## Need Of Assembly Hall - - -

Now that the only large hall in the city has been taken over by the Young Men's Christian Association and presumably will not be available for public gatherings the need of the civic centre becomes more apparent. We still? have the Oddfellows' Hall and the Metropole Hall but neither of these can accommodate a large crowd.

It has been suggested that if three to four thousand, dollars be raised at the forthcoming carnival, making a total of \$12,000 or so available, it might be possible to go! ahead with the new building in the fall. It is a worthy object and one that deserves the support of all citizens.

Meeting the charge that it is not war work, it may be said that the presence of large numbers of armed forces in the city makes the need of such an institution all the greater. While the shipyards are operating, the forts! manned, the barracks occupied and the naval forces in the! neighborhood, an athletic and social centre such as that proposed is badly needed.

### Air Raid Funds - - -

The Daily News is one of the large group of Canadian Daily Newspapers that agreed to give publicity to the air raid victims fund without cost of any kind and to forward any monies received without any deductions, not even the cost of exchange.

The need for this relief is just as great today as at any time and, if the Germans should attempt an invasion, it will be greater than ever before. Any money contributed will be forwarded within one week of receipt and will be acknowledged through this paper. Those who feel they would prefer to send direct to Montreal may do so but the money will not be acknowledged publicly.

We have noticed that much of the money subscribed has come from former Londoners or people who have friends or relatives in London. We do not think they should be the only ones to contribute. Londoners were among the first to bear the brunt of the enemy's air attacks and are deserving of full support from us all. The fund is not a London fund but is used for giving relief anywhere in Great Britain.

The last check sent through by us was from the Canadian Legion. Possibly Prince Rupert people would like to make further donations now. If twenty people gave! five dollars each we could forward a check at the end of the week for another hundred dollars. There are no canvassers for this fund. All gifts are purely voluntary.

#### Gasoline Savings - - -

Owners of cars are asked to co-operate with the government of Canada in saving gasoline. To a considerable extent joy-riding will be abolished and the hours of selling gasoline are to be strictly adhered to. No Sunday selling is to be allowed.

The whole idea of the restriction is to conserve gasoline for war purposes. Possibly later it might be necessary to impose more stringent regulations but in the meantime it seemed to be the desire to reduce very materially the amount of gasoline used and to make the people war conscious.

Should the war spread to the Pacific, which it may do at any time, we may become war conscious more quickly than we realize.
