Thousands British Australian, American Forces Helping Dutch

Forces Being Organized for Defence of Java—Stirring Exhortation—Lull in Burma Battle Reported.

BATAVIA, Feb. 27.—Thousands of British, Australian and American troops have arrived to stand alongside the Dutch in the defence of Java, final stronghold of the Allies in the Netherlands East Indies, the military governor of the East Indies announced last night. Welcoming the newly arrived units, the Dutch commander-in-chief expressed confidence in their ability and relied on them to fight gallantly. He was optimistic that Java's defences would be too strong for the enemy and they would be pushed back. "We will fight like wild cats and we will fight like hell," he declared.

HITLER TO BE BEATEN THIS YEAR

Can Be Destroyed by Summer, Declares Russian Ambassador to United States.

NEW YORK, Feb. 27.—Maxim Litvinoff, Russian ambassador to the United States, expressed the belief here yesterday that Hitler can be destroyed by summer. The Nazis, Litvinoff said, would stake all in a "make or break" effort this spring when the campaign would reach its peak. Stressing the importance of continued American supplies, Litvinoff said that he was proud it had fallen to the lot of Russia to smash the Hitler war machine.

APPROACH HARD PART

Total of \$468,131,850 Subscribed to Victory Loan Including \$44,000,000 in British Columbia

OTTAWA, Feb. 27.—At the close of business last night Second Victory Loan subscriptions for all Canada totalled \$468,131,850 of the \$600,000,000 issue. British Columbia has subscribed \$44,000,000 of the \$62,000,000 quota. Officials said the hardest part of the campaign was now approaching.

BANK IS IMPROVED

Noble Changes Made in Interior of Local Financial Institution.

Under the planning of Manager G. R. S. Blackaby, the interior of the local branch of the Bank of Montreal has gone modernistic and arrangements have also been made for the improvement and speeding up of service generally. The old type closed teller's cage has been removed to be replaced by the open wicket type which makes for improved working conditions. A separate savings department has been opened with its own teller. Here savings and incidental business will be handled, the current and general business being taken care of at the main cage. The improvement work was carried out by Mitchell & Currie, local contractors.

Local Temperature

Maximum 41.5
Minimum 32.5

Victory Loan Still Grows

Second Victory Loan subscriptions in Prince Rupert up to last evening had reached a total of \$554,650 with 1417 individual subscribers. Within eight days of the campaign still to go, or until the end of next week, it is confidently expected that the total objective of \$600,000 with 1800 individual subscribers will be reached.

Allied planes directed new blows on a Japanese invasion armada off Bangka Island today amid indications that the badly mauled enemy was waiting for reinforcements before striking the climactic assault against the united nations stronghold of Java. Bangka lies off the east coast of lower Sumatra 270 miles north of Batavia.

Far to the northwest Japan sent an aerial feeler attack against Port Blair in the Andaman Islands of the Indian Ocean, 350 miles southwest of Rangoon. The islands are strategically important as a base for possible invasion of India or Ceylon. India itself is getting ready for any eventuality. Five hundred buildings in Calcutta are being converted into air raid shelters.

There has been a lull in the land fighting in Burma, the Japanese evidently awaiting fresh reinforcing troops following their heavy losses of the last few days. Rangoon is a city of ghosts. The most of the civilian population has been evacuated to Mandalay. Torch has been set to everything that might be of value to the enemy including large quantities of "lease-lend" supplies for China.

NAZIS IN BAD WAY

Are Disintegrating Before Onslaught of Great Russian Counter-Offensive.

MOSCOW, Feb. 27.—German forces are reported disintegrating before the onslaught of the great Russian counter-offensive in the district southwest of Leningrad where the Sixteenth Nazi Army was wiped out and where 96,000 more German troops are entrapped.

Dispatches from the Stary-Russa front declared today that the Russians were breaking down the stand of the trapped Germans, virtually dooming division after division of the encircled force. Nazi efforts to drop supplies to the ground troops are being foiled by the Soviet Air Force which has dropped leaflets promising good treatment to the Germans if they decide to surrender.

BATTLE IN PHILIPPINES

Sharp Fighting Continues Following Surprise Attack by Gen. MacArthur's Forces.

WASHINGTON, Feb. 27.—Fighting is still in progress following the capture by General Douglas MacArthur's American and Filipino forces of Japanese advance positions in a surprise attack all along the line in Bataan Peninsula. It was a sharp attack, General MacArthur being assisted by fresh forces of loyal Filipinos. The main Japanese line has, however, not yet been touched.

A bulletin from American headquarters in the Philippines today said that the defenders had scored gains of half a mile to five miles along entire Bataan Peninsula front in the last forty-eight hours. Fighting continued, the bulletin said, with General MacArthur's men holding the positions they took in the surprise attack.

HOCKEY SCORES

Detroit, 4; New York, 7.
Montreal, 4; Chicago, 5.

