Smashing Attack On Western German Bases By British Airplanes

Four or Five Hundred Machines Said to Have Taken Part In Almost Continuous War on Nazi Bases

LONDON, June 26: (CP)—The Royal Air Force destroved nine more German fighter planes over the Channel in a shattering raid to reinforce its mastery of the daylight skies in that area. Three British fighters were missing.

Only a few hours after the Royal Air Force wound up the greatest 24 hour offensive it has yet attempted, a continuous assault in which 400 to 500 planes are said to have par-

War News

GERMANS DELAY ANNOUNCEMENT

LONDON-The promised German announcement in regard to the progress of the war has been delayed, ostensibly because to give any details would be of benefit to the enemy. it is stated that a million Germans are taking part in the drive along the whole front and a million more are in reserve. Some very extravagant claims are being made as to German victories but so far nothing to substantiate the claims has been given out.

PLANES SHOT DOWN

NEW YORK-The Russian radio said last night in a French radio broadcast heard by the National Broadcasting system that 27 German planes had been shot down today and it admitted that 17 Russian planes had failed to return to their bases.

FINLAND WILL FIGHT

HELSINKI-Finland announces her determination to defend herself with all her power against "this latest aggression by a former enemy." A number of bombs have been dropped on this city and on other Finnish centres.

BRITISH TO INVESTIGATE

LONDON-The British government is investigating the Finnish situation in its relation to the war. Reports have come through to the effect that German troops have been using Helsinki and other Finnish centres as bases and the Finns have been aiding the Germans in other ways. A thorough investigation will be made by the British with a view to possibly straightening out any misunderstandings.

ITALIAN TROOPS TO RUSSIAN FRONT

ROME-It is announced here that the Duce will send Italian troops to the Russian front and it is suggested that these will probably be used for keeping open the lines of communication rather than being in the front line.

POPE TO BROADCAST

ROME-It is announced here that the Pope will broadcast from Vatican City on Sunday a statement giving the views of the Catholic Church on the war situation.

PRESSURE ON JAPAN

LONDON-It is reported here that Germany is trying to bring pressure to bear on the Japanese government to force it to enter the war. Italian newspapers also are urging a similar line of action. Japan is considering carefully the changed situation and it is understood may wait several weeks before making a definite statement. By that time the present war trend will become clearer than it is today.

Voice Of Doom - - -

Like the voice of doom comes over the air many times a day from London the words of Churchill "We shall bomb Germany by night, we shall bomb Germany by day with every increasing effectiveness" and that is what is being done. Yesterday saw possibly the world's greatest bombing raid. The voice of doom for the Germans spoke with loud voice in the morning and with still louder voice in the afternoon. It will speak again tomorrow and will call to Hitler that his time is short. Even if he wins from Russia he will be so weakened that he will be easy prey for the British, the Free Frenchmen, the Polish forces, the Free Scandinavians, and the other free forces of the world. Every day the bombing will increase and Germany will be smashed. That is the voice of doom.

Buying City Lots - - -

Prospective builders are continuing to buy city lots at low prices in order that they may build homes for themselves or to rent to those who need them. Mostly they are for their own homes. This is something to be encouraged. We hope the number of lots disposed of in this way will double each month.

Position Of Finland - - -

Judging from all the information at hand the reason why Finland is being bombed by Russia is because she is giving shelter to a large number of German troops. Well have no particular love for Russia or the Russian people. by "Dear Little Debt-Paying Finland" as she was affecting ploughshares into the tools of war. tionately termed by many people in the United States. The War In Russia - - -

It is too early yet to suggest what is likely to be the outcome of the great war in Russia. Hitler is doing most of the bragging and that looks bad. He is trying to do what Napoleon failed to do and may or may not succeed. We hope he will not, chiefly because the harder the fight put up by Stalin the easier it will be for the British to destroy Hitler. The fact that Stalin double-crossed us is a sign of weakness on his part. He did not choose his friends wisely. In other words he "backed the wrong horse." He is now suffering because of that lack of judgment. We are not blaming him but are sorry that he was deceived. He will know better in future. Now he is fighting for his life and we as a nation are pledged to help him and that we shall do. We can do that best by pressing the war in our own fields such as North Africa, Syria and in the Mediterranean. Also by carrying the war into Germany.

It's interesting to know when reading the Daily News that the prople of the whole district are doing the same.

GRENADES-FROM CANADIAN WORKSHOPS TO THE ARMY

Hand and rifle grenades today feature promin intly on the ever-increasing list of weapons of war produced in Canada. In the right hand photo a young worker applies varnish to the centre pieces of the grenades, which holds the detonator and fuse. Varnish applied inside and out protects against corrosion. At bottom left an experienced veteran, who has forty years service with the company to his credit, has turned from peacetime work to that of gauging grenades. In upper photo, at left, soldiers in training at Camp Borden, are shown throwing Canadian-made grenades during mock battle manoeuvres.
