G.T.P. TRANSCONTINENTAL THROUGH IN 1913

Final Link Will be Completed in the Fall of Next Year, Says Chairman of the Railway Commission

(Special to Daily News.)
Montreal, May 18.—Major Leonard, chairman of the Transcontinental Railway Commission, has arrived in the city after inspection of the portion of the Transcontinental Railway being constructed east and west of Quebec. There remains now a gap of only 32 miles between Quebec and Moncton.

West from Quebec the line is completed to a point 100 miles west of LaTouche. Between LaTouche and Cochrane there is still a gap of about 100 miles to be filled and this will be the last to be constructed on the whole Transcontinental. Contracts are already let for grading, the last contract being just started, and it is expected that the final link will be completed in the fall of

1913. The whole line between Winnipeg and Cochrane will be completed by the close of navigation this year, in time to permit wheat being hauled over the Grand Trunk Pacific to Cochrane, thence over the Temiskaming & Northern Ontario Line to North Bay, where connections will be made with the Grand Trunk for Montreal and Portland.

AMATEUR NIGHT GAINS IN POPULARITY EVERY TIME

COON TURNS LAST NIGHT, CORNET SOLOS, MONOLOGUE; A NEW AND MOST COMICAL COMEDIAN AND A CLEVER SKETCH FARCE AMUSED FULL HOUSES

With ever increasing popularity "Amateur Night at the Westholme" last night scored its latest record in house filling. The audience attracted amounted to practically a full house at each performance. The artists were in capital form, and their programme was a good one. Applause was enthusiastic at the end of the turns given, and many encores were insisted on. In dramatic monologues, including striking recitations of the poems of Service, Mr. G. W. Fitzmaurice, who visualises from his own intimate knowledge of the north, the descriptive passages he recites, made a success of a branch of art which he has but recently begun to study. Cornet solos by E. W. Hunt were intensely enjoyed, and Messrs. Stowell and Whitley's captivating coon turn was encores to the echo. Another very acceptable turn in highly amusing order was that given by Mr. William Oram, an artist of almost professional experience in the entertainment line, whose droll make-up, and exceedingly comical rendering of his songs in good voice, went well with the audience. There was further on the bill a highly entertaining farce entitled "A Scientific Experiment," undertaken by Messrs. Whitley, Stowell, Fitzmaurice, and Eviit, with assistance from the Misses Madge Lane and Flora Middleton, two young ladies whose appearance on the boards was hailed with much rejoicing. The sketch went off capitally, and added to the undoubted success of the entertainment. Besides the real life turns, photographs of a high order of merit were given by the Westholme Vitagraph.

Former Canadian M. P. Commends Ambassador Bryce.

London, May 17.—In the opinion of Mr. Hamar Greenwood, M. P., who has written an article overflowing with commendation of Ambassador Bryce, Mr. Bryce, owing to his intimate knowledge of Canadian affairs and the Canadian people, coupled with his great sympathy for the democracy, has checked one of the

most important movements by Canada which was not very palatable to the foreign office—namely, the movement to ignore British diplomacy and representation, and the appointment of a Canadian to represent the Dominion at Washington.

"That movement is not yet dead," says Mr. Greenwood, and further states Mr. Bryce has secured a temporary check to that movement. Unless Britain can produce and appoint ambassadors of Mr. Bryce's capacity and sympathy, the time may come soon when the Canadian people will have their own diplomatic corps. CANADA DESTINED TO BE HEART OF EMPIRE

Hon. W. T. White, Dominion Finance Minister, Deals With Imperial Politics at Banquet in Toronto

(Special to Daily News.)
Toronto, May 18.—The Hon. W. T. White, minister of finance, spoke at a dinner tendered him tonight in the National Club on empire, especially the position Canada would bear in the future as a binding force, holding together the portion of the empire to the eastward and in Asia. Mr.

White said: "At present the world is at peace. In order to maintain peace it is necessary to be strong. I welcome five nations getting together, not for aggression but defense, and that the parliament and people of Canada are prepared to do their full share in the matter of imperial defense I entertain no doubt. In the way of federation there seems at present no insuperable difficulty. It will be a matter of growth and development, as is always the case with the British race. Distance is fast becoming annihilated. Halifax today is nearer to London than to Vancouver. There will be no more ultimate difficulty in federating the empire than in federating Canada or the United States. Statesmanship of the empire will

be always equal to the empire's needs. In numbers, wealth, power, influence Canada is destined to be the very heart of the empire in days to come."

