced some very exciting games with Gus Kadonaga providing the big upset of the evening by ousting favored Frank Hingston in the second round and going on to win the finals from Don Hartwig 21-16, 21-16. With ten entrants in this tournament Don had to beat Lorne Reid, Sid Youngman and Rupert Holkestad before gaining the final slot. In the doubles Frank Hingston and Gus Kadonaga were too good for Rupert Holkestad and Tom Reid, winning 21-11.

No less than fourteen boys entered the shuffleboard tournament and when the smoke had cleared, the finalists were found to be Neil Sheppard and Don Hartwig. Neil won the play-off quite handily but Don came back strongly in the doubles when, teamed with brother Alan, he defeated Frank Hingston and Gus Kadonaga.

Hard luck boy of the night was Frank James, pre-tournament favorite to cop the table tennis singles, who had the misfortune to take sick yesterday and thus miss the fun.

Mr. and Mrs. Dan McLean who are leaving Stewart to reside in Victoria, were passengers going south on the Catala yesterday afternoon.

SPORT CHAT

A much-discussed sport event which is attracting considerable attention will take place tonight at the Acropolis Hill grounds when Royal Canadian Air Force, which copped the Civic Centre Carnival Cup last week, and Grotto, season's champions in the Senior Softball League, will meet to settle the issue of just which is the best team in Prince Rupert. There is a good deal of discussion on that question and both sides are so confident and enthusiastic that the challenge has resulted in a sizeable wager having been made. As announced yesterday the in-seam ball will be used and there will be sixty-foot bases. Cy Kellett will be on the mound for Grotto with Scoop Bury behind the bat and Sonny Stiles at first. Others on the team: George Howe, Benny Windle, Sonny Beynon, Mike Montesano, Al Simundsen, Frog Le-tourneau and Bill Lambie.

FOOTBALL POSTPONED

The football game between the Composites and the Canadian Scot-tish scheduled to be played last night, was postponed until Thursday evening.

Rain Comes To Dry Interior

Is a Little Late for Much Good to Crops Which Could Have Stood it Earlier

SMITHERS, Aug. 27.—A long awaited rain has visited the Bulkley Valley during the past few days. It is generally considered that it is too late to do any good to any of the crops but it will put some much needed moisture into the ground.

There has been a very long dry spell and, while the crops generally are fair throughout the valley, there might have been bumper crops in every line had there been a few timely showers.

Hay is a good crop in places and in other places is pretty light. Timothy seed and grain will be no better than average.

Vegetables, too, have suffered from the long dry spell and potatoes will not be a heavy crop.