No Cars, Cameras, Radios Or Firearms For Japanese Who Reside in Protected Areas

OTTAWA, Feb. 27: (CP)—Persons of the Japanese race living in the protected area of British Columbia are forbidden possession or use of "any motor vehicle, camera, radio transmitter, radio receiving set, firearms, ammunition or explosive" under an amendment to the Defence of Canada Regulations made known today.

The restrictions are contained in the same order made known yesterday whereby curfew is being imposed on people of the Japanese race under which they must be at their usual place of residence each day before sunset and remain there until sunrise.

For the purpose of the order a person of Japanese race means, as well as any person wholly of Japanese race, any person whose mother or father is Japanese and if the Royal Canadian Mounted Police, in writing, has required the person to register pursuant to the special Japanese registration of 1941.

KIEL HAS BIG RAID

Nazi Battleship Haven Is Strafed By Royal Canadian Air Squadron.

LONDON, Feb. 27.—Kiel, haven of one of Germany's fugitive battleships, Gneisenau or Scharnhorst, was bombed by the Royal Air Force last night for the second successive night and fires were started among dockyards and shipbuilding works, the Ministry of Air announced. The raid was carried out by a Royal Canadian Air Force bomber squadron. Canadians penetrated a heavy ring of anti-aircraft fire and dropped successive sticks of bombs which left a number of fires, one of which could be seen fifty miles away.

Island Ceded To Venezuela

CARACAS, Venezuela, Feb. 27.—Great Britain yesterday formally ceded to Venezuela a small island between Trinidad and Venezuela which has been in dispute since 1799. The island possesses large petroleum deposits and is of strategic importance.

FIRE TRAGEDY—BURNS ARE FATAL FOR YOUNG GIRL

Alma Rosang of Lewis Island Dies in Local Hospital—Widowed Mother Injured—Home Destroyed.

Alma Rosang, aged five, died in the Prince Rupert General Hospital early this morning as a result of burns and shock and her widowed mother, Mrs. Emil Rosang, is a patient in the hospital suffering from a broken ankle following the destruction by fire of their home at Lawson Harbor, Lewis Island, about twenty-five miles south of Prince Rupert, on Wednesday evening.

The tragedy occurred when a Colman gasoline lamp in the kitchen of the home exploded, spraying gas which burst into flames all around. The clothing of the little girl took fire and she was badly burned. In the excitement, the mother sustained the broken bone in her ankle. Only the mother and the little girl were in the house.

Neighbors did what they could to help and a navy boat, anchored in Lawson Harbor at the time, rushed the victims into Prince Rupert. They arrived early Thursday morning. The house, a comfortable five or six-room frame structure, was completely destroyed.

Mrs. Rosang was widowed two years ago when her husband dropped dead from heart trouble. In addition to the little girl who is dead, Mrs. Rosang's family consisted of two sons—Paul and Carl Rosang, owners of the halibut boat Oldfield, at present operating on charter to the B. C. Packers out of Pender Harbor, and two daughters, Mrs. Fred (Thelma) Letts of Oona River and Miss Violet Rosang, employed at the Royal Lunch in Prince Rupert.

Japanese Now In Mountains

Two Groups of One Hundred Each Reach Red Pass Area.

RED PASS, Feb. 27.—Two groups of Japanese, numbering one hundred each, have just arrived in this district from Vancouver to be engaged in road work for the duration of the war. There will be camps at Rainbow, Lucerne and Geikie.

Dominion Forces Will Be Sent There If Necessary To Defend This Country, Premier States

BULLETINS

CHIEF JUSTICE DIES
VANCOUVER — Chief Justice Aulay Morrison of the Supreme Court of British Columbia died suddenly here today at the age of seventy-eight. He had enjoyed robust health, despite advancing years, and his passing comes as a shock to the judiciary, legal circles and many friends.

HEAVY JAPANESE LOSSES
SUREBAJA, Java — An influential and well-informed Java newspaper said today that Japan had lost one-third of her cruisers and had suffered enormous aerial casualties in the first two-and-a-half months of her war. This, while not admitted, was undoubtedly of deep concern to the enemy.

LONDON GLOOMY
LONDON — London military quarters take a gloomy view of the situation in Burma. Much depends upon Chinese reinforcements and they, it is said, have not arrived in great quantity as yet.

PRISONER ESCAPED
LONDON, Ont. — A German prisoner of war, an officer, made his escape from Westminster Hospital here where he had been under treatment as an epileptic. He jumped from a window.

DEADLY INERTIA
LONDON — Lady Brooke-Popham, wife of the former commander-in-chief at Singapore, believes that "deadly inertia" was largely responsible for the fall of Singapore. Singapore people simply refused to believe that attack would come and all they seemed to be interested in was parties, bridge and dancing. Nothing would arouse them, Lady Brooke-Popham exempted the Chinese people from her complaint but said that the Malays were most inert.

TANKER IS BURNED?
BELMAR, N.J. — Spectators from shore saw a ship ablaze five miles at sea off here last night. It was believed to be a tanker. Coastguard vessels put out to the scene but obtained no information as to the name or type of vessel or extent of damage.

