JAPS LOSE DESTROYER

But Enemy Are Successful in Reinforcing Their Troops in Guadal Canal

WASHINGTON, D.C., Oct. 10 (AP)—The United States Navy announced today that a Japanese destroyer had been sunk and a destroyer and cruiser damaged when dive bombers and torpedo planes attacked enemy warships backing up landing operations at Guadal Canal in the Solomon Islands. The enemy succeeded in reinforcing troops on Guadal Canal, the site of an American air base in the Solomons, despite resistance from United States air forces.

REPORT ON BLACKOUT

An official precautionary blackout for the Prince Rupert Area was called early on the morning of October 9 at 3:48 a.m. and the "all clear" was given by radio at one minute to seven the same day over the local radio and by turning on the street lights in the city.

Some confusion resulted in the day and evening due to the local radio going off the air suddenly, caused by a bulldozer working in the rear of the radio station knocking down the poles of the antenna, which were replaced during the afternoon.

This was further increased by an unauthorized statement in the local press that the all clear was given shortly after 10 a.m.

To rectify this unauthorized announcement by the press, radio announcements were made over the radio that the blackout would continue until further notice. It was a relief to all concerned when the "all clear" was sounded at 7 p.m.

The cause of this condition was due to:

1. Unauthorized publication of the "all clear."
2. The accident to the radio station.
3. The careless attitude of the public in not studying the signals.

To try to clarify the latter, a Precautionary Signal of one continuous blast of the sirens for a period of five minutes is given. This necessitates a blackout of all premises and of cars and bicycles, unless properly equipped, when all civilian traffic can proceed at a speed not exceeding fifteen miles per hour.

This precautionary blackout is given as above and no other signals are given, even if this condition may last for several days. This signal is cancelled by an all clear given by an authorized notice in the press and by radio.

The Imminent Danger signal gives an oscillating or undulating with a rising and falling note for five minutes. This signal is cleared by a Return to Precautionary, by giving a blast on the siren of a continued steady note for three minutes. When this is given, it means that raiders have left the vicinity but the Blackout must still continue.

This likewise may continue for several days.

