

ARE JAPS USING JOHORE BAHRU CAUSEWAY?

This is the Johore Bahru causeway, famed passage across the Straits of Johore, connecting the British stronghold of Singapore with the Malay mainland. After refugees had been evacuated from the mainland British army engineers dynamited the thoroughfare but the Japs are said to have repaired it.

Crisis At Singapore

Fate of Great Fortress Is In Balance With Prospects Of Holding Out Very Scant

Japanese Claim to Have Already Entered City—Sudden Change Made in Command of Allied Naval Forces—Dutchman Takes Over.

LONDON, Feb. 11: (CP)—Tokyo headquarters claimed today that Japanese troops had entered "the city area of Singapore" at 8 a.m. local time but, with a population of more than 750,000, "the city area extends four or five miles from the centre of Singapore." Meanwhile a change was announced in the Allied High Command in the southwest Pacific with Admiral Thomas Hart, United States Asiatic commander, relieved of his post as commander-in-chief of Allied naval forces in the area because of ill-health. He is succeeded by Vice-Admiral Helfrich of the Royal Netherlands Navy.

The Singapore radio heard in London shortly after 5 p.m. (9 a.m. PST) said the situation on the island was very serious but "had not deteriorated in any way." British forces defending Singapore have slashed back at the Japanese invaders in two violent counter-attacks, defying an overwhelming number of enemy guns and planes in a desperate effort to save the island, it was announced earlier in the day. The counter-attacks were said to have scored "some measure of success" and British commentators declared that the situation was "certainly no worse and indications are in some ways better."

An authoritative source said there was no information in London indicating that the Japanese had entered any part of the city of Singapore.

Until news of the counter-attacks reached London this morning, the fall of Singapore and the gallant garrison was believed only a matter of days and, perhaps, hours distant.

British commentators said all they could hope for was to postpone inevitable fall of the fortress unless reinforcements, chiefly in the air, arrived in time. There was no tendency to regard the counter-attacks as more than checking the situation for a few hours and commentators were silent on the matter of reinforcements.

The Japanese are now at a point where they are threatening Singapore's reservoirs, food supplies and vital services.

Japanese planes have dropped leaflets, demanding surrender of the city with the threat that, failing capitulation, it will be "reduced to ashes."

With superiority in the air over the fortress, the enemy are able to carry out unrestricted dive bombing and machine-gunning of British troops. They have also been able to land tanks, it is stated. Denial has been made of reports that the Japanese had repaired the causeway across Johore Straits and brought across troops and equipment that way. All the invasion forces have so far been water-borne mostly by barges, it is claimed. The enemy claimed to have penetrated western sections of the city but this was not confirmed by the British.

The situation is extremely critical and the next twenty-four hours, it is said by some, may tell the tale.

Governor Sir Shepton Thomas issued a statement saying: "We are all in the hands of God." Japanese divisions totalling 125,000 men are believed to be attempting a lightning victory.

COALITION SUSTAINED

Three Divisions in Legislative—Pattullo Votes Against Government in One.

VICTORIA, Feb. 11: (CP)—The coalition government was sustained on three divisions last night.

The first test came on a bill giving the government power to lease oil lands to private companies for development on royalty basis not exceeding fifteen percent. It was the second reading of an amendment to the Coal and Petroleum Act. The division was called for by T. D. Pattullo, M.L.A. for Prince Rupert, who voted with the Co-operative Commonwealth Federation and Tom Uphill, Labor member for Fernie, against the amendment. The bill was sustained 30 to 16.

The two other divisions were on C.C.F. measures which, on being put to the vote, were defeated, Mr. Pattullo voting with the government against these.

VISIT BY PRINCESS

Wife of Governor General Calls at Montreal Telegraph Offices to Inspect Refugee Clothing.

MONTREAL, Feb. 11:—Her Royal Highness, Princess Alice, paid an informal visit Tuesday afternoon to the offices of the Canadian National Telegraphs here to inspect children's outfits, made in their own time, by members of the Canadian National Telegraphs Girls' Service group. These outfits, for infants and children up to six years of age, are going forward through the Canadian National Railways Employees War Services Association to the Royal Sailors Rest at Portsmouth, England, an institution which provides for the care of dependents of seafaring men.

Large consignments of similar outfits, the work of this group, were sent during the past year. This activity having come to the attention of Princess Alice, Her Royal Highness expressed a desire to examine the work and to receive the workers' responsible for the undertaking. Accordingly, arrangements were made to display these articles, numbering 747 in all, with the exception of shoes for tots, every article exhibited was made by a worker employed in the telegraph service.

After examining the work on display, Her Royal Highness personally greeted the members of the group and commended them for their thoughtfulness in aiding such an admirable work.

Princess Alice, who is the wife of Governor General Lord Tweedsmuir, is on a tour of the West Coast of Canada.

GERMANS TAKING WORSE BOMBINGS THAN GIVEN

Canadian Pilot Who Knows the North Country Tells of War Flights Against Europe's Worst Weather.

A ROYAL AIR FORCE STATION SOMEWHERE IN ENGLAND, Feb. 11: (CP)—Squad Leader John Fauquier of Ottawa, flight commander with a Royal Canadian Air Force bomber squadron, took up flying "because I didn't like sticking in an office," and he is doing his share of bombing over Germany which he says is having to take more than the Nazis gave Britain during the raids of 1940 and 1941.

An airman since 1920 when he gave up his job with a Montreal brokerage firm, the 32-year-old officer took up bush flying and piloted aircraft into Noranda, Chibougamau and around the Gulf of St. Lawrence. "I'm very happy with this kind of flying but I'll be happy too when I never see another plane," he said, recalling an anxious flight he made towards the end of last year.

Gauges at Zero
Fauquier spent a worried 50 minutes over the North Sea with the gasoline gauges in his Wellington registering zero. But the engines kept going and he got back safely to base, "although I figured I was in for it and I couldn't have had much more than a splash of petrol in the tanks when we landed."

He was coming back from Berlin after the Nov. 7 raid when the British lost 37 machines. Fauquier, who hasn't missed a flight since he was made a flight commander, said the raid was a "bad one."

"The weather was awful and the wind was blowing up to 60 and 70 miles an hour. The weatherman sure was against us."

Fauquier, whose duties include the organization of crews to go on operations and the training of pilots, is in charge of a group of eager Canadian youngsters who complain bitterly if the weather "scrubs"—forces suspension—of operations.

"As long as the weather is good we're at it," the Ottawa flier said. "During the heavy raids against this country last year the weather favored the Germans, but this year it hasn't been very good to us and we don't get out as often as our crews would like to."

Over Enemy Lands

Fauquier has made more than 10 raids over enemy territory since he became a flight commander. Besides Berlin, he has been twice to Stettin, German Baltic Sea port, Nuremberg, Kiel, Hamburg, Emden and Essen and St. Nazaire, the German submarine base in occupied France.