NANAIMO VS. VICTORIA
NANAIMO—Nanaimo and Victoria will meet tomorrow night in the opener of Pacific Coast hockey finals. The Nanaimo Clippers last night defeated the Vancouver Nor-Vans 7 to 0.

Tillie The Toiler Back

In response to popular request, The Daily News is re-naming presentation of the comic strip "Tillie the Toiler," which for years was a feature in this paper. The first publication appears today. Arrangements have been made to have "Tillie" appear exclusively in the News, no other paper on the coast having it.

Prime Minister Mackenzie King Says Unlimited Authority Will Be Exercised in Disposition of Country's Manpower.

OTTAWA, Feb. 27: (CP)—If necessity arises to send Canadian troops to defend the Alaskan Panhandle "or any place in the vicinity of the coast of Canada" they will be sent regardless of any commitment or provision of the National Mobilization Act in order to protect Canada. This declaration was made in the House of Commons last night by Prime Minister William Lyon Mackenzie King who added that in such an event he would act under unlimited authority of the War Measures Act and later obtain parliamentary amendment to the National Resources Mobilization Act to conscript Canadians for service in Canada.

HIS TALK IS BLUNT

Lord Chatfield Has Some Straight Facts for Lords in Regard to German Naval Situation.

LONDON, Feb. 27.—Lord Chatfield, former first lord of the admiralty, told the House of Lords bluntly yesterday that the German battleships Scharnhorst and Gneisenau would be back in service of the enemy sooner or later and that new German warships about to go into commission "will be larger than our own."

FREE FRENCH AIM TO WELD NEW EMPIRE

Strong National Committee Works Early and Late to Bring the Motherland Back Into the Fight.

By WILLIAM STEWART
Canadian Press Staff Writer

LONDON, Feb. 27: (CP)—Allied victory is the first objective of the French National Committee, but Gen. Charles de Gaulle and eight able men who help manage a chain of colonies strung around the globe also face the problem of "getting France back into the fight." To the Free French leader and the hand-picked group who form the committee, "France" means not only 10,000,000 people in a growing empire rallied to the Cross of Lorraine, but the fallen Motherland too.

TO BUILD BARRACKS

Four Firms Secure Plans For New Construction Here

Tenders for construction of a barracks building at Prince Rupert have been invited by the department of munitions and supply. It is reported that four firms have been asked to figure the project. E. J. Ryan Construction Co. Ltd., Bennett & White Construction Co. Ltd., G. E. Baynes, all of Vancouver and Armour Salvage & Towing Co., Ltd., Prince Rupert.

Hundreds of workers, many the authors of daring escapes to Britain, stream daily in and out of these offices and two other large Free French buildings.

About them march armed sentries identified by sleeve tabs bearing the word "France." Lines of Free French staff cars crowd the curbs.

De Gaulle, tall and shy, holds frequent council with the commissioners in whose absence he is the final authority. His is the deciding vote not only in the case of difficulties over establishment of civil order in the colonies but also on war strategy and direction of 100,000 men in Free French Army, Air Force and Navy.

A life time soldier, De Gaulle maintains contact with Army Commander Paul Legentilhomme, Air Commodore Martial Valin and Admiral Emile Muselier whose forces carried out the recent surprise occupation of St. Pierre and Miquelon islands.

The Big Game . . .

Some may find it difficult to understand why the Japanese should want to invade Prince Rupert just now but it must be remembered that in war the strategists do what might be considered unexpected things. They look a long way ahead. The world is a big chess board with every move being made for a purpose—not perhaps for immediate results but for long distance effects. We may not be able to understand why more troops are not sent to Rangoon, or to some other part of the east or why Japan might invade Prince Rupert or might never visit this part of the continent. Only if an invasion comes shall we know.

Moving Japanese . . .

We understand that some of the Japanese residents feel rather badly at having to move away from the coast. It may seem that way to them but if they are really loyal Canadians it should not be so. The Japanese government recognizes every one of them as Japanese citizens. If the Japs landed here they would expect every one of them to help the Japanese. Otherwise they would be treated as traitors. If they are moved away it would be for their own protection as well as the protection of the white communities. That has been made clear to a number of the local people. In the case of an invasion the local Japanese are either traitors to their own people or to us. There is no other way from the point of view of the invaders. If they go to a camp in the interior it is understood they go under compulsion and if there should be an invasion there is no question of choosing which side would shoot them. Any really Canadian Japanese who hopes to live following an invasion should be glad to move away until the war is over.

The Man Who Did Things . . .