London, May 18.—The Pall Mall Gazette tonight, commenting on Churchill's naval speech, says: "The Dominions are not children. They can appreciate the necessity of co-ordinating the empire's naval defenses and using their resources to develop to the last fraction our naval strength. We make some blunders at first, but the right spirit is alive and blunders will not be paid for in national humiliation." The Evening Standard says: "Canada means her contribution to be a genuine one, not a mere window dressing."

SOURDOUGHS AT WATERFRONT OUTDID THE POLITICIANS

Rousing Double Welcome Accorded Dr. Alfred Thompson, Member for the Yukon, and H. S. Clements, Member for Comox-Atlin by Their Friends in Prince Rupert---Assembly of Old-Timers of the North and Prominent Party Men Cheered to Beat the Band

With the first sonorous boom of the steam siren on the Prince Rupert this morning the sourdoughs of the city, men who know the north and have earned their reputations in the Yukon, where the standard of manhood is high, thronged to the waterfront. Some fifty or a hundred strong, they lined up to await the coming of the boat, while beside them blared melodiously the "silver snarling trumpets" of Kitlakahtla Indian band. This was the sourdough welcome to Dr. Alfred Thompson, member for the Yukon, on his visit to his old friends in Prince Rupert as he journeys north.

As the steamer slid gracefully into her berth at the G. T. P. wharf the figure of Dr. Thompson could be distinguished by the rail, and he evidently recognized several of his friends on the wharf. A great clamor of wel-

come went up from the assembled sourdoughs, and the band played its loudest and best.

Sharing in the general acclamation were a number of prominent politicians of Prince Rupert at the waterfront to welcome the

arrival of H. S. Clements, M. P. These raised their cheers with the sourdoughs for their own particular hero, who could be seen with the group of passengers on the Rupert, but apparently the sourdoughs outdid the politicians on this occasion. How-

ever, it all went to add to the air of a rousing welcome for both men.

As they stepped ashore each was seized upon by his respective circle of hero worshipers and cordial hand shaking and recognition of old acquaintances was engaged in. The enthusiasts escorted their guests from the wharf, afterward dispersing their various ways through the city. All will rally again this evening when, in the Central Hotel, by the skilled provision of Mr. Peter Black, the well known old timer of the north, a banquet will be served in lavish style to Dr. Thompson. The politicians, too, will have their rally, for in the McIntyre Hall tonight Mr. Clements is to deliver an address on his work at Ottawa for the city and on the general situation and prospects both political and other regarding Prince Rupert.

CLEMENTS MEETING.

Mr. H. S. Clements, M. P., will address a meeting this evening in McIntyre Hall at 8 o'clock sharp, on important business in connection with the Comox-Atlin district. All supporters and friends are invited to be present.

CANADA'S M. P.'S ARE TOO BUSY

"Harrassed by Enormous Correspondence and Pounded by Patronage System, Which is Simply Damnable," Says Foster.

(Special to Daily News.)
Fredericton, May 18.—Speaking at a banquet to the University of New Brunswick Alumni last night, the Hon. George W. Foster deplored the fact that the public men of Canada are kept so busy that they have had no time fully to consider the problems of the country. Members of parliament while in Ottawa are harrassed by enormous correspondence and pounded by the patronage system, which is damnable. Members of the government and parliament have no opportunity earnestly to consider the matters before them, consequently their decisions are often hastily given.

EAGLES' MEMORIAL.

At the Eagles' memorial services on Sunday evening the Rev. Mr. Rushbrook will deliver the memorial address. Once each year the members of the order assemble to pay respects to the memory of their departed brethren by a most solemn and impressive ceremony. The public is invited to attend. The service will be held in the lodge room in the Helgeson block.

CANADIAN CLUB LUNCHEON.

Dr. Alfred Thompson will address the Canadian Club luncheon at the Central Hotel on Tuesday, May 21st. The luncheon will be held between 1 and 2 o'clock and tickets can be secured at the hotel on the same day.