His squadron is commanded by Wing Commander R. M. Fenwick-Wilson, A.F.C., of Rock Creek, B.C., and of all the squadrons he has been with this one is "tops."

"The morale is the best I've seen and the boys are a grand gang and a happy bunch."

Herman Engelke returned to the city on the Catala yesterday afternoon from a brief business trip to Stewart.

Tenders Called For Altering Of Assay Building

Tenders are now being called by the provincial government for alterations to the warehouse building at the corner of Third Avenue and Market Place in which is to be established the assay plant of the Department of Mines. It will be a couple of months, it is expected, before the plant will be ready for operation.

Near 200,000 More Men Are Needed in 1942

OTTAWA, Feb. 11: (CP)—Canada's war program for 1942 calls for the raising of between 172,000 and 192,000 additional men for army, navy and air force. Hon. J. L. Ralston, minister of national defence, told the House of Commons yesterday. The additional enlistments, he said, would bring the total enlistments since the war began to between 595,000 and 615,000 men. Of the additional men to be enlisted this year it is estimated 80,000 will be required for the Royal Canadian Air Force and 13,000 for the navy with the balance for the army. One hundred thousand men will be needed for war industries. Col. Ralston believes that voluntary enlistments may take care of this year's military requirements if the volume of enlistment keeps up like it has in the past four months. Col. Ralston said he had faith in the success of the voluntary method of enlistment and would do all in his power to retain it. However, should it prove a failure he would feel it his duty to adopt the other method. Hon. J. G. Gardiner, minister of agriculture, also favored continuation of the system of voluntary enlistment and would support compulsory service only if it was found to be the last means of meeting the army's needs for men. He would be opposed to compulsory service methods until it was absolutely necessary.

After examining the work on display, Her Royal Highness personally greeted the members of the group and commended them for their thoughtfulness in aiding such an admirable work.

Princess Alice, who is the wife of Governor General Lord Tweedsmuir, is on a tour of the West Coast of Canada.

NAZIS IN RETREAT

Resistance in Russia Is, However, Reported Stiffening.

MOSCOW, Feb. 11: (CP)—Nazi invasion armies have been thrown back nearly two hundred miles in some sectors of the long Russo-German front.

There was a stiffening of the enemy resistance in Russia today as the paralyzing grip of winter abated and fighting increased in violence.

Military quarters said that the Germans were now making a determined stand although Soviet dispatches declared that the Red Armies were continuing to advance with a number of villages and German fortifications captured on the Ukraine front.

What Does It Mean? . . .

The defeat of Senator Meighen in the Ontario by-election is another indication that the people of Canada do not want an old man for their leader. We do not wonder at that. We have again and again suggested that what was needed was a young man with new ideas possibly a new policy, new life, new political magnetism. The result of the by-elections indicates that people are ready to go to any extreme in order to make it clear that they do not want old men as leaders of political parties.

C.C.F. Encouragement . . .

The C.C.F. political party will be much encouraged by the Ontario voting. To win in a Conservative seat and at the same time defeat an outstanding man is a real political feat. It gives the Socialists an entry into big time politics that should prove helpful in future contests.

Vote On National Service . . .

It is evident now that the people of Ontario and Quebec wish an opportunity to vote on the question of National War Service, usually spoken of as "conscription." It must be clear that the government will go ahead with its preparations for taking the vote of the whole country and that it will probably get the popular endorsement which is expected. The government seems to have known pretty much what the people down there wanted.

Many Implications . . .

Many implications may be drawn from Monday's vote. Some may say that it was a vote against a proposal to conscript wealth for the war because the new leader of the Conservatives declared himself in favor of that policy. Perhaps no particular line of policy was implicated in the result, not even that of endorsing the vote on conscription. Personalities seemed to have had an effect in influencing the vote. It must be remembered that the Mackenzie King government was not opposing the Conservative leader but did not nominate as a matter of courtesy. Now, the members of the party are being accused of voting C.C.F. in order to defeat Meighen. If they did so, that may or may not have been good policy. It is foolish to suggest that Liberals do not want the Conservatives to have a leader. If they do not have Meighen they will probably get a better one.

WINNERS OF HANSON CUP

Newbery Rink Captures Curling Trophy At Smithers

SMITHERS, Feb. 11.—The curling tournament for the Hanson Cup was completed on Monday night with the Newbery rink winner of the trophy for 1942. Eleven rinks were in the tournament and in the ten games played the Newbery rink lost only one, this defeat being suffered at the hands of the O'Neill rink which, curiously enough, counted this as its only win out of its ten games. The Newbery rink was composed of F. Newbery, skip; Fred Somerton, W. H. Lewis and F. Newbery jr.

The Simpson rink was runner-up with three losses and seven wins. The tournament was held up slightly during a mild spell but when curling was in progress, the ice was in excellent condition.

Two Smithers rinks will go to Prince George next week to participate in the bonspiel there. On the following week it is planned to carry out the Smithers bonspiel when it is expected to have several outside towns represented. It is hoped that Prince Rupert will be able to send up a team.

DRY DOCK IS WINNER

The fast-stepping Dry Dock intermediate basketball team last night stepped into a tie with the Booth Memorial High School for first place in the league standing with one game more to play to make their bid for top honors more convincing. They defeated High School 22-29 in a fine game.

The High School boys have played one game more than the shipbuilders and are actually in a precarious position. They very likely may drop behind first place for the first time this season.

Barons, the third team in the loop, will meet Dry Dock Saturday and, should they be able to squeeze out a victory, they will assume league standing equal to their two opponents.

In last evening's game Donald Fitch, Dominic Montesano and Alex Bill played well, the scoring honors went to diminutive Jim Sheddou who picked off 9 points for the evening.

"Shorty" Santurbane was the only High School player to play up to standard. He was without support in many respects, his mates being seemingly off color, a condition prevalent among them since the defeat they received in the Ketchikan series some weeks ago.

Individual scores:
High School—Santurbane, 6; MacDonald, 6; Arney, 6; Long, Alexander, 1; Postuk, 1; Gurvich, 2; Lee, Total, 22.
Dry Dock—Fitch, 1; Sheddou, 9; Bill, 8; Montesano, Pavlikas, 4; Vuckovich, 4; Sherk, 3. Total, 29.

MIXED BOWLING

Toilers will play Rinky Dinks and Woanjas will meet Pushovers in the first session of the weekly Mixed Bowling League fixtures tonight. In the second session it will be Sav-Mor vs. Stone's Clothiers and People's Store vs. Alley Cats.

Basketball Buzz

The Sons of Kincolith basketball team will arrive in the city today for a game with the Savoyos to be played this evening. These two teams were to have met Monday night but, due to the fact that one of the village leaders passed away, the Kincolith players were forced to postpone their visit.

On the same card the ever-popular Metlakatla Panthers will meet the Baycons, while the local High School will play Kincolith intermediates in the curtain-raiser. The games will be played at the Exhibition Building.

The Kincolith team are understood to be a fast, clean outfit and are expected to give the Savoyos a tussle.

