CAMERON BAY CASE WILL GO TO PRIVY COUNCIL

SECRET BURIAL OF THE LATE REV. CLARENCE V. T. RICHESON

PASTOR-MURDERER'S REMAINS TAKEN FROM PRISON WHERE HE WAS ELECTROCUTED AND INTERRED PRIVATELY—AUTOPSY HELD PROVED NORMAL MENTAL CONDITION.

Boston, Mass., May 29.—With only Attorney William A. Morse, Miss Livingston Douglass Richeson and reporters present, funeral services over the body of Rev. Clarence V. T. Richeson were held in Warren Avenue Baptist Church. Rev. Herbert S. Johnson, who attended Richeson in the death cell and later in the death chamber, officiated at this final scene of the tragedy.

It was the understanding previous to the execution that the body of the former minister would be taken to his boyhood home in Virginia for burial, but circumstances arose which prevented the plan from being carried out.

It was announced that Richeson's body would be buried in or near Boston, the exact place being kept secret until the driver of the hearse was informed where he was to take it.

A REST FOR HER

"Sleeping Girl" Given a Two Year Term.

Montreal, May 30.—The sleeping girl, who proved so much of a mystery to Montreal doctors, today was sentenced to a two year term for theft.

Warm, clean rooms at Savoy.

PREMIER HOTEL CAUGHT FIRE

Prompt Action of Hotel Staff and Fire Brigade Prevented Serious Conflagration — Kitchen and Dining Room Scorched a Bit.

Another outbreak of fire was swiftly quelled last night. The outbreak took place in the Premier Hotel, near the gas stove in the kitchen. Catching dry wood, the flames spread swiftly and badly blackened the wall, spreading into the dining room.

The fire brigade was called and swiftly arrived, meanwhile the staff with the hotel hose reels run out did excellent work and had the fire in check. A little further attention from the red devil brigade put the Premier out of danger, but quite a little damage was done the apartments affected by water and smoke.

RICH GOLD STRIKE

Sir William Mackenzie Buys Another Klondyke.

Toronto, May 29.—Rich prospects of gold, copper and coal on Pesco River, near the Alberta boundary, have been bought by Sir William Mackenzie from C. J. W. Rochfort. It is another Klondyke.

PRINCE RUPERT TWENTY MINUTES AGO

Much brushing of buttons going on in barracks in preparation for Earl Grey's inspection tonight. Government wharf has evidently gone in for a little coal strike of its own.

Premier Hotel staff ready to challenge the red devil brigade with the hose reel any old day.

City Clerk Woods announces that vote on the Money bylaw will be taken on Friday, June 14th.

Merely Mabel says it's the uniform that does it, and she's going to be on Second avenue tonight to see those dear, darling soldier boys, rain or shine.

PARK COMMISSION

Meeting Scheduled for Last Night Postponed Till Next Wednesday.

For lack of a quorum last night the meeting of the Park Commission had to be postponed until next Wednesday. Two of the commission members had to attend a Finance committee meeting of the City Council. Next Wednesday the city engineer will present a report on the cross-sectioning of the area proposed to be laid out for a recreation park, and the commission will consider ways and means, etc.

Special! This week at Sloan & Company, Ltd., knitted silk ties and washable chamoiseude gloves, 50c. See our window.

APPEALS TO THE PRIVY COUNCIL

G. T. P. to Take the Decision of Railway Commissioners re Cameron Bay to the Highest Tribunal.

(Special to Daily News.)

Ottawa, May 30.—The G. T. P. Railway will appeal the decision of the Board of Railway Commissioners ordering the opening of Cameron Bay to the Privy Council. The board recently imposed a penalty of \$100 a day for non-compliance with the order, the penalty to continue until the bay was opened.

CUSTOMS INCREASE

Returns for Month of May Will Go Over \$9,000,000.

Ottawa, May 30.—The customs returns for the month of May will reach a total sum of over \$9,000,000, which will be \$2,500,000 greater than the same month last year. At the present rate of progress the revenue for the fiscal year from customs receipts alone will be well over \$100,000,000.

Among the passengers sailing for the south on the Chelohsin were: R. L. Barber, J. C. Erash, C. Mumford, W. A. Johnson, L. O. Miller, Mrs. Annie Wilson and children, M. A. McLeod and Rev. A. E. Price and wife.