Many people have wondered why in the recent British cabinet shake-up Lord Beaverbrook was the man who was let out when he was known to have been the man who got things done. As a matter of fact, according to the most recent information, he was forced out by his team-mates because he would not or could not play the game fairly. If he was head of a department he set out to make that the predominant department and the others got little consideration. He was a bear for work. This was all right when Britain needed planes for defence and needed them badly but there came a time when it was found that destroyers and submarines were just as badly needed as planes and the heads of the shipbuilding departments were looked to for production and they grew restive. So with other departments. The period of one-man government was gone and there had to be team-work. We all know that to win a football match there must be team-work and the same is true of war. Cabinet ministers refused to be lackey to the minister of supply. Why were they at the head of their departments if they were not to be consulted as to how, why and when things were to be done? A rebellion developed in the cabinet. Plain talk followed and Prime Minister Churchill found that, if the affairs of the country were to be carried on without friction, he must do something about it.

The curious thing is that Beaverbrook did not realize that he was overbearing. It was his nature to have his way. That is how he managed to get to the top in the industrial world. He has a way with him and it is to be hoped that he will carry on in co-operation with the production heads in the United States without asserting himself to such an extent as to make himself objectionable. We shall watch him with interest in his new position as a sort of liaison officer with Donald M. Nelson, head of the United States war production board, who has been spoken of as the Beaverbrook of the United States. Possibly Beaverbrook's experiences in the British cabinet will help him to team up with Mr. Nelson.

WILL OPEN BUILDINGS

New Staff Houses For Dry Dock Workers Are Commodious And Comfortable

The two staff houses erected by Wartime Housing Limited, providing modern and comfortable living quarters "right on the job" for about 200 single men employed at the local dry dock, are now completed and practically all furnishings have been installed. The dining hall, which will be run cafeteria style, is also ready and will commence operation next week.

These commodious staff houses and dining hall will be formally opened by Commissioner D. J. Matheson on Saturday afternoon. Invitations to attend the ceremony have been issued by William F. Eve, administrator for Wartime Housing Limited, to city officials, representatives of various organizations, dry dock officials and employees and the general public. Mr. Eve is particularly anxious that as many citizens as possible take advantage of this opportunity to see for themselves just what has been done to provide every possible comfort for the single men who are daily contributing to Canada's war effort in the building of ships, naval and mercantile.

The accommodation that the staff houses offer leaves little to be desired. All rooms are well lighted, airy and comfortably furnished with beds, tables, chairs, floor mats, etc. The buildings are steam heated and can be kept comfortably warm at all times. There are adequate washroom facilities and the dockyard worker should have a particular liking for the showers.

In their off hours, the occupants will have at their disposal commodious reading rooms and lounging quarters. These, too, have been comfortably furnished. In fact the whole set-up is much like a hotel. Apart from all the comfort these quarters offer, it is also important that they are in close proximity to the dockyard along the waterfront.

Letter Box

LIKE PORT DARWIN

Editor, Daily News:

The executive of the Youth Committee of Prince Rupert has endorsed the letter appearing in Saturday's paper from the local lodge of the Ladies' Orange Benevolent Association to the Canadian Minister of National Defence. We are writing to Col. Ralston backing up the demands made and call on all local organizations to do likewise as quickly as possible so as to emphasize the needs. Immediate and drastic action must be taken to safeguard Prince Rupert from the Axis menace.

Like Port Darwin, the northern Australian port which is now subject to heavy raids, Prince Rupert is a little, isolated town which had no very tremendous importance prior to the war. Like Port Darwin, Prince Rupert is the terminus of a railway that reaches into the heart of the continent, a railway which will be used to ship munitions to the war areas. Port Darwin is the most advanced base on the Australian mainland from which offensive action can be launched against the Japanese. Let us not forget that Prince Rupert occupies a similar position in relation to North America. The striking similarities of the strategic position of Prince Rupert and Port Darwin should serve as warning to us in the North Pacific when we read of scores of bombers over Port Darwin. We have no doubt that endorsement of the demands of the above organization is effort worth while. Meanwhile we must back up that endorsement by our activity here.

MRS. H. HARRISON, Secretary.
B. MICKLEBURGH, President.

WATER COLOR ARTIST DEAD
LONDON, Feb. 27:—L. E. E. Bruhl, 80, water color artist who first exhibited in the Royal Academy more than 40 years ago, died here. At least three of his paintings are owned by the Royal Family.

IMMIGRATION DOWN
Immigrants admitted to Canada in 1941 totalled 9,329 compared with 11,324 in 1940.

Mixed Program At Rotary Club Lunch Yesterday

The Rotary Club yesterday heard from the secretary, W. L. Coates, a brief outline of the history of Rotary. He told that it was founded by Paul Harris at Chicago in February, 1905. It now had spread to almost every country of the world with over five thousand clubs. It was in April, 1928, that the local club was formed with E. F. Doby as first president and only fifteen members.

Following the brief but interesting exposition by Mr. Coates there was an interesting reminder of it being the birthday of the first club, a birthday cake, provided and decorated by R. G. Vander sluis, being then passed around, each member taking a slice. Three of the slices contained numbers and the winners of the numbers had a little duty to perform. R. C. St. Clair sang a birthday song. Ben Dodd had to conduct a quiz contest and Col. J. W. Nicholls had to give half a dozen reasons why every person should buy a Victory bond. His reasons were that it was plain commonsense, that it gave a better rate of interest than the banks, that it enabled the provision of ammunition for the war, that it gave encouragement to the government to provide defence weapons for Prince Rupert, which were sorely needed.