The writer picks the home towners to take the game as there is always that little edge of home loor, home crowd, etc.

WINNERS AT PR. GEORGE

Smithers Makes Clean Sweep Of Hockey Series

SMITHERS, Feb. 11.—The Smithers hockey team of senior players travelled to Prince George on Saturday to play the Prince George team a series of three games in return for the games played at Smithers recently. The Smithers boys made a clean sweep of the series, defeating the home town team 6 to 1 on Saturday night, 6 to 3 on Sunday afternoon and also winning the Monday night game by the score of 8 to 6.

A little excitement was created on Sunday afternoon when the boys dropped their sticks and started using their fists. Sixteen home town players tried to show ten visitors that they couldn't win at everything but this phase of the game was declared a draw.

The Smithers Juniors will go to Prince George shortly to play for the Webber Silver Cup against the winners of the Cariboo and interior. This cup was presented by H. C. Webber, manager of the interior of B.C. for the Mutual Life Assurance Co., and was won for the first time by Smithers last year playing against Quenel, which team was the champions of the Cariboo and interior. The Smithers team has been greatly weakened since last year, some of the boys having joined the army and air force and others having gone to other places but the locals still feel they are able to put up a good fight for the cup.

A still more junior team, the Bluebirds, will also be on the road to Prince George next week-end to take on their opposites at that point.

NEW PAPER IS STARTED

Organized Labor Starts Stockholm Evening Sheet to Combat Nazism.

STOCKHOLM, Feb. 11.—Backed by Landsorganisationen (Swedish Federation of Labor), which has provided capital of 3,000,000 kronor (about \$750,000 at par), Aftonbladet, a new evening newspaper will begin publication here on March 15. Frans Severin, a labor writer and a member of the second chamber of the Riksdag since 1933, has been named as editor.

The newspaper is being started

to provide a counter-balance to the evening newspaper field to the present Aftonbladet against which the Social-Democratic party has conducted an effective boycott charging it with an "un-Swedish attitude."

The capital for Aftonbladet was provided under a resolution adopted at the Swedish Labor Federation's Congress held here last fall. The incorporators are August Lindberg, president of the Swedish Federation of Labor; Axel Strand, Sigvard Cruse, Ernest Eriksson and Oscar Westlund, three prominent Swedish labor leaders. The Conservative party, the largest political party, is also represented in the Stockholm evening paper field by Nya Dagbladet Allehanda.

Changes Needed— ELECTORAL REFORM IN GT. BRITAIN

Estimated 50 Percent of Eligible Voters Have Been Put Off Lists by War's Vagaries.

By HAROLD FAIR
Canadian Press Staff Writer

LONDON, Feb. 11:—Britain cannot hold a general election with all eligible voters participating until the election machinery is overhauled but the government has moved to study reforms needed. The electoral register has not been renovated since June, 1939, and persons reaching voting age since then are still not eligible because their names are not on the list. Wartime population movements brought further complications and because of absence of voters from their constituencies some observers estimate as many as 50 percent are no longer able to vote.

To meet the problem, Home Secretary Herbert Morrison and Tom Johnson, secretary of state for Scotland, appointed a 15-member all-party committee to study reforms and report on their inquiry. The move does not mean an early election, informed sources said, but is designed to have needed machinery available after the war.

Possible Redistribution
This committee, headed by Sir Sylvania Vivian, registrar-general for England and Wales, also will consider redistribution of parliamentary seats, regarded as long overdue. Mr. Morrison told parliament that in the debate on the Prolongation of Parliament Act last autumn a good case has been made for a factual investigation of problems which would arise regarding preparation of a new voters' list and possible redistribution.

The committee's terms of reference directed it to consider whether improved registration machinery could be devised "having regard especially to the circumstances likely to obtain in the period following the termination of hostilities and to examine technical problems connected with redistribution."

As to By-Elections
Until changes are made the country will continue to see any by-elections, forced by independents despite the wartime party truce, fought on an increasingly stale register. Effect of the present situation was seen in many by-elections last year where only a small part of the electorate voted.

Whether a settling-down period will be allowed before a new register is compiled depends on the political situation. After the last war when the election took place within five weeks of the Armistice men serving on the Western Front voted by mail while those farther away cast their ballots by proxy.

Many politicians have urged that no election take place until three or four years after the war's end.

