### EAST AND WEST.

The Winnipeg Free Press objects to certain eastern papers lecturing the west on the gratitude its owes to the east. It says:

"Westerners who talk of secession from the Dominion are talking foolishly. But they are not talking as dangerously as and already a small butcher's Barlow, yard foreman, vice presieasterners upon whom the responsibility will rest, if antagonism between west and east should assume proportions threatening the disruption of the Dominion."

Canada made very slow progress until the immigrants began to pour into the west. And once that movement began it benefited Eastern Ontario. We have a greater Toronto and a greater Montreal, because we have a greater Canada.

It is fashionable now to say that in immigration we have been paying the debt the east owes to the west and neglecting Ontario. It is good policy to fill up Ontario's vacant lands. But if we have an immigration boom in Ontario it is because there was an immigration boom in the west. The rich prairie lands of the west were an advertisement for all Canada.

All this talk about pampering the west is nonsense—sec-body is talking of Winston tional and unpatriotic nonsense. Those who talk about the west Churchill's sensational journey NOW OPEN as a burden are giving encouragement to those who talk about to London to vote for the Home secession. The way to stop the talk about secession is to tell the western man that we like him too well to let him go.

### THE DESTRUCTIVE MATCH.

The parlor match should be legislated out of existence. The train, arriving at London at 10 four great commercial and insurance bodies of the United States o'clock. After taking part in the have all adopted resolutions to this end, and I believe that inside of three years the parlor match will be as great a curiosity in this country as the old lucifer match, recently stated Mr. L. ## Service Must Speak

A STORE is almost human. It is full of temperament. It affects each customer with the composite personality of its management and staft.

There are stores and stores. There are "grouchy" stores and "smiling" stores. There are flippant stores and dignified stores. And the peculiar thing about each is that the goods or the prices have little to do with the store's temperament. It is the personality of the store that colors and defines the character of the goods from the customer's view-point and wins or repels approval.

The temperament or personality of a store is vividly expressed in its face. The face of a store is its advertising. You can judge a store by its advertising the same as you can judge a man by his facial expression.

Stores that honestly try to serve their customers best simply can't help advertising. It is the way of human nature that when we have spent the best of, our brain power and physical and financial resources in building up something worth while, our enthusiasm bursts forth into publicity. We simply cannot restrain the desire to tell others about it.

In the long run, service is what you pay for, always. The goods, as goods alone, are incidental. Service implies quality, fair prices, safe treatment, and honesty in every detail of every transaction.

The service store is the "serving" store. It is also the honest-advertising store. By this, you may know it always—anywhere.

> Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part - so write, if interested.

Plan by Which Settlers Will Own Their Own Farms After a Period of Payments.

A new departure in immigration has been made by an eastern company. Five thousand acres +---were purchased in Kent County, at Jeanette, near Tilbury, a year ago. This land consists of part of the famous St. Clair flats, very rich in alluvial mould over a clay subsoil. It has hitherto been farmed chiefly by French-Canadians, and not by any means ex-

ploited to its full capacity. The promoters have divided in more more more 5,000 acres into garden lots of ten acres each, upon which specially designed cottages are being erected. British settlers are to be brought out to occupy these truck farms, the first party of whom have already arrived. The Two Thousand Foot Fall Was plan is that they shall own their farms, paying for them in ten annual instalments.