The weekly War Savings Certificate drawing gave a surplus of \$4.25 for the Queen's Fund.

Canada at War 25 Years Ago

Feb. 27, 1917—British troops occupied Le Barque and Ligny on the Ancre battlefield. Austro-Germans advanced near the Dorna-Watra Pass in southern Bucovina. Gunboat Firefly recaptured by British forces on River Tigris.

Sugar, too, enlists for Victory

Our government, through the medium of the Wartime Prices and Trade Board, has issued an order restricting the use of sugar for all. Naturally, this regulation includes "Coca-Cola". Besides all bottlers of carbonated beverages, the restrictions affect bakers, confectioners, ice cream manufacturers and many other industrial users.

We, in the "Coca-Cola" business, accept this conservation order without question, as a necessary measure. As a result, our output has been reduced and patrons may not be able to get "Coca-Cola" at their favourite dealer's as often as they might wish. We count upon the patience and co-operation of dealers and consumers everywhere during these restrictions.

Although volume has been reduced, this one thing is certain — the quality of genuine goodness — the character of "Coca-Cola", the real thing — remains the same. The public can continue to trust its quality.

STOP THIS MENACE

THE MENACE of a hateful way of life casts its shadow across our homes. Victory Bonds will raise up a shield against it.

So buy Victory Bonds to the limit. We cannot be half-hearted while this danger threatens our very shores. Let us go full out now and give such vigor to our country's effort as to speed the day of victory.

This is the *least* we can do—to lend our money for our country's defence. Buy a share in victory today—buy Victory Bonds.

HOW TO BUY—Give your order to the Victory Loan salesman who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Or you can authorize your employer to start a regular payroll savings plan for you. Bonds may be bought in denominations of \$50, \$100, \$500, \$1,000, and larger. Salesman, bank, trust company or your local Victory Loan Headquarters will be glad to give you every assistance in making out your order form.

TWEEDS IN PREFERENCE

Civilian Dress For Women In Old London Shows Little Military Influence

Written for The Canadian Press By BARBARA BRITON
LONDON, Feb. 27:—Feminine coat styles have been only slightly influenced by the great variety of military topcoats seen in London. Women in uniform are apt to prefer gorgeous tweeds for off-duty wear and there is increasing popularity for the loose, raglan-sleeved coat with high, turnback collar.

One leading house of fashion has steered away from these military styles, while the designer of the new uniforms for the Auxiliary Territorial Service and the Women's Volunteer Service prefers to use plaids and herring-bones for its civilian models.

Tweed and Alpaca
The popular loose coats are of tweed, alpaca or camelhair and wool. One well-known maker has models in olive green, maroon or tan and the usual tones of natural.

Dolman and raglan sleeves appear on most of these loose coats. Many have bell sleeves and there is less overlap in front but closer buttoning. Inset pockets on the slant take the place of the patch variety and turnback collars are more in evidence than the notched classic style.

Hats for these tweeds are necessarily simple and the old standby, the Tribby felt is a favorite in colors that match or harmonize with the tweeds. The hats are deep green, royal blue, red, deep gold and maroon.

One milliner has brought out several new felt hat models that can be folded into the pocket and yet be resurrected without a crease. Many of these are to be exported to Canada.

Hats and Coats
Other coat and hat designers pair-off felt hats with their tweeds, but the really feminine designer insists on the ornamental type of hat, held in place by a heavy net that takes in the back of the head.

Though hats are the only article of clothing that can be bought without coupons women are not extravagant in their purchases. They prefer the durable, easy-to-wear styles and the kerchief.

Mrs. Churchill, who makes no attempt to be an arbitrator of style but wears what she thinks most suitable and convenient, gave great impetus to the kerchief a year ago when she adopted it for wear while driving and travelling with the Prime Minister.

The kerchief is still popular for windy and rainy days.

Chief of Imperial General Staff Is Doughty Fighter and An Ardent Sportsman

By RUSSELL LANDSTROM
LONDON, Feb. 27: (AP)—"You know," said one long familiar with the mettle of Sir Alan Francis Brooke, "he used to smoke 40 or more cigarettes a day, beside several pipes of tobacco. Then he gave it up—just like that."

"That," was a finger-snapping gesture signifying that both vocabulary and imagination had failed in the presence of a staggering fact.

This decision, the informant continued, is a sample of the determined qualities of the new chief of the Imperial General Staff—highest service chief of all the British Empire's armed forces.

Sir Alan is an ardent sportsman, reputedly one of the 10 best shots in Great Britain, and a fisherman of the Isaak Walton school. The 58 year old chief of staff is known in the service as a brilliant teacher, with a liking for free discussion, both in and out of the army.

Several stories are told about his detestation of sloppy habits. A favorite one dates back to the First Great War when he was inspecting a base hospital which he found pretty much abandoned to dirt.