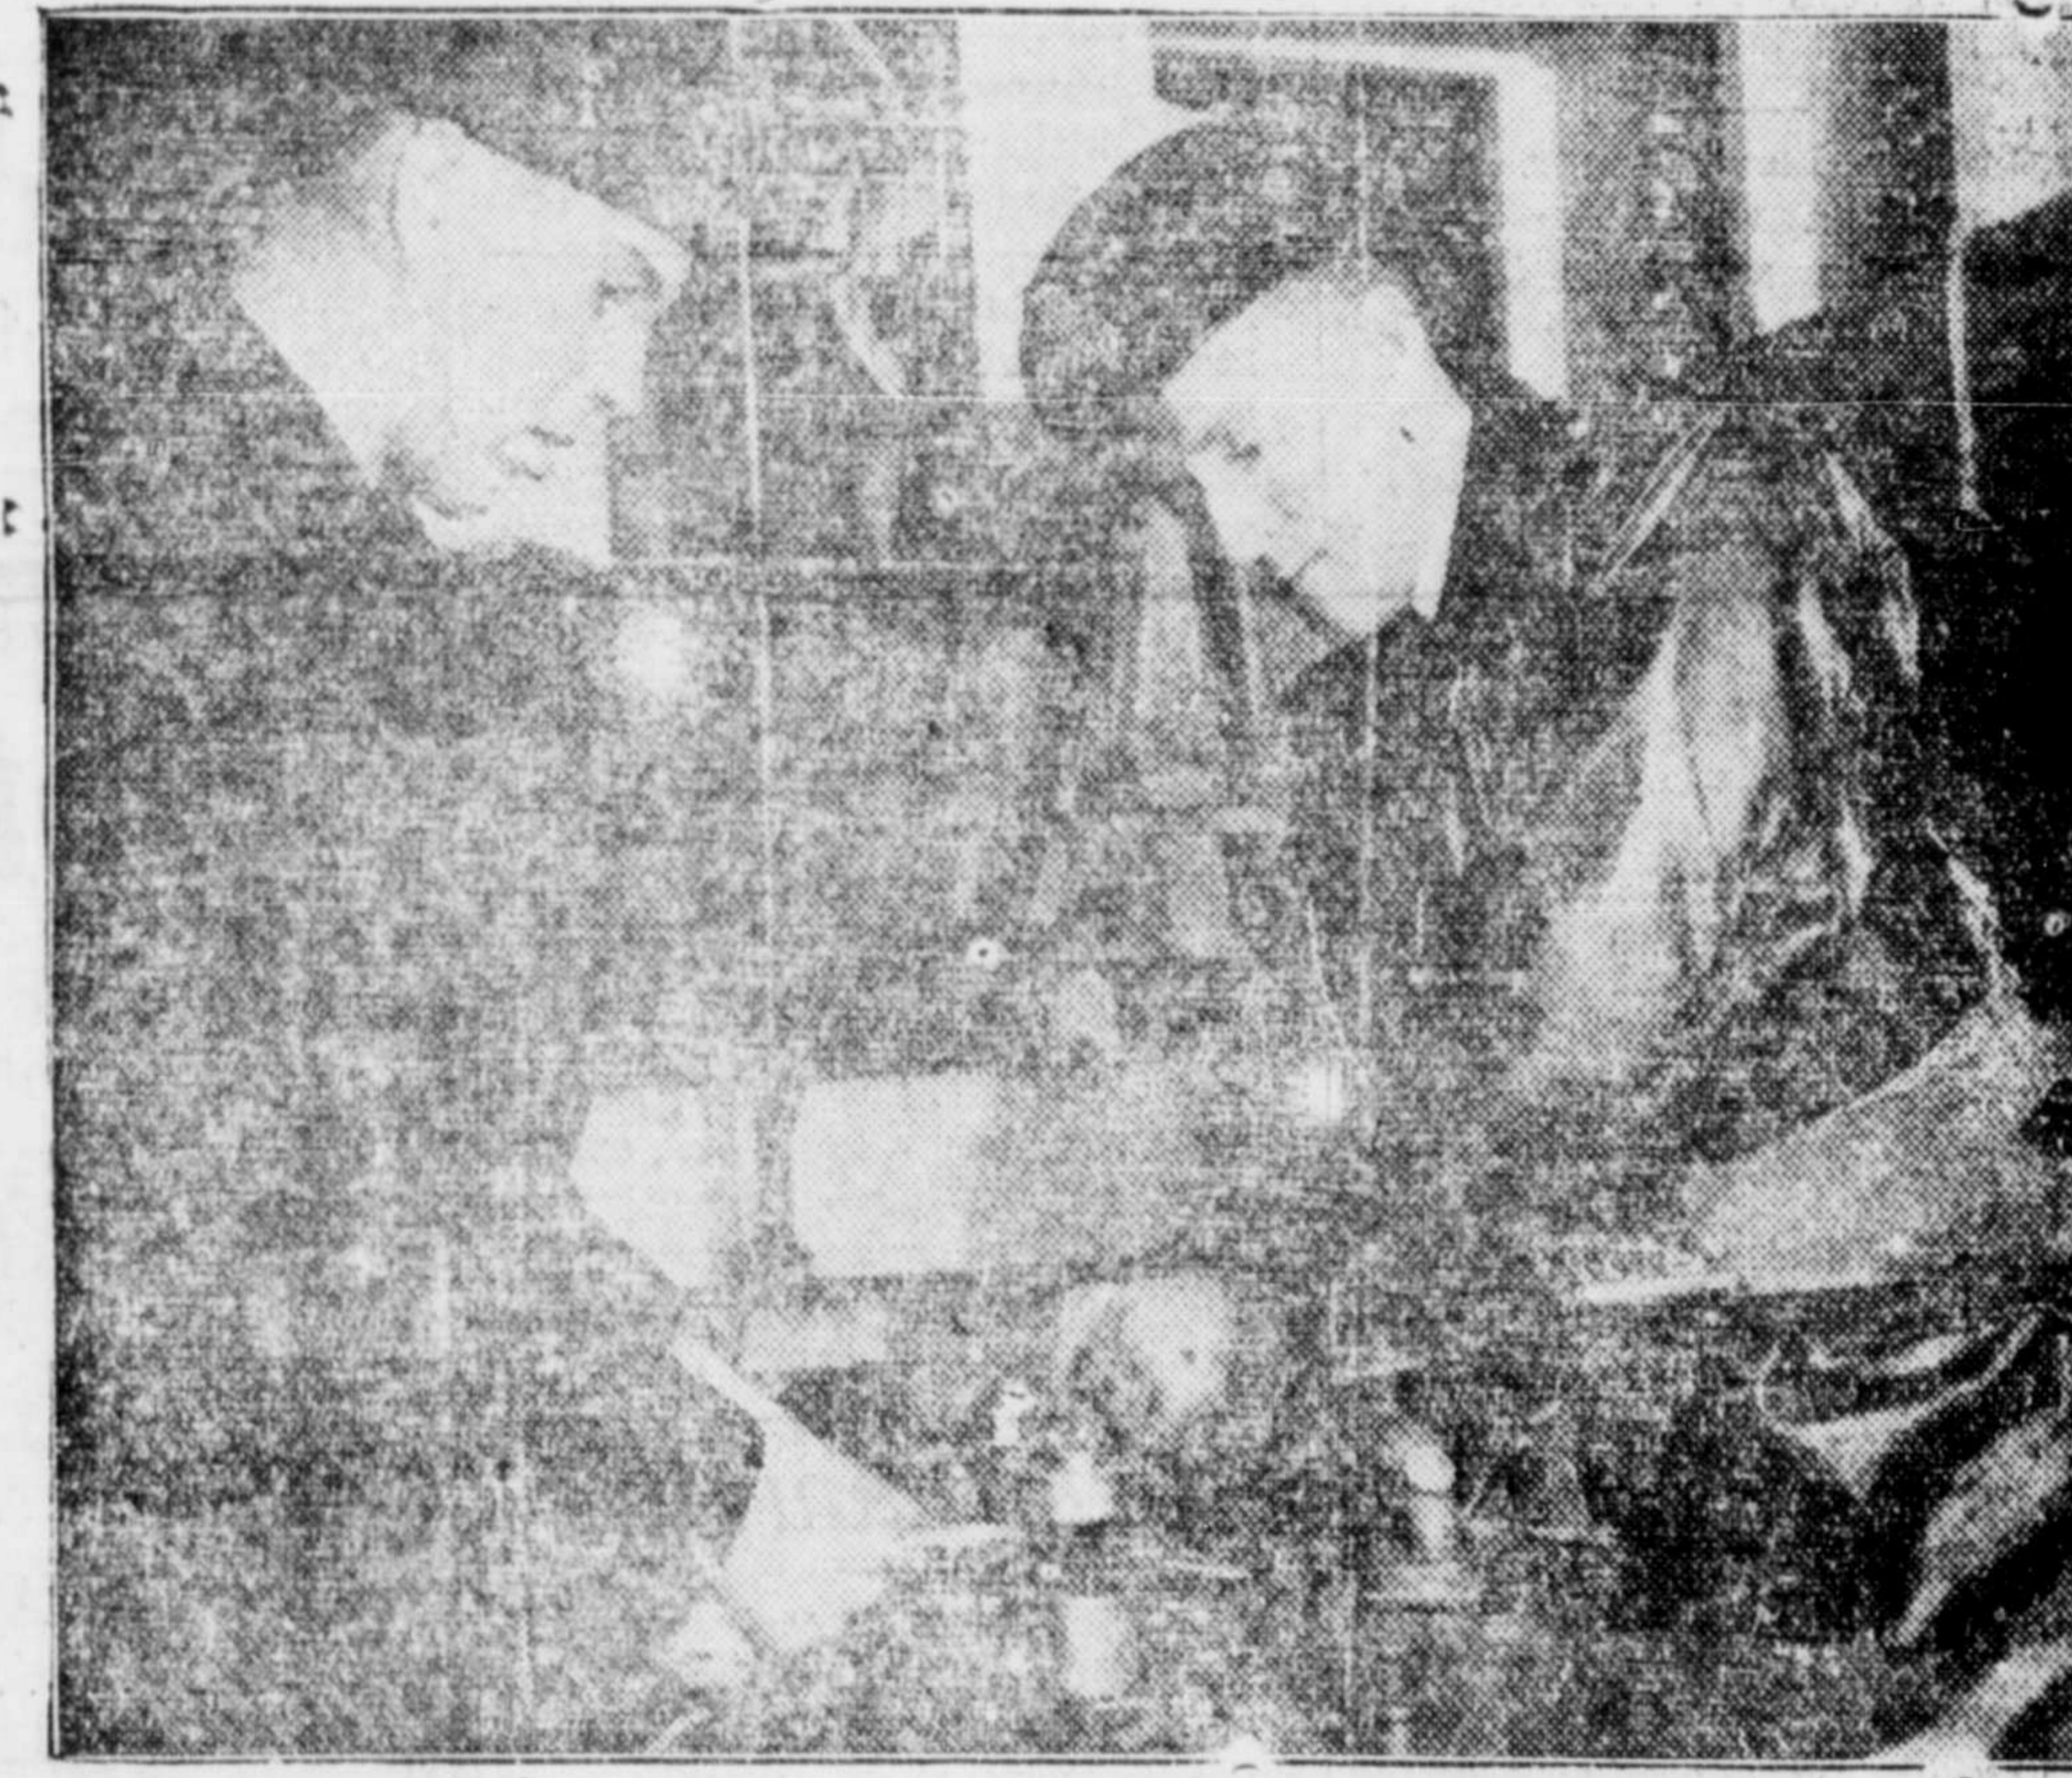

