Good News For Newspapers . . .

Announcement that the Wartime Prices and Trade Board had removed the overall price ceiling from Canadian and imported newspapers, magazines and periodical publications in general will be welcome news for the newspapers at least. For various reasons, the newspapers have had cause to be alarmed at the effect the war has been having on their revenues, particularly those derived from advertising. True the war has greatly increased reader interest and the circulation of the most of newspapers, including the Daily News, is much expanded when compared with a year or so ago. We are rendering a more valued function than before. Yet we were unable, if we desired to, to demand a price commensurate with the value of the service.

The lifting of the ceiling will leave the press free to adjust rates and safeguard its revenues at least as far as circulation is concerned. The government, in abolishing the ceiling, recognizes the necessity of the newspapers doing something about bolsterng up revenues in view of increasing costs.

Advertising rates were already exempt from price

ceiling regulations.

It might be mentioned in passing that newspaper rates in Prince Rupert-both for circulation and advertising—are ridiculously low.

Now the newspapers will be able to do something more than just think about the necessity of boosting their prices in these days of mounting costs.

NOW IS THE TIME---

Give us an order right away for the amount of coal you expect to need next season. This will enable us to meet your requirements now or as supplies arrive.

It is important that you should lay in your coal supply this summer as it is almost certain that the dealers will not be able to cope satisfactorily with the demand next winter.

IT IS NOT HOARDING TO BUY YOUR COAL EARLY (It is also necessary to place your order a day ahead of Delivery)