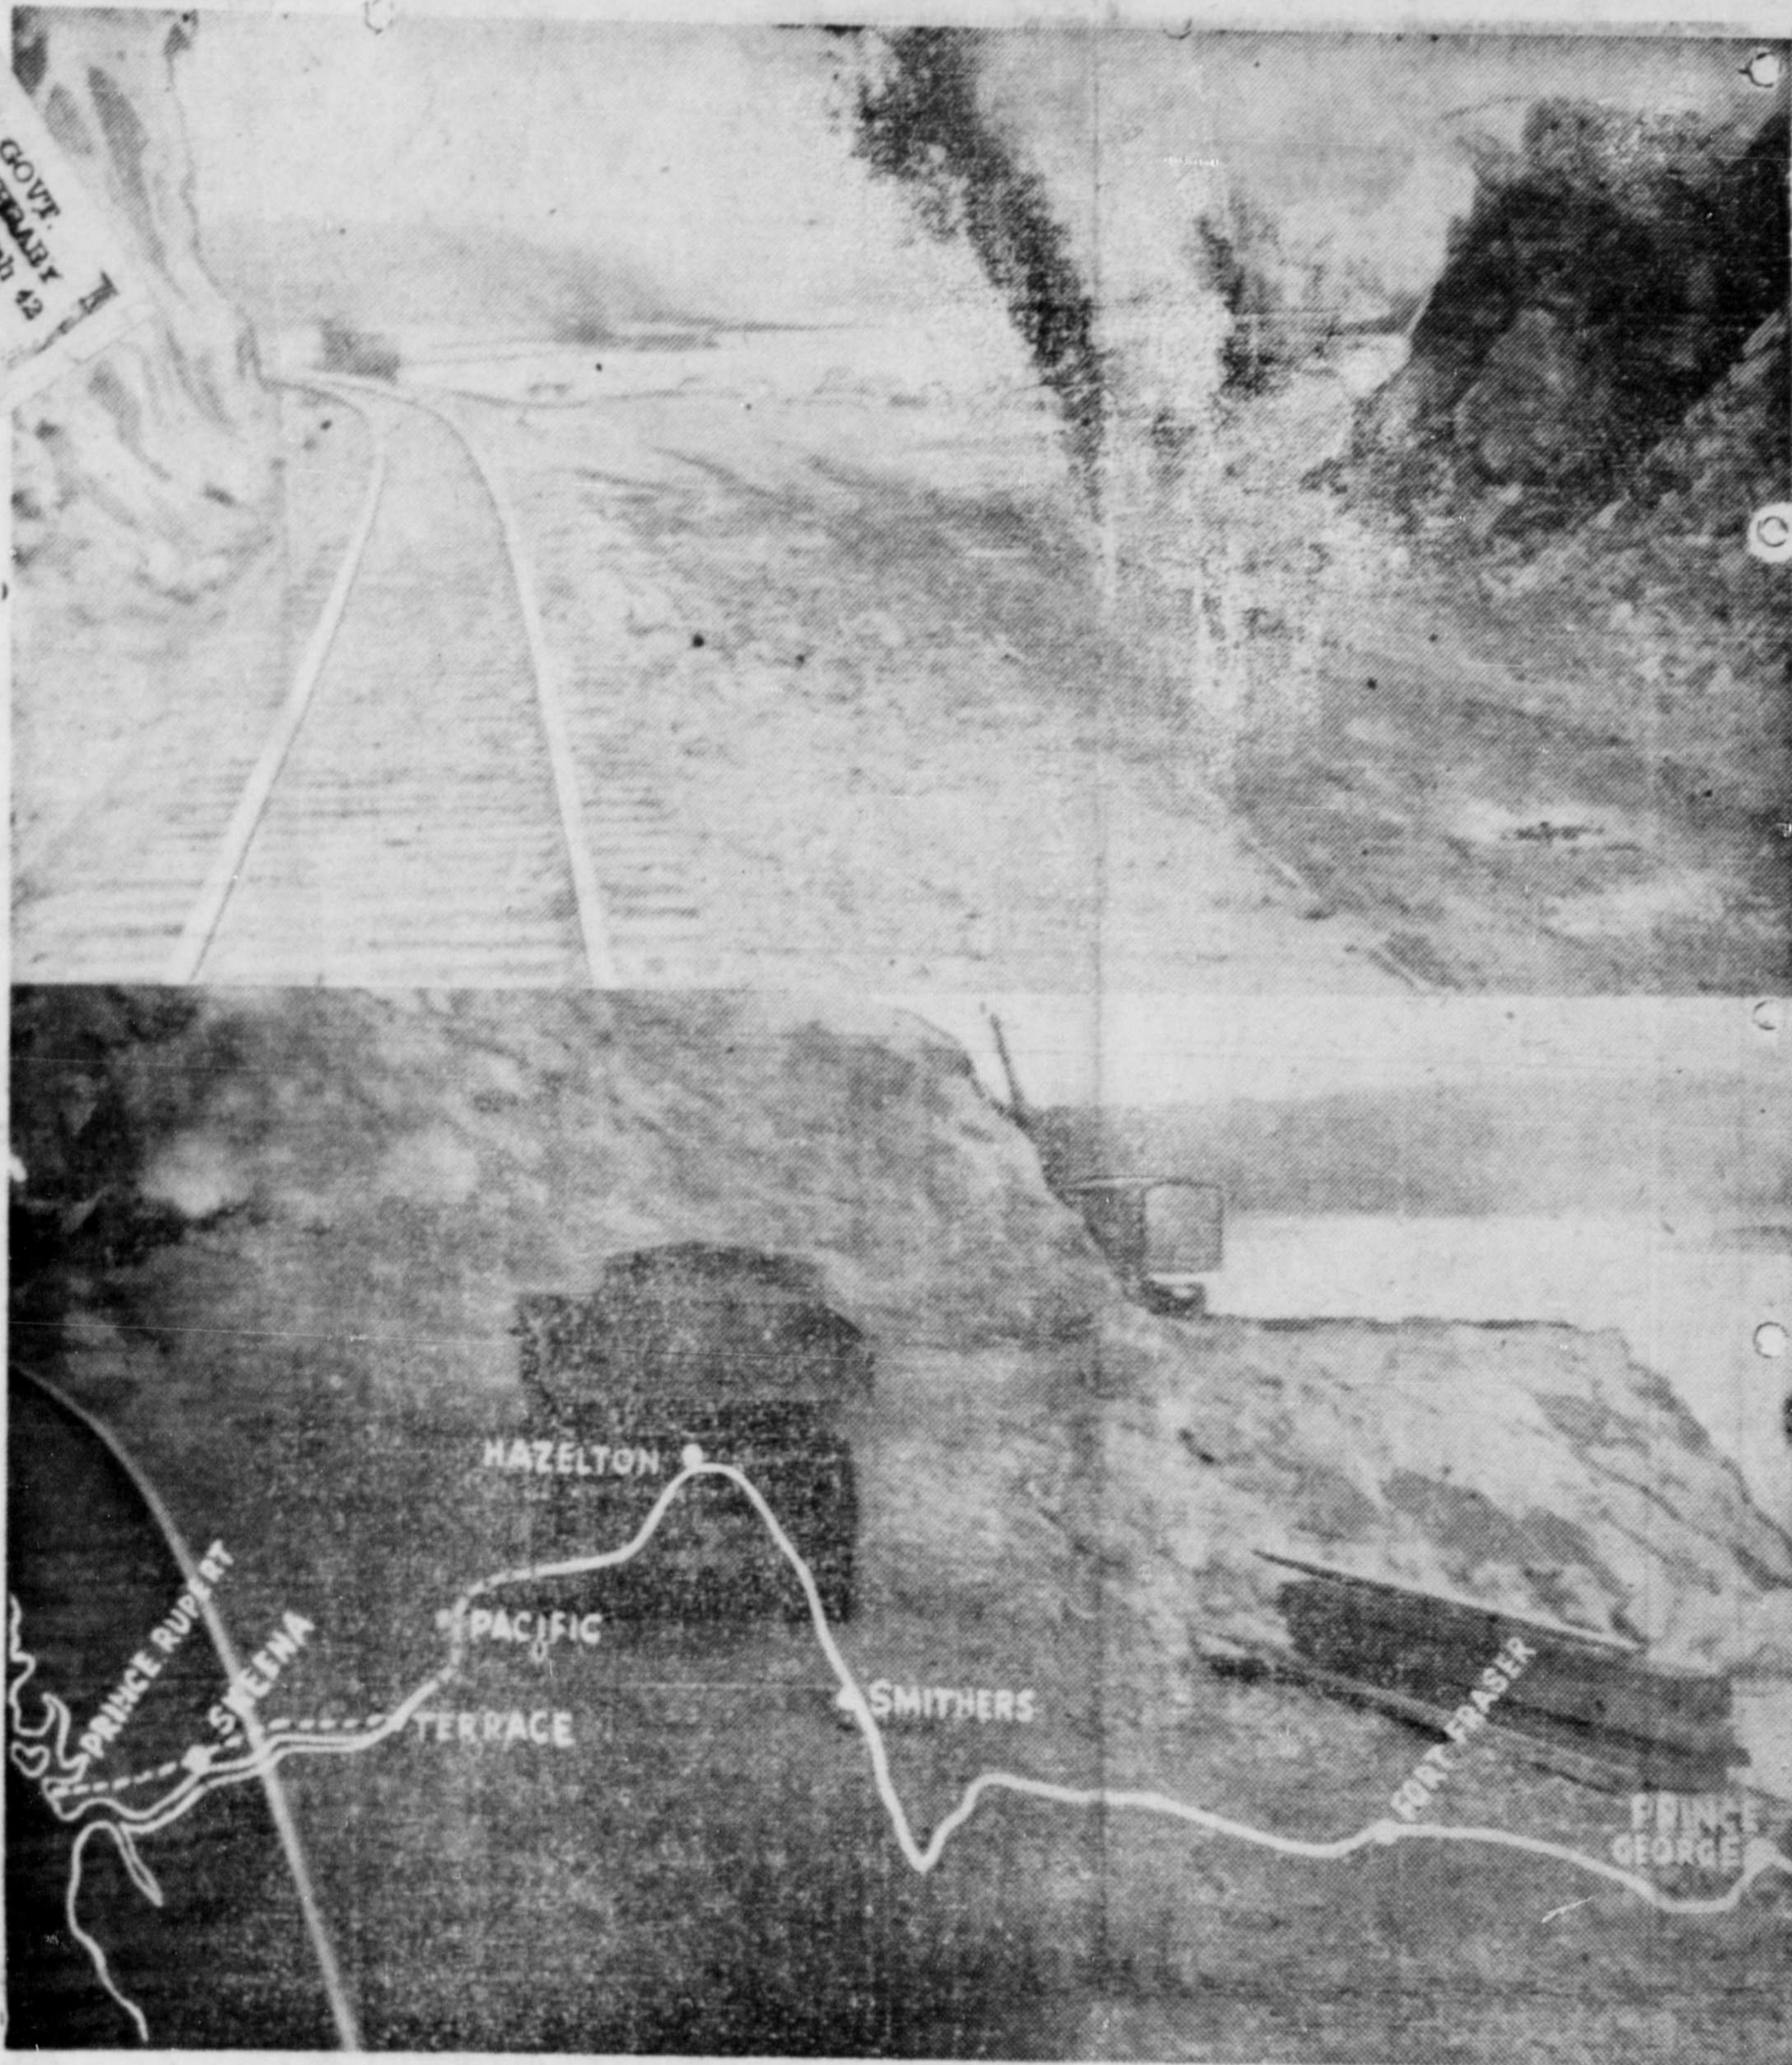

The "all clear" is sounded as usual by the authorized notice in the press and over the radio.

If the people would discuss these signals with their wardens, there should not be any further confusion and, incidentally, they will save themselves and their families an unnecessary amount of worry.

Skeena River Highway

ROAD-BUILDING BLITZ—The 170 miles of rock cliffs and swamplands that separate Prince Rupert from British Columbia's highway system are being subdued by eight Canadian contracting firms in an all-Canadian road blitzkrieg. At intervals along the steep banks of the Skeena men and road-building equipment are rushing the 20-foot highway to completion.

In the lower picture a steam shovel is seen perched on the edge of the river digging into a pyramid of rock, while above is seen a section of the new roadbed running alongside the railroad tracks, with the Skeena in the background. Route of the new highway is outlined.

CANADA IS IN CUFFING

Retaliatory Action Ordered in This Country Similar to That in Britain