Smithers Honors Constable Grant

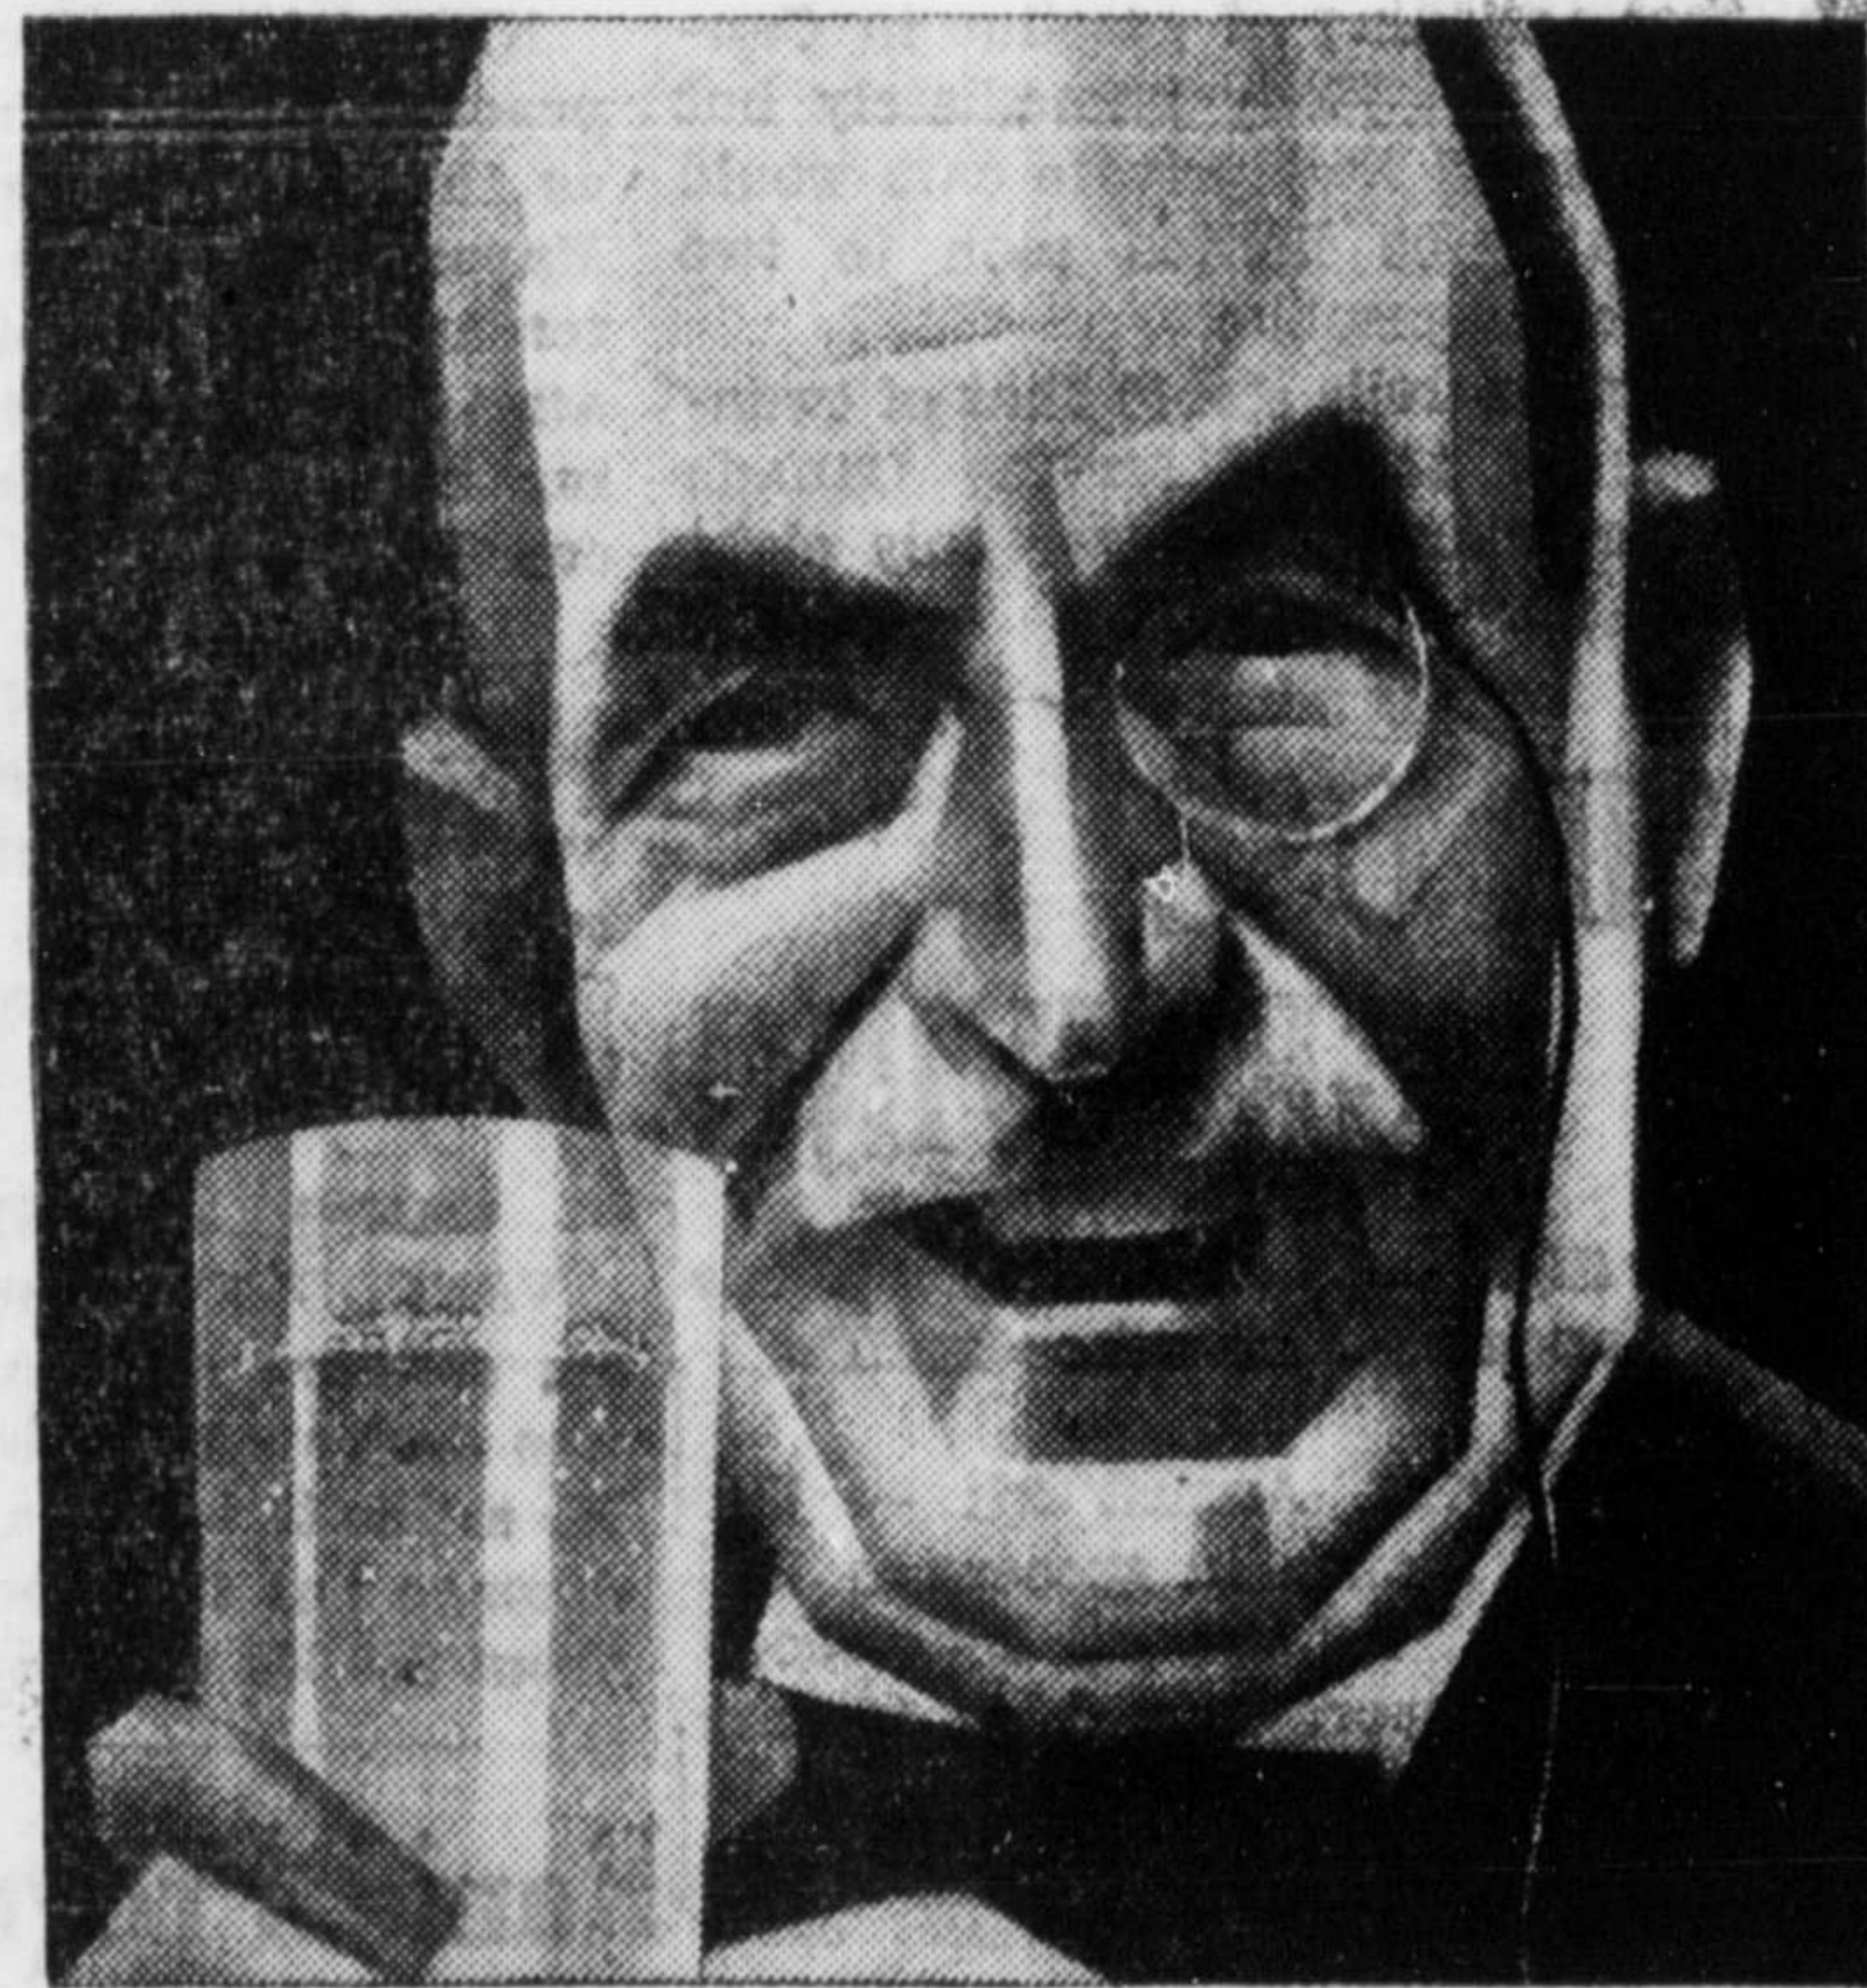

Farewell Party to be Held Tomorrow Night in His Honor

SMITHERS, Aug. 27.—Constable Andrew Grant of Smithers, who has received notice of his transfer to Duncan, and he will be leaving immediately to take up work in his new post. He is an efficient and conscientious officer. He and his family have a large circle of friends throughout this part of the country who will be sorry to learn that they are moving to another part of the province.

Sunnyside And Arrandale Canneries Closed As Sockeye Fishing Ends—Naskeena To Naas River

So far Sunnyside on the Skeena and Arrandale on the Naas are the only canneries in the Prince Rupert region to close down following the closing down of Skeena and Naas Rivers and Lowe Inlet areas to sockeye salmon fishing by gill net and purse seine. On account of dry weather and low water in the streams, a number of other fishing closures have been ordered by the fisheries department. Lowe Inlet area, with the exception of the west coast of Banks Island and Estevan