"Is this the World War or the Crimea War?" he demanded right off. The superintendent was summoned and was asked to give his name.

"I'm glad to hear it," Brooke barked. "I thought you were going to say Florence Nightingale."

Anxious to Fight

Last September Gen. Brooke, the commander in chief of the home forces of the United Kingdom, was reported as welcoming an attempted German invasion because of the opportunity it would give of "throwing the Nazis back in the sea."

Sir Alan was born July 23, 1883, in Bagueres de Bigorre in Southern France, and was educated in a private school at Pau before entering the Royal Military Academy at Woolwich.

He served in France and Belgium during the First Great War with the Royal Artillery which he entered in 1902. A holder of the Distinguished Service Order, he was mentioned in dispatches on seven occasions in recognition of his distinguished services.

Artillery has been the chief interest of his military career, and he has been responsible for notable advances in this branch of war science. The barrage map for directing artillery fire was his invention.

He won recognition for what has been termed masterful direction of the 2nd British Army Corps against Nazi mechanized forces in the Low Countries in 1940. Back from Flanders only a short while, he set out again for France, later escaping from St. Nazaire in a small boat. It was a tight squeeze.

Gen. Brooke is an outspoken exponent of modern strategy and bold innovation. He has warned from time to time that the possibility of a German invasion of Britain has not been eliminated.

The nation had it from no less authority than from Prime Minister Churchill that Brooke's gifts were extraordinary. Mr. Churchill asserted last February that he had the "greatest confidence in Sir Alan."

Trappist Monk Is Desert Hero

Father Celsus Flinn's Daring Act Gave Action to British.

CAIRO, Feb. 27:—A young Trappist monk who for ten years lived in seclusion at the Mount St. Bernard Monastery in Leicestershire, England, is one of the heroes of the Libyan campaign.

Father Celsus Flinn, chaplain with the field ambulance, was taken prisoner with other British troops by a German tank column. The monk escaped and despite enemy fire drove an army wagon across the desert to British headquarters.

His report resulted in British gunners smashing the enemy column and freeing the other prisoners.

Seniors Beat Intermediates

Challenge Basketball Game Last Night Was One-Sided Affair.

Seniors defeated Intermediates 64 to 38 in a challenge basketball game last night. Half-time score was 30 to 18. The game, as the score indicates, was quite one-sided.

North Leading Victory Loan

This Division Tops Nine in British Columbia and Yukon.

VANCOUVER, Feb. 27:—Northern British Columbia division is still leading British Columbia and the Yukon in the Victory Loan campaign with Yukon-Atlin in second place and other divisions coming in order as follows: Okanagan-Cariboo, Coast, Vancouver Island, New Westminster-Fraser Valley, Vancouver City, Vancouver Suburban, Kootenays.

Resuming service following her annual overhaul in Vancouver, Union steamer Cardena, Capt. John Boden, is expected in port tomorrow morning from the south and will sail later on her return to Vancouver and waypoints.

MOTHERS Don't Worry Over KIDDIES' CHEST COLDS

WAR HITS SAX BASS

Planos May Come Out as Usual While Other Instruments Wane.

By JAMES MARLOW
Associated Press Staff Writer
NEW YORK, Feb. 27: (AP)—The war may hit a few sour notes in musical North America but it won't spoil the rhythm.

There should be enough clarinets for the would-be Benny Goodman and Artie Shaws and plenty of pianos for candlelight serenades and barroom harmonizing. Even the lads who like to stretch accordions can bank on plenty of material to work with.

Maybe in time those symphony orchestra athletes who roll thunder out of the big drums will have to take it easy to make the drums last longer but—

The war, shutting off import of certain musical instruments in the United States, at the same time has stimulated home manufacture of them and even helped the good neighbor policy in South America.

Pianos to Come

Various manufacturers told this story, not all gloomy:

Even war needs for metal won't have much effect on piano production—about 135,000 were turned out in the United States last year—for if the copper wire winding on the bass strings becomes unavailable soft iron wire can be substituted. It will rust but it will do, since it was in use before copper windings were thought of. Little of the material necessary in the war program is used in piano making.

Not so with brass instruments like saxophones, trumpets, cornets and even drums. But next summer manufacture of these instruments may cease unless Uncle Sam allocates brass to the musical manufacturers. Brass figures are used in the making of accordions but not to such a great degree. Material for the bellows—ranging from cardboard to leather—is plentiful.

Reeds and Woods

The problem in finding reeds for wind instruments was always in obtaining those that would not get soggy from saliva. The reeds raised in southern France were the best. After the war broke out there were no more reeds from France although before hostilities 12,000,000 a year were used in the United States. American manufacturers then got their reeds from Phoenix, Ariz., and began experimenting with plastics.

The grenadilla wood from which clarinets are made used to be brought in from South Africa. Now South America supplies it. The top clarinets were made in France. Now the best are made here. The French kind cannot be had.