ANOTHER GENERAL ELECTION PREDICTED WITHIN A YEAR

TORONTO PAPER THINKS FEDERAL ELECTION LIKELY BEFORE 12 MONTHS HAVE PASSED AND QUOTES REPUTABLE AUTHORITIES IN SUPPORT OF THE ASSERTION.

Toronto, May 30.—The Toronto Star says: "Is there to be another general election in Canada before a twelve month has passed around? In the opinion of some political observers, the answer is, 'Yes.'"

It then quotes from a publication of John S. Ewart of Ottawa, which after reviewing the forthcoming Dominion parliamentary program, concludes with the prediction that parliament will be dissolved with an election shortly afterward.

The Star goes on: "The speech a few days ago at the National Club of the Hon. T. W. White, in which in general terms he outlined an imperial scheme, is regarded by some observers as a preliminary. The result of the Provincial elections in Quebec and of the approaching contest in Saskatchewan may influence the government's decision."

ENGLISH ROSE CLUB

New Football Team Getting Ready to Give Gallies Flotten Field.

English Roses are to bloom on the football ground of Prince Rupert. The Rose Football Club was launched last night and is open for enrollment of English members. All who have the desire and power to uphold the prowess of Old England in the football arena in Prince Rupert may join. Those who desire to do so may communicate with J. Day-Bell, phone Black 170. English born or Anglo-Canadians are equally welcome as members of the team, which has for its principal rival the far famed Caledonian Football Club.

Sold in bulk by quart or pint, delicious, refreshing hot weather necessity, ice cream at Keeley's.

INSPECTION TONIGHT OF RUPERT'S OWN REGIMENT

Major J. E. Mills, District Commanding Officer, Will Watch the Boys Show Their Mettle in Military Efficiency Tonight ---Regiment is in Good Shape and Promises to Make the Best Showing Yet

Tonight Major J. E. Mills, district officer commanding militia district No. 11, will inspect Prince Rupert's own regiment Earl Grey's Rifles, a regiment of which any city might well be proud.

The inspection will take place at the armory on Second avenue, and drill and parade will be held on the spacious area now available on Second avenue opposite the armory.

The regiment is in first class shape and tonight's inspection is certain to be a satisfactory one. Almost up to its full strength and with the newly equipped drum and bugle band, Earl Grey's Riflemen will make a good showing, the best ever yet in the history of the regiment.

Earl Grey's Rifles are today in the happy position of being able to look forward to the early establishment for them on Acropolis Hill of a fine new drill hall and armory, with spacious parade grounds laid out and erected at the expense of the Dominion government, which has made a liberal appropriation for this purpose. To the energy of the regiment's popular commanding officer, Captain Alfred Stork, Earl Grey's owe much of their efficiency and many privileges which will be theirs in the future. Captain Stork has ever had the prosperity and efficiency of the regiment at heart.

Amongst the noteworthy members of the regiment today are Lieutenant S. P. McMordie, who has recently achieved his full certificate of efficiency at the military college, and as color sergeant, George Leek, who represented Earl Grey's Rifles at the coronation of His Majesty George V.

The regiment is displaying

CAPTAIN ALFRED STORK

To whose continual energy and zeal Earl Grey's Rifles owe much of their regimental efficiency today.

marked efficiency in all branches of training and some smart marksmen are included in its ranks, as well as many of the best young athletes of Prince Rupert.

SIR WILFRID GIVEN A BRILLIANT RECEPTION

(Special to Daily News.)
Montreal, May 30.—Surrounded by Liberal leaders from practically every province of the Dominion, Sir Wilfrid Laurier at a banquet to his honor last night spoke of the Liberal party as running superior to the crushing

defeat of last September and gaining daily in prestige and power. Passing lightly over the Liberal defeats since Conservative regime, he entered upon its career at Ottawa, interpreting recent Liberal successes at Quebec and Alberta as certain indica-

tions of great triumph to follow. Practically all of the last Liberal cabinet were in attendance, and nearly six hundred others were present. No one failed to hear Sir Wilfrid's address. His voice was full and clear and never wavered during the long oration.

Repeals Reciprocity Law.

Washington, May 30.—The United States Senate today repealed the Canadian reciprocity law and imposed a tax of 82 per cent on print paper entering the country by way of Canada.

FREE! FREE! FREE!

A big beautiful 88 key electric player piano, worth \$1,200 given away to the pool players in the Basement pool room, Empress Theatre building.