OTTAWA, Oct. 10 (CP)—Instructions to start manaculating German prisoners of war in Canada went forward at noon Eastern Daylight Time (9 a.m. Pacific Standard Time) today to the Department of National Defence as Canada retaliated for the chaining of Canadian prisoners captured by the Nazis at Dieppe.

Instructions were transmitted from the Department of External Affairs which yesterday sent to Germany through the Swiss consul-general notification that such action would be taken unless Germany freed the Dieppe Canadians.

Presumably many, perhaps most, of those shackled in Germany were Canadians captured at Dieppe.

The issue between Germany and Canada on the one hand and Germany on the other is based on the Nazi contention, denied by British authorities that British soldiers handcuffed Germans during the Dieppe battle and the commando raid on Sark.

NO HANDS TIED

The British government said in a statement today that, although unauthorized orders had been issued before the Dieppe raid directing that the hands of German prisoners be tied to prevent them from destroying papers, no prisoners were so treated and the order was later countermanded.

Berlin admits that 1367 British prisoners have been manacled.

QUOTAS ARE SET

Northern British Columbia Asked To Raise \$1,425,000 in Third Victory Loan

British Columbia and the Yukon have been again divided into nine divisions for the Third Victory Loan campaign which will commence on October 19.

The divisions, with the amounts to be raised in each area, are:

Vancouver City	\$28,940,000
Vancouver Suburban	2,650,000
Coast	3,100,000
New Westminster-Fraser Valley	3,245,000
Okanagan-Kamloops-Revelstoke	2,565,000
The Kootenays	4,950,000
Northern B.C.	1,425,000
Yukon-Atlin	375,000
Vancouver Island	12,750,000

These divisional allotments total \$60,000,000. *Another \$15,000,000 is expected to come from the B.C.-Yukon's share of national subscriptions, making a grand total of \$75,000,000.

Final Bid— NAZIS ALL OUT AGAIN IN RUSSIA

MOSCOW, Oct. 10 (AP)—Tank and infantry attacks so ferocious that observers believed them the German High Command's supreme bid for a quick decision in the Battle of Stalingrad were reported today as Red Army troops entrenched themselves for positional warfare against the Nazi flank northwest of the city.

A front line correspondent of Izvestia said there was every reason to believe that Adolf Hitler's field officers expected finally to master the battered city but "this expectation was not fulfilled."