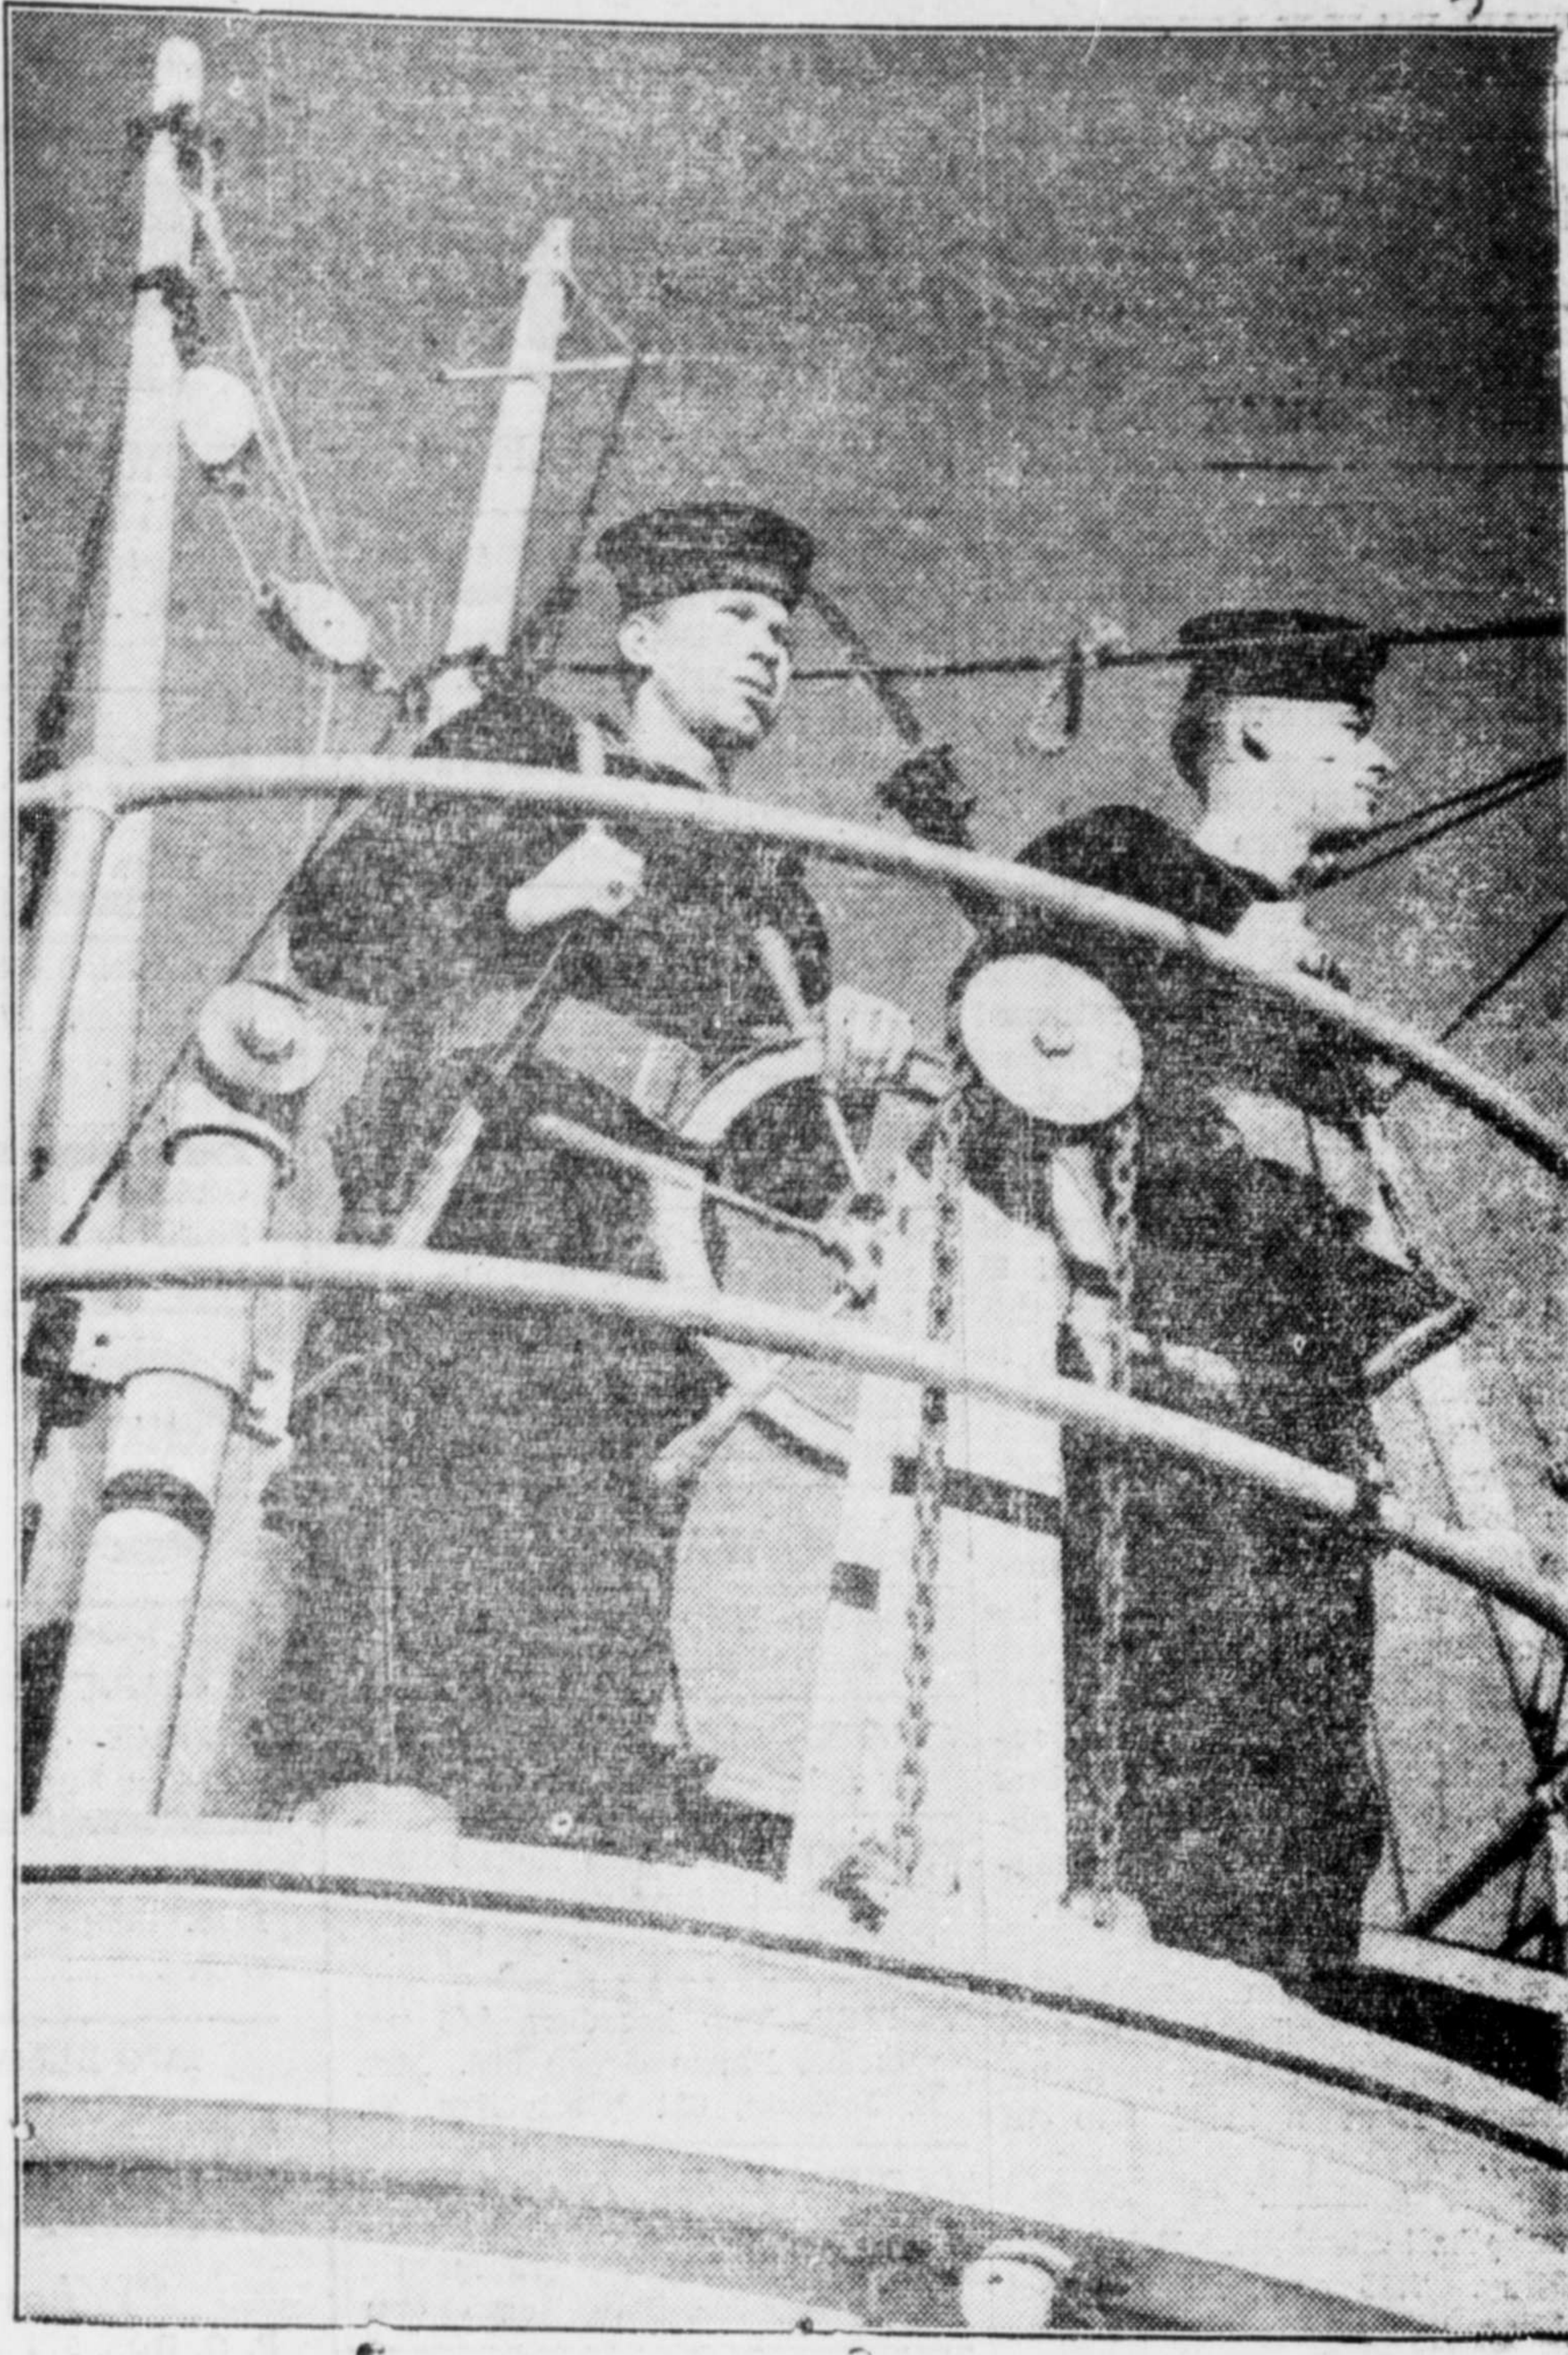

INCENDIARY BOMB HERE

Brought to City by James Woodrow and Makes Interesting Exhibit.