The mastery violins were made in Germany and Czechoslovakia of spruce and maple woods by master-craftsmen who kept the art in their family through gen-

YOUR SHARE AS AN AVERAGE CANADIAN IN THE 1942 VICTORY LOAN

YOU MUST SAVE AND LEND MORE BECAUSE —

Canada Will Be Spending in a Year About:			... and Can Pay it This Way:		
	Total	Your Share		Total	Your Share
For our own war costs	2,000 millions	175.44	Taxation from all sources	1,750 millions	153.51
To aid Britain	1,000 millions	87.72	Borrowing from your savings	1,750 millions	153.51
For cost of government	500 millions	43.86			
Total	3,500 millions	307.02	Total	3,500 millions	307.02

This means you and every other man, woman and child in Canada must buy an average of \$153.51 in Victory Bonds and Certificates. This is equivalent to:

- 30% of Canada's 1941 national income.
- 134% of the gain in national income in 1941 over 1940.
- 60% more than you loaned for war in 1941, including Victory Bonds, War Savings, etc.
- \$100 millions more than all of us now have on deposit in bank savings accounts; more than eight times what all of us paid last year in life insurance premiums.

But each dollar you lend has gained in fighting power:

Because of the steadily rising efficiency of Canada's war industries, costs are dropping and each dollar you lend will now buy this much more equipment than it would a year ago:

- Universal Carriers: Your dollar will buy 54% more.
- Machine Guns: Your dollar will buy 30% more.
- Shells: Your dollar will buy 33% more.
- Cartridge Cases: Your dollar will buy 66% more.

What these facts mean to you as an investor and a citizen:

- Your dollars will fight for Canada harder than they will work for you.
- The dollar you lend protects the dollar you keep.
- The \$153 you must lend this year, and the equal amount you will have to pay in taxes—keep Canada's accounts balanced—help prevent inflation.
- While your dollar has lost some of its power to work for you, much of that power may be restored after the war.
- The extension of productive facilities for war may, with peace, bring lower production costs, cheaper prices to you and other consumers.
- Those who lent \$100 in the last Victory Loan of the first Great War got \$135.85 back in purchasing power when their bonds matured in 1934, plus interest over 15 years.

EXTRACT FROM FINANCIAL POST, FEBRUARY 7, 1942.

NO BALLS HELD NOW

Washington Society Leaders Clamp Down on Parties and Divert Effort to War.

By LUCRECE HUDGINS
Associated Press Staff Writer

WASHINGTON, Feb. 27: (AP)—The only big parties in Washington these days are the parties that no one has to go to. If you're invited you buy a ticket and then stay home. They call them phantom balls because there are no refreshments, no music and no guests. In fact, there's no ball.

Cockeyed? Not exactly. The balls are given to collect money for some relief society. If there are no overhead expenses for such things as a ball room, an orchestra and food and drink, 100 per cent of the ticket money goes to relief.

And the ticket buyers are satisfied because no one in Washington today has time to go to a ball anyway.

Boiled Shirts Out

The phantom ball typifies the wartime mood of the capital's party-goers. Local society has put its formal clothing in moth balls for the duration. What entertaining is being done is in business clothes and invitations almost always end with the blessed postscript: "Come as you are and straight from work."

Society matrons who used to meet at large bridge parties now come together in small groups to discuss Red Cross and civilian defence work over tea cups. One hostess recently held such a party in her garage. A neighbor auto shop worker gave the ladies a lesson in motor mechanics.

The official days at home which the wives of cabinet members formerly held once a week have been cancelled entirely. Embassies which used to give parties for 1500 guests have slashed their lists to 200 and are satisfied if 100 show up.

Dutch treat dinners in crowded restaurants are taking the place of the huge feasts once held in private banqueting rooms. "Lavishness" is a word society reporters have forgotten how to spell and "small group of intimate friends" is the phrase most often used to describe guest lists.

One newspaper man who has been attending Washington social functions for 15 years said: "The biggest change I notice in wartime parties is that in the old days when you were invited anywhere for cocktails you not only got all the drinks you wanted but you could count on getting your dinner at the hors d'oeuvre table. Now when you go anywhere for cocktails you get just that—a cocktail and, if you're lucky a couple of paper thin cheese sandwiches."

Representatives of refugee governments are persistent party-goers. The society pages are flooded with foreign names while the club pages carry the names of

Gas Ration In Africa

Four Hundred Miles Travelling Per Month Is Limit.

CAPE TOWN, Feb. 27: (AP)—Gasoline rationing in South Africa started on the basis of 400 miles travelling a month. The amount of the ration in individual cases is determined by the weight of the vehicle. Motorists who consider that business interests entitle them to a greater mileage may apply for a supplementary ration.

The scheme applies for the present to motor cars and motorcycles only, but the issue of gasoline for lorries and other vehicles will be controlled.

"This step," Hon. R. Stuttaford, minister of commerce and industries stated in an interview, "has become necessary in the interests of the country as a whole, and has been dictated by the exceptional and unsettled world conditions which recently have become aggravated as a result of the entry of Japan into the war."