By the Chelohsin, W. A. Roby left for Hamburg, Arkansas, with the body of his wife, who died on May 24th in Hazelton. Mr. Roby is assistant engineer for the Grand Trunk at Hazelton, and they formerly resided in Prince Rupert.

If you want a choice steak call at the Royal Cafe.

PASSENGERS TO BE FEWER

Reductions in Regulations Carrying Capacity of Several Well-known U.S. Vessels Plying in and Out of Rupert.

By new inspection certificates recently issued the passenger carrying capacities of some of the steamers plying in Alaska waters were greatly reduced. The following figures show the old and new capacities: City of Seattle, cut from 419 to 118; Spokane, 273 to 130; Jefferson, 300 to 219; Northwestern, 576 to 239. No reason for the reduction was announced but it is thought to come from the far reaching effect of the Titanic disaster and inquiry. As the Spokane's excursion accommodations were reserved months ago many tourists will probably be disappointed in seeing the northern "wonderland" on the palatial steamer.

CALLIES FOOTBALL CLUB

Tonight's Match Postponed in Favor of Earl Grey's Drill.

Owing to the Earl Grey Rifles having their annual inspection tonight and very likely using the ground, it has been decided that there be no practice tonight, but it is expected there will be a match with the Baptist Brotherhood on Saturday. The latter team is not satisfied with the last result and expects to put it all over the Callies this time. It has been said that there are a lot of challenges awaiting the Callies. Send them all in early, the secretary will arrange the matches. G. T. P., Baptist Brotherhood or any other club invited.

COD CURING ENTERPRISE

Addition to Building of Gold Storage Company at Seal Cove.

Besides the superb concrete plant erected at Seal Cove and the big cannery and fertilizer plant under construction on Tuck's Inlet, there is to be commenced shortly by Mr. G. H. Collins a set of cod curing sheds heavily timber framed and two storeys high. This department will be used in the development of the cod curing industry which is expected speedily to outrival even the Newfoundland enterprise in this line.

The Camosun will arrive with mail tonight.

Lime Juice at 35c, 50c and 70c the bottle. See Stalker & Wells.

ONLY ONE OTHER SUCH DRY DOCK

W. T. Donnelly, Designer of Prince Rupert's Great Marine Feature, Declares There Exists but One Like it in Western World.

All preliminary work for the new G. T. P. dry dock and ship-building plant, to be built at Prince Rupert, has been completed, and now the designers and contractors are preparing to launch the big task, which will take several years to complete. The firm of the well known contractor who built the G. T. P. docks and also made the extensions to the C. P. R. and outer docks at Victoria, B. C., has been awarded a large portion of the work, and will place a large gang of workmen on the grounds immediately.

W. T. Donnelly, the designer of the plant, says that the only equal of this undertaking in the western world is the United States Dewey dry dock at Manila. The new dock will have a lifting capacity of 20,000 tons, and will be constructed as three separate docks for the present which can readily be converted into one dock whenever the occasion arises.

Prince Rupert 5 per cent, three year notes have been placed privately in London, Eng., at 99%; this is considered a good price under the present market conditions.—Canadian Finance.

DAILY EDITION.

THURSDAY, MAY 30

WEATHER WEST AND EAST.

While we in Prince Rupert, the city which has been burdened by a rain libel in spite of all that its citizens know to the contrary, are welcoming every drop of rain we can get in this merry month of May, because a positive water famine is liable to occur if the rain shortage gets any shorter, it is interesting to note what the rain man is doing in the east. Here is an extract from the Toronto Star of May 21st. It reads like a Vancouver visitor's version of the Rupert rain libel:

"The month of May promises to hold the record for the greatest amount of rainfall in many years. The average rainfall for May, based upon the records of past years, is 2.85 inches. So far this month rain to the depth of 4.4 inches has fallen; and since Sunday evening, when the present steady downpour commenced, as much as 2.07 inches of rain has fallen.

"Nor can the weather man promise any immediate cessation of the deluge. He reports that rains are general over the Provinces of Ontario and Quebec, and that at least two days more of unsettled weather are in sight. These next two days may be varied by occasional gleams of sunshine, but rain will be the rule, and sunshine the exception.

"We hope to see fair weather set in thereafter, but this is merely a hope, as we have nothing definite to go on. Outside the fact that the next two days will probably be unsettled, we can say nothing.

