

Critical Battle For Great Soviet Industrial City With Both Sides Claiming Victory

MOSCOW, Sept. 19 @-Russian day with defeating the Germans entrance to this key port of the United Nations. in a critical five-hour battle for a hill commanding the heart of Stalingrad and, as the struggle raged into the twenty-sixth day, the Soviet High Command announced "all German attempts to capture this valuable position have failed." At least two other assaults by massed Nazi tanks and troops were declared to have been re- 2 pulsed in the smoke-shrouded city o itself and in the northwest outskirts.

German field headquarters reported tersely that the battle was 5 "successfully continued in the face of stubborn enemy resistance" and the claim was made that a strong o diversionary attack by tank-led Soviet infantry north of Stalin- 2 grad had collapsed.

Red airmen were stated to have raided an enemy port last night overcoming powerful anti-aircraft 2 fire to bomb selected targets. This o was reported by the Soviet Infor- 3 mation Bureau.