Kitkatla Infant Died Last Week

Funeral of Small Son of Mr. and Mrs. Edward Ridley Took Place on Sunday

KITKATLA, Feb. 27: — The funeral of the two-and-a-half months' old infant son of Mr. and Mrs. Edward Ridley took place on Sunday with Rev. B. Shearman, Anglican missionary, officiating. The child had died on Friday last.

FOR LONDON RAIDS

LONDON, Feb. 27: (AP)—A Ministry of Home Security order requires that four gallons of water and a stirrup pump for use during air raids be kept in all houses, flats and apartments.

IN JAIL 365 TIMES

BELFAST, Feb. 27: (AP)—A woman is the best known "boarder" at Armagh jail. Convicted for the 365th time, she is serving a month for being drunk and disorderly.

Washington cave dwellers who are busy carrying on their work for defence.

Wedding parties have been the hardest hit by the war. A local minister announced that since the start of the war he had officiated at 32 small informal weddings (where the bride and bridegroom wore street clothes) and only three formal weddings. "In the old days," he said, the ratio was two to one the other way."

Twenty-Five Years Ago

February 27, 1917

There is talk of Prince Rupert fishery production working up to one thousand tons per day which would be about half of that of the great British fishing port of Grimsby.

The Returned Soldiers' Association, at a meeting last night, decided to request the citizens of Prince Rupert to employ British labor and not employ enemy aliens who have only within the last few years become naturalized.

President E. J. Chamberlain of the Grand Trunk Pacific Railway Co. advises the Prince Rupert Merchants' Association against boycotting the railway company's steamships because of alleged unfair treatment to the city.

But the same woods are available here where the main job is finding skilled fiddle-makers. That takes time.

Swedish Adults See Less Bread

Seven Ounces Per Day Is Now Limit There

STOCKHOLM, Feb. 27: (AP)—The bread ration for adults in Sweden has been reduced by the Food Commission to a total of 217 grams (about seven ounces) a day, through the extension of the next bread rationing period to cover 30 instead of 28 days. The previous daily ration had been 232 grams (about seven and a half ounces). Bread coupons are now required to obtain either porridge or gruel in restaurants, but an extra ration of molasses is granted children to compensate them for having only half the bread ration.

REAL HEAVY WEIGHT

The weight of the Statue of Liberty on Beidoe's Island in New York harbor is 225 tons.

FISH KILLS CATTLE

The piranha fish of South America annually kills hundreds of cattle by attacking them as they wade into streams to drink.

Mother Mourns Airmen Three

Lady MacRobert of Dounesie, Scotland, Triply Bereaved

LONDON, Feb. 27: (AP)—Pilot Officer Sir Iain W. MacRobert, whose mother contributed \$112,500 for a bomber when he was reported missing, now is presumed to have been killed in action. He was the fourth baronet and the last of three sons of Lady MacRobert of Dounesie, Scotland, who have lost their lives in the air. The Stirling bomber Lady MacRobert bought was named "MacRobert's Reply" and bears the family crest.

SUCCESSFUL BLACKOUTS

The first blackout of the Cape Peninsula, South Africa, brought all-round co-operation in all areas.

GRAND EGG-SMASHING

TENBERG, Eng., Feb. 27: (AP)—While half this Worcester town's population looked on 10,000 Canadian eggs which had gone bad before they could be distributed were destroyed here.

SCOTTISH SCHEDULE FILM LIST IN LEAD IS ENDED FOR MONTH

Scottish No. 1, although defeated last night by the Royal Canadian Engineers two games to one, retained the leadership of the Inter-Services Bowling League with a one-point margin over Navy which blanked Seal Cove No. 2 three games to nil. Seal Cove No. 1, winning two games to one over Royal Canadian Army Medical Corps, is in third place with the Engineers in fourth place. Only one point separates each of the first four ranking teams. In other games last night Dry Dock took a three-game default victory from the place of the Royal Canadian Scottish No. 3 which has taken Corps of Signals in the league, while Scottish No. 2 won two games to one over Area Headquarters.

Individual scoring was as follows:

Seal Cove No. 2	7	8	7
Area Headquarters	6	9	6
Scottish No. 2	5	10	5

Whifflets From The Waterfront

The whole of fisheries District No. 2 will be closed to herring fishing on March 10, it is announced. This will mark the end of herring fishing all along the coast for the season. The only circumstance which could reopen it would be a shortage of bait and bait requirements have already been met. Meantime, a good run of herring at Laredo Inlet on the west coast of Princess Royal Island is keeping the herring canneries at Prince Rupert, Butedale and Namu well supplied.

C.P.R. steamer Princess Adelaide, Capt. John Williams, resuming service after having been off for annual overhaul, is due in port at 5:15 this afternoon from Vancouver and will sail at 10 p.m. on her return south.

Interesting Pictures Booked For March at Capitol Theatre Here.