A tank division and motorized infantry were among several fresh German units leading the latest offensive. The four day action was concentrated on a workers' settlement northwest of Stalingrad and was aimed at cutting through the city's heart to the Volga.

Izvestia said that as many as eighty assaults were launched in this phase of the battle with the most of them failing utterly and others gaining only a few dozen yards.

AIR WIN AT LILLE

Exceptionally Good Showing Made By Allied Forces in Big Daylight Attack

LONDON, Oct. 10 (CP)—Heavy damage with numerous casualties in the important occupied-French railway centre of Lille which was attacked yesterday by a force of 100 United States fortress bombers and hundreds of British escorting fighters which roared out to what was described as the largest daylight operation of its kind in the war. It is understood that fighter squadrons of the Royal Canadian Air Force formed part of the escort.

Allied losses were remarkably light. Five fortresses failed to return but the British lost no planes. Forty-one German planes were shot down.

These Are Also Included in Latest Canadian Contingent to Reach Britain

AT A BRITISH PORT, Oct. 10 (AP)—A draft of the Royal Canadian Navy and fire fighters were included in the latest Canadian Expeditionary Force which has arrived in Britain.

HELP TO BOOST VICTORY BONDS

The National War Finance Committee, public relations section, has provided the Daily News with a number of attractive illustrations for use in connection with sponsored newspaper advertising for the Third Victory Loan campaign.

The co-operation of all business people in supporting the Victory Loan campaign by using newspaper space for sponsored advertisements is being enlisted.

The Daily News is also in possession of suitable texts for such advertising in case business people desirous of taking part have no particular ideas of their own.

We are ready to assist in suggesting both illustrations and messages but would suggest quick action. Already we have had several orders for space during the campaign.

FIRE PREVENTION

Editor, Daily News:
Today brings to an end a week of activities in a continental campaign for fire prevention in the whole of Canada, together with all the United States. Surely, such considerable effort must accomplish something. Certainly nothing can be lost in the attempt to make our people fire-conscious. In terms of the overturned lamp in Mrs. O'Leary's stable which caused the great fire of Chicago inestimable damage may have been averted. It would need a more resilient imagination than mine to estimate that.

But we are truly grateful to our local press for having so generously furthered our efforts. In closing our campaign locally may I pass on a thoughtful verse taken from the press of the October Literary Digest and which I used in my talk at Rotary Thursday. It applies equally well to fire prevention as it does to war effort.

"The Lord gave us two ends to use.
One to think with, one to sit with.
The war depends on which we use.
Heads we win—tails we lose."

—CITY FIRE CHIEF.

ACTIVITIES OF Y.M.C.A. AND Y.W.C.A.

By DOROTHY GARBUTT, Hostess

We went to the Grenadiers' dance Thursday night and discovered that the "A. B. C." of entertainment is "A"—Anderson's "B"—"C"—company. They put on a grand dance at the armories. The orchestra was the best ever with several professionals in the group. At the dance at the armories. The orchestra was the best ever with several professionals in the group. At the dance at the armories. The orchestra was the best ever with several professionals in the group.

I heard of a certain Imperial officer in our midst who had the opportunity of leaving Prince Rupert and refused because he liked Prince Rupert. A refreshing viewpoint after so much grouching which goes on around here. Too much, I'd say. There are many worse spots than this town. Captain Garbutt, when writing to Captain Stewart the other day, said the Fusiliers were already wishing they were back in Rupert.

I promised Carl Clay faithfully that I wouldn't tell and, so as to show that I'm a woman of my word, any resemblance in the following story to any person living or dead or to any incident—also living or dead, is purely intentional.

Once there was a nice young Y.M.C.A. man named Grosvenor Muddle who was addicted to fencing. In fact, he was so much that way that he couldn't pass a picket, paling or barbed wire fence without yelling *touche*—but that's beside the point. He liked to have bouts with sailors, one sailor in particular with the good Scottish name of Donald MacDonald. They would bout and bout and *touche* and *touche* and lunge and lunge no end until the Y shook with the noise of it and the spectators shook with laughter to see their two faces grinning behind the iron grill-work masks. They were for all the world like the fiercest sunshine seeping between the framework of a dead horse's skeleton. One thing bothered MacDonald and that was that, no matter how quick he was on the draw, Grosvenor always won out.

