## FIGHTING **IN EGYPT** ON AGAIN

VOL. XXXI., No. 159

Conflict Resumed Around El Alamein and British Advance Five

CAIRO, July 11 (CP) - Allied airmen thundered into action today with the mightiest air assault ever witnessed in the desert in support of British ground forces which advanced five miles on the northern sector of the El Alamein front yesterday. ## TOO MUCH OPTIMISM

War Correspondents As Result Are Withdrawn From Front To

CAIRO, July 11:-Three Britishwar correspondents have been recalled to Cairo because they sent out "over optimistic" accounts of fighting on the Egyptian front. They were representatives of Reuters, the London Herald and London Sketch. A double censorship on the war news in this area has been set up in order that there may not be excessively optimistic reports which tend to develop dangerous complacency.

### More Savings Needed . . .

It appears that a great many people have mis-interpreted the recent budget in a way that threatens to hinder seriously war savings.

Despite the fact that Mr. Ilsley, in his speech, took weight off the bristles. great care to stress that the compulsory savings sched-uled in his budget were minimum requirements and that Sanders—"Mrs. Consumer" — says survey parties and others will folincreased voluntary savings by the public would be neces- you shouldn't let tea, coffee and low during the summer. sary, many people seem to have taken it for granted that the government has told them what is expected of them and no further saving is required.

Again, a great many people apparently have not; studied the newspaper reports carefully and have not been able to figure out which tax they will be required to pay. They do not seem conversant with the fact that from the minimum saving now required by law, provision; is made for deduction of amounts now being paid into pension funds, life insurance premiums, and for reduction of first mortgage principal.

As a result there is a serious possibility that a great many individuals will hastily cancel their current buying of War Savings Certificates, before they have had an opportunity of reviewing their financial position.

The facts of the matter are as follows: For the fiscal year 1942-43, the requirements of the Government will be somewhat as follows, as summarized by the Minister of Finance:

Estimated total expenditure \$3,900,000.000 Estimated ordinary revenue 2,050,000,000 Budgetary deficit 1,850,000,000 Estimated refundable taxes (yield from minimum savings plan) ..... Amount still to be met .....

A very great part of this amount still to be raised must come from individual purchases of War Savings! Certificates and Bonds; from volunteer savings of the citizens over and above the minimum savings now required by law.

Now that both the Prime Minister and Leader of the Opposition are tired of the session, possibly the long-winded talkers would do something about it now that they have had their field day anyway.

#### NEW PRIORITIES REGULATION Will Affect Every Industry

N July 10, 1942, a new Priority regulation was U applied in Canada to every Canadian industry. Under it all businesses, other than retailers, will be classified, and will be allotted symbols which must be used for all purchase orders. Any business which fails to comply with the new regulation will run the risk of not obtaining certain goods or commodities it seeks to purchase.

The new regulation, which is Order No. 1 of the Priorities Officer, Department of Munitions and Supply, establishes a system known as the Allocation Classification System. Under its terms every purchaser of goods or commodities of any kind, valued at \$15 or more, other than a retailer or a person who buys from a retailer, must acquaint himself at once with the appropriate symbols. He must indicate the correct symbols on:-

(1) All purchase orders or contracts placed

after July 10, 1942; and

(2) All purchase orders or contracts, regardless of the date of placement, which call for delivery after July 31, 1942. A purchaser who has placed an order for delivery after that date must, before the end of July, 1942, advise his supplier of the appropriate symbols.

Industrial and mill suppliers, warehouses, and other businesses performing similar functions for industry, shall not be deemed retailers for the purposes of the order.

If any business is in doubt as to how it should classify its operations and what symbols it should use, the business should obtain correct information from the nearest Priorities office at 34 Adelaide Street West, Toronto; 604 Marine Building, Vancouver; or 702 Dennis Building, Halifax, or from the Priorities Officer, Department of Munitions and Supply, Ottawa. Copies of the regulation may be obtained from the same sources.

Heavy Halibut Catches and Fancy Prices Make Good Profits for American **Boats—International Fisheries** Commission Statement

Halibut landings at the port of Prince Rupert for the picture which comes to the screen past week consisted entirely of American fish. Fares of the Capitol Theatre here for amounted to a total of 497,000 pounds all of which were the first half of next week-Monbrought in by large vessels operating in Area No. 3 or the remainder of that area in which fishing was still permis- which ran for two years with sible. In all, eleven American boats were in. Some of them great success in New York.

had exceptionally large catches and, with fancy prices prevailing, there were some handsome shares for boats and fishermen. The highest price paid at Prince Rupert in years was the 20c and 15c which the Yaquinna received for 26,000 pounds. An exceptionally heavy catch was 70,000 pounds landed by the boat Harmony which received the substantial price of 19.9c and 14c. Prices went no lower than 17c and 14c during the week. The American landings for the week brought the total for the season to date up to 5,-482,800 pounds as compared with 5 5,224,400 pounds at a corresponding date last year. The grand total of landings at Prince Rupert for 1942 to date, including Canadian 5 fish, is now 8,584,619 pounds as to the same date. The Canadian \$ landings this year are 3,360,219 pounds as compared with 3,806,100 pounds last year.

## COMEDY IS NOVEL ONE

"The Man Who Came To Dinner" With Bette Davis, Anne. Sheridan and Monty Woolley

The Man Who Came to Dinner," an hilarious comedy starring Bette Davis, Anne Sheridan, Monty Woolley, Jimmy Durante and Billie Burke, is the feature day, Tuesday and Wednesday. It is the picturization of a play

The story is that of a querulous, crochety but witty man of the world, who has dedicated his life to shocking conventional people, who creates havoc in a perfectly blissful family when, invited to dinner, he slips on an icy porch and breaks his hip. As a reult, his stay lasts for four weeks and it involves sending the family upstairs, forbidding them to use the telephone while he urges their children to elope and home freighters for Singapore, himself filling the house with the strangest people.

Bette Davis plays a deadpan, satirical secretary who fails in love, stays in love and is actually alive and happy as she gets her man in the persons of Richard

## DUE TO WAR CONDITIONS

Canada will now on, have to depend as never before on the output of her mines to fill the ever increasing demands for coal. Much of this will have to be from Alberta mines, but this will be difficult if not impossible if consumers wait, as in the past, for cold weather before taking delivery.
