> OTTAWA, Feb. 26: - Removal of 350 male Jap nationals out of British Columbia protected areas will be the first phase of government plan dealing with the Japanese problem on the Pacific Coast, Hon. Humphrey Mitchell, minister of labor, announced last night. The ultimate aim is to remove all Japanese from the coastal area, naturalized or aliens including men, women and children, but that would take time, Mr. Mitchell said.

Despite fierce counter-blows by Allied warcraft in the Indies, official dispatches today indicate that the zero hour is near in the Battle for Java. American submarines, smashing at Japan's seaborne invasion armies, are officially reported today to have torpedoed two enemy transports, an auxiliary ship and a freighter. A bulletin from Netherlands East Indies headquarters announced the attacks had occurred within the past forty-eight hours. In addition, a Japanese warship was listed as presumed hit by an attacking United States submarine which was forced to dive before it could observe the effect of the torpedo. In the Battle of Burma a Reuters dispatch said that fresh Chinese troops were streaming southward into the beleaguered country ready to combat any Japanese thrust toward Mandalay, 375 miles above Rangoon. While British and Indian troops fought desperately to save the latter city. demolition squads destroyed vital installations. A Royal Air Force communique said that twenty-one Japanese planes were brought down this morning in air battles over Rangoon. At Washington, Secretary of War Henry L. Stimson said that the united nations were making a magnicifent defence of the Netherlands Indies and had inflicted heavy losses on the enemy which the Japanese have not disclosed.

German Warships **Badly Damaged**

In London two great German battleships, Gneisenau and Scharnhorst, and the heavy cruiser Prinz Eugen, which dashed out of Brest two weeks ago, were all severely damaged, it has become known. They have apparently been knocked out of the war for some time to come according to a naval review in the House of

OTTAWA, Feb. 26: (P- Prime Minister William Lyon Mackenzie King announced yesterday that Justice Minister St. Laurent had been given power to exclude any or all persons, regardless of citizenship, from protected areas defined under Defence of Canada regulations.

Later came the statement in informed sources that complete Japanese population would be removed from coastal areas of British Columbia and that Japanese will not be allowed to settle as agriculturalists without permit from the Department of Justice although it is believed permit settlement will be arranged because it is unlikely all the Japanese coud be used on road and other construction projects.