The scientific explanation of the present wetness is that Toronto is in 'a trough between two areas of high pressure which are causing the rainfall.' Torontonians will agree that the city is in a trough in more than the scientific sense of the word. The scientist and the man on the street see with single eye for once."

ABOUT VACATIONS.

The trouble about vacations is that not one person out of a hundred will wisely use a vacation. Most men and women, freed from the usual cares, are inclined to go to extremes in the one season of the year which ought to be a period of wholesome rest and recreation.

Some men seem to think that a protracted spree is the right thing at vacation time, and that really is about all a great many men get out of their vacations. Some men think they cannot rest unless they are politely drunk, and they think it so strongly, and so sincerely, that they live up to the idea.

But, of course, there are other and better and wiser ways for a man to spend his vacation.

As a rule, books, even bad books, in some instances, are good companions. Men and women can do a certain amount of reading during their vacations, and if their work is such as not to require a great amount of reading it will be a good thing for them to spend a part of their vacation reading and thus becoming acquainted with the thoughts of men and women who have been trying to do something for humanity.

Or they can fish, or hunt, or climb mountains, or boat, or do any one of a number of things that will be of physical and mental benefit to them in the season of vacations.

The main thing is not to overdo anything. The middle of the road philosophy is a good thing to keep in mind during vacations.—Seattle Post-Intelligencer.

DEFENSE OF OLD SCOTLAND

Quick Firing Guns Now for the Orkney Islands, Where German Warships Have Been Seen Reconitering.

Information has now reached Kirkwell, says a Glasgow paper, that there is a great future for the First Orkney Royal Garrison Artillery. Most of the leading channels will be protected by quick firers. Mobile and garrison batteries will be supplied on points of vantage in and around the islands, which will be worked under and in connection with the admiralty.

HEART IN WRONG PLACE

French Sailor Displays Extraordinary Internal Development.

Paris, May 28.—A sailor on board the battleship Petrie has suddenly jumped into prominence in the medical world by the discovery that his heart is located on the right side and the other organs are all on the wrong side of where they are supposed to be. This freak of nature has served five years in the navy. He complained of ill health recently and the doctors found that his liver was on the left side, etc. A further examination showed that all his organs are twisted.

DR. M'QUEEN AS MODERATOR

Prominent Edmonton Presbyterian Probable Church Leader at this Summer's General Assembly.

Toronto, May 28.—Representative Presbyterians in this city say that the Rev. Dr. D. G. McQueen, of Edmonton, will be the moderator of the next general assembly of the church. The Assembly will meet in the First Presbyterian church of the Alberta capital on June 5. It is said that no name will be brought forward except that of Dr. McQueen. He has been minister of the first church for almost a quarter of a century, having been a resident of the place for some years before the railroad was built north of Calgary. He has been nominated for the honor by Presbyterians in both Eastern and Western Canada, and will without a doubt be elected. He will have the extraordinary honor of welcoming the members of the general assembly in a modern church in a new metropolis, to which he went when it was a remote outpost on the outskirts of civilization.

The modern, high class place for billiards and pool. Seale's, Third avenue.

ON CANADIAN RAILROADS

Gollingwood Schreiber, Engineer Well Known in Prince Rupert, Addresses the Canadian Society of Civil Engineers.

Some interesting facts and figures respecting the development of transportation facilities in Canada were given some time ago by Mr. Gollingwood Schreiber at the Canadian Society of Civil Engineers. He tells us that gradually the success of the experiment of the introduction of railways in Canada become firmly set in the public mind, and that about 1852 the Erie & Niagara Railway, the Great Western Railway, the Grand Trunk Railway and the Northern Railway were financed and construction was undertaken. It was pointed out that the latter road would pierce a forest country, sparsely settled, and with no immediate prospect of a return for the capital invested therein; hence it was more difficult to finance than the two other roads, but through energy, perseverance and earnestness displayed in the project by the late Mr. Capreol and Mr. (now Sir) Sandford Fleming, its construction was undertaken. There was, however, a desire to keep the expenditure down as low as possible, resulting in a rather temporary work; nevertheless, it served a good purpose until the country through which it passed developed sufficiently to warrant it being rebuilt a few years later. The Grand Trunk, the Canadian Pacific and the Canadian Northern are three examples of the Canadian railroad today.

