Such a move in peace time would have been condemned both by capital and labor. Now in war it is realized that such things must be done if the democratic nations dollar. Try it in the Dally News

The thought is also again provoked that after the war a new economic set-up will have to be employed attuning! the methods of efficiency with human necessities. In little; over a year of war, more changes have been made in the economic machine than a hundred years of peace would have brought.

We should not be too discouraged about what is going to happen after the war. Our statesmen and our leaders are learning and realizing many things these days and some of the lessons which war have taught will be useful when the time for peace and reconstruction comes.

Interesting Moving Pictures of District Seen by Gyros and Guests Wednesday

Highly interesting moving pictures, centering on school life in 1941 various parts of Prince Rupert district and also including some shots of scenic and industrial interest, were shown before the Prince Rupert Gyro Club at its regular weekly luncheon Wednesday by Alex Turnbull, inspector of schools. It was a very diverting entertainment for the Gyros and several guests.

As M.s. Turnbull's Inspectorial travels take him to many isolated points along the coast as well as in the interior, some of his pictures were of places that had not been seen before so were quite unique. Among the places pictured were Prince Rupert, of course, Stewart, Big Missouri, Alice Arm, Naas River, Port Essington, Sunnyside, Oona River, Bella Coola, Rivers Inlet, Lakelse, Terrace, Copper City, Usk. Massett, Port Clements, Tlell, Skidegate, Queen Charlotte City, etc. Among the industrial shots were those of herring brailing around Prince Rupert and crab fishing at Naden Harbor. Some unique scenes