Attracting considerable attention on the part of passersby is a German incendiary bomb which has been dissected and mounted for display in the Daily News window. Possibly there are many people who had little idea just what an incendiary bomb actually looks like.

This particular bomb was found and brought to Prince Rupert by James Woodrow who, having been repatriated from the merchant navy, is now employed here by the Ryan Contracting Co.

The bomb on May 4, 1941, landed in an emergency water tank of the Radium Institute in Liverpool, England, and smothered out.

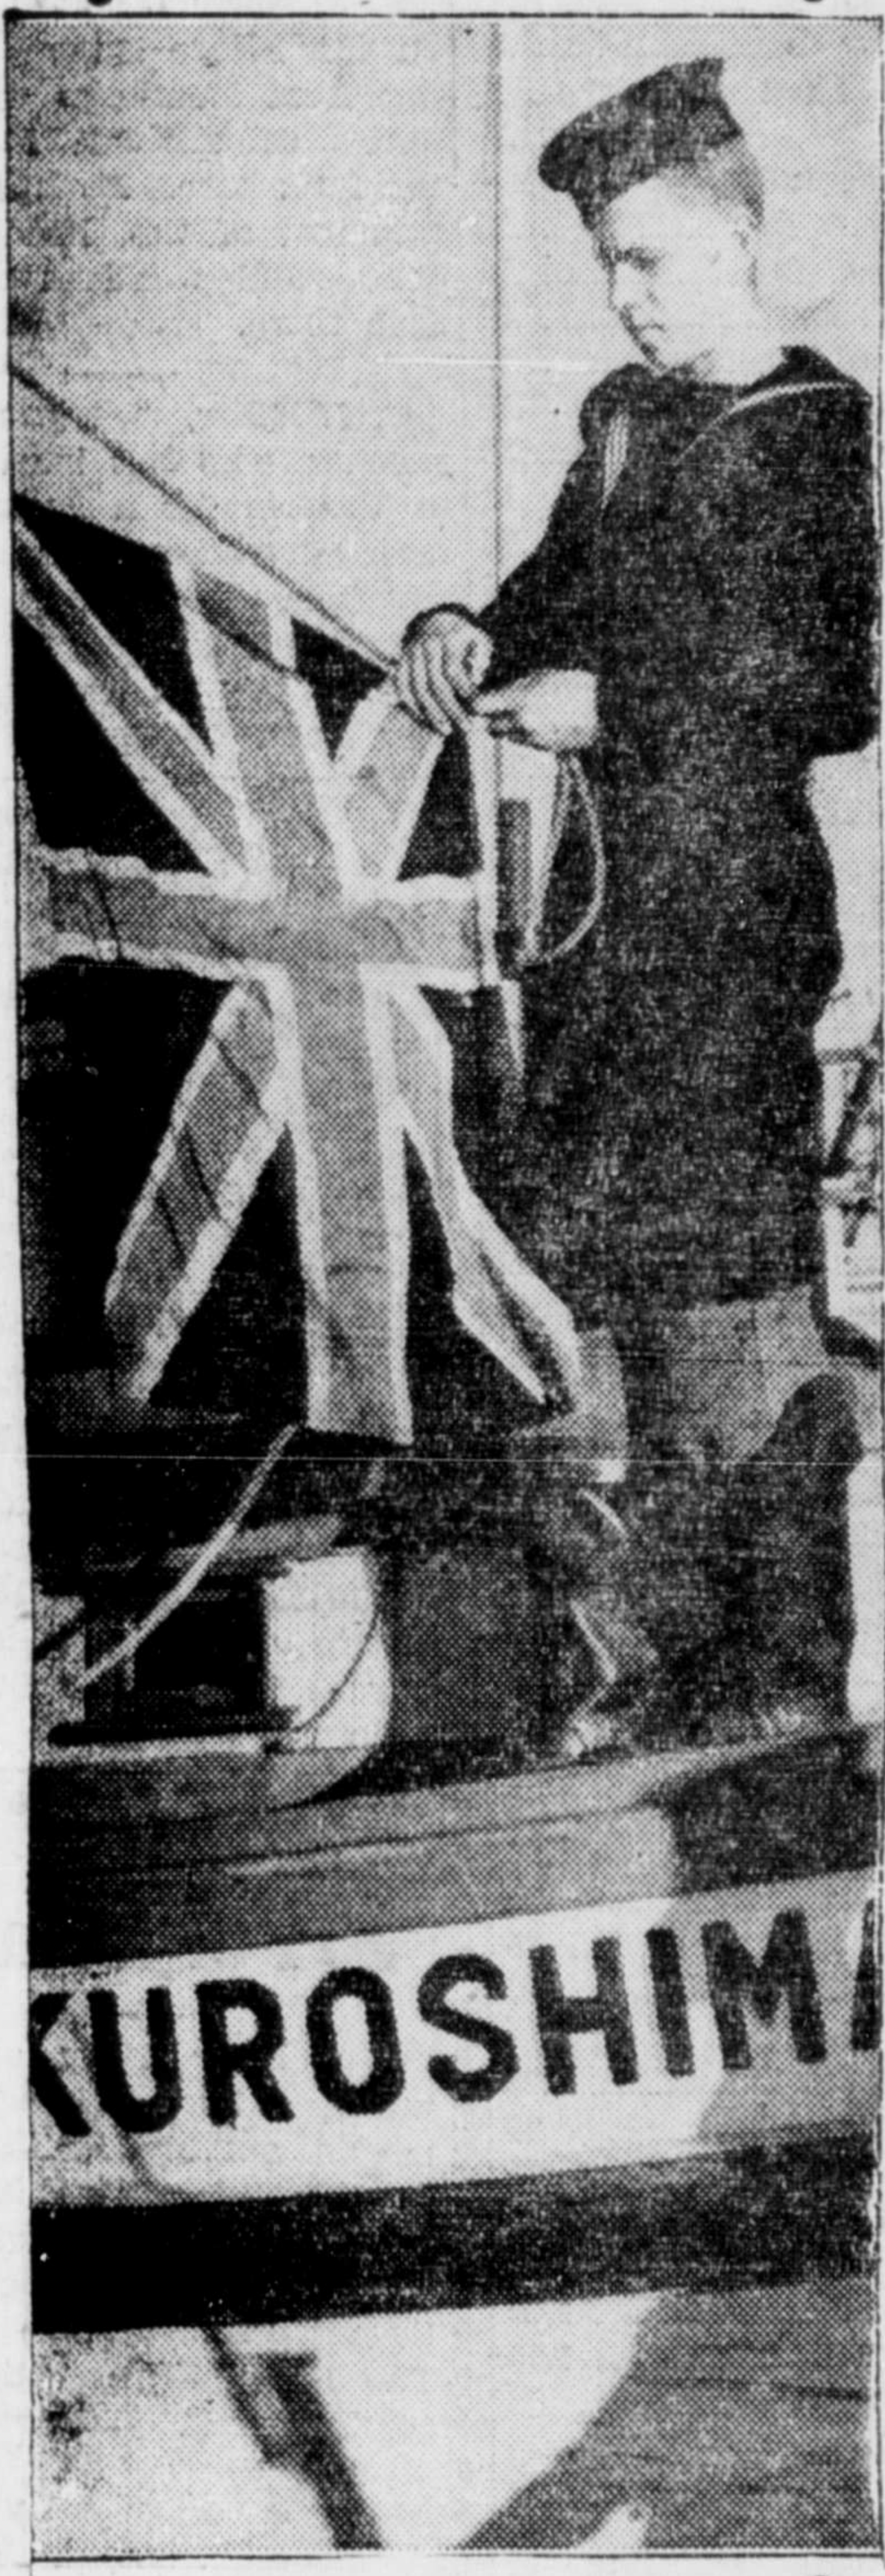

Seizing the Japanese Fleet On This Coast

Upper left—Ratings of the Canadian Navy, their service rifles slung over their shoulders, stand guard at the wheel of a Japanese fishing vessel seized by west coast authorities immediately after Canada declared war upon the Nipponese Empire.

Lower left—During the recent seizure each Japanese boat was demobilized by the removal of some vital part of its motor. Now that the government has decided to allow the owners to lease or sell their boats to white fishermen, these carefully tagged and stored parts will be replaced.

Below—The Union Jack goes up on one of the Japanese fishing vessels immobilized by the Canadian Navy. Jap fishermen will not be allowed to operate during the war.

Canada at War 25 Years Ago

Feb. 11, 1917:—British captured strong enemy positions south of Serre Hill on the Somme Front. Italians repulsed heavy Austrian attacks east of Gorizia. Germany attempted, through the Swiss government, to re-open negotiations with the United States.

VALENTINE MESSAGES

Some Suggestions Appropriate To War Theme Are Made

MONTREAL, Feb. 11:—The fixed text valentine message designed this year by Canadian Telegraph companies includes a type of greeting patterns to blend with the general back drop of a world at war. Telegraph messages such as "while you are guarding your country, I am guarding my heart against all others" will appropriately cause the burly sergeant to blush to the roots.

This type of message will supplement the regular fixed-text valentine sentiments provided by telegraph companies and is designed particularly for exchange between Canadian girls and their friends in the armed forces in Canada and the United States.

Old stand-bys will still be used but many will prefer the V for victory symbol as exemplified in "To My Valentine XXXX" and "E-o-v-e and V-V-V-Valentine Greetings to My Dearest."

And as the lights in naval barracks are doused for the night, rhymes such as "Through all the years come rain or shine, I'll always be your valentine," will probably dance through the minds of Canadian sailors.

Private J. Doakes will make it a point to skip "P. T." to visit the nearest telegraph office and send the following message to his

To Advertisers:

The SECOND VICTORY LOAN Committee has furnished THE DAILY NEWS with a supply of attractive slogan cuts with the request that advertisers insert one in each local advertisement. Use of these mats is available not only to regular advertisers but to those who might care to insert special advertising adapting the Victory Loan theme to advertising during the campaign which is now commencing. We would be pleased to show these cuts to advertisers feeling disposed to lend their support to the Victory Loan campaign in this manner.

LOST HOME MINERAL IN FLAMES INTEREST

John Hines of Doughty Suffers Misfortune From Fire Sunday Evening

