They advanced quickly into the country from several directions, meeting only sporadic resistance. General Charles DeGaulle issued a proclamation, guaranteeing full independence for Syria. Great Britain is in accord with the proclamation to this effect. The action had been taken, an official communique said, to remove German influence and in view of unmistakeable Nazi infiltration.

VICHY ARMY

LONDON, June 9: (CP)—British and Free French Forces, with converts from the Vichy cause swelling their ranks, have captured Tyre and driven to a point about forty miles from Damascus and Beirut, it was reported today. Reports from the fighting zone indicate half-hearted resistance by the defenders of Syria and Lebanon.

The Allied forces today had crossed the River Litani in the coastal sector where Beirut is the main objective while deeper inland the advance had carried beyond a line between Ezraa, Sheikh, Mikine and Kuneitra, the Middle East command announced.

Swarms of aircraft are supporting mechanized forces.

Fall of Damascus, it was thought, might occur by nightfall and indications are that Beirut, also being attacked by the sea, might be taken by the British in short order.

Heavy German reinforcements were reported being moved today from Greece to the Island of Rhodes in the Dodocanese group.

It was also reported today that Nazi parachutists had commenced arriving in Syria.

The King's Birthday - - -

This is the King's birthday. We celebrate it because he is a King who is faithful to his duties. He has not only dian Legion, the Home Guard and ments and hospital supplies will stayed with his people, as we expected he would do, but the Women's Service Corps. The King and Queen have been a great factor in keeping up the morale of the British people so we are glad to wish the king much happier returns of his birthday.

English Prices - - -

While we are all enjoying ripe strawberries at ten! cents a basket, it is interesting to read in an English paper that at Covent Garden recently they were were selling at from twenty to thirty-five shillings a pound. Those of course were out of season berries. Hothouse tomatoes could also be obtained but the price was ten shillings al pound. Although they were expecting a supply of out door tomatoes from the Canary Islands which it was thought might sell at 1s.6d. or 35c a pound.

A Socialist View - - -

Hannen Swaffer, the socialist newspaper writer in an article in the People, published in London, reviews the progress of the war, justifying the course taken by the British government and closing with these few paragraphs:

"Meanwhile our sea power remains. And, as Winston Churchill reminded the House last week, 'wine in the Atlantic and the war is won.' Armies may move, one way or the other. But while our sea power remains, victory, how-

ever long delayed, is yet in our hands. "Last week's Budget proved the extent of Britain's resolution. The rich were made poor. Everyone was taxed highly. Fortunes were swept out of existence. No one complained. The most burdensome Budget in all human history was welcomed by a country that knows that the

alternative to victory is the enslavement of the world. "After reading his grim proposals. I wrote to the Chancellor:

"'Dear Kingsley:

"'Just a line to say that after glancing at your Budget speech-I have never yet read a Budget speech all through and whenever I have heard one I have shared the WANTED-Bright young man for at Second Beach. This money will while waiting for the R. M. R.'s utter incapacity of all the M.P.'s to understand it-you can have all the money I possess to the last farthing so long as you win the war.

"That is all that matters." "And so I am sure, say all of us."

It's interesting to know when reading the Daily News that the people of the whole district are doing the same.

Canada's Reople Provide the Tools and the Men for a Free People's Job

"Never in the history of war have eleven million people given so freely and pledged so fully their treasure, their resources and their manhood." Rt. Hon. W. L. Mackenzie King, Prime Minister of Canada.

Lions, the Canadian people are putting forth the greatest effort in their history. Each day, Canada's war effort is costing her about \$4,000,000.

A quarter of a million of her sons are on active service; 175,000 more are enrolled in her reserve army. In ninety centres, the great British Commonwealth Air Training Plan is turning out airmen. For this direct war effort, Canadians will be called upon to provide during the next year about \$1,450,000,000.

Besides equipping and maintaining her own troops, Canada has become a major source of supply for Britain. An aircraft industry has been built from the ground up. Naval vessels, motor transport vehicles, universal carriers, machine guns, mortars,

Tanks, cargo vessels, field and naval guns, anti-tank guns, rifles, are on the way. It is planned to build destroyers.

> To build or extend plants, capital advances of \$380,000,000 have been made by the British and Canadian governments. Britain will be provided in the next twelve months with some \$1,500,000,000 worth of munitions of war, raw materials and agricultural products. To help pay for this, Canada will furnish over \$1,150,000,000 in credits.