IMMENSE COST MAY PROHIBIT

German Ship Building Firm is Alarmed at Huge Expenditure for Construction—Would Discourage Building of Big Ships.

Berlin, May 17.—Besides the marine insurance companies, there are others who question the big ship policy of the trans-Atlantic steamship companies, and Stettiner of the Vulcan firm, which is building the 50,000 ton Imperator on the Elbe for the Hamburg - American Line, is somewhat uneasy over the huge cost involved in the construction of gigantic modern steamers. In their report just issued attention is drawn to the expenditure of capital which the acceptance of such contracts renders necessary chiefly owing to the improvement and extension of the ship yards. The concern in question paid a dividend of 11 per cent. in 1911, but the directors point out that the result was not due to ship-building but to a surplus realized by machinery sold and the foresight shown in previous years. This report throws interesting light upon the conditions of the industry in Germany and also shows that the fatherland does not possess great facilities for the construction of mammoth liners. In fact, it is specifically stated that a continuance of the present policy can lead only to disaster.

Other particularly favorable localities are the Kootenai District, the Okanagan Valley, the Kettle River Valley and the Westminster District."

It is expected that this exhibit will result in a large number of people investigating the opportunities for home-making in the fruit valleys of southern British Columbia along the line of the Great Northern Railway.

WHAT IS RAIN?

Answer to the First Question
Prince Rupert Children Ask.

Rain is a wet article which falls with great enthusiasm just when somebody is trying to pull off a lawn party. It bears a close resemblance to water and is sometimes used as a substitute by people who prefer to take their microbes in a raw state. Rain is a very uncertain quantity with everybody except the weather bureau experts, who can always tell where it is going to light if they see it headed their way. There are several distinct varieties of rain, all of which are quite moist. The least obtrusive of this is dew, a substance used by Robert W. Chambers to make

some very amorous dewey eyes and dewless morns. A great deal of poetry has been written about the dew, but nobody ever mentions its effect upon the paper-soled pump and the crinoline petticoat. Another form of rain is the Kansas thunderstorm, which is a distinct relative of the Japanese typhoon and step-father to the double-faced wash-out, the spring freshet and the lightning rod industry. The most devastating form of rain is the cloudburst, which always waits until the score is tied in the ninth inning before mingling with the spectators. In the arid regions people get tired of waiting for rain and go after it with dynamite and protracted meetings, while over in the rain belt farmers have to cultivate

their corn in a row boat. Hail is rain in pill form, and it is the silent partner of the plate glass trust. Snow is a chilled form of rain which perspires freely in the spring and prevents the accumulation of dust on the country roads. One of the most appetizing varieties of rain is the summer shower, which fills the cisterns of the plain people with hope and decayed vegetation. The rainy season of the Pacific slope is a damp epidemic which results from a mournful leak in the average mean precipitation. It is of slight importance, and is not advertised to any extent by the transcontinental railroads. — "Sidewalk Sketches," by Howard L. Rann.

NOTICE**Lot Owners—Attention!**

Acting under instructions from the city council, I call attention to the necessity of lot holders, under agreement from the Grand Trunk Pacific Development Company, to complete their titles, and have the same registered in the Land Registry office before July 1st next. Owners whose lots are not registered by that time run the risk of being unable to vote in Municipal matters, or being eligible for the office of Mayor or Alderman. The council considered it proper that this question should be brought to the notice of the whole public.

LACK CHIVALRY****Are Old Maids Declares Harte's
Daughter—Says Western "Go"
Should Be Made to Blend with
the Boston Culture.**

Boston, May 14.—Mrs. Jessamy Bret Harte Steel, daughter of Bret Harte, who is now in Boston on her first visit, says she has found in that city a preponderance of women, dogs and old maidish men. She also says that the modern Athens has an utter lack of enthusiasm and interest in life.

"The men of Boston," she exclaimed, "they are impossible. They are conceited and are lacking in both chivalry and ambition. They don't begin to show the chivalry and respect to women that men of other cities show. Perhaps it is because there are so few of them that they are considered rare and beautiful specimens and are made pets of by the women and hence spoiled. The western 'go' should be made to blend with the Boston culture."