and Campania Islands, is closed to all net fishing. Butedale area is closed to all net fishing with the exception of Gardner Canal for gill nets and Kynoch and Mussell Inlets for purse seining. Bella Bella is closed to all fishing except coho gill nets until further notice. Bella Coola area will be closed this week-end to all fishing except gill nets. A few chum are now reported to be showing up in Skidegate Inlet although there are none as yet in any quantity on the east coast of Moresby Island.

Indian Department's cruiser Naskeena left yesterday for Kincolith, Mill Bay and other points on the lower Naas River, having on board Indian Agent James Gillett. Return to Prince Rupert is expected tomorrow.

Frank Waterhouse freighter Northholm, Capt. C. Cyr, is due in port tomorrow from Vancouver with general cargo for local delivery.

Consolidated Whaling Corporation's whaler Green was a visitor in port on Monday. She is one of the fleet operating on the whale hunt out of Rose Harbor whaling station on the Queen Charlotte Islands.

Making the company's final tourist voyage of the season to Alaska, C.N.R. steamer Prince Rupert, Capt. Neil McLean, arrived in port at 12 noon today from Vancouver, Powell River and Ocean Falls and, after discharging a substantial freight cargo, will sail this evening for Skagway and other northern points whence she will return here next Monday southbound.

LET "Reddy Kilowatt" HANDLE YOUR WASHDAY WORRIES

He's a sympathetic chap, is Reddy Kilowatt, with one pet hate: the old fashioned set—tub and washboard. "There should be a law against them," he says, and nothing pleases him more than when these twin symbols of slavery are replaced by an Electric Washer. Then he really goes to work, doing the biggest washing at the snap of a switch, saving wear and tear on YOU, and your clothes. So give the little fellow a chance. He'll do the job for about 15¢ a month! Choose an Electric Washer for YOUR home and take the toil out of washday. Many models to choose from on comfortable budget terms.

REDDY SAYS:

"The more I work the less my wages are. I'm your electrical servant — always at your service."