Bridge Draw Is Announced

Tournament of Queen Mary Chapter to Get Under Way Soon

Draw for the first round of the Imperial Order, Daughters of the Empire, fall bridge tournament has been made and is as follows:
Mr. and Mrs. G. Blank vs. Mrs. C. Dodimead and Mrs. G. A. Hill.
Dr. and Mrs. J. MacDonald vs. Mrs. E. Gammon and Mrs. J. Jack.
Mrs. S. Horgan and Mrs. Kaspar

It fair sent him daft thinking about it. Then came the dawn. One day a newcomer, a rank amateur, asked to be taught to fence. Rapiers were brought out and the newcomer quick as lightning measured them each with the other, a thing that had never occurred to Donald MacDonald. And whaddaye think? Grosvenor Muddle's rapier was two inches longer than Donald MacDonald's, or at any rate than the one Donald MacDonald had been using. Oh the perfidy of it! Oh the double dealing! Oh Grosvenor, shame on you, shame on you, of fie fie!

PEOPLE ARE SAYING

"Tell us what you want. We know that this war must be won. What matters money when life is at stake? What is mere self-denial compared to sacrifices of our men at Dieppe? We're ready for self-denial. We'll tighten our belts; we'll go without. We'll lend our money. We'll do everything to insure Victory. But tell us what we should do and let's get on with it."

Very well, then, you must SAVE and invest your savings in Victory Bonds.

What's your share of this Savings job? Well, the average Canadian would have to lend to Canada, to meet Canada's need, \$1 in every \$5 of income left after taxes and compulsory savings have been collected.

But the average may not fit your case.

Your own circumstances are distinctly your own. You may be able to do better both out of your current income and out of your accumulated savings in the bank—or you may not be able to reach the average. Your share of voluntary savings is every dollar you can possibly spare.

Up to now most of us who stay at home haven't suffered very much. We haven't had to practice much self-denial. On the contrary, most of us are earning and spending more money. Yet the price of this spending is being paid for by the blood and sacrifice of others.

We who stay at home must deny ourselves before we can claim to bear our share in this struggle. We must economize; go without; tighten our belts. We must save and buy Victory Bonds until we really feel the "pinch" of war's demands. We must learn that freedom must be paid for as well as fought for.

 Halibut Landings For Season Complete—
 Schooner Radio Is Lost

Halibut landings at the port of Prince Rupert for the 1942 season total 16,993,719 pounds. The final catches following the closing of the year's fishing operations were landed Tuesday. The 16,993,719 pounds total for 1942 compared with an aggregate of 15,556,000 pounds in 1941. The Canadian total this year was 4,122,919 pounds as against 5,656,100 pounds in 1941 while the American total was 12,870,800 pounds in comparison with 9,903,900 pounds. The season ended up with prices quite strong, the Lois N. topping the Canadian price with 18.1c and 13.5c for 46,000 pounds while the closing price for American fish was 15.9c and 13c received by the Summit for 19,000 pounds.

The well known Seattle halibut schooner Radio has been lost in the Gulf of Alaska. Her owners in Seattle received a message on September 30 from Capt. Martin Bergman that the vessel had been lost, her crew being landed safely at Kodiak. All the crew were alive and well. The weather in northern waters was very stormy towards the end of the season.

The records of the International Fisheries Commission show that for the period from April 16 to Sept. 30, 1942, the following amounts of halibut have been landed in Pacific Coast ports from Area 3:

U. S. fleet	23,568,930
Canadian fleet	1,901,326
Total	25,470,256

In 1941 the landings from April to September 30 amounted to:

U. S. fleet	25,587,621
Canadian fleet	2,350,333
Total	27,937,954

For the month of September, 1942, the following amounts of halibut were landed:

U. S. fleet	5,199,673
Canadian fleet	774,326
Total	5,973,999

Landings from the closed Area 2 during September were restricted to that halibut caught incidentally while fishing with set lines for other species under permit and amounted to 230,617 pounds.

Terrace Girl Is Soldier's Bride
 TERRACE, Oct. 10.—Miss Margaret Little, third daughter of Mr. and Mrs. William Little, was married to Sapper Leonard Casey, Royal Canadian Engineers, Ottawa, Monday evening at her parents' home. The ceremony was performed by Rev. W. Drury. It was a quiet wedding. The bride was lovely in a white sheer. Her sister, Miss Amy Little, made a pretty bridesmaid and Sapper Anderson was groomsman.