SMITHERS, Feb. 11: — John Hines of Doughty had the misfortune to lose his house by fire on Sunday evening at five o'clock. He had left the house to do some work at a root cellar some distance away and about half an hour later on his way back he saw the house in flames. He got back in time to save a few articles of furniture from the ground floor.

The fire had, apparently, started on the roof from a spark and, as there were no near neighbors, it was not discovered in time to save the house.

It was a fairly large storey and a half dwelling near the railway station at Doughty. Although there was some insurance the loss will be quite a heavy one for Mr. Hines as he had about 30 tons of potatoes stored in the cellar.

STEWART

John Thompson is the local chairman at Stewart for the forthcoming Victory Loan campaign. Norman P. Langford of Stewart is the vice-chairman.

Allan Carolan is on a business trip to Vancouver, having left Stewart for the south last week. Andrew Strand of Big Missouri is on a trip to Vancouver.

Mrs. Angus MacKenzie has returned to her home in Premier from a trip to Vancouver.

The price of furnace and fuel oil in Stewart has been advanced half a cent per gallon. Furnace oil is now \$6.25 per drum.

Jack Harkley left Stewart last week for Kamloops.

A. Humes left last week for a trip to Vancouver.

Mr. Boyd left last week for a trip to Vancouver.

Evening services are being held regularly each Sunday in the local Anglican Church.

Edward Haines, Prince of Eagle Crest, Was Prominent and Respected.

KINCOLITH, Feb. 11: — Last week death claimed one of Kincolith's most prominent and respected citizens in the person of Edward C. Haines, Prince of the Eagle Crest, at the age of 39 years. Deceased leaves to mourn his passing his wife, one son and four daughters as well as his brother Sam Lincoln, the present Chief Mountain. Mr. Haines had countless friends both among natives and whites of the coast and southeastern Alaska to all of whom his passing will bring a distinct sense of loss.

The late Mr. Haines has always been a leader in both church and civic affairs. He was mainly responsible for the high quality of the work done in renovating Kincolith Christ Church last year and the installation of the new heating system last month. His steady influence and far-sighted judgment were always welcome in affairs of his church and village and his word was respected by all.

Interesting some years ago may now, with the heavy demand for basic metals, prove to be of real value not only to their owners but to the country.

Gold and Silver Not Only Metals Sought Now—Base Varieties in Demand.

STEWART, Feb. 11: — A recent shipment of tungsten concentrates from Stewart draws attention to the fact that the Portland Canada district is a potential producer of metals other than gold and silver. Now two other classes of metals are to the fore—first the rare strategic minerals such as tungsten, mercury, molybdenum, tin, etc. and, second, the base metals chief among which are copper, lead and zinc.

In past years when a prospector has been developing property in this part of the country, if the ore showed a high zinc or lead content, it has been the practice to take no further interest in that particular ore body unless it showed a precious metal content. Now it appears that the time may have arrived when that policy will be changed.

"I'm a fast worker, I never sleep, I never take a holiday, my wages are only a few cents a day and I simply love hard work. The more jobs you give me the better I like it, so put me to work now on your ironing, sweeping, cooking and washing. Let me run your radio and your refrigerator, your toaster and your coffee maker. Come in and see all the things I can do."