In the early days in Canada it was difficult to obtain money with which to construct the railways, especially in cases where the railways ran through sparsely settled districts, and a return for the investment could not be expected for some years. For this reason many of our railways were constructed of a temporary character, requiring the structures to be rebuilt in a few years. This, however, appears to have been a wise policy, as the less the road cost in first construction, so much less revenue was required to pay dividends for some years until the country was settled and

the traffic increased, when a road would be in a position to increase its capital expenditure in making renewals and improvements. Even at the present day it is, perhaps, wise in cases in which railways are being built through a country difficult of access and where immediate traffic would be light and the cost of the transportation of permanent structural material very heavy, to make comprehensive plans in the first instance for present and for future requirements, and to use the less costly and less permanent material in construction; by this means accommodation in the way of works for the immediate business would be provided, and improvements could be made and the facilities for traffic increased as the business of the road developed.

DUKE WILL MIXED FARM

Most Economically Profitable Method of Agriculture Has Approval of the Duke of Sutherland in Canada.

The Duke of Sutherland will encourage the system of mixed farming on his holdings near Brooks, Alta.

R. B. Sangster, manager of the duke's farms, has purchased a herd of registered Holstein milk cows from the C.P.R. demonstration farm at Strathmore. These will be kept for breeding the most desirable dairy stock for distribution to the tenantry. Mr. Phillips, a Scotch settler who recently purchased a farm from the Sutherland holdings, also purchased two registered heifers from the C.P.R. farm.

This is the first sale of registered Holsteins by the C.P.R. It was the desire of the superintendent, Prof. Elliott, to establish a herd of 100 of the best Holsteins adapted to the climate and conditions of Southern Alberta, and to this end the selection of stock has been carefully made and all registered heifers have been retained on the farm. The distribution of this stock to settlers on the estates of the Duke of Sutherland will have considerable effect toward the development of the dairy industry in connection with mixed farming in the south country.

STATE LIFE INSURANCE

Plan Has Not Proved Such a Success as Had Been Anticipated in New Zealand—Management Not Live.

The experiment with state life insurance in New Zealand has failed to produce the results anticipated notwithstanding that the government of the dominion is generally held up as a model for imitation, says the Standard of Boston. The following concise review of the present conditions of the experiment appears in a recent issue of the Travelers' Agents' Record:

"State insurance in New Zealand has been paraded before the public as a great success. Recent facts and statistics, however, make evident that the whole system is practically at a standstill. In seven years the number of policies in force increased from 44,194 to 48,932, an increase of only 4,738. The total insurance in force increased in these seven years by only \$5,000,000. "The increase in 1910 over 1909 in policies in force was only 916, and in new insurance in force less than \$124,000, an insignificant amount.

"Considering that all the new entrants into the civil service must insure with it, that its agents have the same monetary incentive to exertion as the agents of private companies and that it has behind it the prestige of the state, by whom its contracts are guaranteed, no other conclusion can be reached than that its progress is at a standstill and its decline is imminent. The ratio of expenses to premium amounted to 20.2 per cent. Its bonuses are outclassed by several competitors, its lapse rate is abnormally high; it has, in fact, undergone that same process which history regards as often attendant upon business done by the state, lacking in real responsibility, incapable of ordinary business efficiency, perfunctory in its management and lacking in initiative."

WATER NOTICE
FOR A LICENCE TO TAKE AND USE WATER

NOTICE is hereby given that the Queen Charlotte Fishing Company, Limited, of 207 Carter-Cotton Bldg., Vancouver, B.C., will apply for a licence to take and use four cubic feet per second of water out of Edward Creek, which flows in a south-westerly direction through unsurveyed Crown lands and empties into Two Mountain Bay near Tassoo Harbor. The water will be diverted at Third Falls and will be used for industrial purposes on the land described as shown in sketch at Water Recorder's office, Prince Rupert, and situated on the East Coast of Two Mountain Bay.
This notice was posted on the ground on the 10th day of April, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert.
Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C.