**LORD PIRRIE'S
NARROW ESCAPE****Head of the Firm of Harland & Wolff and Designer of the Ill Fated Titanic Was Almost a Victim.**

Lord Pirrie, head of the firm of Harland & Wolff, the builders of the Titanic, is at Witley Park, near Godalming, according to London, England, papers, slowly recovering from the effects of an operation he underwent six weeks ago. Newspapers were kept from him in fear that a knowledge of

LORD PIRRIE.

the catastrophe would have a prejudicial effect on his health. It is stated that Lord Pirrie's illness prevented him from being a passenger on the ill fated Titanic.

STINGY HUSBANDS.

The tightwad drives his wife and mother into the suffrage tents. Some men with anger nearly smother when asked for fifty cents. The housewife works around like blazes, and when she needs a yen, her husband springs reproachful phrases: "Great Scott! More wealth again? You'll have me in a sorry pickle—your conduct's much too fast; have you already spent the nickel I gave you Monday last? No money left, you haven't any? You need some shoe strings, Belle? Here, you many have this hard earned penny—invest it wisely well!" No wonder that the dames, disgusted, are kicking in their tugs; no wonder plate glass fronts are busted by wrathful lady thugs. No wonder that the girls are saying: "I'll go my way alone; I were better earning money haying, and have it for my own, than be the mistress of a palace, to live in discontent, with one who fairly breaks his gallus when parting from a cent!" Ten thousand wives who live with misers are plunged in deep despair; and if they join the bold uprisers, the tightwads drive them there.—Walt Mason.

OH! WHAT'S THE USE?

Weep, and you're called a baby. Laugh, and you're called a fool. Yield, and you're called a coward. Smile, and they'll call you silly. Frown, and they'll call you gruff. Put on a front like a millionaire And some guy calls you bluff.

Who is Your Customer?**HAVE** you ever met your real customer? Have your salesmen a speaking acquaintance with him? Have you told him about the merits of your product? Have you explained why he should give your goods the preference? Have you done anything to stimulate his *desire* for your goods?In short, have you made any attempt whatever to sell your goods to *him*?

"Most assuredly," you say. "Every dealer in Canada is known to our travelers, and we certainly wouldn't pay a salesman who couldn't tell our customers all—"

One minute, please. The dealer isn't your customer. He's simply a part of your sales organization, and a decidedly independent part of it at that. He is distributor for other concerns in whose goods he is just as much interested as he is in yours. And he isn't particularly interested in your product, any more than in your competitors'.

The dealer realizes that he can serve six who order their goods by a well-known trade name as quickly as he can serve one to whom he has to demonstrate that a product is good.

Your real customer is the Public—the Public who wears your clothing, eats your pickles, uses your safety razor. You've got to sell your goods to the Public.

When the user wants your goods and won't take any other—then you are independent of all but him, your real customer.

To make the user want your goods, you must do two things:

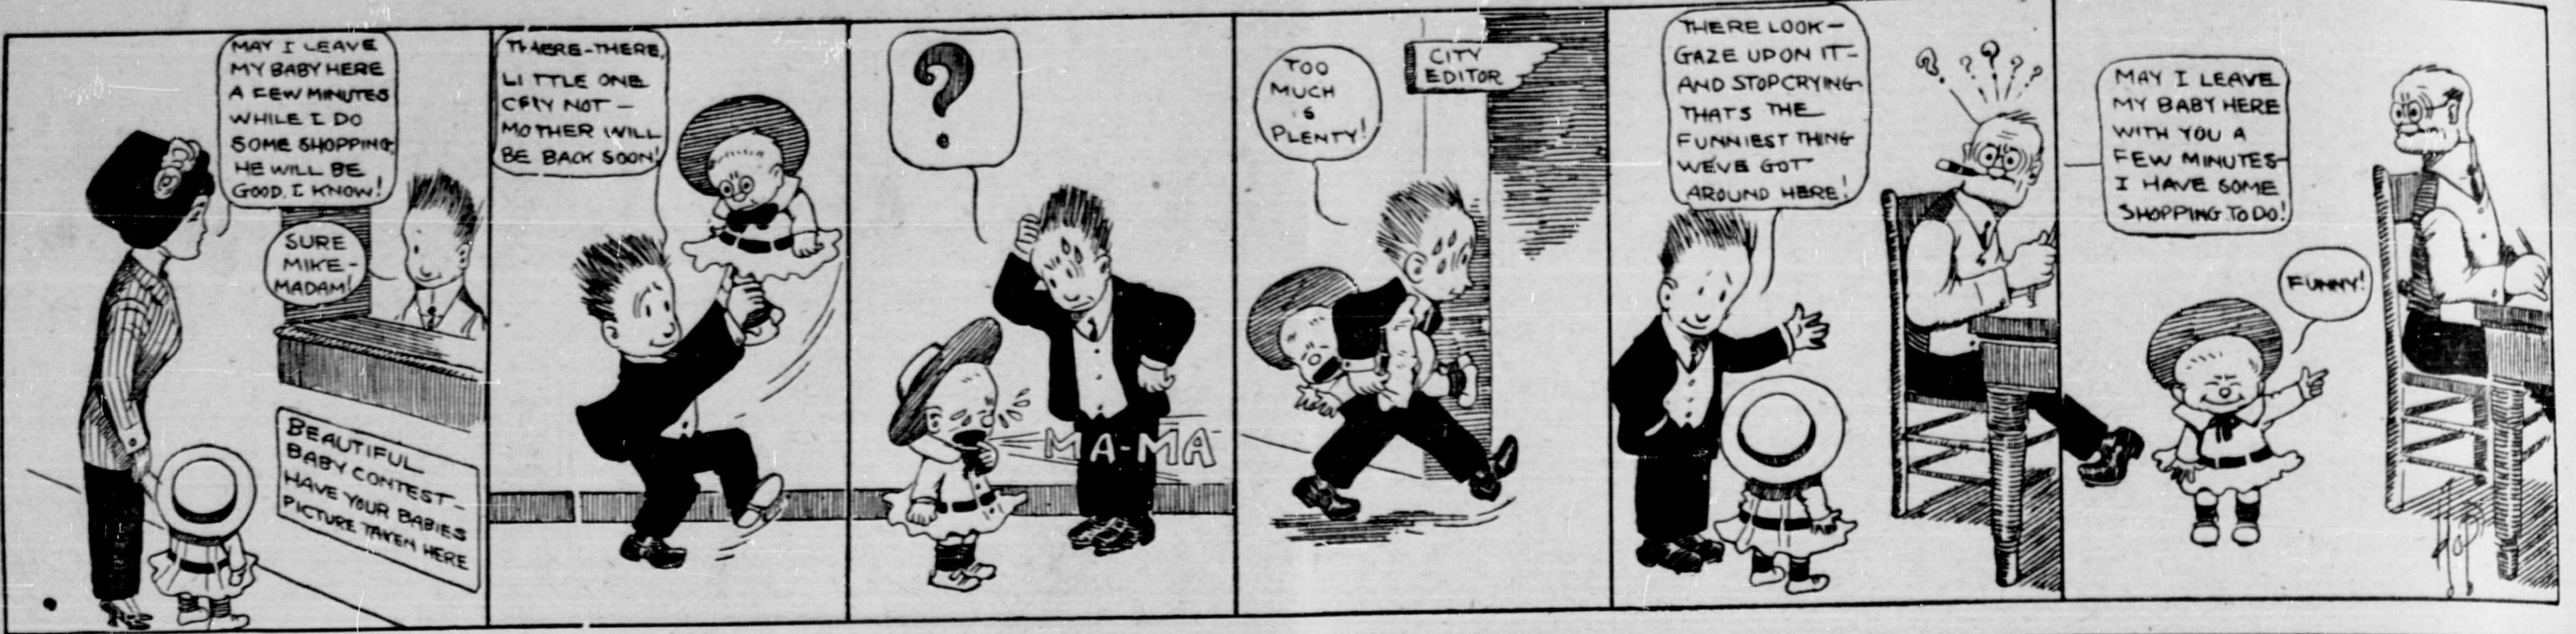

- (1) Produce an article of value.
- (2) Tell him what you make, and why he should prefer it.

That's advertising.

When are the makers of piano actions, for example, going to discover that they do not know their real customers; and, what is worse, that their real customers do not know them? So the public have to buy pianos in blind ignorance of the quality of the most important mechanical part of the piano.

What is it going to be worth to the piano-action maker who first discovers that his real customer is the Public, and not the piano manufacturer who incorporates the action into the complete instrument?

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.