Service Must Speak
A STORE is almost human. It is full of temperament. It affects each customer with the composite personality of its management and staff.
There are stores and stores. There are "grouchy" stores and "smiling" stores. There are flip-pant stores and dignified stores. And the peculiar thing about each is that the goods or the prices have little to do with the store's temperament. It is the personality of the store that colors and defines the character of the goods from the customer's view-point and wins or repels approval.
The temperament or personality of a store is vividly expressed in its face. The face of a store is its advertising. You can judge a store by its advertising the same as you can judge a man by his facial expression.
Stores that honestly try to serve their customers best simply can't help advertising. It is the way of human nature that when we have spent the best of our brain power and physical and financial resources in building up something worth while, our enthusiasm bursts forth into publicity. We simply cannot restrain the desire to tell others about it.
In the long run, service is what you pay for, always. The goods, as goods alone, are incidental. Service implies quality, fair prices, safe treatment, and honesty in every detail of every transaction.
The service store is the "serving" store. It is also the honest-advertising store. By this, you may know it always—anywhere.
Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or through the Secretary of the Canadian Press Association, Room 503 Lumsden Bldg., Toronto. Enquiry involves no obligation on your part—so write, if interested.

LOTS OF CASH FOR CANADA

English Capital Available for Improvements but Not for Real Estate Loans and Similar Investments.

Winnipeg, May 28.—R. T. Riley has returned after a three months' visit to England and the continent. Speaking of financial matters in England, Mr. Riley stated that while it was not difficult to secure money on public improvements, there was a growing difficulty in securing it for real estate loans and similar classes of investment.

"There is a feeling over there," said Mr. Riley, "that we are not paying so much as we ought for our money. The reason for this is that Canada has been getting money very freely and there is a feeling against it. There is plenty of money for high class securities, but they will have to undergo a closer scrutiny than they did in the past. There is a peculiar situation existing in England regarding the money market. It seems to be the case that the favorite investment must be either of gilt edged securities or else of highly speculative. I believe that there will be for a long time all the money we want for safe business enterprises, but the English market is beginning to be careful and to make pretty close scrutiny of everything it takes up."

MILLION DOLLAR DAM

Marvelous Irrigation Project by C. P. R. in Calgary District.

According to a statement of Mr. A. S. Dawson, chief engineer of the department of natural resources of the Canadian Pacific Railway, Calgary, contracts have been let for a million dollar work on the irrigation block. This includes a concrete aqueduct to cost half a million, other concrete structures to cost \$300,000, and thirty steel bridges to cost one hundred thousand. The aqueduct is the first of its design to be constructed. It will be 10,500 feet long, with a maximum height of 55 feet, and will irrigate one hundred thousand acres of the Canadian Pacific block. The contract is awarded the Grant-Smith Company & McDonnell of Vancouver.

NEW HOME FOR PRINCE

Penrhyn Castle, North Wales, to Be Put in Order for Him.

London, May 28.—There is a likelihood that the Prince of Wales will have a home of his own in his own principality. The recent death of the Dowager Lady Penrhyn makes it possible to put through the scheme, which has been on foot for some time,

Close In

Lots 14, 15, 16, block 28, section 5, \$800 each; good terms

COLLART & REYNOLDS
Phone 381

to purchase Penrhyn Castle for him. The castle stands on an eminence, two miles from the low nof Bangor, in North Wales. It is a very imposing affair with a high Norman tower and turrets. Its interior is notable for its fine old furniture, sculptured chimney pieces, oak carvings and paneling. There is also a bedstead constructed entirely of slate which is exquisitely tooled and finished. It took 14 years to build the castle and it cost \$2,500,000.

Best meal in town at Savoy.

FOR SALE

Fairbanks-Morse 2 h. p. Gasoline Engine. In use for a short time during which it has given good satisfaction. Will be sold cheap. Apply Box A Daily News.

TONIGHT'S DANCE HELD IN THE RINK

Bachelors Mean to Make a Merry Gathering of It to Drive Dull Care Away—Arrangements for Bright Assembly.

With music and the merriment of the dance tonight the bachelors of Prince Rupert are planning to have a good time and give the girls a treat. It is some little time since a dance was held in Prince Rupert, and there are pretty little feet that are very ready to trip it once the music starts up. Also there are massive masculine arms equally ready to do their duty in the mazy glamor of the waltz. Therefore, tonight's bachelor dance promises to be a merry one and popular. The dance will be held in the Auditorium, which has been gotten ready with a special polish to the floor for the occasion. The music is by Gray's orchestra. As usual with dances toward summer the atmosphere of rigorous formality will be relaxed and evening dress is not essential, but at pleasure.

Stalker & Wells cater to your wishes and want to see you. Grocers to the people.
